Securities Note comprising part of the Bonus and Participation Securities Base Prospectus

Pursuant to the Structured Products Programme
for the issuance of Notes, Certificates and Warrants

This Securities Note and the Base Prospectus

This document (this "**Securities Note**" or "**Document**") constitutes a securities note in respect of Securities issued under the Structured Products Programme for the issuance of Notes, Certificates and Warrants (the "**Programme**"), a securities note relating to Securities to be issued by Credit Suisse International ("**CSI**" or the "**Issuer**") under the Programme. **Investors should consult the section "How to use this Document" as a guide as to which parts of this Securities Note are relevant for particular Securities.**

The Securities Note shall be read in conjunction with the CSI registration document dated 8 July 2020, as supplemented from time to time, which has been approved by the *Commission de Surveillance du Secteur Financier* ("**CSSF**") and contains information in respect of CSI (such registration document, as so supplemented, the "**Registration Document**"). Together, the Registration Document and the Securities Note constitute a "base prospectus" (the "**Base Prospectus**" or the "**Bonus and Participation Securities Base Prospectus**") dated the date hereof within the meaning of Article 8(6) of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") in respect of all Securities (other than Exempt Securities) issued by CSI.

The Registration Document and this Securities Note comprising the Base Prospectus may be supplemented from time to time under the terms of the Prospectus Regulation. The Base Prospectus includes (i) any such supplements from time to time and (ii) any documents incorporated by reference into each of the Registration Document and the Securities Note comprising the Base Prospectus (see the sections "Documents Incorporated by Reference" in this Securities Note and the Registration Document) and, in relation to any particular Securities (other than Exempt Securities), the Base Prospectus should be read together with the "Final Terms" document relating to those Securities.

In relation to Securities other than Exempt Securities, the Base Prospectus is valid for one year from the date of approval of the Base Prospectus and will expire on 17 July 2021. The obligation to supplement the Base Prospectus in accordance with Article 23 of the Prospectus Regulation in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

References in this Securities Note to "**Exempt Securities**" are to Securities for which no prospectus is required to be published under the Prospectus Regulation. In relation to Exempt Securities issued by the Issuer, the Securities Note shall be read in conjunction with the Registration Document which documents, together with all documents incorporated by reference therein, shall constitute the Base Prospectus in respect of Exempt Securities issued by the Issuer. The CSSF has neither approved nor reviewed information contained in this Securities Note in connection with Exempt Securities.

The Programme

The Base Prospectus is one of a number of base prospectuses and other offering documents under the Structured Products Programme for the issuance of Notes, Certificates and Warrants (the "**Programme**") of Credit Suisse International.

The Securities

The Base Prospectus relates to securities (the "**Securities**") which:

- will be in the form of notes, certificates or warrants;
- may have any maturity or term;
- will either bear periodic fixed rate or floating rate interest or interest that is dependent on the performance of one or more underlying assets, or will not bear interest;
- may pay instalment amounts; and
- upon maturity or settlement, will either pay a fixed percentage of the nominal amount, or pay a redemption amount or settlement amount, or deliver a specified number of shares, in each case that is dependent on the performance of one or more underlying assets.

In addition, the Securities may provide for early redemption or settlement upon the occurrence of a specified trigger event or at the option of the Issuer.

The terms and conditions of any particular issuance of Securities will comprise:

- in the case of:
 - (a) notes, the "General Terms and Conditions of Notes" at pages 95 to 126 of this Securities Note, together with any "Additional Provisions relating to Notes" beginning at page 127 of this Securities Note which are specified to be applicable in the relevant Issue Terms; or
 - (b) certificates, the "General Terms and Conditions of Certificates" at pages 137 to 165 of this Securities Note, together with any "Additional Provisions relating to Certificates" beginning at page 166 of this Securities Note which are specified to be applicable in the relevant Issue Terms; or
 - (c) warrants, the "General Terms and Conditions of Warrants" at pages 175 to 190 of this Securities Note, together with any "Additional Provisions relating to Warrants" beginning at page 191 of this Securities Note which are specified to be applicable in the relevant Issue Terms;
- the economic or "payout" terms of the Securities set forth in the "Product Conditions" at pages 218 to 258 of this Securities Note which are specified to be applicable in the relevant Issue Terms;
- where the Securities are linked to one or more underlying assets, the terms and conditions relating to such underlying asset(s) set out in the "Asset Terms" at pages 259 to 431 of this Securities Note which are specified to be applicable in the relevant Issue Terms; and
- the issue specific details relating to such Securities as set forth in a separate "Issue Terms" document, as described below.

Issue Terms

"**Issue Terms**" means either (i) where the Securities are not Exempt Securities, the relevant Final Terms or (ii) where the Securities are Exempt Securities, the relevant Pricing Supplement, in each case, as described below.

Final Terms

A separate "**Final Terms**" document will be prepared in respect of each issuance of Securities (other than Exempt Securities) and will set out the specific details of the Securities. For example, the relevant Final Terms will specify the issue date, the maturity date, the underlying asset(s) to which the Securities are linked (if any), the applicable "Product Conditions" and/or the applicable "Asset Terms". The relevant Final Terms shall not replace or modify the "General Terms and Conditions", the "Product Conditions" and the "Asset Terms".

Important notices

In addition, if required under the Prospectus Regulation, an issue-specific summary will be annexed to the relevant Final Terms for each tranche of Securities (other than Exempt Securities), which will contain a summary of key information relating to the Issuer, the Securities, the risks relating to the Issuer and the Securities, and other information relating to the offer of the Securities.

In relation to any particular Securities (other than Exempt Securities), you should read the Base Prospectus (including the documents which are incorporated by reference) together with the relevant Final Terms.

Pricing Supplement

A separate "**Pricing Supplement**" document will be prepared for each issuance of Exempt Securities and will set out the specific details of the Securities. For example, the relevant Pricing Supplement will specify the issue date, the maturity date, the underlying asset(s) to which the Securities are linked (if any), the applicable "Product Conditions" and/or the applicable "Asset Terms". The relevant Pricing Supplement may replace or modify the "General Terms and Conditions", the "Product Conditions" and the "Asset Terms" to the extent so specified or to the extent inconsistent with the same.

In relation to any particular Exempt Securities, you should read the Base Prospectus (including the documents which are incorporated by reference) together with the relevant Pricing Supplement.

Using the Base Prospectus in Switzerland

The Base Prospectus may be registered in Switzerland with SIX Exchange Regulation Ltd. as Reviewing Body of a foreign prospectus, which will be deemed approved also in Switzerland pursuant to article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**", "**FinSA**"), for inclusion in the list of approved prospectuses pursuant to article 64 para 5 FinSA and deposited with such Reviewing Body and published pursuant to article 64 FinSA.

The Securities do not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA"). Therefore, the Securities are not subject to authorisation or supervision by the Swiss Financial Market Supervisory Authority FINMA ("FINMA"). Investors bear the Issuer risk.

Types of underlying assets

The economic or "payout" terms of the Securities may be linked to movements in one or more of the following types of underlying assets (each, an "**Underlying Asset**"):

- an equity share;
- an index (which may be an equity index or a proprietary index);
- a commodity or a commodity futures contract;
- a commodity index;
- an exchange-traded fund;
- an exchange-traded commodity linked security;
- a currency exchange rate;
- a currency exchange rate index;
- an inflation index;
- an interest rate index; or
- a cash index,

provided that, no Securities will be issued under the Base Prospectus which provide for physical delivery of any shares or transferable securities equivalent to shares issued by the Issuer or an entity belonging to the group of the Issuer.

The interest payable under certain Securities issued under this Securities Note may also be calculated by reference to a fixed rate of interest or a reference rate for determining floating rate interest.

EU Benchmark Regulation: Article 29(2) Statement on Benchmarks

Amounts payable under the Securities may be calculated by reference to one or more specific indices, rates or price sources or a combination of indices, rates or price sources. Any such index, rate or price source may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 of the European Parliament and of the Council on

indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**EU Benchmark Regulation**"). In cases where amounts payable under Securities (other than Exempt Securities) are calculated by reference to one or more such indices, rates or price sources, the relevant Final Terms will specify:

- the name of each index, rate or price source so referenced;
- the legal name of the administrator of each such index, rate or price source; and
- whether or not the legal name of the administrator of each such index, rate or price source appears on the register (the "**Benchmark Register**") of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the EU Benchmark Regulation at the date of the relevant Final Terms.

Not every index, rate or price source will fall within the scope of the EU Benchmark Regulation. Where an index, rate or price source falls within the scope of the EU Benchmark Regulation, the transitional provisions in Article 51 or the provisions of Article 2 of the EU Benchmark Regulation may apply, such that the administrator of such index, rate or price source is not at the date of the relevant Final Terms required to obtain authorisation/registration (or, if located outside the European Union (and the United Kingdom (the "**UK**")), recognition, endorsement or equivalence). However, in the case of Securities which are not Exempt Securities and where the Underlying Asset is an index provided by the Issuer or an entity belonging to the same group or if the index is provided by a legal entity or a natural person acting in association with or on behalf of the Issuer, the relevant index administrator must be registered in the register maintained by ESMA under Article 36 of the EU Benchmark Regulation.

The registration status of any administrator under the EU Benchmark Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the relevant Issue Terms to reflect any change in the registration status of the administrator.

Potential for Discretionary Determinations by the Issuer under the Securities

Under the terms and conditions of the Securities, following the occurrence of certain events outside of its control, the Issuer may determine in its discretion to take one or more of the actions available to it in order to deal with the impact of such event on the Securities or the Issuer or both. It is possible that any such discretionary determinations by the Issuer could have a material adverse impact on the value of and return on the Securities. An overview of the potential for discretionary determinations by the Issuer under the Securities is set forth in the section headed "Overview of the Potential for Discretionary Determinations by the Issuer" on pages 80 to 92 of this Securities Note.

Risk Factors

Investing in the Securities involves certain risks, including that you may lose some or all of your investment in certain circumstances.

Before purchasing Securities, you should consider, in particular, "Risk Factors" at pages 18 to 66 of this Securities Note and the risk factors set out in the Registration Document. You should ensure that you understand the nature of the Securities and the extent of your exposure to risks and consider carefully, in the light of your own financial circumstances, financial condition and investment objectives, all the information set forth in the Base Prospectus and any document incorporated by reference therein.

IMPORTANT NOTICES

The Issuer may issue Securities under the Base Prospectus on the terms set out in this Securities Note and in the relevant Issue Terms.

The final terms relevant to an issue of Securities will be set out in a Final Terms document (or, in the case of Exempt Securities, a Pricing Supplement document). The relevant Final Terms shall not replace or modify the "General Terms and Conditions", the "Product Conditions" or the "Asset Terms". The relevant Final Terms will be provided to investors and, where so required under the Prospectus Regulation, filed with the CSSF and the competent authority of any other relevant Member State or the UK and made available, free of charge, to the public on the website of Credit Suisse (<https://derivative.credit-suisse.com>).

In the case of Exempt Securities, the relevant Pricing Supplement may replace or modify any of the "General Terms and Conditions", the "Product Conditions" and the "Asset Terms" to the extent so specified or to the extent inconsistent with the same. The relevant Pricing Supplement will be obtainable by a Securityholder holding one or more Exempt Securities (and such Securityholder must produce evidence satisfactory to the Issuer as to its holding of such Exempt Securities and identity) and/or may be available from any distributor upon request.

IMPORTANT – EEA AND UK RETAIL INVESTORS

If the Issue Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA and UK Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU on Markets in Financial Instruments (as may be amended, varied or replaced from time to time) ("**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as may be amended, varied or replaced from time to time) (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as may be amended, varied or replaced from time to time) (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling such Securities or otherwise making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation.

No Investment Advice

Prospective investors should have regard to the factors described under the sections headed "Risk Factors" in this Securities Note and the Registration Document. The Issuer is acting solely in the capacity of an arm's length contractual counterparty and not as an investor's financial adviser or fiduciary in any transaction. The purchase of Securities involves substantial risks and an investment in Securities is only suitable for investors who (either alone or in conjunction with an appropriate financial adviser) fully evaluate the risks and merits of such an investment in the Securities and who have sufficient resources to be able to bear any losses that may result therefrom. Therefore, before making an investment decision, prospective investors of Securities should ensure that they understand the nature of the Securities and the extent of their exposure to risks and consider carefully, in the light of their own financial circumstances, financial condition and investment objectives, all the information set forth in the Base Prospectus and any document incorporated by reference therein. The Base Prospectus cannot disclose whether the Securities are a suitable investment in relation to any investor's particular circumstances; therefore investors should consult their own financial, tax, legal or other advisers if they consider it appropriate to do so and carefully review and consider such an investment decision in the light of the information set forth in the Base Prospectus.

CREST Depository Interests

The Issuer gives notice that investors may hold indirect interests in certain Securities through CREST through the issuance of dematerialised depository interests ("**CDIs**"). CDIs are independent securities (distinct from the Securities issued by the Issuer) constituted under English law and transferred through CREST and will be issued by CREST Depository Limited or any successor thereto pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated). Please refer to the section headed "Clearing Arrangements" for more information.

No other person is authorised to give information on the Securities

In connection with the issue and sale of the Securities, no person is authorised by the Issuer to give any information or to make any representation not contained in the Base Prospectus and/or the relevant Issue Terms, and the Issuer

does not accept responsibility for any information or representation so given that is not contained within the Base Prospectus and the relevant Issue Terms.

The distribution of the Base Prospectus is restricted

The distribution of the Base Prospectus and the offering or sale of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession the Base Prospectus comes are required by the Issuer to inform themselves about, and to observe, such restrictions. For a description of certain restrictions on offers or sales of the Securities and the distribution of the Base Prospectus and other offering materials relating to the Securities, please refer to the section headed "Selling Restrictions" in this Securities Note.

United States restrictions

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. A further description of the restrictions on offers and sales of the Securities in the United States or to U.S. persons and certain hedging restrictions is set out in the section headed "Selling Restrictions" in this Securities Note.

Important notice in relation to Securities offered in the Kingdom of Bahrain

In relation to investors in the Kingdom of Bahrain, Securities issued in connection with this Securities Note and related offering documents must be in registered form and must only be marketed to existing account holders and accredited investors as defined by the Central Bank of Bahrain ("**CBB**") in the Kingdom of Bahrain where such investors make a minimum investment of at least U.S.\$ 100,000, or any equivalent amount in other currency or such other amount as the CBB may determine.

This Securities Note does not constitute an offer of securities in the Kingdom of Bahrain in terms of Article 81 of the Central Bank and Financial Institutions Law 2006 (decree Law No. 64 of 2006). This Securities Note and related offering documents have not been and will not be registered as a prospectus with the CBB. Accordingly, no Securities may be offered, sold or made the subject of an invitation for subscription or purchase nor will this Securities Note or any other related document or material be used in connection with any offer, sale or invitation to subscribe or purchase securities, whether directly or indirectly, to persons in the Kingdom of Bahrain, other than as marketing to Accredited Investors (as defined below) or for an offer outside Bahrain.

The CBB has not reviewed, approved or registered this Securities Note or related offering documents and it has not in any way considered the merits of the Securities to be marketed for investment, whether in or outside the Kingdom of Bahrain. Therefore, the CBB assumes no responsibility for the accuracy and completeness of the statements and information contained in this document and expressly disclaims any liability whatsoever for any loss howsoever arising from reliance upon the whole or any part of the content of this document.

No offer of Securities will be made to the public in the Kingdom of Bahrain and this Offering Circular must be read by the addressee only and must not be issued, passed to, or made available to the public generally.

THE CBB AND THE BAHRAIN BOURSE ASSUME NO RESPONSIBILITY FOR THE ACCURACY AND COMPLETENESS OF THE STATEMENTS AND INFORMATION CONTAINED IN THIS SECURITIES NOTE AND EXPRESSLY DISCLAIM ANY LIABILITY WHATSOEVER FOR ANY LOSS HOWSOEVER ARISING FROM RELIANCE UPON THE WHOLE OR ANY PART OF THE CONTENTS OF THIS SECURITIES NOTE.

THE ISSUER ACCEPTS RESPONSIBILITY FOR THE INFORMATION GIVEN IN THIS SECURITIES NOTE AND CONFIRMS THAT, HAVING TAKEN ALL REASONABLE CARE TO ENSURE THAT SUCH IS THE CASE, THE INFORMATION CONTAINED IN THIS SECURITIES NOTE IS, TO THE BEST OF ITS KNOWLEDGE, IN ACCORDANCE WITH THE FACTS AND DOES NOT OMIT ANYTHING LIKELY TO AFFECT ITS IMPORT.

Any offer of Securities to investors in the Kingdom of Bahrain will be made by way of private placement. For the avoidance of doubt, no offer of Securities will be made to the public in the Kingdom of Bahrain. All offers of Securities to investors in the Kingdom of Bahrain are therefore intended for "Accredited Investors" only. "Accredited Investors" are defined as:

- individuals holding financial assets (either singly or jointly with their spouse) of U.S.\$1,000,000 or more, excluding that person's principal place of residence;

Important notices

- companies, partnerships, trusts or other commercial undertakings, which have financial assets available for investment of not less than U.S.\$ 1,000,000; or
- governments, supranational organisations, central banks or other national monetary authorities, and state organisations whose main activity is to invest in financial instruments (such as state pension funds).

All offers of Securities to investors in the Kingdom of Bahrain will be made by way of private placement and may only be offered to investors in the Kingdom of Bahrain in minimum subscriptions of U.S.\$ 100,000 (or equivalent in other currencies).

Additional information relating to Securities issued by CSI

Pursuant to Article 41(4) of Commission Delegated Regulation (EU) 2017/565, in respect of Securities issued by CSI to meet prudential requirements under the EU Capital Requirements Regulation, EU Capital Requirements Directive IV or the EU Bank Recovery and Resolution Directive, in each case, as amended from time to time, we are required to provide you with an explanation of the differences between such Securities and bank deposits in respect of the following attributes.

Yield

The yield on a bank deposit will be dependent on the interest that the bank agrees to pay on the money deposited, which may fluctuate from time to time as determined by the bank. The yield on the Securities will be dependent on its particular terms and, while the actual interest payable on the Securities may change from time to time in accordance with the terms of the Securities, the method of calculation should not fluctuate over its term. In certain circumstances, it may be the case that no interest is paid on the Securities. Where the Securities do not provide for scheduled repayment in full of the issue or purchase price at maturity or upon mandatory early redemption or optional early redemption of the Securities, the yield will be reduced by any loss of the initial capital which is invested.

Risk

The risk of a bank deposit reflects the credit risk of the institution with which it is held. Subject to any protection available under the Financial Services Compensation Scheme, in the event of a UK bank's insolvency under either the Insolvency Act 1986 or Part 2 of the Banking Act 2009, you would rank as a general creditor or, where your deposit is protected by the Financial Services Compensation Scheme (please see details below) or you are an individual or qualify as a micro-enterprise, small enterprise or medium-sized enterprise under Paragraph 15 BA or 15 BB of Schedule 6 to the Insolvency Act 1986, an ordinary non-preferred or secondary non-preferred creditor, and may lose some or all of the value of your deposit, including your initial capital.

The risk of repayment of the Securities principally reflects the credit risk of CSI; the risk on payment of any interest or return on the Securities (if any) principally will reflect market risks that affect the Underlying Assets.

Subject to any protection available under the Financial Services Compensation Scheme, as a holder of the Securities, in the event of our insolvency, your position will depend on the terms of the Securities and the application of any mandatory rules (for example, the bail-in rules under the EU Bank Recovery and Resolution Directive).

There are other potential risks to payment of the interest and/or repayment of the capital depending on the terms of the Securities. For example, if the Securities are redeemed early pursuant to their terms and conditions at the discretion of CSI, the Unscheduled Termination Amount may, subject to the conditions and other restrictions set out in the terms and conditions, be less than the initial issue price or purchase price.

Liquidity

A bank deposit is repayable on demand and an investor will, subject to the insolvency of the institution with which it is held, be able to redeem it at any point, unless the deposit is subject to particular withdrawal restrictions (e.g. term deposits), in which case liquidity will be more restricted. The Securities may only be

redeemed in accordance with their terms. It may not be possible to realise your investment in the Securities before the expiry of the term or without incurring additional costs.

Protection

A bank deposit placed with a UK bank and held in the UK will be protected by the Financial Services Compensation Scheme if you are an eligible depositor (which generally excludes depositors that are financial services sector entities, funds or public authorities, among others), which will guarantee the first £85,000 of your deposit in the event of the UK bank's insolvency, provided you are eligible under such scheme. Your investment in the Securities will not be protected by the Financial Services Compensation Scheme.

Ratings

The credit ratings of the Issuer referred to in this Securities Note have been issued, for the purposes of Regulation (EC) No 1060/2009, as amended by Regulation (EU) No 513/2011 and Regulation (EU) No 462/2013 (the "**CRA Regulation**"), by S&P Global Ratings Europe Limited ("**Standard & Poor's**"), Fitch Ratings Limited ("**Fitch**") and Moody's Deutschland GmbH ("**Moody's**").

Standard & Poor's and Moody's are both established in the European Union and Fitch is established outside of the European Union in the UK, where European Union law will continue to apply until the end of the transition period (currently scheduled to end on 31 December 2020). Each of Standard & Poor's, Fitch and Moody's are registered under the CRA Regulation, as set out in the list of registered credit rating agencies published on the website of ESMA – <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>. ESMA's website and its content do not form part of this Securities Note.

CSi has been assigned senior unsecured long-term debt ratings of "A+" by Standard & Poor's, "A" by Fitch and "A1" by Moody's.

Explanation of ratings as of the date of this document:

"A" by *Standard & Poor's*: An obligor rated "A" has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The addition of a plus sign shows the relative standing within the rating category (source: www.standardandpoors.com).

"A" by *Fitch*: An "A" rating denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings (source: www.fitchratings.com).

"A1" by *Moody's*: *Obligations rated "A"* are judged to be upper-medium grade and are subject to low credit risk; the modifier "1" indicates that the obligation ranks in the higher end of its generic rating category (source: www.moody.com).

ISDA Definitions

Where any interest and/or coupon amount and/or other amount payable under the Securities is calculated by reference to an ISDA Rate, investors should consult the Issuer if they require an explanation of such ISDA Rate.

Issuer

Credit Suisse International ("**CSI**") (the "**Issuer**") may from time to time, issue (i) Notes and (ii) Warrants or (iii) Certificates (together, the "**Securities**") under the Programme, subject to compliance with all relevant laws, regulations and directives.

Types of Securities

The Securities may be securities which:

- will be in the form of notes, certificates or warrants;
- may have any maturity or term;
- will either bear periodic fixed rate or floating rate interest or interest that is dependent on the performance of one or more underlying assets, or will not bear interest;
- may pay instalment amounts; and
- upon maturity or settlement, will either pay a fixed percentage of the nominal amount, or pay a redemption amount or settlement amount, or deliver a specified number of shares, in each case that is dependent on the performance of one or more underlying assets.

In addition, the Securities may provide for early redemption or settlement upon the occurrence of a specified trigger event or at the option of the Issuer.

Issuance of Securities

Securities will be issued in one or more series (each a "**Series**") and each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The Securities of each Series are interchangeable with all other Securities of that Series. Each Series will be allocated a unique Series number and an identification code.

In the case of notes, the general terms and conditions are set out at pages 95 to 126 of this Securities Note (the "**General Note Conditions**"). In the case of certificates, the general terms and conditions are set out at pages 137 to 165 of this Securities Note (the "**General Certificate Conditions**"). In the case of warrants, the terms and conditions are set out at pages 175 to 190 of this Securities Note (the "**General Warrant Conditions**").

Where specified to be applicable to a Series of Securities, certain additional provisions relating to (a) Securities in Euroclear Finland Oy, (b) Securities in Euroclear Sweden AB, (c) Securities in Verdipapirsentralen ASA, (d) Securities in VP SECURITIES A/S, (e) Securities in SIX SIS Ltd., (f) Securities listed/admitted to trading on Borsa Italiana S.p.A., (g) Belgian Securities, (h) the CNY Payment Disruption Provisions and/or (i) EM Securities, as the case may be, may apply.

The economic or "payout" terms are set out at pages 218 to 258 of this Securities Note (the "**Product Conditions**"), as specified to be applicable in a separate Issue Terms document. "**Issue Terms**" means either (i) where the Securities are not Exempt Securities, the relevant Final Terms or (ii) where the Securities are Exempt Securities, the relevant Pricing Supplement.

Where the Securities are linked to one or more underlying assets, the terms and conditions relating to such underlying asset(s) are set out at pages 259 to 431 of this Securities Note (the "**Asset Terms**"), as specified to be applicable in the Issue Terms.

In addition, the contractual terms in this Securities Note will be completed by the relevant Issue Terms, which contain the issue specific details relating to each particular issuance of Securities. For example, the relevant Issue Terms will specify the issue date, the maturity date, the underlying asset(s) to which the Securities are linked (if any), the applicable Product Conditions and/or the applicable Asset Terms.

Exempt Securities

The requirement to publish a prospectus under the Prospectus Regulation only applies to Securities which are to be admitted to trading on a regulated market in the EEA (which for these purposes includes the UK) and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. References in this Securities Note to "**Exempt Securities**" are to Securities for which no prospectus is required to be published under the Prospectus Regulation. The CSSF has neither approved nor reviewed information contained in this Securities Note in connection with Exempt Securities.

Governing law

The Securities will be governed by English law.

Status and Ranking

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

If "NGN Form" is specified to be applicable in the relevant Issue Terms, such global security may be issued in NGN Form (see the paragraph headed "New global note form and new safekeeping structure – Eurosystem eligibility" below). No definitive notes will be issued for Notes in bearer form.

Notes in registered form are represented by registered certificates and, save as provided in General Note Condition 2(b), each registered certificate shall represent the entire holding of Registered Notes by the same holder. Where Notes in registered form are held by or on behalf of one or more clearing systems, a global certificate will be issued in respect of them and deposited outside the United Kingdom with, or with a common depository for, the clearing system(s) unless the global certificate is specified to be held under the new safekeeping structure (see the paragraph headed "New global note form and new safekeeping structure – Eurosystem eligibility" below).

Certificates and Warrants shall be issued in registered form and shall be represented at all times by a global security deposited outside the United Kingdom with, or with a common depository for, the clearing system(s). Certificates or Warrants in definitive form shall not be issued.

The Securities may be cleared through Euroclear Bank S.A./N.V. ("**Euroclear**"), Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**"), Monte Titoli S.p.A., Euroclear France S.A., CREST or any other clearing system as specified in the Conditions and/or the relevant Issue Terms.

The Securities will not be issued in paper form. However, the holder still has the right to obtain the release of the certificate pursuant to articles 83-quinquies and 83-novies, paragraph 1, letter b), of the Italian legislative decree no. 58/1998, as amended and implemented by subsequent implementing provisions.

New global note form and new safekeeping structure – Eurosystem eligibility

If specified in the relevant Issue Terms, the global security representing Notes in bearer form may be issued in new global note form ("**NGN Form**") or the global certificate representing Notes in registered form may be held under the new safekeeping structure ("**NSS**"), with the intention that such Securities may be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations ("**eligible collateral**") by the Eurosystem, either upon issue or at any time or at all times during the term of such Securities. Such recognition will depend upon satisfaction of the eligibility criteria as specified by the European Central Bank. There is no guarantee that such Notes will be recognised as eligible collateral.

Approval of the Securities Note by the CSSF in respect of Securities other than Exempt Securities

The Base Prospectus has been approved as a base prospectus consisting of separate documents (as described below) by the CSSF, as competent authority under the Prospectus Regulation. The CSSF only approves the Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuer or of the quality of the Securities. Investors should make their own assessment as to the suitability of investing in the Securities. For Securities other than Exempt Securities the minimum denomination that may be specified in the applicable Final Terms should not be less than EUR 1,000 or the equivalent thereof in other currencies.

This Securities Note and the Registration Document together constitute a base prospectus for the purposes of Article 8(6) of the Prospectus Regulation for the purpose of giving information with regard to Securities (other than Exempt Securities) to be issued by the Issuer.

