Section C – Securities		
C.1	Type and class of securities being offered and security identification number(s):	<p>The securities (the "Securities") are notes. The Securities are Trigger Securities. The Securities may be early redeemed following the occurrence of a Trigger Event.</p> <p>The Securities of a Series will be uniquely identified by ISIN: XS2043741987; Common Code: 204374198; Swiss Security Number: 49110714.</p>
C.2	Currency:	The currency of the Securities will be United States Dollar (" USD ") (the " Settlement Currency ").
C.5	Description of restrictions on free transferability of the Securities:	<p>The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "Securities Act") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws.</p> <p>No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations.</p>
C.8	Description of rights attached to the securities, ranking of the securities and limitations to rights:	<p>Rights: The Securities will give each holder of Securities (a "Securityholder") the right to receive a potential return on the Securities (see Element C.18 below). The Securities will also give each Securityholder the right to vote on certain amendments.</p> <p>Ranking: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.</p> <p>Limitation to Rights:</p> <ul style="list-style-type: none"> The Issuer may redeem the Securities early for illegality reasons or following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s). The Securities may be redeemed early following an event of default. In each such case, the amount payable in respect of each Security on such early redemption will be equal to the Unscheduled Termination Amount, and no other amount shall be payable in respect of each Security on account of interest or otherwise. <p>Where:</p> <ul style="list-style-type: none"> Unscheduled Termination Amount: in respect of each Security, an amount (which may be greater than or equal

		<p>to zero) equal to the value of such Security immediately prior to it becoming due and payable following an event of default or, in all other cases, as soon as reasonably practicable following the determination by the Issuer to early redeem the Security, as calculated by the calculation agent using its then prevailing internal models and methodologies.</p> <p>For the avoidance of doubt, if a Security is redeemed following an event of default, the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).</p> <ul style="list-style-type: none"> • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), or may early redeem the Securities at the Unscheduled Termination Amount as described above (and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer). • The terms and conditions of the Securities contain provisions for convening meetings of Securityholders to consider any matter affecting their interests, and any resolution passed by the relevant majority at a meeting will be binding on all Securityholders, whether or not they attended such meeting or voted for or against the relevant resolution. In certain circumstances, the Issuer may modify the terms and conditions of the Securities without the consent of Securityholders. • The Securities are subject to the following events of default: if the Issuer fails to pay any amount due in respect of the Securities within 30 days of the due date, or if any events relating to the insolvency or winding up of the Issuer occur. • The Issuer may at any time, without the consent of the Securityholders, substitute for itself as Issuer under the Securities any company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. • Governing Law: The Securities are governed by English law.
C.11	Admission to trading:	Application will be made to admit the Securities to trading on the regulated market of the Luxembourg Stock Exchange.
C.15	Effect of the underlying instrument(s) on value of investment:	<p>The value of the Securities and whether the Securities will redeem early on a Trigger Barrier Redemption Date will depend on the performance of the underlying asset(s) on the Trigger Barrier Observation Date corresponding to such Trigger Barrier Redemption Date.</p> <p>The value of the Securities and the Redemption Amount payable in respect of Securities being redeemed on the Maturity Date will</p>

		<p>depend on the performance of the underlying asset(s) on the Knock-in Observation Date and on the Final Fixing Date.</p> <p>See Element C.18 below for details on how the value of the Securities is affected by the value of the underlying asset(s).</p>
C.16	Scheduled Maturity Date or Settlement Date:	The scheduled maturity date (the " Maturity Date ") of the Securities is 10 currency business days following the Final Fixing Date or, if such date falls on different dates for different underlying assets, the latest of such dates to occur (expected to be 20 September 2024).
C.17	Settlement Procedure:	<p>The Securities will be delivered by the Issuer against payment of the issue price. Settlement procedures will depend on the clearing system for the Securities and local practices in the jurisdiction of the investor.</p> <p>The Securities are cleared through Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme</p>
C.18	Return on Derivative Securities:	<p>The return on the Securities will derive from:</p> <ul style="list-style-type: none"> the potential payment of a Trigger Barrier Redemption Amount following early redemption of the Securities due to the occurrence of a Trigger Event; and unless the Securities have been previously redeemed or purchased and cancelled, the payment of the Redemption Amount on the scheduled Maturity Date of the Securities. <p style="text-align: center;"><u>TRIGGER BARRIER REDEMPTION AMOUNT</u></p> <p>Unless the Securities have been previously redeemed or purchased and cancelled, if a Trigger Event has occurred, the Issuer shall redeem the Securities on the Trigger Barrier Redemption Date at the Trigger Barrier Redemption Amount in respect of such Trigger Barrier Redemption Date. Section D – Risks		
D.2	Key risks that are specific to the Issuer:	<p>The Securities are general unsecured obligations of the Issuer. Investors in the Securities are exposed to the risk that the Issuer could become insolvent and fail to make the payments owing by it under the Securities.</p> <p>The Issuer is exposed to a variety of risks that could adversely affect its results of operations and/or financial condition, including, among others, those described below:</p> <p>All references to the Issuer set out below are describing the consolidated businesses carried out by Credit Suisse Group AG ("CSG") and its subsidiaries (including the Issuer) and therefore should also be read as references to CSG.</p> <p>Liquidity risk:</p> <ul style="list-style-type: none"> • The Issuer's liquidity could be impaired if it is unable to access the capital markets, sell its assets, its liquidity costs increase, or as a result of uncertainties regarding the possible discontinuation of benchmark rates.. • The Issuer's businesses rely significantly on its deposit base for funding. • Changes in the Issuer's ratings may adversely affect its business. <p>Market risk:</p> <ul style="list-style-type: none"> • The Issuer may incur significant losses on its trading and investment activities due to market fluctuations and volatility. • The Issuer's businesses and organisation are subject to the risk of loss from adverse market conditions and unfavourable