Each of the Registration Document and the Securities Note comprising the Base Prospectus may be supplemented from time to time under the terms of the Prospectus Regulation. The Base Prospectus includes (i) any such supplements from time to time and (ii) any documents incorporated by reference into each of the Registration Document and the Securities Note comprising the Base Prospectus.

Any statement contained in any supplement (including any information incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise) be deemed to modify or supersede statements contained in this Securities Note and/or the Registration Document (including any information incorporated by reference therein). Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of the Securities Note and/or Registration Document.

Listing and Admission to Trading

Securities issued by the Issuer may be (a) listed and admitted to trading on a regulated market for the purposes of MiFID II, (b) listed and admitted to trading on a market not regulated for such purpose, (c) listed and admitted to trading on SIX Swiss Exchange or any other trading venue in Switzerland, or (d) not listed or admitted to trading on any market, in each case as shall be specified in the relevant Issue Terms. In relation to any Securities to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, application has been made to the Luxembourg Stock Exchange for such Securities to be admitted to the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange (which is a regulated market for the purposes of MiFID II) for the period of 12 months from the date of this Securities Note.

Categories of potential investors to which the Securities are offered

The Securities will be offered to both retail and non-retail investors.

In respect of public offers of Securities in Belgium, the Issuer could be required to comply with the provisions of the Belgian Code of Economic Law, especially the provisions on unfair terms in the application of the terms and conditions as set out in this Securities Note and the relevant Final Terms relating to such Securities in Belgium, insofar as these provisions are applicable.

In respect of offers of Securities in Italy, if "Assignment to Qualified Investors only after allocation to public" is specified to be applicable in the relevant Final Terms, the Securities will be publicly offered through the relevant Distributor in Italy to any person. Qualified Investors (*investitori qualificati*, as defined in Article 2 of the Prospectus Regulation and Article 34-ter, first paragraph, letter b) of CONSOB Regulation no. 11971 of 14 May 1999, as subsequently amended) may be assigned only those Securities remaining after the allocation of all the Securities requested by the public in Italy during the Offer Period.

In respect of Securities distributed in Italy by means of a public offering through any of MOT or SeDeX, the relevant Issue Terms in respect of such Securities will include a legend entitled "MiFID II Product Governance/Target Market" which will outline where information in relation to the target market assessment in respect of the Securities and the appropriate channels for distribution of the Securities can be found. Any person offering, selling, or recommending or otherwise making available the Securities (a "**financial intermediary**") should take into consideration the target market assessment; however, a financial intermediary subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Dealer nor any of its affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

Important note to prospective investors

An investment in Securities requires a thorough understanding of the nature of Securities. Potential investors in Securities should be experienced with respect to an investment in complex financial instruments and be aware of the related risks.

A potential investor in Securities should determine the suitability of such an investment in light of such investor's particular circumstances. In particular, a potential investor in Securities should:

- have sufficient knowledge and experience to make a meaningful evaluation of Securities, the merits and risks of investing in Securities and the information contained in, or incorporated by reference into, the Securities Note and the Registration Document and the applicable terms and conditions;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of such investor's particular financial situation, an investment in Securities and the impact the relevant Securities will have on such investor's overall investment portfolio;
- have sufficient financial resources to bear all the risks of an investment in the relevant Securities;
- understand thoroughly the terms and conditions applicable to the relevant Securities and be familiar with the behaviour of the relevant underlying asset(s) and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect such investor's investment and ability to bear the applicable risks of an investment in Securities until their redemption or termination; and
- recognise that it may not be possible to dispose of Securities for a substantial period of time, if at all.

Securities involve substantial risks and are suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and merits of an investment in Securities. Prospective investors should ensure that they understand the nature of the risks posed by, and the extent of their exposure under, the relevant Securities.

Prospective investors should make all pertinent inquiries they deem necessary in addition to the information provided in this Securities Note and the Registration Document without relying on the Issuer or any of its affiliates, officers or employees. Prospective investors should consider the suitability and appropriateness of the relevant Securities as an investment in light of their own circumstances, investment objectives, tax position and financial condition.

Prospective investors should consider carefully all the information set forth in this Securities Note and the Registration Document (including any information incorporated by reference therein). Prospective investors should pay particular attention to the "Risk Factors" section in each of this Securities Note and the Registration Document, noting however, that the documents constituting the Base Prospectus cannot disclose all of the risks and other significant aspects of Securities that could be of particular importance to the individual investor when taking into account their personal situation. Prospective investors in Securities should therefore consult their own legal, tax, accounting, financial and other professional advisors to assist them in determining the suitability of Securities for them as an investment.

RISK FACTORS

The Issuer believes that the risk factors specific to the Securities described below are material for the purpose of taking an informed investment decision associated with the Securities, but these are not the only risks that the Issuer faces or that may arise under the Securities. There will be other risks that the Issuer does not currently consider to be material, or risks that the Issuer is currently not aware of, or risks that arise due to circumstances specific to the investor.

More than one investment risk may have simultaneous effect with regard to the value of the Securities and the effect of any single investment risk may not be predictable. In addition, more than one investment risk may have a compounding effect and no assurance can be given as to the effect that any combination of investment risks may have on the value of Securities.

For a description of the risk factors relating to the Issuer, investors should refer to the Registration Document for the Issuer, where the specific risks associated with the Issuer are set out.

An investment in Securities entails certain risks, which vary depending on the specific type and structure of the relevant Security and the relevant Underlying Asset(s) which the Security is linked to. Such risks can be divided into the following categories 1 to 6 (each a **Risk Category**):

1. Risks associated with Securities in case of insolvency of the Issuer and in connection with resolution measures in respect of the Issuer (**Risk Category 1**);
2. Risks in connection with the payment profile of the Securities (**Risk Category 2**);
3. Risks in connection with termination and adjustment rights of the Issuer and/or the Calculation Agent (**Risk Category 3**);
4. Risks related to certain types of Securities and certain product features (**Risk Category 4**);
5. Risks in connection with the Underlying Assets or Reference Rates (**Risk Category 5**); and
6. Risks in connection with the purchase, holding and selling of Securities (**Risk Category 6**),

which are set out in the following sections 1. to 6.

The Risk Categories 3 to 5 described in sections 3. to 5. below are divided into sub-categories (each a **Sub-Category**):

- for the Sub-Categories of Risk Category 3 see section (a) to (j) in section 3. below;
- for the Sub-Categories of Risk Category 4 see section (a) to (m) in section 4. below;
- for the Sub-Categories of Risk Category 5 see section (a) to (r) in section 5. below;

The most material risk or risks in each Risk Category or Sub-Category are specified first in such category or sub-category, as the case may be. The risks set out after the most material risk or risks are not further ranked by the Issuer in accordance with their respective degree of materiality.

1. Risks associated with Securities in case of insolvency of the Issuer and in connection with resolution measures in respect of the Issuer (Risk Category 1)

The risks set out under in the below sub-sections (a) to (b) of this Risk Category 1 are the most material risks in case of insolvency of the Issuer and in connection with resolution measures in respect of the Issuer.

(a) Risk in case of an insolvency of the Issuer

The Securities issued by the Issuer, as the case may be, are direct, unconditional, unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, claims of investors in the Securities will rank equally in right of payment with all other unsecured and unsubordinated obligations of the Issuer, except such obligations given priority by law.

An investment in Securities will also not be covered by any compensation or insurance scheme (such as a bank deposit protection scheme) of any government agency of Switzerland, the United Kingdom or any other jurisdiction and the Securities do not have the benefit of any government guarantee. The Securities are the obligations of the Issuer only and holders of Securities must look solely to the Issuer for the performance of the Issuer's obligations under such Securities.

In the event of the insolvency of the Issuer, an investor in Securities may therefore lose all or some of its investment therein irrespective of any favourable development of the other value determining factors, such as the performance of the Underlying Asset(s).

(b) Risks in connection with the exercise of "resolution" measures or the "bail-in" tool or other pre-resolution powers by the UK resolution authority in relation to CSi

The UK Banking Act, which implements the EU Bank Recovery and Resolution Directive, provides for a "resolution regime" granting substantial powers to the UK resolution authority to implement resolution measures (including, but not limited to, directing the sale of the relevant institution or transfer of the relevant institution's business to a "bridge bank") with respect to a UK financial institution (such as CSi) where the Prudential Regulatory Authority considers that the relevant institution is failing or is likely to fail and action is necessary in the public interest and the Bank of England considers that other conditions to implementing resolution measures have been satisfied. If CSi were to become subject to the use of "resolution" measures by a resolution authority (or pre-resolution measures) you could lose some or all of your investment in the Securities. In addition, the UK resolution authority also has the power to exercise the "bail-in" tool (or pre-resolution powers to write down or convert regulatory capital) in relation to Securities issued by CSi which would result in the write down and/or conversion to equity of such Securities.

2. Risks in connection with the payment profile of the Securities (Risk Category 2)

In this Risk Category 2 the material risks that apply to the payout profile of Securities that may be issued under the Base Prospectus are described. The most material risk of this risk category is the risk of potential loss of some or all of the investment.

Potential loss of some or all of the investment

Purchasers of Securities which are "capital at risk" investments may lose some or all of their money depending on the performance of the relevant Underlying Asset(s) and the terms of such Securities. The Securities will be "capital at risk" investments unless the minimum Redemption Amount or Settlement Amount payable at maturity or a scheduled early redemption (or, in respect of Instalment Securities, the aggregate of the Instalment Amounts payable over the Instalment Dates, together with the Redemption Amount, if any) (as applicable) of the relevant Securities is at least equal to the purchase price paid by investors for such Securities.

Even where the minimum Redemption Amount or Settlement Amount (or, in respect of Instalment Securities, the aggregate of the Instalment Amounts payable over the Instalment Dates, together with the Redemption Amount, if any) (as applicable) is at least equal to the purchase price paid by investors for such Securities, the Securities are still "capital at risk" investments if:

- (i) in the case of Trigger Securities, Trigger Yield Securities, Trigger Return Securities, Callable Trigger Yield Securities or Callable Trigger Return Securities, if a Trigger Event occurs and the Trigger Barrier Redemption Amount is less than such purchase price; or

- (ii) in the case of Callable Securities, Callable Yield Securities, Callable Return Securities, Callable Trigger Yield Securities or Callable Trigger Return Securities, if the call option is exercised and the Optional Redemption Amount is less than such purchase price; or
- (iii) in the case of Puttable Securities or Puttable Return Securities, if the put option is exercised by the Securityholder and the Optional Redemption Amount is less than such purchase price.

Where Securities are "capital at risk" investments, investors are exposed to a return that is linked to the performance of the relevant Underlying Asset(s) (as specified in the relevant Issue Terms). In the case of an unfavourable development of the value of the Underlying Asset(s), the amount payable on the redemption of the Securities may be less than the amount originally invested and investors may lose the value of some or all of their investment.

In any event, if the amount payable (or entitlement deliverable) on redemption, exercise or expiry of the Securities is less than the purchase price paid by investors for such Securities, investors may lose some or all of their investment. In particular, where a "Knock in Event" is applicable to the Securities and a Knock in Event occurs, investors may lose the value of some or all of their investment where the Redemption Amount payable is linked to the negative performance of one or more Underlying Assets and any minimum Redemption Amount payable is less than the purchase price paid by investors for such Securities.

Further, as explained at the start of this section, even if the Securities are not "capital at risk" and do provide for scheduled repayment in full of the issue price or the purchase price of the Securities, an investor could still lose some or all of his or her investment if:

- the investor sells the Securities prior to maturity in the secondary market but for an amount that is less than the issue price or the purchase price of the Securities;
- the Securities are redeemed early under their terms and conditions at the discretion of the Issuer and the *Unscheduled Termination Amount* is less than the initial issue price or purchase price (see risk factor 3(a) (*Risks in connection with redemption of the Securities at the *Unscheduled Termination Amount**) below); or
- the Securities are subject to certain adjustments made by the Issuer in accordance with the terms and conditions of the Securities that may result in any amount payable (or deliverable) under the Securities (whether at maturity or otherwise) being reduced to, or being valued at, an amount that is less than the original investment.

3. Risks in connection with termination and adjustment rights of the Issuer and/or the Calculation Agent (Risk Category 3)

In this Risk Category 3 the specific risks in connection with termination and adjustment rights of the Issuer and/or the Calculation Agent under the Issue Terms are set out. This risk category is divided into Sub-Categories. Within each Sub-Category in the following sub-sections (a) to (j) the most material risk is specified first.

(a) Risks in connection with redemption of the Securities at the *Unscheduled Termination Amount*

In certain circumstances, the Issuer may redeem the Securities (other than due to a mandatory Trigger Event or exercise of a Call Option) at an amount equal to the *Unscheduled Termination Amount*. Such amount may be less than the issue price or the purchase price and investors may therefore lose some or all of their investment and may not be able to reinvest the proceeds in another investment offering a comparable return.

The Securities may be redeemed prior to their scheduled maturity in certain circumstances (other than due to a mandatory Trigger Event or the exercise of a Call Option) - for example, (i) (A) if the Issuer determines that (save for Securities for which "Additional Provisions for EM Securities" is applicable) its obligations under the Securities (including any calculations or determinations to be made by the Issuer), after application of all relevant provisions in the Conditions relating to replacement of Reference Rates to which the Securities are linked and adjustments to the Conditions (if applicable), or (save for Belgian Securities) its hedging arrangements, have become unlawful or illegal, or (B) (in respect of Belgian

Securities) following the occurrence of a force majeure event, (ii) following an event of default, (iii) where the Securities are linked to one or more Underlying Asset(s), following certain events having occurred in relation to any Underlying Asset(s) (where the relevant Issue Terms specify that (A) "Institutional" is applicable, or (B) the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable), (iv) if "Interest and Currency Rate Additional Disruption Event" is specified to be applicable in the relevant Issue Terms and an Interest and Currency Rate Additional Disruption Event occurs, or (v) (save for Warrants) if the Securities are linked to one or more Reference Rates, following the occurrence of a Reference Rate Event (where the relevant Issue Terms specify that (A) "Institutional" is applicable, or (B) the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable). In such case, the Securities may be redeemed early prior to their scheduled maturity for an amount equal to the Unscheduled Termination Amount, and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer. Please refer to the section headed "Overview of the Potential for Discretionary Determinations by the Issuer" for more information.

The Unscheduled Termination Amount payable on unscheduled redemption of the Securities depends on the elections specified in the relevant Issue Terms, as set out below:

Securities which are not Belgian Securities for which (i) "Unscheduled Termination at Par" is not applicable, (ii) "Additional Provisions for EM Securities" is not applicable, and (iii) any of the following applies: (A) "Institutional" is applicable or (B) the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable or (C) the Securities are redeemed following the Issuer's obligations under the Securities or its hedging arrangements becoming unlawful or illegal or the occurrence of an event of default

The Unscheduled Termination Amount will be equal to the value of the Securities immediately prior to them becoming due and payable following an event of default or, in all other cases, as soon as reasonably practicable following the determination by the Issuer to early redeem the Securities, as calculated by the Calculation Agent using its then prevailing internal models and methodologies, and which amount may be based on or may take account of, amongst other factors, (i) the time remaining to maturity of the Securities, (ii) the interest rates at which banks lend to each other, (iii) the interest rate at which the Issuer (or its affiliates) is charged to borrow cash, (iv) (if applicable) the value, expected future performance and/or volatility of the Underlying Asset(s), (v) the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), and (vi) any other information which the Calculation Agent deems relevant, provided that, in the case of an early redemption following an event of default, the calculation of the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).

In the case where the Securities are redeemed following the occurrence of an event of default, each of the factors described in (iii) and (v) in the immediately preceding paragraph shall be determined by the Calculation Agent at a time during the period commencing immediately prior to when rates that are observed in the market relating to the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating) began to significantly worsen and ending with the occurrence of the event of default, taking into account relevant factors including, without limitation, whether or not there is a material deviation from the historic correlation of the market observable rates relating to the creditworthiness of the Issuer from the corresponding rates for comparable entities in such market. In all other cases, each of the factors described in (iii) and (v) in the immediately preceding paragraph shall be determined by the Calculation Agent on or reasonably close to the time at which the Calculation Agent calculates the Unscheduled Termination Amount.

If "Deduction for Hedge Costs" is specified to be applicable, the Unscheduled Termination Amount will potentially be reduced to account for any associated losses, expenses or costs incurred (or which would be incurred) by the Issuer and/or its affiliates as a result of unwinding, establishing, re-establishing and/or adjusting any hedging arrangements in relation to the Securities.

In such circumstances it is likely that the Unscheduled Termination Amount will be less than the initial investment, and therefore investors may lose some or all of their investment. Also, following any such early redemption of the Securities, investors may be unable to reinvest the

proceeds in an investment having a comparable return. Potential investors should consider such reinvestment risk in light of other investments available at that time.

Securities which are not Belgian Securities for which (i) "Unscheduled Termination at Par" is not applicable, (ii) "Additional Provisions for EM Securities" is not applicable, (iii) "Institutional" is not applicable, (iv) the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable and (v) the Securities are not redeemed following the Issuer's obligations under the Securities or its hedging arrangements becoming unlawful or illegal or the occurrence of an event of default

The Issuer will not redeem the Securities early, and instead the Securities will be redeemed at their scheduled maturity. However, the amount payable at maturity shall be the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be), and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer. In respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date. In this case, the Unscheduled Termination Amount will be the *sum* of (i) the Minimum Payment Amount, (ii) the value of the embedded option component of the Security as at the date of the occurrence of the event resulting in the unscheduled redemption of the Securities and (iii) and interest accrued on the amount of the Unscheduled Termination Amount thereafter until maturity.

In such circumstances (i) the Unscheduled Termination Amount may be significantly less than what an investor would have received in the absence of such event resulting in the unscheduled redemption of the Securities and (ii) holders will not be able to participate in any potential upside performance of the Underlying Asset(s) after the occurrence of such event and will not receive any further interest or other payments under the Securities.

Securities which are not Belgian Securities for which "Additional Provisions for EM Securities" is applicable

The Unscheduled Termination Amount will be equal to the *sum* of (i) the Minimum Payment Amount, *plus* (ii) an amount equal to the product of (A) the result of (I) the Redemption Option Percentage *minus* 100 per cent., *divided* by (II) 10 and (B) the relevant day count fraction.

In such circumstances (i) the Unscheduled Termination Amount may be significantly less than what an investor would have received in the absence of such event resulting in the unscheduled redemption of the Securities and (ii) holders will not be able to participate in any potential upside performance of the Underlying Asset(s) after the occurrence of such event and will not receive any further interest or other payments under the Securities.

Securities which are Belgian Securities and for which "Minimum Payment Amount" is not applicable

The Unscheduled Termination Amount will be equal to the Calculation Agent Value, being the value of the Securities on (or as close as reasonably practicable to) the Unscheduled Termination Event Date, as calculated by the Calculation Agent using its then prevailing internal models and methodologies, and which amount may be based on or may take account of, amongst other factors, (A) the time remaining to maturity of the Securities, (B) the interest rates at which banks lend to each other, (C) the interest rate at which the Issuer (or its affiliates) is charged to borrow cash, (D) (if applicable) the value, expected future performance and/or volatility of the Underlying Asset(s), (E) the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), and (F) any other information which the Calculation Agent deems relevant, provided that, in the case of an early redemption following an event of default, the calculation of the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).

In the case where the Securities are redeemed following the occurrence of an event of default, each of the factors described in (C) and (E) in the immediately preceding paragraph shall be determined by the Calculation Agent at a time during the period commencing immediately prior

to when rates that are observed in the market relating to the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating) began to significantly worsen and ending with the occurrence of the event of default, taking into account relevant factors including, without limitation, whether or not there is a material deviation from the historic correlation of the market observable rates relating to the creditworthiness of the Issuer from the corresponding rates for comparable entities in such market. In all other cases, each of the factors described in (C) and (E) in the immediately preceding paragraph shall be determined by the Calculation Agent on or reasonably close to the time at which the Calculation Agent calculates the Unscheduled Termination Amount.

In case the early redemption takes place other than pursuant to a Force Majeure Event or following an event of default, the Unscheduled Termination Amount as described above shall be increased by an amount equal to the total costs of the Issuer paid by the original Securityholder to the Issuer in a proportion equal to the time left to scheduled maturity over the entire term (such amount being the Calculation Agent Value (adjusted)).

In such circumstances it is likely that the Unscheduled Termination Amount will be less than the initial investment, and therefore investors may lose some or all of their investment. Also, following any such early redemption of the Securities, investors may be unable to reinvest the proceeds in an investment having a comparable return. Potential investors should consider such reinvestment risk in light of other investments available at that time.

Securities which are Belgian Securities and for which "Minimum Payment Amount" is applicable

(i) **Early redemption by the Issuer upon the occurrence of a Force Majeure Event or following an event of default**

The Unscheduled Termination Amount will be equal to the Calculation Agent Value, being the value of the Securities on (or as close as reasonably practicable to) the Unscheduled Termination Event Date, as calculated by the Calculation Agent using its then prevailing internal models and methodologies, and which amount may be based on or may take account of, amongst other factors, (A) the time remaining to maturity of the Securities, (B) the interest rates at which banks lend to each other, (C) the interest rate at which the Issuer (or its affiliates) is charged to borrow cash, (D) (if applicable) the value, expected future performance and/or volatility of the Underlying Asset(s), (E) the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), and (F) any other information which the Calculation Agent deems relevant, provided that, in the case of an early redemption following an event of default, the calculation of the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).

In the case where the Securities are redeemed following the occurrence of an event of default, each of the factors described in (C) and (E) in the immediately preceding paragraph shall be determined by the Calculation Agent at a time during the period commencing immediately prior to when rates that are observed in the market relating to the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating) began to significantly worsen and ending with the occurrence of the event of default, taking into account relevant factors including, without limitation, whether or not there is a material deviation from the historic correlation of the market observable rates relating to the creditworthiness of the Issuer from the corresponding rates for comparable entities in such market. In all other cases, each of the factors described in (C) and (E) in the immediately preceding paragraph shall be determined by the Calculation Agent on or reasonably close to the time at which the Calculation Agent calculates the Unscheduled Termination Amount.

In such circumstances it is likely that the Unscheduled Termination Amount will be less than the initial investment, and therefore investors may lose some or all of their investment. Also, following any such early redemption of the Securities, investors may be unable to reinvest the proceeds in an investment having a comparable return.

Potential investors should consider such reinvestment risk in light of other investments available at that time.

(ii) **Early redemption by the Issuer other than due to a Force Majeure Event or upon the occurrence of an event of default by the Issuer under the Securities**

If the Securityholder does not make a valid election to exercise its option to redeem the Security at the Calculation Agent Value (adjusted) at early redemption prior to the cut-off date, the Unscheduled Termination Amount shall be payable on the scheduled maturity date, and shall be equal to the *sum* of (a) the Minimum Payment Amount *plus* (b) the value of the embedded option component of the Security on the Unscheduled Termination Event Date, plus (c) any interest at the rate of "r" accrued on the value of the option component from, and including the Unscheduled Termination Event Date to, but excluding, the scheduled maturity date, *plus* (d) the total costs of the Issuer paid by the original Securityholder to the Issuer in a proportion equal to the time left to scheduled maturity over the entire term, *plus* (e) any interest at the rate of "r" accrued on (d) immediately above from, and including the Unscheduled Termination Event Date to, but excluding, the scheduled maturity date.

In the paragraph above, "r" means the annualised interest rate that the Issuer offers on (or as close as practicable to) the Unscheduled Termination Event Date for a debt security with a maturity equivalent to (or as close as practicable to) the scheduled maturity date of the Security, taking into account the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), as determined by the calculation agent; and "**Unscheduled Termination Event Date**" means the date on which the Issuer determines that an event resulting in the unscheduled redemption of the Securities has occurred.

However, if the Securityholder does make a valid election to exercise its option to redeem the Securities for the Calculation Agent Value (adjusted) at early redemption prior to the cut-off date (as notified by the Issuer), the Unscheduled Termination Amount shall be payable on the early redemption date (as selected by the Issuer), and shall be equal to the value of the Security on (or as close as reasonably practicable to) the Unscheduled Termination Event Date (as determined in the manner described in paragraph (i) immediately above), *plus* the total costs of the Issuer paid by the original Securityholder to the Issuer in a proportion equal to the time left to scheduled maturity over the entire term.

Following early redemption of Securities, holders may not be able to reinvest the redemption proceeds at a comparable return. Prospective investors in Securities should consider such reinvestment risk in light of other investments available at that time.

Please refer to the section headed "*Overview of the Potential for Discretionary Determinations by the Issuer*" for more information.

(b) **In certain circumstances, the Issuer may adjust the terms of the Securities, and such adjustment may have a negative effect on the value of the Securities**

If the Issuer determines that any adjustment events or other events affecting (i) the Underlying Asset(s) or the Reference Rate(s) (if applicable), or (ii) (other than for Belgian Securities and otherwise depending on the terms of the Securities) the Issuer's hedging arrangements have occurred, the Issuer may adjust the terms and conditions of the Securities (including substituting or replacing an Underlying Asset or Reference Rate, as the case may be) without the consent of the Securityholders.

In making any such adjustment, the Issuer will (whether or not already expressed to be the case in the Conditions) act in good faith and in a commercially reasonable manner, and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations. Please refer to the section headed "*Overview of the Potential for Discretionary Determinations by the Issuer*" for more information.

Nevertheless, any such adjustment could have a material adverse effect on the return on, and value of, the Securities.

(c) **The Issuer of Securities may be substituted without the consent of Securityholders**

The Issuer of Securities may be substituted without the consent of Securityholders in favour of any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property, subject to certain conditions being fulfilled. Such substitution of the Issuer may have a material adverse effect on the value of the Securities.

(d) **A Payment Disruption Event may lead to a delay in payment and, if it continues, to payment in an alternate currency or reduced payment**

If "Payment Disruption" is specified to be applicable in the relevant Issue Terms, and the Issuer determines that a Payment Disruption Event has occurred in relation to any amount due (or shortly to be due) in respect of the Securities, the relevant payment date (and the Issuer's obligation to pay such amount) shall be postponed until the Payment Disruption Event is no longer continuing. If the Payment Disruption Event is still continuing 45 calendar days following the original payment date, the Issuer will (i) if "Payment in Alternate Currency" is specified to be applicable in the relevant Issue Terms, make payment of the Equivalent Amount (being an equivalent amount of the relevant amount in an alternate currency, converted at the relevant rate of exchange) on the extended date, or (ii) if "Payment of Adjusted Amount" is specified to be applicable in the relevant Issue Terms, make payment of the relevant amount on the extended date, and in such case, may make such adjustment to the relevant amount as it determines to be appropriate to account for any difference between the amount originally payable and the amount that a hypothetical investor would receive if such hypothetical investor were to enter into and maintain any theoretical hedging arrangements in respect of the Securities, in each case after deduction of any costs, expenses or liabilities incurred or arising from the resolution of the Payment Disruption Event. Potential investors in the Securities should note that the Equivalent Amount or adjusted amount (as the case may be) payable is likely to be less than what such amount would have been if the Payment Disruption Event had not occurred.

(e) **Jurisdictional Event**

The amount payable in respect of Securities which are linked to an Underlying Asset to which "Jurisdictional Event" is specified to be applicable may be reduced if the value of the proceeds of the Issuer's (or its affiliates') hedging arrangements in relation to such Underlying Asset are reduced as a result of various matters (each described as a "Jurisdictional Event") relating to risks connected with the relevant country or countries specified in the terms and conditions of the Securities (including, but not limited to, risks associated with fraud and/or corruption, political risk, legal uncertainty, imposition of foreign exchange controls and changes in laws or regulations). Please refer to the section headed "*Overview of the Potential for Discretionary Determinations by the Issuer*" for more information.

(f) **Occurrence of Additional Disruption Events**

Additional Disruption Events in respect of an Underlying Asset may include events which result in the Issuer incurring material costs for performing its obligations under the Securities due to a change in applicable law or regulation, the inability or a materially increased cost of the Issuer and/or its affiliates to maintain or enter into hedging arrangements in respect of such Underlying Asset and the Securities. Subject to the terms and conditions for the Securities which determines the types of Additional Disruption Events which are applicable, upon determining that an Additional Disruption Event has occurred, the Issuer has discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Securities (without the consent of the Securityholders), or (ii) (A) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (B) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (ii)(A) or (ii)(B), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(g) **Optional redemption by the Issuer**

Any call option of the Issuer in respect of the Securities may negatively impact their market value. During any period when the Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period. The Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed. The investor will not be able to participate in the performance of the Underlying Asset(s) following the effective date of the Issuer call option.

(h) **In exceptional market and liquidity conditions, the payment of the Optional Redemption Amount may be postponed in certain circumstances**

If the Securities are "Puttable Securities" or "Puttable Return Securities" and the Optional Redemption Amount is specified to be "Fair Expected Value Amount" in the relevant Issue Terms, and the holder of such Securities validly exercises its put option in respect of such Securities on an Optional Redemption Exercise Date, in exceptional market and liquidity conditions, the Calculation Agent may in its discretion acting in a commercially reasonable manner determine that the payment of the Optional Redemption Amount may be postponed by up to 366 calendar days following such Optional Redemption Exercise Date.

(i) **Correction of published prices or levels**

In the event that the relevant published prices or levels of an Underlying Asset are subsequently corrected and such correction is published by the entity or sponsor responsible for publishing such prices or levels, subject to such correction and publication occurring prior to a specified cut-off date in respect of the relevant Securities, such corrected prices or levels may be taken into account by the Issuer in any determination in relation to the Securities and/or the Issuer may make adjustments to the terms of the Securities, subject to the provisions of the relevant terms and conditions for the Securities. Where such corrected prices or levels are lower than the original levels or prices, this may have an adverse effect on the value of and return on the Securities.

(j) **Non-Underlying Asset Days or disruption events may adversely affect the value of and return on the Securities**

If a scheduled date on which the price or level of an Underlying Asset is observed or determined falls on a day which is not an Underlying Asset Day for such Underlying Asset or any other day which is subject to adjustment in accordance with the relevant Asset Terms, then the relevant date may be postponed.

Further, if the Issuer determines that a disruption event in relation to an Underlying Asset has occurred which affects the observation or determination of the price or level of such Underlying Asset on any relevant day, then the relevant date may be postponed or the Issuer may determine the price or level of such Underlying Asset using one or more alternative provisions, or may ultimately determine the price or level of such Underlying Asset in its discretion.

Any such postponement and/or alternative determination of the price or level of an Underlying Asset may adversely affect the value of and return on the Securities. In the event that one or more scheduled dates on which the price or level of an Underlying Asset is observed or determined are postponed, the scheduled Maturity Date, Settlement Date or other relevant payment date may also be postponed.

4. **Risks related to certain types of Securities and certain product features (Risk Category 4)**

In this Risk Category 4 the material risks in connection with certain types of Securities and certain product features are described. This risk category is divided into Sub-Categories. Within each Sub-Category in the following sub-sections (a) to (m) the most material risks is set out first.

Investors should note that Securities issued under the Base Prospectus may be one of the types of Securities set out below and/or may include one or more of the features described below, as set out in each case in the applicable Issue Terms. Investors should therefore carefully review the Issue Terms of

the Security that they are intending to invest into in order to identify whether any of the risks described below apply to such Security.

(a) **Risks associated with physical delivery of Underlying Asset(s)**

In this Sub-Category the risks of Securities with physical delivery of Underlying Asset(s). The risk set out under (i) below (*Risk in connection with fluctuations in the price of the relevant Underlying Asset or the relevant ETF Share*) is the most material risk associated with physical delivery of Underlying Asset(s).

(i) *Risk in connection with fluctuations in the price of the relevant Underlying Asset or the relevant ETF Share*

In the case of Securities where physical settlement is specified to be applicable in the relevant Issue Terms, such Securities may be redeemed at their maturity by delivering the relevant Underlying Asset to the Securityholders and the Securityholders will receive such Underlying Asset rather than a monetary amount upon maturity. Securityholders will therefore be exposed to the risks associated with the issuer of such Underlying Asset and the risks associated with such Underlying Asset.

The value of the relevant Underlying Asset to be delivered, together with any fractional cash amount, to a Securityholder may be less than the purchase amount paid by such Securityholder for the Securities and the principal amount (if any) of the relevant Securities. In the worst case, the relevant Underlying Asset to be delivered may be worthless. Also, prospective investors should consider that any fluctuations in the price of the relevant Underlying Asset to be delivered between the end of the term of the Securities and the actual delivery date will be borne by the Securityholders. This means that a Securityholder's actual loss or gain and final return on the Securities can only be determined after delivery of the relevant Underlying Asset to such Securityholder.

In order to receive the relevant Share Amount in respect of a Security, a Securityholder must deliver to a Paying Agent a duly completed Delivery Notice on or before the Presentation Date, otherwise the Issuer shall not be obliged to make delivery of the Share Amount.

(ii) *Further risks in connection with the Underlying Asset(s) to be delivered under the Securities*

If a Security is redeemed by delivering the relevant Underlying Asset (or the relevant ETF Share (if applicable)), any investor therein will be exposed to the risks (including risks of insolvency and risks of fluctuations in value of the relevant Underlying Asset or foreign exchange rate) relating to the Underlying Asset. Any of these risks may result in a reduction in value of the delivered Underlying Assets.

(iii) *Risks in connection with the taxation of the Underlying Asset(s) to be delivered*

The Securityholder is also required to pay all taxes and expenses in connection with the delivery of the Underlying Asset. Further, Securityholders may be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of the relevant Underlying Asset which would not be payable in the event of cash settlement.

(b) **Specific risks associated with Securities linked to a basket of Underlying Assets**

In this Sub-Category the specific risks associated with Securities linked to a basket of Underlying Assets are set out. All of these risks may adversely affect the performance of a basket of Underlying Assets that the Securities are linked to and in turn may adversely affect the value of and return on such Securities. The most material risk in this Sub-Category is set out in the following sub-section (i) (*The negative performance of a single basket constituent may outweigh a positive performance of one or more other basket constituents*).

- (i) *The negative performance of a single basket constituent may outweigh a positive performance of one or more other basket constituents*

Even in the case of a positive performance by one or more of the basket constituents, the performance of the basket as a whole may be negative if the performance of one or more of the other basket constituents is negative to a greater extent, depending on the terms and conditions of the relevant Securities.

- (ii) *A small basket, or an unequally weighted basket, will generally leave the basket more vulnerable to changes in the value of any particular basket constituent*

The performance of a basket that includes a fewer number of basket constituents will generally be more affected by changes in the value of any particular basket constituent than a basket that includes a greater number of basket constituents and a basket which has unequally weighted constituents will generally be more affected by changes in the value of the more heavily weighted basket constituents than a basket which includes equally weighted basket constituents.

- (iii) *A change in composition of a basket may have an adverse effect on basket performance*

Where the terms and conditions of the Securities grant the Issuer the right, in certain circumstances, to adjust the composition of the basket, investors should be aware that any replacement basket constituent may perform differently from the original basket constituent, which may have an adverse effect on the performance of the basket and therefore the performance of the Securities.

- (iv) *Risks resulting from the correlation of multiple Underlying Assets*

In the case of Securities linked to multiple Underlying Assets, the level of correlation among the Underlying Assets indicates their interdependence with respect to their performance, and such level of correlation may have a significant impact on the value of the Securities. The most material risk in connection with the correlation of multiple Underlying Assets that a Security is linked to is that a risk that materialises in respect of one particular Underlying Asset also has an impact on the other Underlying Assets due to their correlation. For example, if all of the Underlying Assets that a Security is linked to originate from the same sector and the same country, a high level of correlation may generally be assumed, which could mean that, in the case of events affecting such sector or country, the value of all Underlying Assets may move in the same direction at substantially the same time and/or experience a substantially similar level of volatility. In such case, such coordinated movement and/or volatility may have a more substantial impact on the value of the Securities linked thereto than if such Securities were linked to multiple Underlying Assets with a low level of correlation. Alternatively, if there is a low level of correlation among the Underlying Assets, any change in the performance of one of the Underlying Assets may have a more substantial impact on the value of the Securities linked thereto than if such Securities were linked to multiple Underlying Assets with a high level of correlation. Consequently investors in Securities that are linked to multiple Underlying Assets with a high degree of correlation may be exposed to greater risks of loss in case adverse events or developments occur with regard to one or more of the Underlying Assets than in case of Securities that are linked to multiple Underlying Assets with a low degree of correlation. However, an investor in Securities should be aware that (i) past levels of correlation among the Underlying Assets may not be determinative of future levels of correlation, (ii) the values of Underlying Assets with a high/low degree of correlation may nevertheless move in opposite directions/the same direction and/or experience different/the same levels of volatility.

- (c) **"Worst-of"**

If the relevant Issue Terms specifies that "Worst of Bonus", "Worst of Participation" or "Worst of Trigger Redeemable" is applicable, Securityholders will be particularly exposed to the performance of the Underlying Asset which has the worst performance.

This means that, irrespective of how the other Underlying Assets perform, if the Underlying Asset having the worst performance fails to meet the specified threshold or barrier, Securityholders could lose some or all of their initial investment.

(d) Risks of Securities with barrier feature(s)

In the case of Securities with a barrier feature, amounts payable in respect of the Securities will be conditional on the value or performance of the relevant Underlying Asset(s), as determined in accordance with the applicable conditions, being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Issue Terms, a specified barrier value. If such condition is not satisfied, then (a) (in the case of a coupon payment) no payment may be due, or (b) the relevant amount payable may be determined by reference to the performance of the relevant Underlying Asset(s) and may be less than the amount originally invested and lower than the amount an investor would have received had no such event occurred.

(e) Early Redemption following a Trigger Event

In the case of Trigger Securities, investors in such Securities should be aware that the timing of redemption of such Securities is uncertain since the occurrence of a Trigger Event will be dependent upon the performance of the Underlying Asset(s). In the case of an unfavourable development of the value of the Underlying Asset(s), the redemption of such Securities may not occur until the scheduled maturity and the amount payable on redemption will be determined based on the unfavourable performance of the Underlying Asset(s) and may be less than the amount originally invested and lower than the amount an investor would have received had a Trigger Event occurred.

Upon early redemption of the Securities as the result of a Trigger Event, investors will not participate in the performance of the Underlying Asset(s) after the date of such early redemption. Investors in such Securities may incur additional transaction costs as a consequence of reinvesting proceeds received upon any early redemption and the conditions for such reinvestment may be less favourable than the relevant investor's initial investment in the Securities. In addition, if a Trigger Event occurs, no amounts payable under the Securities that would otherwise have been due after the Trigger Redemption Date will be paid.

(f) Warrants

Warrants involve complex risks which may include interest rate, share price, commodity, foreign exchange, inflation, time value and/or political risks. Securityholders should recognise that their Warrants may expire worthless and should be prepared to sustain a total loss of the purchase price of the Warrants. This risk reflects the nature of a Warrant as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires. Assuming all other factors are held constant, the more a Warrant is "out-of-the-money" and the shorter its remaining term to expiration, the greater the risk that the Securityholder will lose some or all of their investment.

The risk of the loss of some or all of the purchase price of a Warrant upon expiration means that, in order to recover and realise a return upon the investment, an investor in a Warrant must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the Underlying Asset(s). With respect to European-style Warrants, the only way in which a Securityholder can realise value from the Warrant prior to the Exercise Date in relation to such Warrant is to sell it at its then market price in an available secondary market.

The Settlement Amount determined in respect of any Warrants exercised at any time prior to expiration is typically expected to be less than the value that can be realised from the Warrants if such Warrants are sold at their then market price in an available secondary market at that time. The difference between the market price value and the determined Settlement Amount will reflect, among other things, a "time value" for the Warrants. The "time value" of the Warrants will depend partly upon the length of the period remaining to expiration and expectations concerning the value of the Underlying Asset(s), as well as by a number of other interrelated factors, including those specified herein.

Before exercising or selling Warrants, Securityholders should carefully consider, among other things, (i) the trading price of the Warrants, (ii) the value and volatility of the Underlying Asset(s), (iii) the time remaining to expiration, (iv) the probable range of Settlement Amounts, (v) any change(s) in interim interest rates and relevant dividend yields, (vi) any change(s) in currency exchange rates, (vii) the depth of the market or liquidity of the securities included in any relevant index and (viii) any related transaction costs.

In the case of the exercise of Warrants, there will be a time lag between the giving by the Securityholder of instructions to exercise and the determination of the Settlement Amount. It could be extended,

particularly if there are limitations on the maximum number of Warrants that may be exercised on one day. The prices or levels of the relevant Underlying Assets could change significantly during such time lag and decrease the Settlement Amount or reduce it to zero.

If so indicated in the relevant Issue Terms, the Issuer may limit the number of Warrants which may have the same Valuation Date (other than on the Expiration Date). In such event, the Valuation Date of Warrants forming the excess over the relevant maximum amount may be postponed.

If so indicated in the relevant Issue Terms, the Issuer may specify a minimum number of Warrants that may be exercised at any one time. Securityholders with fewer than the specified minimum number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. There may be differences between the trading price of such Warrants and the Settlement Amount or the Share Amount (as the case may be) payable under the Warrants.

(g) **A "Participation" factor of over 100 per cent. means that you may participate disproportionately in the performance of the Underlying Asset(s)**

Where the terms and conditions of the Securities provide that the redemption amount or settlement amount or other amount payable (as applicable) in respect of such Securities is based upon the performance of the Underlying Asset(s) and is multiplied by a "Participation" factor which is over 100 per cent., the Securityholder may participate disproportionately in any positive performance and/or may have a disproportionate exposure to any negative performance of the Underlying Asset(s). Due to this leverage effect, such Securities will represent a very speculative and risky form of investment since any loss in the value of the Underlying Asset(s) carries the risk of a correspondingly higher loss.

(h) **A "Participation" factor of less than 100 per cent. means that you will not participate in the full positive performance of the Underlying Asset(s)**

Where the terms and conditions of the Securities provide that the redemption amount or settlement amount or other amount payable (as applicable) in respect of such Securities is based upon the performance of the Underlying Asset(s) and is multiplied by a "Participation" factor which is less than 100 per cent., the Securityholder will not participate fully in the positive performance of the Underlying Asset(s). In such case, the return on the Securities will be lower than any positive performance of the Underlying Asset(s), and may be significantly less than if the Securityholder had purchased the Underlying Asset(s) directly.

(i) **The effect of averaging**

If so provided in the applicable terms and conditions of the Securities, the amount payable (or deliverable) on the Securities (whether at maturity or otherwise) will be based on the average of the applicable levels, prices, rates or other applicable values of the Underlying Asset(s) on each of the specified averaging dates, and not the simple performance of the Underlying Asset(s) over the term of the Securities. For example, if the applicable level, price, rate or other applicable value of the particular Underlying Asset(s) dramatically surged on the last of five averaging dates, the amount payable on the Securities may be significantly less than it would have been had the amount payable been linked only to the applicable level, price, rate or other applicable value of the particular Underlying Asset(s) on that last averaging date.

(j) **Cap**

Where the terms of the Securities provide that the amount payable or deliverable is subject to a cap, your ability to participate in any change in the value of the Underlying Asset(s) (or any change in floating interest rates) will be limited, no matter how much the level, price or other value of the Underlying Asset(s) (or floating interest rates) rises above the cap level over the term of the Securities. Accordingly, the value of or return on the Securities may be significantly less than if Securityholders had purchased the Underlying Asset(s) (or invested in instruments which pay an uncapped floating rate of interest) directly.

(k) **Interest rate risks**

In this Sub-Category the risks of Securities that provide for interest payments based on a fixed rate or a floating rate are set out. The most material risk of Securities that provide for fixed rate interest payments ("**Fixed Rate Securities**") is set out first in the following sub-section (i) and that of Securities that provide for floating rate interest payments ("**Floating Rate Securities**") is set out first in the following sub-section (ii).

(i) *Fixed Rate Securities*

Where Securities bear interest at a fixed rate, subsequent changes in market interest rates may adversely affect the value of the Securities.

(ii) *Floating Rate Securities*

Where interest on Securities is subject to floating rates of interest that will change subject to changes in market conditions, such changes could adversely affect the interest amount(s) received on the Securities. As the interest income on Securities which bear interest at a floating rate will vary, it is not possible to determine a fixed yield on such Securities at the time of investment and to compare the return on investment of such Securities with investments bearing interest at a fixed rate. Further, if the floating rate becomes negative, the resulting rate of interest on the Securities may be less than any positive margin specified to be applicable to the floating rate, or may be zero (or such other minimum rate of interest), as specified in the relevant Issue Terms.

(l) **There are particular risks in relation to Securities denominated in or referencing CNY**

Chinese Renminbi, the lawful currency of the People's Republic of China ("**CNY**") is not freely convertible at present. The government of the People's Republic of China continues to regulate conversion between CNY and foreign currencies despite the significant reduction over the years by such government of its control over routine foreign exchange transactions conducted through current accounts. The People's Bank of China ("**PBOC**") has established a clearing and settlement system pursuant to the Settlement Agreement on the Clearing of CNY Business between PBOC and Bank of China (Hong Kong) Limited. However, the current size of CNY and CNY denominated financial assets in Hong Kong is limited, and its growth is subject to many constraints imposed by the laws and regulations of the People's Republic of China on foreign exchange.

No assurance can be given that access to CNY funds for the purposes of making payments under the Securities or generally will remain available or will not become restricted. The value of CNY against foreign currencies fluctuates and is affected by changes in the People's Republic of China and international political and economic conditions and by many other factors. As a result, foreign exchange fluctuations between a purchaser's home currency and CNY may affect purchasers who intend to convert gains or losses from the sale or redemption of the Securities into their home currency.

Developments and the perception of risks in other countries, especially emerging market countries, may adversely affect the exchange rate of CNY into other currencies and therefore the value of Securities denominated in or referencing CNY.

(m) **Risks associated with "Drop Back" products**

If the relevant Issue Terms specifies that "Single Factor Drop Back" or "Basket Drop Back" is applicable, the Securities will initially only provide a partial exposure to the Underlying Asset(s) and such exposure will only be increased in a staggered way, subject to the performance of the Underlying Asset(s). Securityholders may therefore not be fully exposed to the performance of the Underlying Asset(s) throughout the term of the Securities and, even though investors will receive a return on the "cash portion" of the investment, the overall return on the Securities may be significantly less than if a Securityholder had purchased the Underlying Asset(s) directly.

Exposure to the performance of the Underlying Asset(s) will increase on a staggered basis as the level of the Underlying Asset(s) falls, increasing Securityholders' exposure to the Underlying Asset(s) in falling

market conditions. This feature may have an adverse effect on the amounts payable under the Securities and Securityholders could therefore lose some or all of their initial investment.

5. Risks in connection with the Underlying Assets or Reference Rates (Risk Category 5)

In this Risk Category 5 the specific risks in connection with (i) the Underlying Asset(s) that the Securities may be linked to and (ii) the Reference Rate(s) by reference to which amounts payable under the Securities may be determined are described. This risk category is divided into Sub-Categories. Within each Sub-Category in the following sub-sections (a) to (r) the most material risk is specified first.

(a) Risks associated with Shares (including Depositary Receipts and stapled shares)

In this Sub-Category the specific risks of Shares (including Depositary Receipts and stapled shares) that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of Shares may adversely affect the value of Securities*) is the most material risk associated with Shares (including Depositary Receipts and stapled shares).

(i) *Factors affecting the performance of Shares may adversely affect the value of Securities*

The performance of a Share is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. Any of these factors affecting the performance of Shares may in turn adversely affect the market value of and return on the Securities that are linked to such Shares (including Depositary Receipts and stapled shares).

(ii) *Actions by the issuer of a Share may adversely affect the Securities*

The issuer of a Share will have no involvement in the offer and sale of the Securities and will have no obligation to any Securityholder. The issuer of a Share may take any actions in respect of such Share without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of and return on the Securities.

(iii) *Determinations made by the Issuer in respect of Potential Adjustment Events and Extraordinary Events may have an adverse effect on the value of the Securities*

The adjustment events referred to in section 3(a) (*Risks in connection with redemption of the Securities at the Unscheduled Termination Amount*) include, in respect of Shares, Potential Adjustment Events and Extraordinary Events. Potential Adjustment Events include (A) a subdivision, consolidation or re-classification of Shares, (B) an extraordinary dividend, (C) a call of Shares that are not fully paid-up, (D) a repurchase by the Share issuer, or an affiliate thereof, of the Shares, (E) a separation of rights from Shares, (F) any event having a dilutive or concentrative effect on the value of Shares, or (G) the amendment or supplement to the terms of the deposit agreement in respect of Shares which are Depositary Receipts. Extraordinary Events include (1) a delisting of Shares on an exchange, (2) an insolvency or bankruptcy of the issuer of the Shares, (3) a merger event entailing the consolidation of Shares with those of another entity, (4) a nationalisation of the issuer of the Shares or transfer of Shares to a governmental entity, or (5) a tender offer or takeover offer that results in transfer of Shares to another entity.

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to a Share or Share issuer, the Issuer has discretion to make certain determinations to account for such event including to (aa) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (bb) (in the case of an Extraordinary Event) (x) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (y) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the

Securities. Following a determination by the Issuer in accordance with (bb)(x) or (bb)(y), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(iv) *Loss of return of dividends in respect of most Securities linked to Shares*

Unless the terms and conditions of the Securities specify otherwise, holders of such Securities in respect of which an Underlying Asset is a Share will not participate in dividends or other distributions paid on such Share. Therefore, the return on such Securities will not reflect the return a Securityholder would have realised had it actually owned such Shares and received the dividends in respect of them.

(v) *Additional risks associated with Securities linked to Depositary Receipts as Underlying Assets*

Since a depositary receipt is a security that represents the shares of the relevant Share Issuer, the risks associated with Securities linked to Shares described in the sections immediately above apply equally to Securities linked to Depositary Receipts. In addition the following additional risks apply.

(A) *Exposure to risk of non-recognition of beneficial ownership*

The legal owner of shares underlying the Depositary Receipts is the custodian bank which at the same time is the issuing agent of the Depositary Receipts. Depending on the jurisdiction under which the Depositary Receipts have been issued and the jurisdiction to which the custodian agreement is subject, it cannot be ruled out that the corresponding jurisdiction does not recognise the purchaser of the Depositary Receipts as the actual beneficial owner of the underlying shares. Particularly in the event that the custodian becomes insolvent or that enforcement measures are taken against the custodian, it is possible that an order restricting free transfer is issued with respect to the shares underlying the Depositary Receipts or that these shares are realised within the framework of an enforcement measure against the custodian. If this is the case, a holder of such Depositary Receipt loses any rights under the underlying shares represented by the Depositary Receipt, and this would in turn have an adverse effect on Securities with such Depositary Receipt as an Underlying Asset.

(B) *Exposure to risk of non-distributions*

The issuer of the underlying shares may make distributions in respect of their shares that are not passed on to the purchasers of its Depositary Receipts, which can affect the value of the Depositary Receipts and this would in turn have an adverse effect on Securities with such Depositary Receipt as an Underlying Asset.

(vi) *Additional risks associated with Securities linked to stapled shares*

The risks described in the sections immediately above also apply to Component Shares or, as the case may be, Component Share Issuers and should be read as if references to "Share(s)" or "Share Issuer(s)" were references to "Component Share(s)" or "Component Share Issuer(s)".

A stapled share comprises a number of Component Shares and is traded on the relevant Exchange as if it were a single security. Each of the Component Shares may not be traded or transferred separately. Stapled share structures can be complex and any distributions payable may be made up of several components with different tax, legal or other consequences. There may be limited liquidity in a stapled share in the secondary market. These factors may all affect the value of a stapled share, and in turn, may adversely affect the value of and return on the Securities with such stapled share as an Underlying Asset.

(b) **Risks associated with Equity Indices**

In this Sub-Category the specific risks of Equity Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of Indices may adversely affect the value of and return on the Securities*) is the most material risk associated with Equity Indices.

- (i) *Factors affecting the performance of Indices may adversely affect the value of and return on the Securities*

Indices are comprised of a synthetic portfolio of shares or other assets, and as such, the performance of an Index is dependent upon the macroeconomic factors relating to the shares or other Components that comprise such Index, which may include interest and price levels on the capital markets, currency developments, political factors and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. Any of the factors affecting the performance of Indices may in turn adversely affect the market value of and return on Securities that are linked to Indices.

- (ii) *Returns on Securities will not be the same as a direct investment in futures or options on the Index or in the underlying Components of the Index*

An investment in the Securities linked to Indices is not the same as a direct investment in futures or option contracts on any or all of the relevant Indices nor any or all of the Components included in each Index. In particular, investors will not benefit directly from any positive movements in any Index nor will investors benefit from any profits made as a direct result of an investment in such Index. Accordingly, changes in the performance of any Index may not result in comparable changes in the market value of or return on the Securities linked to such Index.

The rules of an Index might stipulate that dividends distributed on its Components do not lead to a rise in the Index Level, for example, if it is a "price" index. As a result, holders of Securities linked to such Index would lose the benefit of any dividends paid by the Components of the Index and such Securities would not perform as well as a position where such holder had invested directly in such Components or where they invested in a "total return" version of the Index. Even if the rules of the relevant underlying Index provide that distributed dividends or other distributions of the Components are reinvested in the Index and therefore result in raising its level, in some circumstances the dividends or other distributions may not be fully reinvested in such Index. Consequently, investors in Securities that are linked to an Index that is a price index should note that dividends paid by the Components of the Index will not raise the level of the Index. Similarly, investors in Securities that are linked to an Index that is a total return index should note that under certain circumstances not all of the dividends paid by a Component of the Index might be reinvested and therefore such dividends will not fully contribute to a rise in the level of the Index.

- (iii) *Occurrence of Index Cancellation or Administrator/Benchmark Event*

If the Issuer determines that an Index Cancellation or an Administrator/Benchmark Event has occurred in respect of an Index, and if an Alternative Pre-nominated Index has been specified in respect of such Index in the relevant Issue Terms, the Issuer shall (A) replace such Index with the relevant Alternative Pre-nominated Index, and (B) determine an Adjustment Payment that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of such Index with the relevant Alternative Pre-nominated Index, and shall make the necessary adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. Such Adjustment Payment may reduce the amount(s) payable to Securityholders under the Securities. There is also no assurance that the relevant Alternative Pre-nominated Index will perform in the same way as the Index being replaced.

If no Alternative Pre-nominated Index has been specified in respect of such Index in the relevant Issue Terms, then an Index Adjustment Event will be deemed to occur (see risk factor 5(b)(iv) (*Occurrence of Index Adjustment Events*) below).

(iv) *Occurrence of Index Adjustment Events*

Upon determining that an Index Adjustment Event has occurred in relation to an Index (or an Administrator/Benchmark Event has occurred in respect of a Component of an Index), the Issuer has the discretion to make certain determinations and adjustments to account for such event including to (A) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (B) if the Issuer determines that such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders, or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the necessary calculations, the Issuer may select an Alternative Post-nominated Index to replace such Index. However, if the Issuer is unable to select an Alternative Post-nominated Index or determine an Adjustment Payment, or if the Issuer is able to select an Alternative Post-nominated Index and determine an Adjustment Payment but determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (1) or (2), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

Please refer to the risk factor in sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*).

(c) **Risks associated with Commodities and Commodity Indices**

In this Sub-Category the specific risks of Commodities and Commodity Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of Commodities and Commodity Indices may adversely affect the value of Securities*) is the most material risk associated with Commodities and Commodity Indices.

(i) *Factors affecting the performance of Commodities and Commodity Indices may adversely affect the value of Securities*

Trading in commodities may be extremely volatile. Commodity prices are affected by a variety of factors that are unpredictable including, for example, changes in supply and demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes and changes in interest and exchange rates. Commodities markets may be subject to temporary distortions or other disruptions due to various factors, including lack of liquidity, the participation of entities who are neither end-users or producers and government regulation and intervention. The current or "spot" prices of physical commodities may also affect, in a volatile and inconsistent manner, the prices of futures contracts in respect of a commodity.

Certain emerging market countries – such as China – have become very significant users of certain commodities. Therefore, economic developments in such jurisdictions may have a disproportionate impact on demand for such commodities.

Certain commodities may be produced in a limited number of countries and may be controlled by a small number of producers. Therefore, developments in relation to such countries or producers could have a disproportionate impact on the prices of such commodities.