		<p>economic, monetary, political, legal, regulatory and other developments in the countries it operates in.</p> <ul style="list-style-type: none"> • The Issuer may incur significant losses in the real estate sector. • Holding large and concentrated positions may expose the Issuer to large losses. • The Issuer's hedging strategies may not prevent losses. • Market risk may increase the other risks that the Issuer faces. <p>Credit risk:</p> <ul style="list-style-type: none"> • The Issuer may suffer significant losses from its credit exposures. • Defaults by one or more large financial institutions could adversely affect financial markets generally and the Issuer specifically. • The information that the Issuer uses to manage its credit risk may be inaccurate or incomplete. <p>Risks relating to Credit Suisse Group AG's strategy:</p> <ul style="list-style-type: none"> • CSG and its subsidiaries including the Issuer may not achieve all of the expected benefits of its strategic initiatives. <p>Risks from estimates and valuations:</p> <ul style="list-style-type: none"> • Estimates are based upon judgment and available information, and the Issuer's actual results may differ materially from these estimates. • To the extent the Issuer's models and processes become less predictive due to unforeseen market conditions, illiquidity or volatility, its ability to make accurate estimates and valuations could be adversely affected. <p>Risks relating to off-balance sheet entities:</p> <ul style="list-style-type: none"> • If the Issuer is required to consolidate a special purpose entity, its assets and liabilities would be recorded on its consolidated balance sheets and it would recognise related gains and losses in its consolidated statements of operations, and this could have an adverse impact on its results of operations and capital and leverage ratios. <p>Country and currency exchange risk:</p> <ul style="list-style-type: none"> • Country risks may increase market and credit risks the Issuer faces. • The Issuer may face significant losses in emerging markets. • Currency fluctuations may adversely affect the Issuer's results of operations.
--	--	---

		<p>Operational risk:</p> <ul style="list-style-type: none"> • The Issuer is exposed to a wide variety of operational risks, including cybersecurity and other information technology risks. • The Issuer may suffer losses due to employee misconduct. <p>Risk management:</p> <ul style="list-style-type: none"> • The Issuer's risk management procedures and policies may not always be effective, particularly in highly volatile markets <p>Legal and regulatory risks:</p> <ul style="list-style-type: none"> • The Issuer's exposure to legal liability is significant. • Regulatory changes may adversely affect the Issuer's business and ability to execute its strategic plans. • Swiss resolution proceedings and resolution planning requirements may affect the Issuer's shareholders and creditors. • Changes in monetary policy are beyond the Issuer's control and difficult to predict. • Legal restrictions on its clients may reduce the demand for the Issuer's services. <p>Competition risk:</p> <ul style="list-style-type: none"> • The Issuer faces intense competition in all financial services markets and for the products and services it offers. • The Issuer's competitive position could be harmed if its reputation is damaged. • The Issuer must recruit and retain highly skilled employees. • The Issuer faces competition from new trading technologies. <p>Statutory powers of Swiss Financial Market Supervisory Authority FINMA in the case of a restructuring proceeding:</p> <ul style="list-style-type: none"> • The rights of the holders of Securities issued by the Issuer may be adversely affected by Swiss Financial Market Supervisory Authority FINMA's broad statutory powers in the case of a restructuring proceeding in relation to the Issuer, including its power to convert such Securities into equity and/or partially or fully write-down such Securities.
D.6	<p>Key risks that are specific to the Securities and risk warning that investors may lose value of entire investment or part of it:</p>	<p>The Securities are subject to the following key risks:</p> <ul style="list-style-type: none"> • The issue price or the offer price of the Securities may be more than the market value of such Securities as at the issue date, and more than the price at which the Securities can be sold in secondary market transactions. The issue price or the offer price of the Securities may take into account, where permitted by law, fees, commissions or other amounts relating to the issue, distribution and sale of the Securities, or the provision of introductory services, expenses incurred by the