In summary, commodity prices may be more volatile than other asset classes and investments in commodities may be riskier than other investments. Any of the circumstances described in

this section could adversely affect prices of the relevant commodity, and therefore sharply reduce the market value of and return on any Securities linked to such commodity.

- (ii) *Suspension or disruptions of market trading in Commodities and related futures contracts may adversely affect the value of and return on the Securities*

The commodity markets are subject to temporary distortions or other disruptions due to various factors, including the lack of liquidity in the markets and government regulation and intervention. In addition, U.S. futures exchanges and some foreign exchanges have regulations that limit the amount of fluctuation in contract prices which may occur during a single business day. These limits are generally referred to as "daily price fluctuation limits" and the maximum or minimum price of a contract on any given day as a result of these limits is referred to as a "limit price". Once the limit price has been reached in a particular contract, trading in the contract will follow the regulations set forth by the trading facility on which the contract is listed. Limit prices may have the effect of precluding trading in a particular commodity contract, which could adversely affect the value of a Commodity or a Commodity Index and, therefore, the value of and return on any Securities linked to such Commodity or Commodity Index.

- (iii) *Legal and regulatory changes*

Commodities are subject to legal and regulatory regimes that may change in ways that could affect the ability of the Issuer and/or any of its affiliates to hedge the Issuer's obligations under the Securities. Such legal and regulatory changes could lead to the early redemption of the Securities or to the adjustment of the terms and conditions of the Securities. Commodities are subject to legal and regulatory regimes in the United States and, in some cases, in other countries that may change in ways that could adversely affect the value of the Securities.

The Dodd-Frank Act includes numerous provisions relating to the regulation of the futures and OTC derivative markets. The Dodd-Frank Act requires regulators, including the Commodity Futures Trading Commission (the "**CFTC**"), to adopt regulations in order to implement many of the requirements of the legislation. While the CFTC has adopted many of the final regulations and has proposed certain others, the ultimate nature and scope of all potentially relevant regulations cannot yet be determined. Under the Dodd-Frank Act, the CFTC has re-proposed a rule to impose limits on the size of positions that can be held by market participants in futures and OTC derivatives on physical commodities, after the prior version of such rule was struck down by a U.S. Federal court. While the comment period for such rule has expired, it is unclear when such rule will actually take effect, or if there will be any further changes to the version as re-proposed. In addition, the CFTC has made certain changes to the regulations that may subject certain transactions utilizing swaps to regulation as "commodity pools", unless an exemption from registration is available. There is only limited interpretive guidance as to the precise meaning, scope and effect of many such regulations. Further, the U.S. Congress is considering further legislation, generally intended to "scale back" the scope of certain Dodd-Frank regulations. It is not possible to predict the ultimate scope of such legislation, whether or not it ultimately becomes a law and the date(s) from which its provisions will apply.

In 2017, U.S. Regulators (including Federal Reserve) issued final rules designed to improve the resolvability of U.S. headquartered G-SIBs and the U.S. operations of non-U.S. G-SIBs. The Federal Reserve's rule applies to the U.S. subsidiaries, branches and agencies of Credit Suisse ("**CS Covered Entities**"). In addition, the rule requires CS Covered Entities to modify their Qualified Financial Contracts ("**QFCs**") to obtain agreement of counterparties that (a) their QFCs are subject to the stays on early termination rights under the Orderly Liquidation Authority and the Federal Deposit Insurance Act, which is similar to requirements introduced in other jurisdictions to which we are already subject, and (b) certain affiliate-linked default rights would be limited or overridden if an affiliate of the G-SIB entered proceedings under the U.S. Bankruptcy Code or other insolvency or resolution regimes. A QFC is broadly defined to cover a wide variety of financial transactions, including without limitation swaps and other derivatives, repos and reverse repos, securities lending and borrowing transactions, contracts for the purchase and/or sale of securities, CDOs or mortgage loans, commodities contracts, forward contracts, certain spot transactions, guarantees or credit support enhancements related to the foregoing. The rule also requires that CS Covered Entities ensure that all future QFCs comply with the rules, or to cease transacting with the entire counterparty corporate family group.

Covered QFCs must be conformed to the rules' requirements starting 1 January 2019, with full compliance by 1 January 2020. ISDA has developed the 2018 U.S. Resolution Stay Protocol (the "**U.S. Resolution Stay Protocol**") to facilitate compliance with the final rules. In order to permit the continued ability of the Issuer to transact with CS Covered Entities, it is expected that the Issuer will adhere to the U.S. Resolution Stay Protocol, which will amend QFCs entered into between CS Covered Entities and the Issuer. The U.S. Resolution Stay Protocol overrides certain cross-default rights and certain other rights related to the entry of a CS Covered Entity or certain of its affiliates into certain resolution proceedings, subject to certain conditions. U.S. Regulators have indicated that adherence to the U.S. Resolution Stay Protocol is an acceptable means to satisfy the rule's requirements. Adhering to the U.S. Resolution Stay Protocol may limit the right of the Issuer on behalf of the Securityholders to exercise its rights under any QFC against a swap counterparty that is a CS Covered Entity.

While the full impact of such regulations is not yet known, these regulatory changes are likely to restrict the ability of market participants to participate in the commodity, future and swap markets and markets for other OTC derivatives on physical commodities to the extent and at the levels that they have in the past. These factors may have the effect of reducing liquidity and increasing costs in these markets as well as affecting the structure of the markets in other ways. In addition, these legislative and regulatory changes are likely to further increase the level of regulation of markets and market participants, and therefore the costs of participating in the commodities, futures and OTC derivative markets. Amongst other things, these changes require many OTC derivative transactions to be executed on regulated exchanges or trading platforms and cleared through regulated clearing houses. Swap dealers are required to be registered with the CFTC and, in certain cases, the SEC, and are subject to various regulatory requirements, including capital and margin requirements. In addition, the CFTC and certain other U.S. regulatory authorities have adopted rules with respect to the posting and collecting of initial and variation margin, which will apply to many derivative transactions that are not cleared on a regulated exchange or trading platform. In general, the required margin levels for such uncleared derivatives is higher than would apply if such transaction were centrally cleared. While such rules are being phased in over time, they are already applicable in respect of derivative exposures in excess of specified amounts. The various legislative and regulatory changes, and the resulting increased costs and regulatory oversight requirements, could result in market participants being required to, or deciding to, limit their trading activities, which could cause reductions in market liquidity and increases in market volatility. These consequences could adversely affect the prices of commodities, which could in turn adversely affect the return on and value of the Securities. The adoption of any changes in law, which may include (but not be limited to) position limit regulations and other measures which may interfere with the ability of the Issuer (or any of its affiliates) to hedge its obligations under the Securities, may result in the occurrence of a "Change in Law" or a "Hedging Disruption", each of which is an Additional Disruption Event in respect of Commodity-linked Securities and Commodity Index-linked Securities (see risk factor in section 3(f) above (*Occurrence of Additional Disruption Events*)).

Directive 2014/65/EU on Markets in Financial Instruments (as amended, varied or replaced from time to time) ("**MiFID II**") and the Markets in Financial Instruments Regulation ("**MiFIR**") impose a number of key changes aimed at reducing systemic risk, combating disorderly trading and reducing speculative activity in commodity derivatives markets through the imposition of new position limits and management powers by trading venues and national regulators and the grant of additional intervention powers to ESMA. These applied from 3 January 2018 and could have an adverse effect on the prices of commodities and the return on and value of the Securities.

The European Market Infrastructure Regulation (Regulation (EU) No 648/2012) ("**EMIR**") requires mandatory clearing of certain OTC derivative contracts, reporting of derivatives and risk mitigation techniques (including margin requirements) for uncleared OTC derivative contracts. EMIR will likely impact a number of market participants and may increase the cost of transacting certain derivatives. As and when implementing measures in relation to this regulation are adopted or if other regulations or implementing measures in relation to these regulations are adopted in the future, they could have an adverse impact on the price of a commodity or the level of a commodity index, and the value of and return on the Securities.

- (iv) *Future prices of commodities within a Commodity Index that are different relative to their current prices may result in a reduced amount payable or deliverable upon redemption or exercise*

Commodity contracts have a predetermined expiration date – a date on which trading of the commodity contract ceases. Holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. Alternatively, "rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "near-dated" commodity contracts) are sold before they expire and commodity contracts that have an expiration date further in the future (the "longer-dated" commodity contracts) are purchased. Investments in commodities apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities.

If the market for a commodity contract is in "backwardation", then the price of the longer-dated commodity contract is lower than in the near-dated commodity contract. The rolling therefore from the near-dated commodity contract to the longer-dated commodity contract creates a "roll yield", the amount of which will depend on the amount by which the unwind price of the former exceeds the spot price of the latter at the time of rolling. Conversely, if the market for a commodity contract is in "contango", then the price of the longer-dated contract is higher than the near-dated commodity contract. This could result in negative "roll yields".

As a result of rollover gains/costs that have to be taken into account within the calculation of such indices and under certain market conditions, such indices may outperform or underperform the underlying commodities contained in such indices. Furthermore, the prices of the underlying commodities may be referenced by the price of the current futures contract or active front contract and rolled into the following futures contract before expiry.

The value of Securities linked to a Commodity Index is, therefore, sensitive to fluctuations in the expected futures prices of the relevant commodities contracts comprising such Commodity Index. A Commodity Index may outperform or underperform its underlying commodities. In a "contango" market, this could result in negative "roll yields" which, in turn, could reduce the level of such Commodity Index and, therefore, have an adverse effect on the value of and return on the Securities.

- (v) *Commodity Indices may include contracts that are not traded on regulated futures exchanges*

Commodity Indices are typically based solely on futures contracts traded on regulated futures exchanges. However, a Commodity Index may include over-the-counter contracts (such as swaps and forward contracts) traded on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. As a result, trading in such contracts, and the manner in which prices and volumes are reported by the relevant trading facilities, may not be subject to the provisions of, and the protections afforded by, for example, the U.S. Commodity Exchange Act of 1936, or other applicable statutes and related regulations that govern trading on regulated U.S. futures exchanges, or similar statutes and regulations that govern trading on regulated UK futures exchanges. In addition, many electronic trading facilities have only recently initiated trading and do not have significant trading histories. As a result, the trading of contracts on such facilities, and the inclusion of such contracts in a Commodity Index, may be subject to certain risks not presented by, for example, U.S. or UK exchange-traded futures contracts, including risks related to the liquidity and price histories of the relevant contracts.

- (vi) *A change in the composition or discontinuance of a Commodity Index could adversely affect the market value of and return on the Securities*

The sponsor of a Commodity Index can add, delete or substitute the Components of such Commodity Index or make other methodological changes that could change the level of one or more Components. The changing of Components of any Commodity Index may affect the level of such Commodity Index as a newly added Component may perform significantly worse or better than the Component it replaces, which in turn may adversely affect the value of and return on the Securities. The sponsor of a Commodity Index may also alter, discontinue or suspend calculation or dissemination of such Commodity Index. The sponsor of a Commodity Index will have no involvement in the offer and sale of the Securities and will have no obligation to any

investor in such Securities. The sponsor of a Commodity Index may take any actions in respect of such Commodity Index without regard to the interests of investors in the Securities, and any of these actions could adversely affect the value of and return on the Securities.

(vii) *Continuation of calculation of Commodity Index Level upon the occurrence of a disruption event in relation to a Component*

If a disruption event occurs with respect to any Component included in a Commodity Index, the adjustment provisions included in the terms and conditions of the Securities will apply, including the determination by the Issuer of the value of the relevant disrupted Component and, in turn, the value of such Commodity Index on the date specified in such Securities. However, regardless of the disruption event, the sponsor of the Commodity Index may continue to calculate and publish the level of such Commodity Index. In such circumstances, investors in the Securities should be aware that the value of the Commodity Index determined by the Issuer upon the occurrence of a disruption event may not reflect the value of the Commodity Index as calculated and published by the sponsor of such Commodity Index for the relevant valuation date, nor would the Issuer be willing to settle, unwind or otherwise use any such published value while a disruption event is continuing with respect to any Component included in a Commodity Index. Any of these actions could have an adverse effect on the value of and return on the Securities.

(viii) *Occurrence of Administrator/Benchmark Event in respect of a Relevant Benchmark*

If the Issuer determines that an Administrator/Benchmark Event has occurred in respect of a Relevant Benchmark, the relevant disruption fallbacks will apply in the order specified, provided that if it would be unlawful or would contravene applicable licensing requirements for the Issuer or the Calculation Agent to perform the actions prescribed in an applicable disruption fallback, the next applicable disruption fallback will apply.

If the last applicable disruption fallback does not provide a Relevant Price, then the Issuer may (A) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (B) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (A) or (B), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(ix) *Occurrence of Commodity Index Cancellation or Administrator/Benchmark Event in respect of a Commodity Index*

If the Issuer determines that a Commodity Index Cancellation or an Administrator/Benchmark Event has occurred in respect of a Commodity Index, and if an Alternative Pre-nominated Commodity Index has been specified in respect of such Commodity Index in the relevant Issue Terms, the Issuer shall (A) replace such Commodity Index with the relevant Alternative Pre-nominated Commodity Index, and (B) determine an Adjustment Payment that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of such Commodity Index with the relevant Alternative Pre-nominated Commodity Index, and shall make the necessary adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. Such Adjustment Payment may reduce the amount(s) payable to Securityholders under the Securities. There is also no assurance that the relevant Alternative Pre-nominated Commodity Index will perform in the same way as such Commodity Index being replaced.

If no Alternative Pre-nominated Commodity Index has been specified in respect of such Commodity Index in the relevant Issue Terms, then a Commodity Index Adjustment Event will be deemed to occur (see risk factor 5(c)(x) (*Occurrence of Commodity Index Adjustment Events*)) below.

(x) *Occurrence of Commodity Index Adjustment Events*

Upon determining that a Commodity Index Adjustment Event has occurred in relation to a Commodity Index (or an Administrator/Benchmark Event has occurred in respect of a Component of a Commodity Index), the Issuer has the discretion to make certain determinations and adjustments to account for such event including to (A) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (B) if the Issuer determines that such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders, or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the necessary calculations, the Issuer may select an Alternative Post-nominated Commodity Index to replace such Commodity Index. However, if the Issuer is unable to select an Alternative Post-nominated Commodity Index or determine an Adjustment Payment, or if the Issuer is able to select an Alternative Post-nominated Commodity Index and determine an Adjustment Payment but determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (1) or (2), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

Please refer to the risk factor in sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*).

(d) **Risks associated with foreign exchange rates and FX Indices**

In this Sub-Category the specific risks of currency exchange rates and FX Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of and return on the Securities*) is the most material risk associated with currency exchange rates and FX Indices.

(i) *Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of and return on the Securities*

The performance of foreign exchange rates, currency units or units of account are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the market value of and return on the Securities.

(ii) *Currency exchange risks are likely to be heightened in periods of financial uncertainty*

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of the crisis than others with sudden and severely adverse consequences to the currencies of those regions. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to exchange rates. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets - including the replacement of entire currencies with new currencies - may cause currency exchange rates to fluctuate sharply in the future, which could have a negative impact on the value of and return on the Securities.

(iii) *Occurrence of Administrator/Benchmark Event in respect of a Relevant Benchmark*

If the Issuer determines that an Administrator/Benchmark Event has occurred in respect of a Relevant Benchmark, the relevant disruption fallbacks will apply in the order specified, provided that if it would be unlawful or would contravene applicable licensing requirements for the Issuer or the Calculation Agent to perform the actions prescribed in an applicable disruption fallback, the next applicable disruption fallback will apply.

If the last applicable disruption fallback does not provide an FX Rate, then the Issuer may (A) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (B) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (A) or (B), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(iv) *Occurrence of FX Index Cancellation or Administrator/Benchmark Event in respect of an FX Index*

If the Issuer determines that an FX Index Cancellation or an Administrator/Benchmark Event has occurred in respect of an FX Index, and if an Alternative Pre-nominated FX Index has been specified in respect of such FX Index in the relevant Issue Terms, the Issuer shall (A) replace such FX Index with the relevant Alternative Pre-nominated FX Index, and (B) determine an Adjustment Payment that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of such FX Index with the relevant Alternative Pre-nominated FX Index, and shall make the necessary adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. Such Adjustment Payment may reduce the amount(s) payable to Securityholders under the Securities. There is also no assurance that the relevant Alternative Pre-nominated FX Index will perform in the same way as such FX Index being replaced.

If no Alternative Pre-nominated FX Index has been specified in respect of such FX Index in the relevant Issue Terms, then an Index Adjustment Event will be deemed to occur (see risk factor 5(d)(v) (*Occurrence of Index Adjustment Events*) below).

(v) *Occurrence of Index Adjustment Events*

Upon determining that an Index Adjustment Event has occurred in relation to an FX Index (or an Administrator/Benchmark Event has occurred in respect of a Component of an FX Index), the Issuer has discretion to make certain determinations and adjustments to account for such event including to (A) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (B) if the Issuer determines that such adjustments would not achieve a commercially reasonable result, or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the necessary calculations, the Issuer may select an Alternative Post-nominated FX Index to replace such FX Index. However, if the Issuer is unable to select an Alternative Post-nominated FX Index or determine an Adjustment Payment, or if the Issuer is able to select an Alternative Post-nominated FX Index and determine an Adjustment Payment but determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (1) or (2), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

Please refer to the risk factor in sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*).

(e) **Risks associated with ETFs**

In this Sub-Category the specific risks of ETFs that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of ETFs may adversely affect the value of Securities*) is the most material risk associated with ETFs.

(i) *Factors affecting the performance of ETFs may adversely affect the value of Securities*

The performance of ETFs is dependent upon the performance of a portfolio of assets which they track. As a result, the performance of an ETF is dependent upon macroeconomic factors affecting the performance of such assets, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. Any of these factors affecting the performance of the assets within such portfolio may in turn adversely affect the market value of and return on the Securities that are linked to such ETFs.

- (ii) *Where the Underlying Asset is an ETF, there is a risk that an ETF will not accurately track its underlying asset(s) or index*

Where the Securities are linked to an ETF and the investment objective of such ETF is to track the performance of one or more underlying assets or an index, the investors of such Securities are exposed to the performance of such ETF rather than the underlying asset(s) or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to accurately track the underlying asset(s) or the constituent securities of the underlying index, which could give rise to a difference between the performance of the underlying asset(s) or index and such ETF. Accordingly, investors who purchase Securities that are linked to an ETF may receive a lower return than if such investors had invested directly in the asset(s) or the components of the index underlying such ETF.

- (iii) *Action by Fund Adviser, Fund Administrator or sponsor of an ETF may adversely affect the Securities*

The Fund Adviser, Fund Administrator or sponsor of an ETF will have no involvement in the offer and sale of the Securities and will have no obligation to any investor in such Securities. The Fund Adviser, Fund Administrator or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of and return on the Securities.

- (iv) *An ETF may involve varying levels of risk depending on the tracking strategy and/or technique employed by the Fund Adviser or the Fund Administrator*

The Fund Adviser or the Fund Administrator of an ETF may use certain tracking strategies or techniques to track the performance of the underlying asset(s) or index, such as full replication (i.e. direct investment in all components included in the underlying share), synthetic replication (such as a swap) or other techniques such as sampling.

An ETF may involve varying levels of risk depending on the tracking strategy and/or techniques employed by the Fund Adviser or the Fund Administrator. For example, an ETF using full replication or synthetic replication techniques may be exposed to an unlimited risk of the negative performance of the underlying asset(s) or index. In addition, such ETF may not be able to acquire all components of the underlying asset(s) or index or sell them at reasonable prices. This may affect the ETF's ability to replicate the underlying asset(s) or index and may have a negative impact on the performance of the ETF. ETFs which use swaps for synthetic replication of the underlying asset(s) or index may be exposed to the risk of default of their swap counterparties. An ETF which uses sampling techniques may create portfolios of assets which may comprise only some of the components of the underlying asset(s) or index. Therefore the risk profile of such ETF may not be consistent with the risk profile of the underlying asset(s) or index. The risks that exist at the level of the ETF in respect of the ETF's underlyings and/or swap counterparties may have a negative impact on the performance of the ETF and may therefore also have a negative impact on the amount(s) payable to Securityholders under the Securities.

- (v) *Determinations made by the Issuer in respect of Potential Adjustment Events and Extraordinary Events may have an adverse effect on the value of and return on the Securities*

The adjustment events referred to in section 3(a) above (*Risks in connection with redemption of the Securities at the Unscheduled Termination Amount*) include, in respect of ETF Shares, Potential Adjustment Events and Extraordinary Events. Potential Adjustment Events include (A) a sub-division, consolidation or re-classification of ETF Shares, (B) an extraordinary dividend, (C) a repurchase by the ETF of the ETF Shares, (D) any event having a dilutive or concentrative effect on the value of the ETF Shares, or (E) the amendment or supplement to the terms of the deposit agreement in respect of ETF Shares which are Depositary Receipts. Extraordinary Events include (1) a delisting of ETF Shares on an exchange, (2) a merger event entailing the consolidation of ETF Shares with those of another entity, (3) a nationalisation of the ETF or transfer of ETF Shares to a governmental entity, or (4) a tender offer or takeover offer that results in transfer of ETF Shares to another entity.

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to an underlying ETF Share or ETF, the Issuer has the discretion to make certain determinations to account for such event including to (aa) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (bb) (in the case of an Extraordinary Event) (x) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (y) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (bb)(x) or (bb)(y), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(f) **Risks associated with ETCs**

In this Sub-Category the specific risks of ETCs that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (Factors affecting the performance and value of ETCs may adversely affect the value of Securities) is the most material risk associated with ETCs.

(i) *Factors affecting the performance and value of ETCs may adversely affect the value of Securities*

ETCs are secured, limited recourse debt securities issued by a special purpose vehicle established for the purposes of issuing asset backed securities (the "**ETC Issuer**") which are listed on a stock exchange or market. ETCs provides investment exposure to an underlying precious metal or other commodity and are valued based on the price of the reference commodity. The ETC Issuer holds the reference commodity through a custodian and each ETC security has a commodity "entitlement", which is the amount of the reference commodity backing such security. The daily value of each ETC is calculated based on the value of its daily commodity entitlement (which is adjusted to take account of relevant operating fees). The return on the ETC is therefore directly related to the volatility and price of the relevant commodity, which fluctuates daily and is dependent on factors such as changes in supply and demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes, changes in interest and exchange rates. In addition, where the reference commodity market is a precious metal, the price of such ETCs will also be affected by factors such as the value and volatility of the relevant underlying precious metal, the value and volatility of metals in general, market perception, the creditworthiness of certain key service providers of the relevant ETC and liquidity in such ETC on the secondary market.

Certain emerging market countries – such as China – have become very significant users of certain commodities, including precious metals. Therefore, economic developments in such jurisdictions may have a disproportionate impact on demand for such commodities.

Certain commodities, including precious metals, may be produced in a limited number of countries and may be controlled by a small number of producers. Therefore, developments in relation to such countries or producers could have a disproportionate impact on the prices of such commodities.

In summary, prices of commodities (including precious metals) may be more volatile than other asset classes and investments in ETCs linked to such commodities may be riskier than other investments. Any of the circumstances described in this section could adversely affect prices of the relevant commodity and related ETCs, and therefore sharply reduce the market value of and return on any Securities linked to ETCs.

- (ii) *Where the Underlying Asset is an ETC, there is a risk that the ETC will not accurately track the price of its reference commodity*

The market price at which ETCs trade on any stock exchange may not reflect accurately the price of the underlying reference commodity as this will also be affected by, among other things, the supply and demand for the relevant ETCs. Supply and demand may be affected by authorised participants requesting the relevant ETC Issuer to either issue more of the relevant ETCs (where there is high demand) or buy-back the relevant ETCs (where there is low demand). Accordingly, changes in the performance of the ETC or the underlying precious metal may not result in comparable changes in the market value of or return on the Securities.

- (iii) *Actions by the issuer of an ETC may adversely affect the Securities*

The issuer of an ETC will have no involvement in the offer and sale of the Securities and will have no obligation to any Securityholders. The issuer of an ETC may take any actions in respect of such ETC without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of and return on the Securities.

- (iv) *Operating fees*

The commodity entitlement in respect of an ETC may be decreased periodically to account for operating fees in relation to such ETC. There can be no assurance that the performance of the reference commodity for such ETC will exceed the total amount of such fees and this may, in turn adversely affect the market value of and return on the Securities.

- (v) *Determinations made by the Issuer in respect of Potential Adjustment Events and Extraordinary Events relating to the ETC may have an adverse effect on the value of the Securities*

The adjustment events in respect of the ETC include Potential Adjustment Events and Extraordinary Events. The Potential Adjustment Events include (a) any amendment to the terms and conditions of the ETC or (b) any other event that may have a diluting or concentrating effect on the theoretical value of the ETC. Extraordinary Events include (a) a delisting of the ETC on an exchange, (b) an insolvency of the ETC Issuer, (c) the ETC Issuer, the trustee or other key service providers of the ETC become subject to any investigation, proceeding or litigation for the alleged violation of applicable laws, (d) a material modification of the terms and conditions of the ETC, (e) a material change to the commodity to which the ETC is linked, (f) a change to the currency in which the ETC is denominated, or (g) any event that may result in the early redemption of the ETC.

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to the ETC or the ETC Issuer, the Issuer has discretion to make certain determinations to account for such event including to (aa) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (bb) (in the case of an Extraordinary Event) (x) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (y) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (bb)(x) or (bb)(y), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

- (g) **Risks associated with Inflation Indices**

In this Sub-Category the specific risks of Inflation Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting Inflation Indices*) is the most material risk associated with Inflation Indices.

(i) *Factors affecting Inflation Indices*

The performance of Inflation Indices is dependent upon a number of factors, including the development of the real yield under interest bearing securities. Such factors affecting the performance of the Inflation Index may adversely affect the market value of and return on the Securities.

(ii) *The level of an Inflation Index may lag or otherwise not track the actual level of inflation in the relevant jurisdiction*

Inflation Indices may not correlate with other indices and may not correlate perfectly with the rate of inflation experienced by investors in the Securities in such jurisdiction. The value of the Securities which are linked to an Inflation Index may be based on a calculation made by reference to such Inflation Index for a month which is several months prior to the date of payment on the Securities and therefore could be substantially different from the level of inflation at the time of the payment on the Securities.

(iii) *Exposure to certain events in relation to an Inflation Index and the discretion of the Issuer*

Upon the occurrence of certain events in relation to an Inflation Index – e.g., the Inflation Index Level has not been published or is discontinued or is corrected or such Inflation Index is rebased or materially modified – then, depending on the particular event, the Issuer has discretion to (A) determine the level, (B) substitute the original Inflation Index, (C) adjust the terms and conditions of the Securities (without the consent of Securityholders), or (D) (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (D)(1) or (D)(2), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(h) **Risks associated with Interest Rate Indices**

In this Sub-Category the specific risks of Interest Rate Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting interest rates*) is the most material risk associated with Interest Rate Indices.

(i) *Factors affecting interest rates*

The performance of interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors. Such factors affecting the performance of the relevant interest rate may adversely affect the market value of and return on the Securities.

(ii) *Occurrence of Index Cancellation or Administrator/Benchmark Event*

If the Issuer determines that an Index Cancellation or an Administrator/Benchmark Event has occurred in respect of an Interest Rate Index, and if an Alternative Pre-nominated Interest Rate Index has been specified in respect of such Interest Rate Index in the relevant Issue Terms, the Issuer shall (A) replace such Interest Rate Index with the relevant Alternative Pre-nominated Interest Rate Index, and (B) determine an Adjustment Payment that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of such Interest Rate Index with the relevant Alternative Pre-nominated Interest Rate Index, and shall make the necessary

adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. Such Adjustment Payment may reduce the amount(s) payable to Securityholders under the Securities. There is also no assurance that the relevant Alternative Pre-nominated Interest Rate Index will perform in the same way as such Interest Rate Index being replaced. In the worst case, the Alternative Pre-nominated Interest Rate Index will perform less favourably for the Securityholders thus reducing the amount(s) payable to Securityholders under the Securities.

If no Alternative Pre-nominated Interest Rate Index has been specified in respect of such Index in the relevant Issue Terms, then an Index Adjustment Event will be deemed to occur (see risk factor 5(h)(iii) (*Occurrence of Index Adjustment Events in respect of an Interest Rate Index*) below).

(iii) *Occurrence of Index Adjustment Events in respect of an Interest Rate Index*

Upon determining that an Index Adjustment Event has occurred in relation to an Interest Rate Index, the Issuer has the discretion to make certain determinations and adjustments to account for such event including to (A) make adjustments to the terms of the Securities (without the consent of Securityholders), and/or (B) if the Issuer determines that such adjustments would not achieve a commercially reasonable result, or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the necessary calculations, the Issuer may select an Alternative Post-nominated Interest Rate Index to replace such Interest Rate Index. However, if the Issuer is unable to select an Alternative Post-nominated Interest Rate Index or determine an Adjustment Payment, or if the Issuer is able to select an Alternative Post-nominated Interest Rate Index and determine an Adjustment Payment but determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount (as the case may be). Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (1) or (2), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

Please refer to the risk factor in sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*).

(i) **Risks associated with Reference Rates by reference to which any amount payable under the Securities is determined**

In this Sub-Category the specific risks of Reference Rates by reference to which any amount payable under the Securities is determined are set out. The risk set out under (i) below (*Factors affecting reference rates*) is the most material risk associated with Reference Rates.

(i) *Factors affecting reference rates*

Reference Rates are mainly dependent upon the factors of the supply and demand for credit in the money market, i.e., the rates of interest paid on investments, determined by the interaction of supply of and demand for funds in the money market. The supply and demand in the money market on the other hand is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors, or upon other factors, depending on the specific type of Reference Rate. Factors that are affecting the performance of the Reference Rate(s) may adversely affect the market value of, and return (if any) on, the Securities linked thereto.

(ii) *Risks in connection with the determination of reference rates*

The amount(s) payable under the Securities may be determined by reference to one or more Reference Rates, such as the Floating Rate Option used to determine the Rate of Interest in respect of Floating Rate Securities, the Rate of Premium for Securities in respect of which a premium is payable, or any other interest rate, index, benchmark or price source by reference to which any amount payable under the Securities is determined. A Reference Rate (i) may be materially modified, (ii) may be permanently or indefinitely discontinued or may cease to exist, or (iii) may not be used in certain ways by an EU supervised entity if its administrator does not obtain authorisation or registration (subject to applicable transitional provisions) (see sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*)). In the case of (i), no changes will be made to the Securities. In the case of (ii) or (iii), if such Reference Rate is an ISDA Rate or is determined in accordance with Screen Rate Determination, the Issuer shall (in the case of an ISDA Rate, after applying the Priority Fallback(s) specified (if any) in the definition of such ISDA Rate), if no replacement reference rate has been pre-nominated in the relevant Issue Terms, (A) attempt to identify a Replacement Reference Rate that the Issuer determines has been recognised or acknowledged as being the industry standard for transactions which reference the affected Reference Rate to replace the affected Reference Rate (or if there is no industry standard, then the Issuer shall select such other interest rate, index, benchmark or other price source it determines to be an industry standard rate), (B) determine an Adjustment Spread to the Replacement Reference Rate that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the affected Reference Rate with the relevant Replacement Reference Rate, and (C) make the necessary adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. Any such replacement reference rate may reduce the Rate of Interest or Rate of Premium, as the case may be, and in turn, the amount(s) payable under the Securities.

If a determination is required to be made by reference to the affected Reference Rate but the Issuer is unable to identify a Replacement Reference Rate and/or determine an Adjustment Spread on or prior to the second Currency Business Day prior to the date on which payment of any amount specified to be calculated by reference to such affected Reference Rate is scheduled to be paid, and the affected Reference Rate is no longer available, then the Reference Rate shall be determined by reference to the last published rate that can be used in accordance with any applicable law or regulation.

If (i) the Issuer cannot identify a Replacement Reference Rate or determine an Adjustment Spread, (ii) it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the relevant determinations or calculations, (iii) an Adjustment Spread is or would be a benchmark, index or other price source that would subject the Issuer or the Calculation Agent to material additional regulatory obligations, or (iv) the Issuer determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (A) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (B) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount, as the case may be. Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (A) or (B), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(j) **Risks associated with Cash Indices**

In this Sub-Category the specific risks of Cash Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Risk associated with the Reference Rate by*

reference to which the level of the Cash Index is determined) is the most material risk associated with Cash Indices.

- (i) *Risk associated with the Reference Rate by reference to which the level of the Cash Index is determined*

Factors affecting the performance of the Reference Rate by reference to which the level of the Cash Index is determined may adversely affect the performance of the Cash Index and therefore may also adversely affect the value of and return on the Securities. See also risk factor 5(i) (*Risks associated with Reference Rates by reference to which any amount payable under the Securities is determined*) for a description of the risks associated with the Reference Rate by reference to which amounts payable under the Securities are determined.

- (ii) *Occurrence of Reference Rate Event*

The Reference Rate by reference to which the level of the Cash Index is determined (A) may be materially modified, (B) may be permanently or indefinitely discontinued or may cease to exist, or (C) may not be used in certain ways by an EU supervised entity if its administrator does not obtain authorisation or registration (subject to applicable transitional provisions).

In the case of (A), no changes will be made to the Securities. In the case of (B) or (C), if such Reference Rate is an ISDA Rate or is determined in accordance with Screen Rate Determination, the Issuer shall (in the case of an ISDA Rate, after applying the Priority Fallback(s) specified (if any) in the definition of such ISDA Rate), if no replacement reference rate has been pre-nominated in the relevant Issue Terms, attempt to identify a Replacement Reference Rate that the Issuer determines has been recognised or acknowledged as being the industry standard for transactions which reference the affected Reference Rate to replace the affected Reference Rate (or if there is no industry standard, then the Issuer shall (1) select such other interest rate, index, benchmark or other price source it determines to be an industry standard rate), (2) determine an Adjustment Spread to the Replacement Reference Rate that the Issuer determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the affected Reference Rate with the relevant Replacement Reference Rate, and (3) make the necessary adjustments to the terms and conditions of the Securities as it determines to be necessary or appropriate to account for the effect of such replacement. The Adjustment Spread may reduce the level of the Cash Index, and in turn, the amount(s) payable under the Securities.

If (A) the Issuer cannot identify a Replacement Reference Rate or determine an Adjustment Spread, (B) it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the relevant determinations or calculations, (C) an Adjustment Spread is or would be a benchmark, index or other price source that would subject the Issuer or the Calculation Agent to material additional regulatory obligations, or (D) the Issuer determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the Securityholders, the Issuer has the discretion to (1) if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, cause an early redemption of the Securities, or (2) otherwise, redeem the Securities at the scheduled maturity by payment of the Unscheduled Termination Amount instead of the Redemption Amount or the Settlement Amount, as the case may be. Any of such determinations may have an adverse effect on the value of and return on the Securities. Following a determination by the Issuer in accordance with (A) or (B), no other amounts shall be payable in respect of the Securities on account of interest or otherwise, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

Please refer to the risk factor in sub-section (o) below (*Risks in connection with regulation and reform of "Benchmarks"*).

(k) **Risks associated with Proprietary Indices**

In this Sub-Category the specific risks of Proprietary Indices that Securities may be linked to under the Base Prospectus are set out. The risk set out under (i) below (*Factors affecting the performance of Proprietary Indices*) is the most material risk associated with Securities linked to Proprietary Indices.

Where an Underlying Asset is a Proprietary Index, such Proprietary Index may be composed or sponsored by Credit Suisse International ("**CSI**") or any other entity specified in the applicable Issue Terms as the Index Administrator (the "**Index Administrator**") and the Index Administrator may itself act as or may appoint one or more other entities to act as a calculation entity (an "**Index Calculation Agent**"). Further information in relation to each relevant Proprietary Index will be provided in Part B of the relevant Issue Terms, including details of how investors may obtain the Proprietary Index rules.

(i) *Factors affecting the performance of Proprietary Indices*

Proprietary Indices pursue a rules-based proprietary trading strategy (a "**strategy**") to achieve an investment objective as described in more detail in the relevant Proprietary Index rules. Any potential investor in Securities linked to Proprietary Indices should be aware that such indices usually have only a limited operating history with no proven track record in achieving the stated investment objective in the medium or long term. Therefore, no assurance can be given that any such strategy on which a Proprietary Index is based will be successful and that such index will perform in line with or better than any relevant market benchmark or any alternative strategy that might be used to achieve the same or similar investment objectives. Where the strategy underlying a Proprietary Index is not successful, this might affect the value of and return on Securities that are linked to such Proprietary Index.

Investors should also note that the performance of the underlying components ("**components**") of Proprietary Indices will normally have a direct effect on the performance of the Proprietary Index due to the way in which the Proprietary Index level is calculated. Consequently risks associated with the asset class or asset classes represented by those components are also risks for investors in Securities linked to Proprietary Indices. Investors should consider carefully the nature of those asset classes and the risks these involve. In some cases asset class risks are described elsewhere in Risk Category 5 of this Risk Factors section.

(ii) *The level of a Proprietary Index may be reduced by costs or fees*

Proprietary Indices are published net of hedging and transaction costs, and net of any calculation fee, each deducted on the basis provided for in the relevant Proprietary Index rules, which may be on a daily basis. Such costs or fees will act as a drag on the performance of Proprietary Indices, and will generally adversely affect the value of any Securities linked to them. As an example of such costs, some Proprietary Indices deduct access costs which may significantly reduce the Proprietary Index level from what it would otherwise be.

Additionally, investors should note that the notional costs or fees reflected in the calculation of a Proprietary Index may not necessarily reflect the actual or realised costs that would be incurred by a direct investor in the relevant Proprietary Index components, which could be larger or smaller from time to time. This is because such costs or fees are normally calculated by referring to pre-determined rates which may exceed actual costs of investing in the components. The Index Administrator (or its affiliates) may benefit if the notional fees or costs embedded in the Proprietary Index exceed the actual costs that may be incurred by the Index Administrator (or its affiliates) in hedging transactions that may be entered into in respect of the Proprietary Index. See further section (xii)(E) below (*Rebalancing costs may have an adverse effect on the performance of a Proprietary Index.*) for a specific example of such deductions.

(iii) *Returns on Securities may not be the same as a direct investment in the Proprietary Index or in the components of a Proprietary Index*

Investors may not benefit from movements in a Proprietary Index in the same way as a direct investment would allow or from any profits made as a result of a direct investment in the components. Accordingly, changes in the performance of a Proprietary Index or its components

may not result in comparable changes in the value of or return on Securities linked to such Proprietary Index.

(iv) *Use of derivative instruments or techniques may be a significant risk in a Proprietary Index*

Proprietary Indices may use derivative techniques or contain components which are derivative instruments, such as options or futures contracts. This can mean that the Proprietary Index is exposed to components or asset classes in an unexpected way with different results as compared to a Proprietary Index that offers a direct exposure to components or an asset class.

It is also possible that a Proprietary Index uses derivative techniques or contains components which offer exposure to asset classes in other non-linear ways. For example the use of options may mean that the Proprietary Index only increases in value if certain conditions are met such as the price or level of a particular reference asset rising or falling in a particular way. If such conditions are not met then the Proprietary Index level may perform in a negative way due to such derivative techniques or components.

(v) *Risks associated with leverage may be significant in a Proprietary Index*

A Proprietary Index or its components may provide for or allow leveraged investment positions. While such strategies and techniques may increase the opportunity to achieve higher returns on the Securities, they will generally also increase the risk of loss, as both returns and losses are magnified. Investors in Securities linked to a Proprietary Index with leverage risk may suffer higher losses in falling markets (all other things being equal) than if they had invested in Securities linked to a Proprietary Index without leverage risk.

(vi) *Occurrence of Index Adjustment Events*

Upon determining that an Index Adjustment Event has occurred in relation to a Proprietary Index (and an Index Adjustment Event includes an Administrator/Benchmark Event as to which see "*Risks in connection with regulation and reform of "Benchmarks"*" below), the Issuer has the discretion to make certain determinations and adjustments to account for such event including to (i) make adjustments to the terms of the Securities (without the consent of investors), and/or (ii) if the Issuer determines that such adjustments would not achieve a commercially reasonable result for either the Issuer or the investors, or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the necessary calculations, the Issuer may select an Alternative Post-nominated Index to replace such Index. However, if the Issuer is unable to select an Alternative Post-nominated Index or determine an Adjustment Payment, or if the Issuer is able to select an Alternative Post-nominated Index and determine an Adjustment Payment but determines that any adjustments to the terms and conditions of the Securities will not achieve a commercially reasonable result for either the Issuer or the investors, the Issuer has the discretion to cause an early redemption of the Securities. Any of such determinations may have an adverse effect on the value of and return on the Securities. Following such determination by the Issuer, no other amounts shall be payable in respect of the Securities on account of interest or otherwise.

(vii) *Proprietary Indices may be constructed on "notional investments"*

Proprietary Indices, each reflecting a relevant strategy, may be constructed on "notional" investments. In such case, there is no actual portfolio of assets to which any investor in Securities is entitled or in respect of which any investor in Securities has any direct or indirect ownership interest.

(viii) *Proprietary Indices may rely on external data and data sources.*

Proprietary Indices may rely on data from external data providers and data sources which have been selected and pre-defined by the Index Administrator which may change the data providers and the data sources from time to time in accordance with its internal governance procedures provided that any new data provider or data source meets its requirements. There is a risk that this data may be inaccurate, delayed or not up to date. There is also a risk that while the data

is accurate, the data feed to the Index Administrator is impaired. Such impairment to either the data or the data feed could affect the performance or continued operability of a Proprietary Index. There is also a risk to the continuity of Proprietary Indices in the event that the Index Administrator ceases to exist. If certain external data is not available, the Index Administrator or Index Calculation Agent may determine the necessary data in order to maintain the continuity of the Proprietary Index but this may not always be possible and the Proprietary Index may instead be terminated.

- (ix) *Proprietary Indices may rely on the Index Administrators' infrastructure and electronic systems*

Proprietary Indices may rely on the Index Administrators' infrastructure and electronic systems (including internal data feeds). Any breakdown or impairment to such infrastructure or electronic systems could affect the performance or continued operability of a Proprietary Index.

- (x) *Proprietary Index components may themselves be indices*

Components of Proprietary Indices may themselves be a proprietary index (any such component a "**base index**"). In such case, the risks described in this section in relation to a Proprietary Index will also be relevant for such base index. It is possible risks relating to a Proprietary Index may be exacerbated in this case. Similarly risks in relation to the components of a Proprietary Index may also apply to the components of a base index ("**base index components**").

- (xi) *The exposure of the Securities to a Proprietary Index and of the Proprietary Index itself to its components may be "long" or "short"*

Investors should review these risk factors based on an understanding of whether a rise or fall in the Proprietary Index level or the value of components will be beneficial for their Securities.

In the case of any such "short" exposure, any rise in the Proprietary Index level or in component values may reduce the return on the Securities and in the case of any such "long" exposure, any fall in the Index Proprietary Level or in component values may reduce the return on the Securities.

- (xii) *Certain Proprietary Indices may have an inbuilt mechanism to rebalance components from time to time (in some cases as often as daily) depending on the Proprietary Index rules or based on an investment strategy followed by an index rebalancing entity*

See sub-sections (A)-(E) below as to the nature of risks this involves. See also section (xiii) below as to "*Risks associated with actively rebalanced Proprietary Indices*".

- (A) *Proprietary Indices are sensitive to the volatility of components, including any base index.* Certain Proprietary Indices may have an in-built volatility control mechanism, which regulates the exposure of a Proprietary Index to a relevant component, such as a base index, according to the volatility of the component. For example, as volatility rises, the Proprietary Index reduces exposure to the component and conversely, as volatility falls, the Proprietary Index's exposure to the component increases. Therefore the Proprietary Index may underperform relative to the component where high volatility is followed by positive performance of the base index: here an investor may not benefit as much as an investor who had a direct exposure to the component because the volatility control mechanism is likely to have reduced the exposure to the component to a percentage below 100%. Conversely, the Proprietary Index may also underperform relative to the component where low volatility is followed by negative performance of the component: here an investor may suffer higher losses than an investor who had a direct exposure to the component because the volatility control mechanism is likely to have increased the exposure to the component to a percentage above 100%.

- (B) *Risks associated with volatility target Proprietary Indices.* Certain Proprietary Indices use a technique referred to as volatility targeting. In general this means that weightings of components are determined or the components themselves selected based on calculations of the volatility of those components over specified periods. Some Proprietary Indices will target certain predefined levels of volatility. However, targeting high volatility, while it may offer the opportunity of greater gain, also may entail the possibility of greater loss in index performance, while targeting low volatility may mean an index participates in any positive component performance to a lesser extent than would otherwise be the case. In addition the volatility model used may not lead to the intended effect as market performance can be unpredictable and past performance may not be a guide to future performance. This may lead to poor performance and lower investment returns (if any) on the Securities than an investor may have anticipated.
- (C) *Risk signals and volatility measures that may be used in a Proprietary Index are observed with a lag.* Generally, the strategy of a Proprietary Index may observe the relevant risk signals and the volatility of each adjusted component or asset class on the basis of historic data and a specified number of index calculation days in arrears before the volatility control mechanism is applied. As a consequence, the allocation mechanism may fail to capture all market trends, resulting in a higher allocation to an asset class that may underperform other asset classes. This could lead to neutral or negative performance of the Proprietary Index, for example where (i) the Proprietary Index increases exposure to components which perform positively, with the risk that they may suffer subsequent market corrections; or (ii) the Proprietary Index reduces its exposure to components that perform negatively, with the risk that they may subsequently perform positively. This could also mean that the Proprietary Index could be exposed to a spike in volatility that is higher than the targeted volatility measure for the Proprietary Index, which may result in losses to investors.
- Furthermore, a risk signal may be based on the market risk of a particular asset class, and the credit risk associated with an asset class, and as a result the risk signal may fail to perform as intended. Depending on the scenario and interaction of the risk signals, the Proprietary Index may become less diversified and/or invest in asset classes that then suffer adverse market developments.
- (D) *The price of components or base index components may be influenced by asymmetries in demand and supply.* The price of each component may be influenced by external factors related to the demand and supply for exposure. For example, any purchases or disposals of such assets may be contingent upon there being a market for such assets. In cases where there is not a ready market, or where there is only a limited market, the prices at which such assets may be purchased or sold may vary significantly (such variation between the prices at which the asset can be bought or sold is referred to as a "bid-offer spread"). If trying to dispose of an asset in a limited market, the effect of the bid-offer spread may be that the value realised on a disposal is markedly less than the previously reported value of the asset. This will have a negative impact on the value of the relevant component and, consequently, affect the Proprietary Index level.
- (E) *Rebalancing costs may have an adverse effect on the performance of a Proprietary Index.* Proprietary Index components may be rebalanced frequently and, in some cases, as often as daily. Costs associated with rebalancing will reduce the levels of Proprietary Indices and in turn reduce the return on Securities linked to them. *Risks associated with actively rebalanced Proprietary Indices*

See sub-sections (A)-(C) below as to the nature of risks this involves.

- (A) *Discretion of and determinations made by the index rebalancing entity.* Certain Proprietary Indices are actively managed in accordance with a trading strategy exclusively developed and implemented, and based on investment decisions taken, by an "index rebalancing entity" appointed by the Index Administrator. The composition of the Proprietary Index is determined only by the index rebalancing entity, in some cases without any obligation to have regard to the interests of investors.

The index rebalancing entity may be an affiliate of the Index Administrator or the Issuer, and each of these roles may be undertaken by a member of the Credit Suisse Group.

- (B) *Substitution of the index rebalancing entity and consequences for the relevant Proprietary Index.* If the Index Administrator determines that one or more specified adverse events in relation to the index rebalancing entity occurs, the Index Administrator may remove or substitute the index rebalancing entity. If no substitution is made the Proprietary Index shall stop being rebalanced or the Index Administrator may withdraw the Proprietary Index. Any of these actions could have an adverse effect on the value of Securities referencing the Proprietary Index.

- (C) *The allocation performed by the index rebalancing entity is a significant factor impacting the return of the Proprietary Index.* The initial weight allocated to each component, in addition to any subsequent rebalancing is performed by the index rebalancing entity in accordance with the index rebalancing methodology. Although the Proprietary Index includes investment restrictions, the index rebalancing entity has discretion over the allocation. Any allocation to components that subsequently decrease in value will result in a decline in the level of the Proprietary Index. Furthermore, although the index rebalancing entity may be able to allocate to a wider universe of assets, subject to relevant investment restrictions, it may select a concentrated allocation of assets which may result in additional downside risk for the Proprietary Index. Accordingly the exercise of discretion by the index rebalancing entity may lead to negative Proprietary Index performance.

- (xiv) *Currency risk may be a significant risk in a Proprietary Index*

Investors in Securities linked to a Proprietary Index may be exposed to currency risks because (i) components or base index components may be denominated or priced in currencies other than the currency in which the Proprietary Index is denominated, or (ii) the Proprietary Index or components or base index components may be denominated in currencies other than the currency of the country in which the investor is resident. In either case, investors are exposed to the risk that exchange rates between relevant currencies may significantly change, which could reduce the value of Securities linked to Proprietary Indices.

- (xv) *Risks associated with a specified rate may be significant in a Proprietary Index.*

Certain components of a Proprietary Index or other Proprietary Index features may be linked to an overnight interest rate, deposit rate, or other interest rate which is not itself a component but is used for certain determinations in the relevant Proprietary Index rules. Such a Proprietary Index will therefore be exposed to the risk of fluctuation in such rate, and changes in interest rates could adversely affect the level of the Proprietary Index. Interest rate benchmark reforms may also mean that certain interest rates such as LIBOR rates cease to be provided or are significantly modified. This may be a modification or disruption event meaning that the Index Administrator has the power to adjust the Proprietary Index or replace the relevant interest rate or suspend, delay or in some circumstances terminate the Proprietary Index. Any such action may have an adverse effect on the value of the Securities referencing the Proprietary Index.

See also section (xvi) below as to risks associated with adjustments or extraordinary events provided for in Proprietary Indices.

(xvi) *Potential conflicts of interest may exist in relation to Proprietary Indices and Securities linked to Proprietary Indices*

Investors in Securities linked to a Proprietary Index should be aware that members of the Credit Suisse Group will act in various capacities in relation to the Securities and may also have a number of roles in a Proprietary Index. These roles may involve making various determinations in relation to the Proprietary Index, whether as Index Administrator or as an Index Calculation Agent or in another capacity as a Proprietary Index service provider. These roles are in addition to roles Credit Suisse entities have at the Securities level. Where a Credit Suisse entity calculates the index level, investors should be aware that such index level may be calculated so as to include certain deductions or adjustments that synthetically reflect certain factors such as transaction and servicing costs and notional fees and these may be costs and fees of Credit Suisse entities. Such deductions will act as a drag on the performance of the Proprietary Index such that the level of the Proprietary Index will be lower than it would otherwise be. These are in addition to any deductions at the level of the Securities.

Further, in the normal course of business, the Issuer and/or its affiliates may have, or may have had, interests or positions, or may buy, sell or otherwise trade positions in or relating to the relevant Proprietary Index and/or the components, or may have invested, or may engage in transactions with others relating to any of these items or engaged in trading, brokerage and financing activities, as well as providing investment banking and financial advisory services in respect of the Proprietary Index or the components. Accordingly, the Issuer or any of its affiliates may at any time hold long or short positions, and may trade or otherwise effect transactions, for its own account or the accounts of its customers in respect of the Proprietary Index or the components thereof. Such activity may adversely affect the level of the Proprietary Index and consequently the value of the Securities.

The Issuer and the Index Administrator of each Proprietary Index may be affiliated entities or the same entity and may face a conflict of interest between their obligations as Issuer and Index Administrator, respectively, and their interests in another capacity. No assurance can be given that the resolution of such potential conflicts of interest will not be prejudicial to the interests of investors.

(xvii) *Discretions of the Index Administrator or Index Calculation Agent, including in relation to adjustment and extraordinary event provisions, may be a significant risk in a Proprietary Index*

The rules in relation to a Proprietary Index may provide the Index Administrator or Index Calculation Agent (which may all be part of the Credit Suisse Group) the discretion to make certain calculations, determinations, and amendments to the relevant Proprietary Index, from time to time (for example, on the occurrence of a disruption event as described below). This is separate from discretions which any Credit Suisse entity may have at the level of the Securities. Where there is a corresponding applicable regulatory obligation the Index Administrator or Index Calculation Agent shall take into account its applicable regulatory obligations in exercising these discretions but the discretions may be exercised without the consent of the investors and may have an adverse impact on the financial return of Securities linked to the Proprietary Index.

A typical Proprietary Index provides that in order to address modification or disruption events the Index Administrator has the power to adjust a Proprietary Index or its components, to replace components, to suspend or delay the calculation of the Proprietary Index or in some cases to terminate the Proprietary Index. Following any termination of a Proprietary Index, no assurance can be given that the Index Administrator will replace the Proprietary Index with a successor index or if it does as to how any successor index will perform or whether it can be used in connection with the Securities.

Such action may be taken to address modifications or disruptions in components or for other disruption reasons including changes in law or market conditions. In some circumstances the Index Administrator may consult as to such actions, including with an index committee, the Index Calculation Agent or in some cases certain users of the Proprietary Index, but no assurance can

be given that this will be the case. In particular investors in Securities may not be consulted and even if they are this may not change or prevent the proposed action the Index Administrator takes.

The impact on Securities linked to the relevant Proprietary Index may be significant and may lead to the Issuer making changes to the Securities or in some cases early terminating the Securities.

For example the changing of the components of a Proprietary Index may affect the level of such Proprietary Index as a newly added component may perform significantly worse than the component it replaces, which in turn may adversely affect the level of the Proprietary Index.

(l) **Exposure to risk that redemption amounts do not reflect direct investment in the Underlying Assets**

The Redemption Amount or Settlement Amount payable (or Share Amount deliverable) on Securities that reference Underlying Assets may not reflect the return a Securityholder would realise if it actually owned the relevant Underlying Assets (or, in respect of Depositary Receipts the shares underlying the Depositary Receipts) and received distributions paid in respect of those Underlying Assets because the price of the Underlying Assets or underlying shares on any specified valuation dates may not take into consideration the value of such distributions. Accordingly, a Securityholder of Securities that reference Underlying Assets or underlying shares may receive a lower payment upon redemption of such Securities than such Securityholder would have received if it had invested directly in the Underlying Assets (or, in respect of Depositary Receipts, the shares underlying the Depositary Receipts).

(m) **A change in the composition or discontinuance of an index could have a negative impact on the value of the Securities**

Where Securities reference an Underlying Asset which is an index, the sponsor of the relevant index can add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of the components of an index may affect the level of such index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may adversely affect the value of and return on the Securities. The sponsor of an index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Securities and will have no obligation to any investor in such Securities. The sponsor of an index may take any actions in respect of such index without regard to the interests of the investor in the Securities, and any of these actions could have an adverse effect on the value of and return on the Securities.

(n) **Exposure to emerging markets**

An Underlying Asset may include an exposure to emerging markets. Emerging market countries possess one or more of the following characteristics: a certain degree of political instability, relatively unpredictable financial markets and economic growth patterns, a financial market that is still at the development state or a weak economy. Emerging markets investments usually result in higher risks such as event risk, political risk, economic risk, credit risk, currency rate risk, market risk, regulatory/legal risk and trade settlement, processing and clearing risks as further described below. Investors should note that the risk of occurrence and the severity of the consequences of such risks may be greater than they would otherwise be in relation to more developed countries.

(i) **Event Risk:** On occasion, a country or region will suffer an unforeseen catastrophic event (for example, a natural disaster) which causes disturbances in its financial markets, including rapid movements in its currency, that will affect the value of securities in, or which relate to, that country. Furthermore, the performance of an Underlying Asset can be affected by global events, including events (political, economic or otherwise) occurring in a country other than that in which such Underlying Asset is issued or traded.