		<p>Issuer in creating, documenting and marketing the Securities and amounts relating to the hedging of its obligations under the Securities.</p> <ul style="list-style-type: none"> • The market value of the Securities and the amount payable or deliverable at maturity depend on the performance of the underlying asset(s). The performance of an underlying asset may be subject to sudden and large unpredictable changes over time (known as "volatility"), which may be affected by national or international, financial, political, military or economic events or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. • A secondary market for the Securities may not develop and, if it does, it may not provide the investors with liquidity and may not continue for the life of the Securities. Illiquidity may have an adverse effect on the market value of the Securities. The price in the market for a Security may be less than its issue price or its offer price and may reflect a commission or a dealer discount, which would further reduce the proceeds you would receive for your Securities. • The market value of the Securities will be affected by many factors beyond the control of the Issuer (including, but not limited to, the creditworthiness of the Issuer, the interest rates and yield rates in the market, the volatility of the underlying asset(s) (if any), etc.). Some or all of these factors will influence the value of the Securities in the market. • The total size of Securities being issued on the issue date may be greater than the amount subscribed or purchased by investors as the dealer may retain some of the Securities as part of its issuing, market-making and/or trading arrangements or for the purposes of meeting future investor demand. The issue size of the Securities should not be regarded as indicative of the depth or liquidity of the market, or the demand, for the Securities. • The levels and basis of taxation on the Securities and any reliefs from such taxation will depend on an investor's individual circumstances and could change at any time. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors. • • In certain circumstances (for example, if the Issuer determines that its obligations under the Securities have become unlawful or illegal, following an event of default or following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s)), the Securities may be redeemed prior to their scheduled maturity. In such circumstances, the Unscheduled Termination Amount payable may be less than the original purchase price and could be as low as zero. No other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer. • Following early redemption of Securities, investors may not be
--	--	--

		<p>able to reinvest the redemption proceeds in an investment having a comparable rate of return. Investors in Securities may therefore lose some or all of their investment in such case.</p> <ul style="list-style-type: none"> • Investors will have no rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any underlying asset referenced by the Securities. • Investors may be exposed to currency risks because the underlying asset(s) may be denominated in a currency other than the currency in which the Securities are denominated, or the Securities and/or underlying asset(s) may be denominated in currencies other than the currency of the country in which the investor is resident. The value of the Securities may therefore increase or decrease based on fluctuations in those currencies. • The Issuer is not obliged to maintain the listing of the Securities. If the regulated market or other market in respect of which the Securities are listed and/or admitted to trading closes, or if the relevant regulated market in respect of which the Securities are admitted to trading is replaced with a market that is not a regulated market, the Issuer may de-list the Securities or may (but is not obliged to) consent to the Securities to be admitted to trading on such replacement market instead. In the event that there is a delay or break between the listing of the Securities on the original market or regulated market, as the case may be, and the listing of the Securities on the replacement market, there may be a negative impact on the Securities (for example, this may negatively impact the liquidity of the Securities and the ability of the Securityholders to sell the Securities). • The Issuer may apply any consequential postponement of, or any alternative provisions for, valuation of an underlying asset following certain disruption events in relation to such underlying asset, each of which may have an adverse effect on the value of and return on the Securities. • The performance of a share is dependent upon macroeconomic factors which may adversely affect the value of Securities. The issuer of a share has no obligation to any Securityholders and may take any actions in respect of such share without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of and return on the Securities. Securityholders will not participate in dividends or other distributions paid on such share. • If the basket constituents are highly correlated, any move in the performance of the basket constituents will exaggerate the impact on the value of and return on the Securities. Even in the case of a positive performance by one or more of the basket constituents, the performance of the basket as a whole may be negative if the performance of one or more of the other basket constituents is negative to a greater extent. • The Issuer may modify the terms and conditions of the Securities without the consent of Securityholders for the purposes of (a) curing any ambiguity or correcting or
--	--	--

		<p>supplementing any provision if the Issuer determines it to be necessary or desirable, provided that such modification is not prejudicial to the interests of Securityholders, or (b) correcting a manifest error.</p> <ul style="list-style-type: none"> • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), or may early redeem the Securities at an amount which may be less than the initial investment. • In making discretionary determinations under the terms and conditions of the Securities, the Issuer and the calculation agent may take into account the impact on the relevant hedging arrangements. Such determinations could have a material adverse effect on the value of and return on the Securities and could result in their early redemption. • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may be substituted without the consent of Securityholders in favour of any affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. • The Issuer is subject to a number of conflicts of interest, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the underlying asset(s) or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose. <p>Depending on the performance of the underlying asset(s), you may lose some or all of your investment. Investors may also lose some or all of their investment if one or more of the following occurs: (a) the Securities do not provide for scheduled repayment in full of the issue or purchase price at maturity (or over the relevant instalment dates, if applicable) or upon mandatory early redemption or optional early redemption of the Securities, (b) the Issuer fails and is unable to make payments owing under the Securities, (c) any adjustments are made to the terms and conditions of the Securities following certain events affecting the underlying asset(s) and/or the Issuer's hedging arrangements, that result in the amount payable or shares delivered being reduced, or (d) investors sell their Securities prior to maturity in the secondary market at an amount that is less than the initial purchase price.</p>
Section E – Other		

E.2b	Reasons for the offer and use of proceeds:	Not applicable; the net proceeds from the issue of the Securities will be used by the Issuer for its general corporate purposes (including hedging arrangements).
E.3	Terms and conditions of the offer:	The Securities have been offered to the dealer at the issue price. The Securities are not being publicly offered.