(ii) **Political Risk:** Many emerging market countries are undergoing, or have undergone in recent years, significant political change which has affected government policy, including the regulation of industry, trade, financial markets and foreign and domestic investment. The relative inexperience with such policies and instability of these political systems leave them more

vulnerable to economic hardship, public unrest or popular dissatisfaction with reform, political or diplomatic developments, social, ethnic, or religious instability or changes in government policies. Such circumstances, in turn, could lead to a reversal of some or all political reforms, a backlash against foreign investment, and possibly even a movement away from a market-oriented economy. For Securityholders, the results may include confiscatory taxation, exchange controls, compulsory re-acquisition, nationalisation or expropriation of foreign-owned assets without adequate compensation or the restructuring of particular industry sectors in a way that could adversely affect investments in those sectors. Any perceived, actual or expected disruptions or changes in government policies of a country, by elections or otherwise, can have a major impact on the performance of an Underlying Asset linked to such emerging market countries.

- (iii) **Economic Risk:** The economies of emerging market countries are by their nature in early or intermediate stages of economic development, and are therefore more vulnerable to rising interest rates and inflation. In fact, in many emerging market countries, high interest and inflation rates are the norm. Rates of economic growth, corporate profits, domestic and international flows of funds, external and sovereign debt, dependence on international trades and sensitivity to world commodity prices play key roles in economic development, yet vary greatly from one emerging market country to another. Businesses and governments in these emerging market countries may have a limited history of operating under market conditions. Accordingly, when compared to more developed countries, businesses and governments of emerging market countries are relatively inexperienced in dealing with market conditions and have a limited capital base from which to borrow funds and develop their operations and economies. In addition, the lack of an economically feasible tax regime in certain countries poses the risk of sudden imposition of arbitrary or excessive taxes, which could adversely affect foreign Securityholders. Furthermore, many emerging market countries lack a strong infrastructure and banks and other financial institutions may not be well-developed or well-regulated. All of the above factors, as well as others, can affect the proper functioning of the economy and have a corresponding adverse effect on the performance of an Underlying Asset linked to one or more emerging market countries.
- (iv) **Credit Risk:** Emerging market sovereign and corporate debt tends to be riskier than sovereign and corporate debt in established markets. Issuers and obligors of debt in these emerging market countries are more likely to be unable to make timely coupon or principal payments, thereby causing the underlying debt or loan to go into default. The sovereign debt of some countries is currently in technical default and there are no guarantees that such debt will eventually be restructured allowing for a more liquid market in that debt. The measure of a company's or government's ability to repay its debt affects not only the market for that particular debt, but also the market for all securities related to that company or country. Additionally, evaluating credit risk for foreign bonds involves greater uncertainty because credit rating agencies throughout the world have different standards, making comparisons across countries difficult. Many debt securities are simply unrated and may already be in default or considered distressed. There is often less publicly available business and financial information about foreign issuers in emerging market countries than those in developed countries. Furthermore, foreign companies are often not subject to uniform accounting, auditing and financial reporting standards. Also, some emerging market countries may have accounting standards that bear little or no resemblance to, or may not even be reconcilable with, generally accepted accounting principles.
- (v) **Currency Risk:** An Underlying Asset may be denominated in a currency other than U.S. dollars, euro or pounds sterling. The weakening of a country's currency relative to the U.S. dollar or other benchmark currencies will negatively affect the value (in U.S. dollar or such other benchmark currency) of an instrument denominated in that currency. Currency valuations are linked to a host of economic, social and political factors and can fluctuate greatly, even during intra-day trading. It is important to note that some countries have foreign exchange controls which may include the suspension of the ability to exchange or transfer currency, or the devaluation of the currency. Hedging can increase or decrease the exposure to any one currency, but may not eliminate completely exposure to changing currency values.
- (vi) **Market Risk:** The emerging equity and debt markets of many emerging market countries, like their economies, are in the early stages of development. These financial markets generally lack the level of transparency, liquidity, efficiency and regulation found in more developed markets.

It is important, therefore, to be familiar with secondary market trading in emerging markets securities and the terminology and conventions applicable to transactions in these markets. Price volatility in many of these markets can be extreme. Price discrepancies can be common as can market dislocation. Additionally, as news about a country becomes available, the financial markets may react with dramatic upswings and/or downswings in prices during a very short period of time. These emerging market countries also might not have regulations governing manipulation and insider trading or other provisions designed to "level the playing field" with respect to the availability of information and the use or misuse thereof in such markets. It may be difficult to employ certain risk management practices for emerging markets securities, such as forward currency exchange contracts, stock options, currency options, stock and stock index options, futures contracts and options on futures contracts.

(vii) **Regulatory/Legal Risk:** In emerging market countries there is generally less government supervision and regulation of business and industry practices, stock exchanges, over-the-counter markets, brokers, dealers and issuers than in more developed countries. Whatever supervision is in place may be subject to manipulation or control. Many emerging market countries have mature legal systems which are comparable to those of more developed countries, whilst others do not. The process of regulatory and legal reform may not proceed at the same pace as market developments, which could result in confusion and uncertainty and, ultimately, increased investment risk. Legislation to safeguard the rights of private ownership may not yet be in place in certain areas, and there may be the risk of conflict among local, regional and national requirements. In certain areas, the laws and regulations governing investments in securities may not exist or may be subject to inconsistent or arbitrary application or interpretation and may be changed with retroactive effect. Both the independence of judicial systems and their immunity from economic, political or nationalistic influences remain largely untested in many countries. Judges and courts in many countries are generally inexperienced in the areas of business and corporate law. Companies are exposed to the risk that legislatures will revise established law solely in response to economic or political pressure or popular discontent. There is no guarantee that a foreign Securityholder would obtain a satisfactory remedy in local courts in case of a breach of local laws or regulations or a dispute over ownership of assets. A Securityholder may also encounter difficulties in pursuing legal remedies or in obtaining and enforcing judgments in foreign courts.

(viii) **Trade Settlement, Processing and Clearing:** Many emerging market countries have different clearance and settlement procedures from those in more developed countries. For many emerging markets securities, there is no central clearing mechanism for settling trades and no central depository or custodian for the safekeeping of securities. Custodians can include domestic and foreign custodian banks and depositories, among others. The registration, record-keeping and transfer of Securities may be carried out manually, which may cause delays in the recording of ownership. Where applicable, the Issuer will settle trades in emerging markets securities in accordance with the currency market practice developed for such transactions by the Emerging Markets Traders Association. Otherwise, the transaction may be settled in accordance with the practice and procedure (to the extent applicable) of the relevant market. There are times when settlement dates are extended, and during the interim the market price of any Underlying Assets and in turn the value of the Securities, may change. Moreover, certain markets have experienced times when settlements did not keep pace with the volume of transactions resulting in settlement difficulties. Because of the lack of standardised settlement procedures, settlement risk is more prominent than in more mature markets. In addition, Securityholders may be subject to operational risks in the event that Securityholders do not have in place appropriate internal systems and controls to monitor the various risks, funding and other requirements to which Securityholders may be subject by virtue of their activities with respect to emerging market securities.

(o) **Risks in connection with regulation and reform of "Benchmarks"**

A number of major interest rates, other rates, indices and other published values or benchmarks are the subject of recent or forthcoming national and international regulatory reforms. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the value of and return on Securities linked to any such value or benchmark.

The Benchmark Regulation

The EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**") is a key element of the ongoing regulatory reform in the EU and has applied, subject to certain transitional provisions, since 1 January 2018. In addition to so-called "critical benchmarks" such as the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**"), other interest rates, foreign exchange rates, and indices, including equity, commodity and "proprietary" indices or strategies, will in most cases be within scope of the Benchmark Regulation as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including Securities listed on an EU regulated market or EU multilateral trading facility ("**MTF**")), and in a number of other circumstances.

The Benchmark Regulation applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the EU. Amongst other things, the Benchmark Regulation requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to benchmark administration. It also prohibits certain uses by EU supervised entities of (i) benchmarks provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulation and (ii) benchmarks provided by non-EU administrators where (A) the administrator's regulatory regime has not been determined to be "equivalent" to that of the EU, (B) the administrator has not been recognised in accordance with the Benchmark Regulation, and (C) the benchmark has not been endorsed in accordance with the Benchmark Regulation.

The Benchmark Regulation could have a material impact on Securities linked to a benchmark. For example:

- (A) if the amount(s) payable under the Securities is determined by reference to one or more Reference Rates and the relevant administrator does not obtain authorisation or registration (subject to applicable transitional provisions), the Issuer may replace such Reference Rate with a replacement rate and determine an adjustment spread to the replacement rate, and make the necessary adjustments to the terms and conditions of the Securities (see risk factor 5(i) (*Risks associated with Reference Rates by reference to which any amount payable under the Securities is determined*)); and
- (B) the methodology or other terms of the benchmark could be changed in order to comply with the requirements of the Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and could lead to adjustments to the terms of the Securities, including Calculation Agent determination of the rate or level in its discretion.

Reform and replacement of Interbank Offered Rates

Amongst other developments, relevant authorities are strongly encouraging the transition away from Interbank Offered Rates ("**IBORs**"), such as LIBOR and EURIBOR, and have identified "risk free rates" to eventually take the place of such IBORs as primary benchmarks (the "**Risk Free Rates**"). This includes (i) for sterling LIBOR, a reformed Sterling Overnight Index Average ("**SONIA**"), so that SONIA may be established as the primary sterling interest rate benchmark by the end of 2021, (ii) for EONIA and EURIBOR, a new Euro Short-Term Rate ("**€STR**") as the new euro risk-free rate, (iii) for Swiss franc LIBOR, the Swiss Average Rate Overnight rate ("**SARON**") and (iv) for USD LIBOR, the Secured Overnight Financing Rate ("**SOFR**") to be eventually established as the primary U.S. dollar interest rate benchmark. While Floating Rate Securities may be issued referring to SONIA for GBP, SOFR for USD, €STR for Euro or SARON for CHF, each of these Risk Free Rates is "backward-looking", meaning that interest payments are calculated shortly before the relevant Interest Payment Date. Therefore, investors will have significantly less notice of the amounts due to be paid for an Interest Period where the relevant interest rate is determined by reference to a Risk Free Rate. Forward-looking Risk Free Rates are not generally available as of the date of the Base Prospectus and there is no certainty that a forward-looking Risk Free Rate will be available in respect of any currency or any particular product in the future.

Whilst IBORs are forward-looking term rates that embed bank credit risk, the Risk Free Rates identified as of the date of the Base Prospectus are overnight rates and are intended to be nearly risk-free. However Risk Free Rates are comparatively new and less historical data is available than for IBORs. As such, investors should be aware that SONIA, SOFR, €STR and SARON may behave materially differently from

IBORs as interest reference rates for Securities issued under the Programme and could provide a worse return over time than an IBOR.

(p) **Risks in connection with the development of Risk Free Rates**

Investors should also be aware that the market continues to develop in relation to the Risk Free Rates as reference rates in the capital markets. The market or a significant part thereof (including the Issuer) may adopt an application of the Risk Free Rates that differs significantly from that set out in the terms and conditions for the Securities (including in relation to fallbacks in the event that such Risk Free Rates are discontinued or fundamentally altered).

(q) **Risks in connection with "Shift" and "Lag" methodologies**

Where the Rate of Interest for Floating Rate Securities is Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily €STR, the Observation Method will be specified as "Shift" or "Lag" as applicable. "Shift" and "Lag" have emerged as conventions for daily compounding of rates in arrears. The conventions differ in the period that each method uses when weighting each business day's overnight rate for the relevant Risk Free Rate. The "Shift" approach weights the relevant Risk Free Rate according to the relevant number of days that apply in a separate observation period which 'shadows' the Interest Period e.g. the observation period might start and end five business days preceding the relevant start and end of the Interest Period. The "Lag" approach weights the relevant Risk Free Rate according to the number of days that apply in the relevant Interest Period. Investors should be aware that divergence between the "Shift" and "Lag" methodologies could lead to a difference in the interest being determined even where the relevant Risk Free Rate is the same for the Floating Rate Securities and may not be what the investors expected.

(r) **Risks in connection with adoption or application of Risk Free Rates**

In addition, the manner of adoption or application of the Risk Free Rates in the Eurobond markets may differ materially compared with the application and adoption of the Risk Free Rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes referencing SONIA, SOFR, €STR or SARON.

6. Risks in connection with the purchase, holding and selling of Securities (Risk Category 6)

In this Risk Category 6 the material risks in connection with the purchase, holding and selling of Securities are set out. The most material risk in this Risk Category 6 is the risk set-out in subsection (a) (*Risks related to fluctuation in the market value of the Securities*).

(a) **Risks related to fluctuation in the market value of the Securities**

The market value of the Securities will be affected by many factors beyond the control of the Issuer, including, but not limited to, the following:

- (i) the creditworthiness of the Issuer (whether actual or perceived), including actual or anticipated downgrades in its credit rating. The creditworthiness of the Issuer is generally also expected to be reflected in the credit spread on debt securities issued by it, i.e. the margin payable by the Issuer to an investor as a premium for the assumed credit risk. Factors influencing the credit spread of the Issuer include, among other things, the creditworthiness and rating of the Issuer, probability of default of the Issuer, estimated recovery rate in liquidation and remaining term of the relevant Security. The liquidity situation, the general level of interest rates, overall economic, national and international political and financial regulatory developments, and the currency in which the relevant Security is denominated may also have a negative effect on the credit spread of the Issuer;
- (ii) the remaining time to maturity of the Securities;
- (iii) interest rates and yield rates in the relevant market(s);

- (iv) the volatility (i.e., the frequency and size of changes in the value) of the Underlying Asset(s) (if any);
 - (v) the value of the Underlying Asset(s) to which the Securities are linked (if any) . The price, performance or investment return of the Underlying Asset(s) may be subject to sudden and large unpredictable changes over time and this degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international economic, financial, regulatory, political, military, judicial or other events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities.
 - (vi) if the Securities are linked to a Share, the dividend rate on such Share or if the Securities are linked to an Index comprised of shares, the dividend rate on the Components underlying such Index;
 - (vii) if the Securities are linked to a Share or an ETF Share, the occurrence of certain corporate events in relation to such Share or ETF Share, as the case may be;
 - (viii) if the Securities are linked to a Commodity or a Commodity Index, supply and demand trends and market prices at any time for such Commodity or the futures contracts on such Commodity (or, in respect of a Commodity Index, the commodity(ies) or the futures contracts on the commodity(ies) underlying such Commodity Index);
 - (ix) national and international economic, financial, regulatory, political, military, judicial and other events that affect the value of the Underlying Asset(s) or the relevant market(s) generally; and
 - (x) the exchange rate(s) between the currency in which the Securities are denominated and the currency in which the Underlying Asset(s) is denominated and the volatility of such exchange rate(s).
- (b) **Risks in connection with the secondary market in general**

A secondary market for the Securities may not develop and if one does develop, it may not provide the holders of the Securities with liquidity or may not continue for the life of the Securities. A decrease in the liquidity of the Securities may cause, in turn, an increase in the volatility associated with the price of such Securities. Illiquidity may have a severe adverse effect on the market value of the Securities.

The Issuer may, but is not obliged to, purchase the Securities at any time at any price in the open market or by tender or private treaty and may hold, resell or cancel them. The market for the Securities may be limited. The only way in which a Securityholder can realise value from a Security prior to its maturity or expiry (other than in the case of an American style Warrant) is to sell it at its then market price in the market which may be less than the amount initially invested. The price in the market for a Security may be less than its Issue Price or its Offer Price even though the value of the Underlying Asset(s) may not have changed since the Issue Date. Further, the price at which a Securityholder sells its Securities in the market may reflect a commission or a dealer discount, which would further reduce the proceeds such Securityholder would receive for its Securities. If a Securityholder sells its Securities prior to the Maturity Date or the Settlement Date, as the case may be, it may suffer a substantial loss.

To the extent that Warrants of a particular issue are exercised, the number of Warrants remaining outstanding will decrease, resulting in a diminished liquidity for the remaining Warrants.

Any secondary market price quoted by the Issuer may be affected by several factors including, without limitation, prevailing market conditions, credit spreads and the remaining time to maturity of the Securities. The Securities are also subject to selling restrictions and/or transfer restrictions that may limit a Securityholder's ability to resell or transfer its Securities. Accordingly, the purchase of Securities is suitable only for investors who can bear the risks associated with a lack of liquidity in the Securities and the financial and other risks associated with an investment in the Securities. Any investor in the Securities must be prepared to hold such Securities for an indefinite period of time or until redemption or expiry of the Securities.

(c) **Risks Relating to use of Proceeds**

The Issue Terms relating to any issuance of specific Securities may provide that it will be the Issuer's intention to allocate (or cause Credit Suisse Group AG or any of its affiliates to allocate) the proceeds from such Securities to the financing and/or refinancing of certain businesses and projects in accordance with the framework agreements relating to green financing (as may be entered into and/or amended from time to time). The Issuer, Credit Suisse Group AG or any of its affiliates (as the case may be) will exercise its judgment and sole discretion in determining the businesses and projects that will be financed by the proceeds of any such Securities. Such businesses and projects may not meet the Issuer's or Credit Suisse Group AG's or any of its affiliates' (as the case may be) sustainable development goals or relevant framework agreements relating to green financing, as the case may be, or any investor's expectations. Furthermore, the Issuer has no contractual obligation to allocate (or cause allocation of) the proceeds of any such Securities to finance particular businesses and projects or to provide annual reports. Failure by the Issuer to so allocate (or cause allocation of) the net proceed or report, or the failure of the external assurance provider (if any) to opine on the report's conformity with the Issuer's or Credit Suisse Group AG's or any of its affiliates' (as the case may be) sustainable development goals or the relevant framework agreement relating to green financing, as the case may be, will not trigger any special termination rights.

(d) **Risks in connection with a listing of Securities**

Securities may be listed on an exchange or trading venue and Securities which are listed on an exchange or trading venue may also be delisted during their term. Because other dealers or market participants are not likely to make a secondary market for listed or non-listed Securities, the price at which a holder of Securities may be able to trade listed or non-listed Securities is likely to depend on the bid and offer prices, if any, at which the Issuer or the Calculation Agent is willing to trade such Securities. Therefore, investors may not be able to sell their Securities easily or at prices reasonably acceptable to them.

(e) **Risks of Securities with an Issue Price or Offer Price above the market value of the Securities on the issue date/ payment date**

The Issue Price or the Offer Price in respect of any Securities specified in the relevant Issue Terms may be more than the market value of such Securities as at the Issue Date, and more than the price, if any, at which the Dealer or any other person is willing to purchase such Securities in secondary market transactions.

In particular, the Issue Price or the Offer Price in respect of any Securities and the terms of such Securities may take into account, where permitted by law, fees, commissions or other amounts relating to the issue, distribution and sale of such Securities, or the provision of introductory services. Such fees, commissions or other amounts may be paid directly to the relevant distributor or, if the Securities are sold to the relevant distributor at a discount, may be retained by the relevant distributor out of the Issue Price or the Offer Price paid by investors.

In addition, the Issue Price or the Offer Price in respect of the Securities and the terms of such Securities may also take into account (i) the expenses incurred by the Issuer in creating, documenting and marketing the Securities (including its internal funding costs), and (ii) amounts relating to the hedging of the Issuer's obligations under such Securities.

(f) **Risks in connection with conflicts of interest between the Issuer and holders of Securities and the entities involved in the offer or listing of the Securities**

In making calculations and determinations with regard to the Securities, there may be a difference of interest between the Securityholders and the Issuer and its affiliated entities. Save where otherwise provided in the terms and conditions, the Issuer is required to act in good faith and in a commercially reasonable manner but does not have any obligation of agency or trust for any investors and has no fiduciary obligation towards them. In particular, the Issuer and its affiliated entities may have interests in other capacities (such as other business relationships and activities). Prospective investors should be aware that any determination made by the Issuer may have a negative impact on the value of and return on the Securities.

Each of the Issuer, the Dealer or any of their respective affiliates may have existing or future business relationships with each other (including, but not limited to, lending, depository, derivative counterparty, risk

management, advisory and banking relationships), and when acting in such other capacities the Issuer, the Dealer or any of their respective affiliates may pursue actions and take steps that it deems necessary or appropriate to protect its interests arising therefrom without regard to the consequences for any particular Securityholder.

Potential conflicts of interest may arise in connection with the Securities, as any distributors or other entities involved in the offer and/or the listing of the Securities as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

(g) **Hedging and dealing activities in relation to the Securities and Underlying Asset(s)**

In the ordinary course of its business the Issuer and/or any of its affiliates may effect transactions in Underlying Assets for its own account or for the account of its customers and may enter into one or more hedging transactions with respect to the Securities or related derivatives. Such hedging or market-making activities or proprietary or other trading activities by the Issuer and/or any of its affiliates may affect the market price, liquidity, value of or return on the Securities and could be adverse to the interest of the relevant Securityholders.

For example, the Issuer (itself or through an affiliate) may hedge the Issuer's obligations under the Securities by purchasing futures and/or other instruments linked to the Underlying Asset(s) or (if an Index) the stocks or other Components underlying the Underlying Asset(s). The Issuer (or affiliate) may adjust its hedge by, among other things, purchasing or selling any of the foregoing, and perhaps other instruments linked to the Underlying Asset(s) or (if applicable) the Components, at any time and from time to time, and may unwind the hedge by selling any of the foregoing on or before the maturity date or the settlement date (as applicable) for the Securities. The Issuer (or affiliate) may also enter into, adjust and unwind hedging transactions relating to other securities whose returns are linked to changes in the level, price, rate or other applicable value of the Underlying Asset(s) or (if applicable) the Components. Any of these hedging activities may adversely affect the level, price, rate or other applicable value of the Underlying Asset(s) — directly or (if applicable) indirectly by affecting the level, price, rate or other applicable value of underlying Components — and therefore the value of and return on the Securities. It is possible that the Issuer (or affiliate) could receive substantial returns with respect to such hedging activities while the value of and return on the Securities may decline.

Moreover, the Issuer (or affiliate) may also engage in trading in one or more of the Underlying Asset(s) or (if applicable) the Components or instruments whose returns are linked to the Underlying Asset(s) or (if applicable) the Components, for its proprietary accounts, for other accounts under its management or to facilitate transactions, including block transactions, on behalf of customers. Any of these activities of the Issuer (or affiliate) could adversely affect the level, price, rate or other applicable value of the Underlying Asset(s) — directly or (if applicable) indirectly by affecting the level, price, rate or other applicable value of the Components — and therefore, the value of and return on the Securities. The Issuer (or affiliate) may issue or underwrite, other securities or financial or derivative instruments with returns linked to changes in the level, price, rate or other applicable value of the Underlying Asset(s) or (if applicable) one or more of the Components, as applicable. By introducing competing products into the marketplace in this manner, the Issuer (or affiliate) could adversely affect the value of and return on the Securities.

(h) **Setting of amounts specified to be indicative**

The Coupon Amount, Coupon Rate, Coupon Threshold, Knock-in Barrier, Knock-out Barrier, Participation, Rate of Interest, Maximum Rate of Interest, Minimum Rate of Interest, Interest Amount, Lock-in Coupon Amount, Trigger Barrier, Trigger Barrier Redemption Amount, Redemption Floor Percentage, Redemption Amount Cap 1, Redemption Amount Cap 2, Bonus Level, PPT, Redemption Strike Price, Strike and/or Physical Settlement Trigger Event Barrier may not be set by the Issuer until the Initial Setting Date or the Trade Date (as the case may be) so that the Issuer may take into account the prevailing market conditions at the time of the close of the offer period in order that the Issuer may issue the Securities at the relevant price and on the relevant terms. There is a risk that the final amount(s) set by the Issuer will be other than the indicative amount(s) specified in the relevant Issue Terms, although the final amount(s) will not be less than the minimum amount(s) or greater than the maximum amount(s), as the case may be, specified in the relevant Issue Terms. Nevertheless, prospective investors must base their investment decision on the indicative amount(s) (and in light of the minimum or maximum amount(s)) so specified, and will not have a right of withdrawal from their purchase obligation when the final amount(s)

are set by the Issuer. Investors should note that no supplement will be published in relation to such final setting.

(i) **Risk of withdrawal of offering and/or cancellation of issue of Securities**

In the case of public offers, the Issuer may provide in the relevant Final Terms that it is a condition of the offer that the Issuer reserves the right to withdraw the offer for any reason at any time during the offer period and/or to cancel the issue of the Securities for any reason at any time on or prior to the Issue Date. The Issuer may decide to withdraw the offer and/or cancel the issue of Securities for reasons beyond its control, such as extraordinary events, substantial change of the political, financial, economic, legal, monetary or market conditions at national or international level and/or adverse events regarding the financial or commercial position of the Issuer and/or the other relevant events that in the determination of the Issuer may be prejudicial to the offer and/or issue of the Securities. In such circumstances, the offer will be deemed to be null and void. In such case, where an investor has already paid or delivered subscription monies for the relevant Securities, the investor will be entitled to reimbursement of such amounts, but will not receive any interest that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the amount paid for such Securities and such investor may have lost other opportunities to invest on a more favourable basis than is subsequently possible.

(j) **Exchange rate risks in connection with the Securities**

Investors may be exposed to currency risks because (i) an Underlying Asset may be denominated or priced in currencies other than the currency in which the Securities are denominated, or (ii) the Securities and/or such Underlying Asset may be denominated in currencies other than the currency of the country in which the investor is resident. In case of an unfavourable development of those currencies the value of the Securities to the investor may therefore decrease.

(k) **Risks in relation to the holding of CREST Depository Interests ("CDIs")**

Investors in CDIs will not be the legal owners of the Securities to which such CDIs relate (such Securities being "**Underlying Securities**"). CDIs are separate legal instruments from the Underlying Securities and represent indirect interests in the interests of the CREST Nominee in such Underlying Securities. CDIs will be issued by the CREST Depository to investors and will be governed by English law.

The Underlying Securities (as distinct from the CDIs representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through the relevant Clearing System specified in the relevant Issue Terms. Rights in the Underlying Securities will be held through custodial and depository links through the relevant Clearing System. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the relevant Clearing System in or through which the CDIs are held.

Rights in respect of the Underlying Securities cannot be enforced by holders of CDIs except indirectly through the CREST Depository and CREST Nominee who in turn can enforce rights indirectly through the intermediary depositories and custodians described above. The enforcement of rights in respect of the Underlying Securities will therefore be subject to the local law of the relevant intermediary.

These arrangements could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in Clearing Systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

If a matter arises that requires a vote of Securityholders, the Issuer may make arrangements to permit the holders of CDIs to instruct the CREST Depository to exercise the voting rights of the CREST Nominee in respect of the Underlying Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CDIs.

Holders of CDIs will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST International Manual (which forms part of the CREST Manual issued

by Euroclear UK & Ireland Limited and as amended, modified, varied or supplemented from time to time (the "**CREST Manual**") and the CREST Rules (contained in the CREST Manual) applicable to the CREST International Settlement Links Service. Holders of CDIs must comply in full with all obligations imposed on them by such provisions.

Investors in CDIs should note that the provisions of the CREST Deed Poll, the CREST Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by holders of CDIs and limitations on the liability of the CREST Depository as issuer of the CDIs. Holders of CDIs may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them.

Investors in CDIs should note that holders of CDIs may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying Securities through the CREST International Settlement Links Service.

Investors in CDIs should note that none of the Issuer, any Dealer or any Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders acting in connection with CDIs or for the respective obligations of such intermediaries, participants or accountholders under the rules and procedures governing their operations.

(l) **Risk in connection with taxes or other charges that are levied in respect of the Securities**

The yields that investors in Securities issued under the Base Prospectus may receive may be subject to taxes or other charges. These taxes or other charges will have to be borne by the investors. The Issuer will not pay any additional amounts to the investors in respect of such taxes or charges, so that any taxes levied or other charges may reduce the yields of investors under the Securities. Investors should note that the applicable legal provisions regarding the application of taxes or other charges in respect of yields under the Securities may change to the disadvantage of investors.

(m) **Risk in connection with the withholding under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "Code")**

Section 871(m) of the Code imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. For purposes of withholding under the U.S. Foreign Account Tax Compliance Act, securities subject to the withholding rule described above are subject to a different grandfathering rule than other securities. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "Taxation – Withholding on Dividend Equivalents under Section 871(m)" and "Taxation - Reporting and Withholding under Foreign Account Tax Compliance Act (FATCA)".

(n) **Risk in connection with transaction costs/charges**

When Securities are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the purchase or sale price of such Securities. These incidental costs may significantly reduce or eliminate any profit from holding such Securities.

In addition to such costs directly related to the purchase of securities (direct costs), potential investors in Securities must also take into account any follow-up costs (such as custody fees). These costs may also significantly reduce or eliminate any profit from holding such Securities.

In addition, certain levels of the Underlying Asset(s) used for the calculation of amounts payable in respect of the Securities may be adjusted for transaction costs and/or adjustment fees, which costs and fees will reduce the redemption amount to be received by the investor.

(o) **Inflation risk**

The real yield on an investment in Securities is reduced by inflation. Consequently, the higher the rate of inflation, the lower the real yield on a Security will be. If the inflation rate is equal to or higher than the yield under a Security, the real yield a holder of such Security will achieve will be zero or even negative.

USE OF PROCEEDS

Unless otherwise specified in the relevant Issue Terms, the net proceeds from each issue of Securities will be used to hedge the obligations of the Issuer under the Securities and for general corporate purposes. If, in respect of any particular issue, there is a particular identified use, this will be stated in the relevant Issue Terms.

OVERVIEW OF THE POTENTIAL FOR DISCRETIONARY DETERMINATIONS BY THE ISSUER

Under the terms and conditions of the Securities, following the occurrence of certain events outside of its control, the Issuer may exercise its discretion to take one or more actions available to it in order to deal with the impact of such events on the Securities or its hedging arrangements (or both). **Any such exercise of a discretionary determination by the Issuer could have a material adverse impact on the value of and return on the Securities and/or could result in their early redemption.**

Below is an overview of the types of events that could give rise to a discretionary determination by the Issuer (if so specified to be applicable to the relevant Securities), the actions available to the Issuer to deal with the impact of such events and the effect of such event and/or action taken by the Issuer. Any such determinations may be delegated by the Issuer to a Calculation Agent. Investors should also read the Terms and Conditions of the Securities which sets out in full the terms summarised below.

<p>What are the types of events that could give rise to a discretionary determination by the Issuer?</p>	<p>Broadly, there are four types of events that could give rise to a discretionary determination by the Issuer:</p> <ul style="list-style-type: none"> (a) if the Issuer's obligations (including any calculations or determinations to be made by the Issuer) under the Securities (depending on the terms of the particular Securities) or its related hedging arrangements become or will become illegal; (b) external events which affect the Underlying Asset(s) (if any); (c) external events which affect the Reference Rate(s) (if any); and (d) (depending on the terms of the particular Securities) external events which affect the Issuer's hedging arrangements. 				
<p>What are the types of external events which affect the Underlying Asset(s)?</p>	<p>If the Securities are linked to one or more Underlying Assets, there are many different external events that may affect such Underlying Asset(s), and these will vary depending on the type of Underlying Asset(s), as summarised in the table below:</p> <table border="1" data-bbox="555 1205 1343 2020"> <thead> <tr> <th data-bbox="564 1211 842 1290">Type(s) of Underlying Asset</th> <th data-bbox="852 1211 1334 1290">External events which affect such Underlying Asset(s)</th> </tr> </thead> <tbody> <tr> <td data-bbox="564 1303 842 2020"><i>Equity, ETF</i></td> <td data-bbox="852 1303 1334 2020"> <p>Potential Adjustment Events: broadly, corporate actions relating to the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), which have a dilutive or concentrative effect on the theoretical value of the share or component share - for example, a stock split or a distribution payment to holders of the shares or component shares.</p> <p>Extraordinary Events: events which materially impact on the business of the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), such as a merger, a takeover or tender offer, the nationalisation of the shares or component shares or assets of the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), a delisting of the relevant shares on an exchange or if the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share) becomes insolvent.</p> </td> </tr> </tbody> </table>	Type(s) of Underlying Asset	External events which affect such Underlying Asset(s)	<i>Equity, ETF</i>	<p>Potential Adjustment Events: broadly, corporate actions relating to the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), which have a dilutive or concentrative effect on the theoretical value of the share or component share - for example, a stock split or a distribution payment to holders of the shares or component shares.</p> <p>Extraordinary Events: events which materially impact on the business of the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), such as a merger, a takeover or tender offer, the nationalisation of the shares or component shares or assets of the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share), a delisting of the relevant shares on an exchange or if the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share) becomes insolvent.</p>

	<p><i>Index, Commodity Index, FX Index, Interest Rate Index</i></p>	<p>Successor Index: the index is replaced by another index which is calculated using the same (or substantially similar) formula.</p> <p>Index Adjustment Events (or in the case of a Commodity Index only, Commodity Index Adjustment Events): events which materially impact on the calculation of the index - for example, the relevant sponsor cancels the index or fails to calculate the level of the index or materially changes the formula for calculating the index, or if the index may not be used in certain ways by the Issuer if its administrator does not obtain authorisation or registration (subject to applicable transitional provisions).</p>
	<p><i>Inflation Index</i></p>	<p>Cessation of publication: the index is not published for an extended period or the sponsor announces that it will no longer publish the index, and the index is replaced by another index or the Issuer determines that no successor index has been determined.</p> <p>Rebasing of index: the index has been or will be rebased at any time.</p> <p>Material modification to the index: the relevant sponsor announces that it will make a material change to the index.</p>
	<p><i>ETF</i></p>	<p>Reference Index adjustment events: as an ETF tracks the performance of a reference index, these are events which impact on the calculation of the ETF (for example, if the ETF no longer tracks the performance of the reference index) and events which affect the reference index (for example, if the relevant sponsor materially changes the formula for calculating the reference index).</p> <p>See also the line item "<i>Equity, ETF</i>" above.</p>
	<p><i>ETC</i></p>	<p>Potential Adjustment Events: broadly, amendments made to the conditions of the ETC or any other event which may have a dilutive or concentrative effect on the theoretical value of the ETC.</p> <p>Extraordinary Events: events such as a delisting of the relevant ETC on an exchange, the insolvency of the ETC Issuer, events relating to key service providers in relation to the ETC, a modification to the terms of the ETC or the Underlying Commodity or events that may result in the early redemption of the ETC.</p>
	<p><i>FX Index</i></p>	<p>Change of Sponsor: the sponsor of the index changes to an entity which is not an affiliate of the Issuer.</p> <p>Index Calculation Agent Event: the performance by the index sponsor of its duties</p>

		<p>becomes unlawful, illegal, impossible or commercially impracticable.</p> <p>Index Disruption Event: a disruption event (as specified in the rules of the index) occurs.</p> <p>See also the line item "<i>Index, Commodity Index, FX Index, Interest Rate Index</i>" above.</p>				
	<i>Cash Index</i>	<p>Reference Rate Event: the Reference Rate by reference to which the level of the Cash Index is determined (a) may be permanently or indefinitely discontinued or may cease to exist, or (b) may not be used in certain ways by an EU supervised entity if its administrator does not obtain authorisation or registration (subject to applicable transitional provisions).</p>				
What are the types of external events which affect the Reference Rate(s)?	<p>If the Securities are linked to one or more Reference Rates, there are certain external events that may affect a Reference Rate. For example, a Reference Rate (a) may be materially modified, (b) may be permanently or indefinitely discontinued or may cease to exist, or (c) may not be used in certain ways by an EU supervised entity if its administrator does not obtain authorisation or registration (subject to applicable transitional provisions) (each of the events described in (b) and (c) above, called a "Reference Rate Event"). In the case of a material modification to a Reference Rate, no changes will be made to the Securities.</p>					
What are the types of external events which affect the Issuer's hedging arrangements?	<p>There are many different external events that may affect the Issuer's hedging arrangements, and these will vary depending on (a) the type of Underlying Asset or (b) the type of Securities, as summarised in the table below:</p> <table border="1"> <thead> <tr> <th>Type(s) of Underlying Asset / Type of Security</th> <th>External events which affect the Issuer's hedging arrangements</th> </tr> </thead> <tbody> <tr> <td><i>Equity, Index, Commodity, Commodity Index, ETF, FX, FX Index, Interest Rate Index</i></td> <td> <p>Change in law: as a result of a change in any applicable law, it has become unlawful or illegal to conduct its hedging arrangements or it will incur a materially increased cost in performing its obligations under the Securities or be subject to materially increased regulatory capital requirements in respect of the Securities or the hedging arrangements.</p> <p>Hedging Disruption: an event which impacts the ability of the Issuer and/or its affiliates to hedge the risk of the Issuer entering into and performing its obligations under the Securities –</p> </td> </tr> </tbody> </table>		Type(s) of Underlying Asset / Type of Security	External events which affect the Issuer's hedging arrangements	<i>Equity, Index, Commodity, Commodity Index, ETF, FX, FX Index, Interest Rate Index</i>	<p>Change in law: as a result of a change in any applicable law, it has become unlawful or illegal to conduct its hedging arrangements or it will incur a materially increased cost in performing its obligations under the Securities or be subject to materially increased regulatory capital requirements in respect of the Securities or the hedging arrangements.</p> <p>Hedging Disruption: an event which impacts the ability of the Issuer and/or its affiliates to hedge the risk of the Issuer entering into and performing its obligations under the Securities –</p>

<i>Equity, Index, Commodity, Commodity Index, ETF, FX, FX Index, Interest Rate Index</i>	<p>Change in law: as a result of a change in any applicable law, it has become unlawful or illegal to conduct its hedging arrangements or it will incur a materially increased cost in performing its obligations under the Securities or be subject to materially increased regulatory capital requirements in respect of the Securities or the hedging arrangements.</p> <p>Hedging Disruption: an event which impacts the ability of the Issuer and/or its affiliates to hedge the risk of the Issuer entering into and performing its obligations under the Securities –</p>					

		<p>for example, if the Issuer is unable to enter into a hedge or to realise the proceeds of a hedge.</p> <p>Increased Cost of Hedging: the Issuer and/or its affiliates would incur a materially increased cost to hedge the risk of the Issuer entering into and performing its obligations under the Securities (except where the increased cost is due to the deterioration of the creditworthiness of the Issuer and/or its affiliates).</p>
	<i>Equity, Index, ETF</i>	<p>Foreign Ownership Event: as a result of restrictions on ownership of shares by foreign persons in the relevant jurisdiction, the Issuer and/or its affiliates are unable to conduct its hedging arrangements.</p> <p>FX Disruption: an event which impacts on the ability of the Issuer and/or its affiliates to transfer or convert any relevant amounts in relation to its hedging arrangements.</p>
	<i>Equity, ETF</i>	<p>Loss of Stock Borrow: the Issuer and/or its affiliates are not able to borrow shares for the purposes of its hedging arrangements.</p> <p>Increased Cost of Stock Borrow: the Issuer and/or its affiliates will incur increased costs to borrow shares for the purposes of its hedging arrangements.</p>
	<i>Equity</i>	<p>Insolvency Filing: an event which impacts on the transferability of the shares (or, in respect of a share which is a stapled share, any component shares of such share) as a result of insolvency or similar proceedings affecting the share issuer (or, in respect of a share which is a stapled share, the issuer of any component share of such share).</p>
	<i>ETF</i>	<p>Fund Insolvency Event: insolvency or similar proceedings are affecting the ETF.</p> <p>Cross-contamination: a failure to segregate effectively assets between different classes or series of the ETF.</p> <p>Fund Modification: changes are made to the ETF's documents that could affect the value of the share or the rights of holders.</p> <p>Regulatory Action: events affecting the conduct of the ETF's business – for example, if the authorisation of the ETF is cancelled or there is a change in the legal, tax, accounting or regulatory treatment of the ETF which adversely affects the value of the shares.</p> <p>Strategy Breach: a breach of the strategy or investment guidelines of the ETF.</p>

	<i>ETC</i>	<p>Change in law: as a result of a change in any applicable law, it has become unlawful or illegal to conduct its hedging arrangements or it will incur a materially increased cost in performing its obligations under the Securities or be subject to materially increased regulatory capital requirements in respect of the Securities or the hedging arrangements.</p> <p>Hedging Disruption: an event which impacts the ability of the Issuer and/or its affiliates to hedge the risk of the Issuer entering into and performing its obligations under the Securities – for example, if the Issuer is unable to enter into a hedge or to realise the proceeds of a hedge.</p>
	<i>FX Index</i>	<p>Insolvency Disruption Event: any insolvency or similar proceedings affecting the sponsor would lead to a Hedging Disruption, an Increased Cost of Hedging and/or an Index Calculation Agent Event (as each described above).</p>
	<i>Equity, Index, Commodity, Commodity Index, ETF, FX, FX Index, Interest Rate Index</i>	<p>Jurisdictional Event: an event where, as a result of the risks (which may be political, legal or otherwise) associated with certain emerging countries, has the effect of reducing the value of the proceeds of the Issuer's hedging arrangements.</p>
	<i>Interest-bearing Securities, provided that "Interest and Currency Rate Additional Disruption Event" is specified to be applicable in the relevant Issue Terms</i>	<p>Interest and Currency Rate Hedging Disruption: an event which impacts the ability of the Issuer and/or its affiliates to hedge the interest and currency rate risk of the Issuer entering into and performing its obligations under the Securities – for example, if the Issuer is unable to enter into a hedge or to realise the proceeds of a hedge.</p> <p>Interest and Currency Rate Increased Cost of Hedging: the Issuer and/or its affiliates would incur a materially increased cost to hedge the interest and currency rate risk of the Issuer entering into and performing its obligations under the Securities (except where the increased cost is due to the deterioration of the creditworthiness of the Issuer and/or its affiliates).</p>
<p>Why is it necessary for the Issuer to make discretionary determination following the occurrence of such events?</p>	<p>The Issuer may be unable to continue to perform its obligations under the Securities or its related hedging arrangements if they become or will become unlawful or illegal. In that case, unless "Additional Provisions for EM Securities" is specified to be applicable in the relevant Pricing Supplement (and depending on the terms of the particular Securities, and excluding Belgian Securities) the Issuer may need to (a) adjust the terms of the Securities so that it is no longer illegal for it to perform its obligations, or (b) early redeem the Securities.</p>	

	<p>Where the Securities are linked to one or more Underlying Assets or Reference Rates, the investment objective of the Securities is to allow an investor to gain an economic exposure to the Underlying Asset(s) or Reference Rate(s), as the case may be. If an Underlying Asset or a Reference Rate, as the case may be, is materially impacted by an unexpected event – for example, a company merges and the original stock that formed an Underlying Asset is restructured or changed, the rules of an index that is an Underlying Asset are materially modified, or a Reference Rate is permanently or indefinitely discontinued or ceases to exist – then it may not be possible to achieve the investment objective of the Securities based on the original terms and conditions of the Securities. The Issuer will need to make certain discretionary determinations in order to preserve the original economic objective and rationale of the Securities.</p> <p>In addition, the Issuer or its affiliates or the hedging entity may enter into hedging arrangements in order to manage its exposure in relation to its payment obligations under the Securities and to enable it to issue the Securities at the relevant price and on the relevant terms. If the amount(s) payable by the Issuer under the Securities depend on the performance of the Underlying Asset(s) or an interest rate, the hedging arrangements may involve (a) holding the Underlying Asset(s) or the components constituting the Underlying Asset(s) directly, or (b) entering into derivative contracts with counterparties to receive a corresponding economic exposure to the Underlying Asset(s) or the relevant interest rate, or to hedge the interest rate, currency rate or price risk in relation to the Underlying Asset(s) or the Securities. The exercise of the Issuer's discretion is necessary if an external event occurs subsequent to the issuance of the Securities which negatively impacts the Issuer's hedging arrangements or the costs of maintaining such hedging arrangements. The occurrence of such unanticipated external events is unlikely to have been reflected in the original pricing of the Securities.</p>
<p>If such an event occurs, what actions can the Issuer take?</p>	<p>Broadly, depending on the terms of the Securities (and bearing in mind that different terms may apply to different types of Underlying Assets and where specified to be applicable in the relevant Issue Terms), the Issuer may take one or more of the following actions in order to deal with the effect of the events outlined above:</p> <p>(a) Adjustments to the terms and conditions of the Securities: The Issuer may adjust the terms and conditions of the Securities to account for the economic effect of the external event on the Underlying Asset(s) or (where applicable in relation to the particular Securities, and excluding Belgian Securities) on its hedging arrangements, and to preserve the original economic objective and rationale of the Securities. This may include adjustments to the amount(s) payable and/or any variable relevant to payment under the Securities.</p> <p>(b) Substitution of the Underlying Asset(s) in the case of a Share or an ETF Share: In respect of Equity-linked Securities and ETF-linked Securities where "Share Substitution" is specified to be applicable in the relevant Issue Terms, following an Extraordinary Event (as described above), the Issuer may substitute the relevant Underlying Asset with a replacement asset satisfying the criteria set out in the relevant Asset Terms. The Issuer may also make adjustments to the terms and conditions of the Securities to account for the Extraordinary Event and the replacement of the original Underlying Asset, and to preserve the original economic objective and rationale of the Securities.</p> <p>(c) Replacement of the Underlying Asset(s) in the case of an Index, a Commodity Index, an FX Index or an Interest Rate Index: In respect of Index-linked Securities (other than if "Additional Provisions for EM Securities" is specified to be applicable in the relevant Pricing Supplement), Commodity Index-linked Securities, FX Index-linked Securities and Interest Rate Index-linked Securities, following an Index</p>

	<p>Adjustment Event (as described above) or (in the case of an Index, a Commodity Index or an FX Index only) any component of such Underlying Asset may not be used in certain ways by the Issuer if its administrator does not obtain authorisation or registration, the Issuer may replace the relevant Underlying Asset with a replacement asset and also determine an adjustment payment that it determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa). Such adjustment payment may reduce the amount(s) payable to Securityholders under the Securities. The Issuer may also make adjustments to the terms and conditions of the Securities to account for effect of the replacement of the original Underlying Asset, and to preserve as nearly as practicable the economic equivalence of the Securities before and after such replacement. In respect of Index-linked Securities, if "Additional Provisions for EM Securities" is specified to be applicable in the relevant Pricing Supplement, the Issuer may substitute the relevant Index with a replacement asset following an Index Adjustment Event.</p> <p>(d) Replacement of the Reference Rate(s): If the Securities are linked to a Reference Rate or if the Securities are linked to a Cash Index, then following a Reference Rate Event (as described above), the Issuer may (in the case of an ISDA Rate, after applying any fallback(s) specified in the definition of such Reference Rate) replace the relevant Reference Rate with a replacement reference rate and also determine an adjustment spread that it determines is required in order to reduce or eliminate any transfer of economic value from the Issuer to the Securityholders (or vice versa). Such adjustment spread may reduce the Rate of Interest or Rate of Premium, as the case may be, and in turn, the amount(s) payable under the Securities. The Issuer may also make adjustments to the terms and conditions of the Securities to account for effect of the replacement of the original Reference Rate, and to preserve as nearly as practicable the economic equivalence of the Securities before and after such replacement. If a determination is required to be made by reference to the affected Reference Rate but the Issuer is unable to identify a replacement reference rate and/or determine an adjustment spread on or prior to the second currency business day prior to the date on which payment of any amount specified to be calculated by reference to such affected Reference Rate is scheduled to be paid, and the affected Reference Rate is no longer available, then the Reference Rate shall be determined by reference to the last published rate that can be used in accordance with any applicable law or regulation.</p> <p>(e) Early redemption and/or payment of the Unscheduled Termination Amount: In certain situations, if the Issuer determines that no adjustment to the terms and conditions would lead to a commercially reasonable result, or the Underlying Asset(s) or the Reference Rate(s), as the case may be, cannot be replaced with a suitable substitute asset, replacement index or replacement reference rate, as the case may be (if applicable), or it would be unlawful or would contravene applicable licensing requirements for the Issuer to perform the relevant determinations or calculations or an adjustment spread is or would be a benchmark, index or other price source that would subject the Issuer or the Calculation Agent to material additional regulatory obligations (if applicable), the Issuer may either (i) early redeem the Securities or (ii) redeem the Securities on maturity, in each case by payment of the Unscheduled Termination Amount instead of the Redemption Amount or Settlement Amount, as the case may be, and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, notwithstanding the occurrence of such an event, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to</p>
--	--

	<p>be paid on such Instalment Date. See "How is the Unscheduled Termination Amount calculated?" below.</p>
<p>How is the Unscheduled Termination Amount calculated?</p>	<p><u><i>How is the Unscheduled Termination Amount calculated for all Securities (other than Belgian Securities)?</i></u></p> <p>If the relevant Issue Terms specify that "Unscheduled Termination at Par" is applicable, the Unscheduled Termination Amount will be equal to the <i>sum</i> of (a) the Nominal Amount (or, if less, the outstanding nominal amount), <i>plus</i> (b) any accrued but unpaid interest on the Security up to the date of redemption of the Security.</p> <p>If "Additional Provisions for EM Securities" is specified to be applicable in the relevant Pricing Supplement, the Unscheduled Termination Amount will be equal to the <i>sum</i> of (a) the Minimum Payment Amount (being an amount so specified in the relevant Pricing Supplement), <i>plus</i> (b) an amount equal to the product of (i) the result of (A) the Redemption Option Percentage <i>minus</i> 100 per cent., <i>divided</i> by (B) 10 and (ii) the relevant day count fraction.</p> <p>If the relevant Issue Terms specify that each of "Unscheduled Termination at Par", "Additional Provisions for EM Securities" and "Institutional" are not applicable, and provided that (a) the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, and (b) the Securities are not redeemed for reasons of illegality or due to an event of default, the Unscheduled Termination Amount will be equal to the <i>sum</i> of (i) the minimum amount payable, <i>plus</i> (ii) the value of the "option component" of the Securities as at the date on which the Issuer determines that an event resulting in the unscheduled redemption of the Securities has occurred, <i>plus</i> (iii) any interest accrued on the value of the "option component" from, and including, such date to, but excluding, the date on which the Securities are redeemed.</p> <p>The "option component" of a Security is an option which provides exposure to the Underlying Asset(s) (if any), the terms of which are fixed on the trade date in order to enable the Issuer to issue such Security at the relevant price and on the relevant terms. The terms of the "option component" will vary depending on the terms of the Security.</p> <p>Otherwise, the Unscheduled Termination Amount will be equal to the value of the Securities immediately prior to them becoming due and payable following an event of default or, in all other cases, as soon as reasonably practicable following the determination by the Issuer to early redeem the Securities. The value of the Securities (which may be greater than or equal to zero), will be calculated by the Calculation Agent using its then prevailing internal models and methodologies and may be based on or may take account of (a) the time remaining to maturity of the Securities, (b) the interest rates at which banks lend to each other, (c) the interest rate at which the Issuer (or its affiliates) is charged to borrow cash, (d) the value, expected future performance and/or volatility of the Underlying Asset(s) (if applicable), (e) the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), and (f) any other relevant information which the Calculation Agent deems relevant, provided that, in the case of an early redemption following an event of default, the calculation of the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).</p> <p>In the case where the Securities are redeemed following the occurrence of an event of default, each of the factors described in (c) and (e) in the immediately preceding paragraph shall be determined by the Calculation Agent at a time during the period commencing immediately prior to when rates that are observed in the market relating to the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating) began to significantly</p>

	<p>worsen and ending with the occurrence of the event of default, taking into account relevant factors including, without limitation, whether or not there is a material deviation from the historic correlation of the market observable rates relating to the creditworthiness of the Issuer from the corresponding rates for comparable entities in such market. In all other cases, each of the factors described in (c) and (e) in the immediately preceding paragraph shall be determined by the Calculation Agent on or reasonably close to the time at which the Calculation Agent calculates the Unscheduled Termination Amount.</p> <p>The Unscheduled Termination Amount may, if so specified in the relevant Issue Terms, also be adjusted to account for any associated losses, expenses or costs that are incurred (or would be incurred) by the Issuer and/or its affiliates as a result of unwinding, establishing, re-establishing and/or adjusting any hedging arrangements in relation to the Securities.</p> <p><u><i>How is the Unscheduled Termination Amount calculated in respect of Belgian Securities?</i></u></p> <p>If the relevant Issue Terms specify that (a) "Supplementary Provisions for Belgian Securities" is applicable, (b) "Unscheduled Termination at Par" is not applicable and (c) "Minimum Payment Amount" is not applicable, the Unscheduled Termination Amount is an amount equal to the Calculation Agent Value of the Securities, being the value of the Securities on (or as close as reasonably practicable to) the Unscheduled Termination Event Date as calculated by the Calculation Agent using its then prevailing internal models and methodologies, and may be based on or may take account of (a) the time remaining to maturity of the Securities, (b) the interest rates at which banks lend to each other, (c) the interest rate at which the Issuer (or its affiliates) is charged to borrow cash, (d) (if applicable) the value, expected future performance and/or volatility of the Underlying Asset(s), (e) the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating), and (f) any other relevant information which the Calculation Agent deems relevant, provided that, in the case of an early redemption following an event of default, the calculation of the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating).</p> <p>In the case where the Securities are redeemed following the occurrence of an event of default, each of the factors described in (c) and (e) in the immediately preceding paragraph shall be determined by the Calculation Agent at a time during the period commencing immediately prior to when rates that are observed in the market relating to the creditworthiness of the Issuer (including, but not limited to, an actual or anticipated downgrade in its credit rating) began to significantly worsen and ending with the occurrence of the event of default, taking into account relevant factors including, without limitation, whether or not there is a material deviation from the historic correlation of the market observable rates relating to the creditworthiness of the Issuer from the corresponding rates for comparable entities in such market. In all other cases, each of the factors described in (c) and (e) in the immediately preceding paragraph shall be determined by the Calculation Agent on or reasonably close to the time at which the Calculation Agent calculates the Unscheduled Termination Amount.</p> <p>If the early redemption is not due to a Force Majeure Event or an event of default, then the Securityholder shall also be entitled to a further amount equal to the total costs of the Issuer paid by the original Securityholder to the Issuer in a proportion equal to the time left to scheduled maturity over the entire term (such amount being the Calculation Agent Value (adjusted)).</p> <p>If the relevant Issue Terms specify that (a) "Supplementary Provisions for Belgian Securities" is applicable, (b) "Unscheduled Termination at Par" is not applicable and (c) "Minimum Payment Amount" is applicable, then:</p>

<p>What is the effect of such event and/or action taken by the Issuer?</p>	<p>Any of the above actions, if taken by the Issuer, may result in a reduced return on the Securities and/or have a material adverse impact on the value of the Securities. In particular, if the relevant Issue Terms specify that "Institutional" is applicable or if the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount which is at least equal to an investor's initial investment, the Unscheduled Termination Amount could be less than such investor's initial investment (and may be reduced to zero).</p> <p>Further, if the Securities are redeemed early prior to the scheduled maturity, an investor may be unable to reinvest the redemption proceeds in another investment at the time that provides an equivalent return.</p>
<p>Will the Issuer notify me if such an event occurs and/or if it takes any of the above actions?</p>	<p>Yes, the Issuer will generally give notice to Securityholders as soon as practicable upon making any adjustments to the terms and conditions of the Securities, or if it substitutes an Underlying Asset with a replacement asset, or if the Issuer determines to early redeem the Securities or to pay the Unscheduled Termination Amount at maturity, or if the Issuer makes any other discretionary determination. If the Securities are linked to a Reference Rate and a Reference Rate Event has occurred, the Issuer will give notice to Securityholders as soon as practicable.</p>
<p>Are there any other situations where the Issuer may make discretionary determinations?</p>	<p><i>Disruption events affecting the valuation of an Underlying Asset</i></p> <p>If the Issuer determines that a disruption event in relation to an Underlying Asset has occurred which affects the valuation of such Underlying Asset on any relevant day, the Issuer may postpone, or apply alternative provisions for, the valuation of such Underlying Asset (such as by making its own determination of the value of such Underlying Asset, or, if "Additional Provisions for EM Securities" is specified to be applicable in the relevant Pricing Supplement, replace the Underlying Asset with a replacement Underlying Asset). Such determination(s) may have an adverse effect on the value of the Securities.</p>

	<p><i>Setting of certain indicative inputs by the Issuer</i></p> <p>Certain inputs (such as the rate of interest or participation level) which are used to calculate the amount(s) payable under the Securities may not be set by the Issuer at the start of the offer period, and may instead be determined by the Issuer at or after the close of the offer period. This is because the Issuer will need to take into account the market conditions at the time of the close of the offer period (such as the value of the Underlying Asset, the prevailing interest rates, etc.) in order to be able to issue the Securities at the relevant price and on the relevant terms. The final amount(s) set by the Issuer may be different to the indicative amount(s) specified in the relevant Final Terms, although the final amount(s) will not be less than the minimum amount(s) or greater than the maximum amount(s) specified in the relevant Final Terms (as the case may be).</p> <p><i>Currency disruption events affecting the Issuer's ability to make payment</i></p> <p>If "Payment Disruption" is specified to be applicable in the relevant Issue Terms, the Issuer may delay payment of any amounts due (or shortly to be due) under the Securities following the occurrence of certain currency disruption events which affect its ability to make such payment. If such event continues on the specified cut-off date, the Issuer will (a) (where "Payment in Alternate Currency" is specified to be applicable in the relevant Issue Terms) make payment of an equivalent amount of the relevant amount in an alternate currency on the extended date, or (b) (where "Payment of Adjusted Amount" is specified to be applicable in the relevant Issue Terms) make payment of the relevant amount on the extended date, and may adjust the amount payable to account for any difference between the amount originally payable and the amount that a hypothetical investor would receive if such hypothetical investor were to enter into and maintain any theoretical hedging arrangements in respect of the Securities. If the relevant currency is subject to inconvertibility, non-transferability, capital controls or other conditions affecting its availability at the time any payment is due to be made, the Issuer may not be able to convert or obtain the relevant currency in order to make payment of such amounts, and would need to make certain discretionary determinations in order to take into account the effect of such event. Such events are unlikely to have been reflected in the original pricing of the Securities.</p>
<p>How will the Issuer exercise its discretion?</p>	<p>In considering whether and how to make such a discretionary determination, the Issuer shall (whether or not already expressed to be the case in the Conditions) act in good faith and in a commercially reasonable manner, and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such discretionary determination in accordance with its applicable regulatory obligations.</p>

OVERVIEW OF PROVISIONS RELATING TO NOTES WHILE IN GLOBAL FORM

The following provisions apply to Notes while in global form and represented by a Global Security or Global Certificate.

Relationship of Accountholders with Clearing Systems (other than SIX SIS)

Each of the persons shown in the records of a Clearing System (other than SIX SIS) as the holder of a Security represented by a Global Security or a Global Certificate must look solely to such Clearing System for its share of each payment made by the Issuer to the bearer of such Global Security or the holder of the Global Certificate, as the case may be, and in relation to all other rights arising under the Global Security or Global Certificate, subject to and in accordance with the respective rules and procedures of such Clearing System.

So long as the Securities are represented by a Global Security or Global Certificate and the relevant Clearing System(s) so permit, the Securities shall be tradable only in principal amounts of at least the Specified Denomination (or if more than one Specified Denomination, the lowest Specified Denomination) provided hereon and integral multiples of the tradable amount in excess thereof provided in the relevant Issue Terms.

Global Certificates

If the Securities are held in a Clearing System (other than SIX SIS) and are represented by a Global Certificate, the following will apply in respect of transfers of Securities. These provisions will not prevent the trading of interests in the Securities within a Clearing System (which will be subject to the rules and procedures of the relevant Clearing System), but will limit the circumstances in which the Securities may be withdrawn from the relevant Clearing System.

Transfers of the holding of Securities represented by any Global Certificate pursuant to General Note Condition 2 may only be made in part:

- (a) if the relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or
- (b) if principal in respect of any Securities is not paid when due; or
- (c) with the consent of the Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to (a) or (b) above, the person in whose name the Securities are registered has given the Registrar not less than 30 days' notice at its specified office of its intention to effect such transfer.

No such transfer may be made during the period from the date of selection of Securities to be redeemed pursuant to General Note Condition 5(d) to the date of their redemption.

Deed of Covenant

Under the Deed of Covenant, the Issuer has covenanted in favour of the Securityholders from time to time that if principal in respect of any Securities is not paid when due, it will make payment of the unpaid amounts in respect of the Securities to the relevant Clearing Systems for crediting to the accounts of the relevant Securityholders in accordance with the rules and procedures of the relevant Clearing System.

Global Security in NGN Form and Global Certificate held under the NSS

In respect of Notes issued in bearer form, if "NGN Form" is specified to be applicable in the relevant Issue Terms, the Global Security will be issued in NGN form, to be delivered on or prior to the issue date to a common safekeeper for the ICSDs. The outstanding amount of issue will be determined from the records of the ICSDs. Otherwise, the Global Security will be issued in classic global note form.

In respect of Notes issued in registered form, if the Global Certificate is intended to be held in a manner which would allow Eurosystem eligibility, as specified in the relevant Issue Terms, such Global Certificate will be held under the NSS and will be registered in the name of a nominee of a common safekeeper for the ICSDs and deposited on or about the Issue Date with the common safekeeper for the ICSDs.

Global Security deposited with SIX SIS

In respect of Securities which are Notes in bearer form and represented by a Global Security, which is deposited with SIX SIS as central depository, as a matter of Swiss law, each holder of such Securities represented by a Global Security will have a co-ownership interest (*Miteigentumsanteil*) in the relevant Global Security to the extent of such holder's claim against the Issuer, provided, however, that for so long as the relevant Global Security is deposited with SIX SIS and the Securities are entered into the securities account of one or more participants of SIX SIS, then such Securities will, as a matter of Swiss law, constitute intermediated securities (*Bucheffekten*) within the meaning of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), and the co-ownership interest in such Security shall be suspended, and such Securities may only be transferred by the entry of the transferred Securities in a securities account of the relevant transferee.

TERMS AND CONDITIONS OF THE SECURITIES

GENERAL TERMS AND CONDITIONS OF NOTES

*The following is the text of the general terms and conditions ("**General Note Conditions**") that, together with any applicable Additional Provisions, any applicable Product Conditions and any applicable Asset Terms (as specified in the relevant Issue Terms) and subject to the provisions of the relevant Issue Terms, shall be applicable to Securities for which the relevant General Terms and Conditions are specified in the relevant Issue Terms as being those of "Notes". References in the Conditions to "Securities" are to the Securities of one Series only, not to all Securities that may be issued under the Programme. Definitions used in these General Note Conditions shall not apply in relation to any of the other General Terms and Conditions contained in this Securities Note.*

The Securities are issued with the benefit of a deed of covenant dated on or about 17 July 2020 (as amended or supplemented as at the Issue Date, the "**Deed of Covenant**") executed by the Issuer in relation to Securities issued by the Issuer. The fiscal agent, the registrar, the transfer agents, the calculation agent(s) and the paying agents for the time being (if any) are referred to below respectively as the "**Fiscal Agent**", the "**Registrar**", the "**Transfer Agents**", the "**Calculation Agent(s)**" and the "**Paying Agents**" (which expression shall include the Fiscal Agent, the Registrar, the Transfer Agents and the Calculation Agent(s) and together with any other agents specified in the

relevant Issue Terms, the "**Agents**"). The Securityholders (as defined in General Note Condition 1) are deemed to have notice of all of the provisions of the Agency Agreement applicable to them. Copies of the Agency Agreement, the Deed of Covenant are, and, so long as any Security remains outstanding, will be available for inspection during normal business hours at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents.

The Securities of any Series are subject to these General Note Conditions (as modified and/or supplemented by any applicable Additional Provisions, any applicable Product Conditions and any applicable Asset Terms) and the relevant Issue Terms (as defined below) relating to the relevant Securities (together, the "**Terms and Conditions**" or the "**Conditions**"). Where the Securities are not Exempt Securities (as defined below), the final terms relating to the Securities will be set out in a final terms document (the "**Final Terms**"). If the Securities of a Series are Securities which are neither admitted to trading on a regulated market in the European Economic Area (the "**EEA**") nor offered in the EEA in circumstances where a prospectus is required to be published under the Prospectus Regulation ("**Exempt Securities**"), the final terms relating to such Exempt Securities will be set out in a pricing supplement document (the "**Pricing Supplement**") which may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these General Note Conditions and/or the applicable Product Conditions and/or the applicable Asset Terms, replace or modify these General Note Conditions and/or any applicable Additional Provisions and/or the applicable Product Conditions and/or the applicable Asset Terms for the purposes of such Exempt Securities. "**Issue Terms**" refers to the relevant final terms document and means either (a) the Final Terms or (b) the Pricing Supplement. "**Prospectus Regulation**" means Regulation (EU) 2017/1129 (as amended from time to time). For the purposes of the Conditions, references to the EEA include the United Kingdom.

Expressions used herein and not defined shall have the meaning given to them in any applicable Additional Provisions, any applicable Product Conditions, any applicable Asset Terms or the relevant Issue Terms. In the event of any inconsistency between the General Note Conditions, the applicable Additional Provisions (if any), the applicable Product Conditions, the applicable Asset Terms and the relevant Issue Terms, the prevailing terms will be determined in accordance with the following order of priority (where (a) prevails over the other terms):

- (a) the relevant Issue Terms;
- (b) the applicable Product Conditions;
- (c) the applicable Asset Terms;
- (d) the applicable Additional Provisions (if any); and
- (e) the General Note Conditions.

1. **Form, Denomination and Title**

The Securities are issued in bearer form ("**Bearer Securities**") or in registered form ("**Registered Securities**") in each case with a nominal amount equal to the Specified Denomination(s) specified in the relevant Issue Terms.

All Registered Securities shall have the same Specified Denomination.

Bearer Securities are represented by a bearer global security (a "**Global Security**"). No definitive Bearer Securities will be issued.

Notes which are Registered Securities ("**Registered Notes**") are represented by registered certificates ("**Certificates**") and, save as provided in General Note Condition 2(b), each Certificate shall represent the entire holding of Registered Notes by the same holder. Where Registered Notes are held by or on behalf of one or more Clearing Systems, a global certificate (a "**Global Certificate**") will be issued in respect of them.

Title to the Global Security shall pass by delivery. Title to the Registered Notes shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**"). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Security shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

For so long as any of the Securities is represented by a Global Security or a Global Certificate held by or on behalf of one or more clearing systems specified in the relevant Issue Terms (each a "**Clearing System**"), each person (other than one Clearing System to the extent that it appears on the books of another Clearing System) who is for the time being shown in the records of the relevant Clearing System as the holder of a particular nominal amount of such Securities or, in the case of (a) Securities held through Monte Titoli S.p.A. ("**Monte Titoli**"), each person whose name appears as being entitled to a Security in the books of a financial intermediary (an Italian bank, banker or agent authorised to maintain rewritten accounts on behalf of its clients) (in respect of such Securities, an "**Account Holder**") who is entitled to such Security according to the books of Monte Titoli (in which regard any certificate or other document issued by the relevant Clearing System or Account Holder as to the nominal amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error), or (b) in the case of Securities held through Euroclear France, each person whose name appears as being entitled to a Security in the books of a financial intermediary entitled to hold, directly or indirectly, accounts on behalf of its customers with Euroclear France (in respect of such Securities, an "**Account Holder**") (in which regard any certificate or other document issued by an Account Holder as to the nominal amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of such Securities for all purposes other than with respect to the right to payment on such nominal amount or interest (if any) of such Securities, the right to which shall be vested, as against the Issuer and any Agent, solely in the bearer of the relevant Global Security or the person in whose name the Registered Security is registered in accordance with and subject to its terms (and the expressions "**Securityholder**" and "**holder**" of Securities and related expressions shall be construed accordingly). Rights in respect of Securities which are held by or on behalf of a Clearing System will be transferable only in accordance with the rules and procedures for the time being of the relevant Clearing System and, if so specified in the relevant Issue Terms, will be subject to a Minimum Transferable Number of Securities or a Minimum Trading Lot, as specified in the relevant Issue Terms.

Where a Global Security is held by or on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**", and together with Euroclear, the "**ICSDs**" and each, an "**ICSD**"), the Global Security may be deposited with a common depository on behalf of Euroclear and Clearstream, Luxembourg (the "**Common Depository**"), or if the Global Security is issued in new global note form ("**NGN Form**"), as specified in the relevant Issue Terms, such Global Security will be delivered on or prior to the Issue Date to a common safekeeper for the ICSDs (the "**Common Safekeeper**").

Where a Global Certificate is held by or on behalf of Euroclear and Clearstream, Luxembourg, the Global Certificate may be registered in the name of a nominee for Euroclear and Clearstream, Luxembourg and delivered to the Common Depository, or if the Global Certificate is to be held under the new safekeeping structure ("**NSS**"), as specified in the relevant Issue Terms, such Global Certificate will be registered in the name of a nominee of the Common Safekeeper and delivered on or about the Issue Date to the Common Safekeeper.

Any reference to a Clearing System shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer.

2. **Transfers of Registered Securities**

(a) ***Transfer of Registered Securities***

One or more Registered Securities may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer (which shall be available at the specified office of the Registrar or the Transfer Agent) endorsed on such Certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed, and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Securities represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. All transfers of Registered Securities and entries on the Register will be made subject to the regulations concerning transfers of Securities scheduled to the Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar. A copy of the current regulations will be made available by the Registrar to any holder of a Registered Security upon request.

(b) ***Exercise of Options or Partial Redemption in Respect of Registered Securities***

In the case of an exercise of an Issuer's or Securityholders' option in respect of, or a partial redemption of, a holding of Registered Securities represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Securities of the same holding having different terms, separate Certificates shall be issued in respect of those Securities of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Securities to a person who is already a holder of Registered Securities, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(c) ***Delivery of New Certificates***

Each new Certificate to be issued pursuant to General Note Conditions 2(a) or (b) shall be available for delivery within three business days of receipt of the form of transfer or Exercise Notice (as defined in General Note Condition 5(e)) and surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent (as defined in the Agency Agreement) the costs of such other method of delivery and/or such insurance as it may specify. In this General Note Condition 2(c), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

(d) ***Transfers Free of Charge***

The transfer of Registered Securities and Certificates shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require).

(e) ***Closed Periods***

No Securityholder may require the transfer of a Registered Security to be registered (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Security, (ii) during the period of 15 days before any date on which Securities may be called for redemption by the Issuer at its option pursuant to General Note Condition 5(d), (iii) after any such Security has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date (the "**Closed Periods**").

3. **Status**

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* and rateably without any preference among themselves and equally with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

4. **Interest and Premium**

(a) ***Interest on Fixed Rate Securities***

Each Security in respect of which the Fixed Rate Provisions are specified to be applicable in the relevant Issue Terms (a "**Fixed Rate Security**") bears interest on its outstanding nominal amount from and including the Interest Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Interest or (ii) in an Interest Amount, such interest being payable in arrear on each Interest Payment Date. If so specified in the relevant Issue Terms, the Rate of Interest or Interest Amount may be different for different Interest Periods.

(b) **Premium**(i) *Premium*

If so specified in the relevant Issue Terms, the Issuer shall pay a premium in respect of the derivative element of the Securities. Such premium shall be payable in respect of each Security on its outstanding nominal amount from the Premium Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Premium or (ii) in an amount equal to a fixed Premium Amount, such premium being payable in arrear on each Premium Payment Date. If so specified in the relevant Issue Terms, the Rate of Premium or Premium Amount may be different for different Premium Periods.

(ii) *Rate of Premium Fallbacks*

(A) If the Issuer determines that a Reference Rate Event has occurred in respect of the Rate of Premium, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with General Note Condition 14.

If such Reference Rate Event constitutes a Reference Rate Cessation, and if one or more Priority Fallback(s) are specified in the definition of such Rate of Premium in the ISDA Definitions, such Priority Fallback(s) shall apply and the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s).

If (I) such Reference Rate Event does not constitute a Reference Rate Cessation, or (II) such Reference Rate Event constitutes a Reference Rate Cessation, but (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of premium, or (y) the Issuer determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Rate of Premium in the ISDA Definitions, then:

- (1) the Issuer shall attempt to identify a Replacement Reference Rate;
- (2) the Issuer shall attempt to determine the Adjustment Spread;
- (3) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (1) above and determines an Adjustment Spread pursuant to paragraph (2) above, then:
 - (aa) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Rate of Premium" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment Spread, may not be less than zero) with effect from the Adjustment Date;
 - (bb) the Issuer shall, without the consent of the Securityholders, make such other adjustments (the "**Premium Replacement Reference Rate Amendments**") to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Determination Date, Premium Amount, Premium Payment Date, Premium Period and Rate of Premium) with effect from the Adjustment Date as it determines necessary or appropriate in order to account for the effect of the replacement of the Rate of Premium with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as

practicable the economic equivalence of the Securities before and after the replacement of the Rate of Premium with the Replacement Reference Rate *plus* the Adjustment Spread; and

- (cc) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with General Note Condition 14 which shall specify any Replacement Reference Rate, Adjustment Spread, Adjustment Date and the specific terms of any Premium Replacement Reference Rate Amendments and such notice shall be irrevocable. Any Replacement Reference Rate, Adjustment Spread and Premium Replacement Reference Rate Amendments will be binding on the Issuer, the Agents and the Securityholders; and
- (4) if, for the purposes of calculating the Premium, there is more than one Reference Rate specified, then this General Note Condition 4(b)(ii)(A) shall apply separately to each such Reference Rate.

The Issuer shall be under no duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice.

- (B) If no Reference Rate Event has occurred and the Issuer determines that such Rate of Premium cannot be determined, the value of the Rate of Premium for a Premium Period shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes), then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

(c) ***Interest on Floating Rate Securities***

(i) *Interest Payment Dates*

Each Floating Rate Security bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date specified in the relevant Issue Terms.

(ii) *Business Day Convention*

If any date that is specified in the relevant Issue Terms to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (1) such date shall be brought forward to the immediately preceding Business Day and (2) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Securities – ISDA Determination*

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest in respect of Floating Rate Securities for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate *plus* or *minus* (as indicated in the relevant Issue Terms) the margin ("**Margin**") (if any). For the purposes of this sub-paragraph (iii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent (as defined in the ISDA Definitions) under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option is as specified in the relevant Issue Terms;
- (B) the Designated Maturity is a period so specified in the relevant Issue Terms; and
- (C) the relevant Reset Date is (1) if the applicable Floating Rate Option is based on LIBOR or EURIBOR, the first day of that Interest Period or such days as so specified in the relevant Issue Terms, or (2) if the applicable Floating Rate Option is neither based on LIBOR nor EURIBOR, such other day as so specified in the relevant Issue Terms,

provided that:

- (1) if the Issuer determines that a Reference Rate Event has occurred in respect of a Floating Rate Option, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with General Note Condition 14.

If such Reference Rate Event constitutes a Reference Rate Cessation, and if one or more Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, such Priority Fallback(s) shall apply and the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s).

If (I) such Reference Rate Event does not constitute a Reference Rate Cessation, or (II) such Reference Rate Event constitutes a Reference Rate Cessation, but (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of interest, or (y) the Issuer determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, then:

- (aa) the Issuer shall attempt to identify a Replacement Reference Rate;
- (bb) the Issuer shall attempt to determine the Adjustment Spread;
- (cc) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (aa) above and determines an Adjustment Spread pursuant to paragraph (bb) above, then:
 - (x) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Floating Rate Option" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment

Spread *plus* or *minus* (as indicated in the relevant Issue Terms) the Margin, may not be less than zero) with effect from the Adjustment Date;

- (y) the Issuer shall, without the consent of the Securityholders, make such other adjustments (the "**Floating Rate Option Replacement Reference Rate Amendments**") to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Determination Date, Interest Amount, Interest Payment Date, Interest Period and Rate of Interest) with effect from the Adjustment Date as it determines necessary or appropriate in order to account for the effect of the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread; and
- (z) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with General Note Condition 14 which shall specify any Replacement Reference Rate, Adjustment Spread, Adjustment Date and the specific terms of any Floating Rate Option Replacement Reference Rate Amendments and such notice shall be irrevocable. Any Replacement Reference Rate, Adjustment Spread and Floating Rate Option Replacement Reference Rate Amendments will be binding on the Issuer, the Agents and the Securityholders; and
- (dd) if, for the purposes of calculating interest, there is more than one Reference Rate specified, then the foregoing provisions of this proviso to General Note Condition 4(c)(iii) shall apply separately to each such Reference Rate.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice.

- (2) If no Reference Rate Event has occurred and the Issuer determines that such ISDA Rate cannot be determined in accordance with the ISDA Definitions read with the above provisions, the value of the ISDA Rate for an Interest Period shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes), then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

For the purposes of this sub-paragraph (iii), "**Floating Rate**", "**Floating Rate Option**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

- (iv) *Rate of Interest for Floating Rate Securities – Screen Rate Determination*

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent in accordance with Cash Index-Linked Securities Asset Terms – Asset Term 3 (*Rate of Interest for Floating Rate Securities*).

(d) ***Accrual of Interest and Premium***

Interest and Premium shall cease to accrue on each Security on the due date for redemption unless payment is improperly withheld or refused, in which event interest and premium shall continue to accrue (both before and after judgment) in the manner provided in this General Note Condition 4 to the Relevant Date (as defined in General Note Condition 7).

(e) ***Maximum/Minimum Rates of Interest, Rate Multipliers and Rounding***

- (i) If any rate multiplier (a "**Rate Multiplier**") is specified in the relevant Issue Terms (either (A) generally, or (B) in relation to one or more Interest Periods), an adjustment shall be made to all Rates of Interest, in the case of (A), or the Rates of Interest for the specified Interest Periods, in the case of (B), calculated in accordance with (c) above by multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Issue Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations (unless otherwise specified), (A) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (B) all figures shall be rounded to seven significant figures (with halves being rounded up) and (C) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of (1) any currency amounts denominated in Japanese yen, which shall be rounded down to the nearest Japanese yen, or (2) any currency amounts payable in respect of Securities where the Specified Denomination or Nominal Amount (as the case may be) is specified in the relevant Issue Terms to be 1.00 in any currency, which shall be rounded up to 4 decimal places. For these purposes "unit" means the lowest transferable amount of such currency.

(f) ***Calculations***

The amount of interest or premium payable in respect of any Security for any period shall be calculated by multiplying the *product* of the Rate of Interest or Rate of Premium and the outstanding nominal amount of such Security by the Day Count Fraction, unless an Interest Amount or Premium Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest or premium payable in respect of such Security for such period shall be equal to such Interest Amount or Premium Amount (or be calculated in accordance with such formula).

(g) **Determination and Publication of Rates of Interest/Premium and Interest/Premium Amounts**

On such date as the Issuer may be required under this General Note Condition 4 to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate, calculate such amounts, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amount and/or the Rate of Premium and Premium Amount for each Interest Period and Premium Period and the relevant Interest Payment Date and Premium Payment Date to be notified to the Fiscal Agent, the Calculation Agent (if the Calculation Agent is not the Issuer), each of the Agents, the Securityholders and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the first Business Day of the relevant Interest Period or Premium Period, if determined prior to such time, in the case where the Securities are listed on the Luxembourg Stock Exchange, (ii) two Business Day prior to the first day of each Interest Period or Premium Period, in the case where the Securities are listed on Borsa Italiana S.p.A. or (iii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Premium Payment Date is subject to adjustment pursuant to General Note Condition 4(c)(ii), the Interest Amounts and the Interest Payment Date or Premium Amount and Premium Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or Premium Period. If the Securities become due and payable under General Note Condition 8, the accrued interest and the Rate of Interest and/or Rate of Premium payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this General Note Condition 4 but no publication of the Rate of Interest and/or Rate of Premium or the Interest Amount or Premium Amount so calculated need be made.

(h) **Definitions**

Unless the context otherwise requires and subject to the relevant Issue Terms, the following terms shall have the meanings set out below:

"Adjustment Date" means, in respect of a Reference Rate Event, the later of:

- (i) the first date on which the Issuer had identified a Replacement Reference Rate and determined an Adjustment Spread, as applicable; and
- (ii) the first to occur of: (A) the first date on which the Reference Rate is no longer available following a Reference Rate Cessation, or (B) the Administrator/Benchmark Event Date, as relevant in relation to such Reference Rate Event.

"Adjustment Spread" means, in respect of any Replacement Reference Rate, the adjustment, if any, to a Replacement Reference Rate that the Issuer determines, acting in good faith and in a commercially reasonable manner, having regard to any Industry Standard Adjustment, which is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the Reference Rate with the Replacement Reference Rate. Any such adjustment may take account of, without limitation, any transfer of economic value (which may be a value anticipated or estimated by the Issuer) as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero, or determined pursuant to a formula or methodology. If the Issuer is required to determine the Adjustment Spread, it shall consider the Relevant Market Data. If a spread or methodology for calculating a spread has been formally recommended by any Relevant Nominating Body in relation to the replacement of the Reference Rate with the relevant Replacement Reference Rate, then the Adjustment Spread shall be determined on the basis of such recommendation (adjusted as necessary to reflect the fact that the spread or methodology is used in the context of the Securities).

"Administrator/Benchmark Event" means the occurrence of a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event, in each case being treated as having occurred on the Administrator/Benchmark Event Date. If, in respect of a Reference Rate, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Reference Rate Cessation, or (ii) both a Reference Rate Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Reference Rate Cessation and will not constitute or give rise to an Administrator/Benchmark Event, except as provided in General Note Condition 6(i) (*Interim measures following a Reference Rate Event*).

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate, the date determined by the Issuer to be:

- (i) in respect of a Non-Approval Event, the date on which the relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement is required under any applicable law or regulation for the continued use of such Reference Rate by either the Issuer or the Calculation Agent to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date;
- (ii) in respect of a Rejection Event, the date on which following the rejection or refusal of the relevant application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date; and
- (iii) in respect of a Suspension/Withdrawal Event, the date on which following (A) the suspension or withdrawal by the relevant competent authority or other relevant official body of the authorisation, registration, recognition, endorsement, equivalence decision or approval, or (B) the date on which such Reference Rate or the administrator or sponsor of such Reference Rate is removed from the official register, as applicable, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, in each case, if such date occurs before the Issue Date, the Issue Date.

"Aggregate Nominal Amount" means the aggregate nominal amount of the Securities set out in the relevant Issue Terms.

"Alternative Post-nominated Reference Rate" means, in respect of a Reference Rate, any interest rate, index, benchmark or other price source which is formally designated, nominated or recommended by:

- (i) any Relevant Nominating Body; or
- (ii) the administrator or sponsor of the Reference Rate, provided that such interest rate, index, benchmark or other price source is substantially the same as the Reference Rate,

in each case, to replace such Reference Rate. If a replacement interest rate, index, benchmark or other price source is designated, nominated or recommended under both paragraphs (i) and (ii) above, then the replacement interest rate, index, benchmark or other price source designated, nominated or recommended under paragraph (i) shall be the Alternative Post-nominated Reference Rate.

"Alternative Pre-nominated Reference Rate" means, in respect of a Reference Rate, the first of the indices, benchmarks or other price sources specified as such in the relevant Issue Terms and not subject to a Reference Rate Event.

"Cut-off Date" means, in respect of a Reference Rate, the date that falls the number of Business Days specified in the relevant Issue Terms, or, if not so specified, the 60th Business Day following the occurrence of the Administrator/Benchmark Event or following the first date on which the Reference Rate is no longer available following a Reference Rate Cessation, as relevant in respect of the Reference Rate Event.

"Day Count Fraction" means, in respect of the calculation of an amount of interest and/or premium on any Security for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period and/or a Premium Period, the **"Calculation Period"**):

- (i) if **"Actual/Actual"** or **"Actual/Actual – ISDA"** is specified in the relevant Issue Terms, the actual number of days in the Calculation Period *divided* by 365 (or, if any portion of that Calculation Period falls in a leap year, the *sum* of (A) the actual number of days in that portion of the Calculation Period falling in a leap year *divided* by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year *divided* by 365);

Rate (which may include (i) a spread or payment (as applicable) selected or recommended by a relevant trade association, working group or committee or (ii) a spread or payment (as applicable) that has been selected or recommended by the central bank for the currency of the then-current Reference Rate), which recognition or acknowledgment may be in the form of a press release, a member announcement, a member advice, letter, protocol, publication of standard terms or otherwise by ISDA or any other industry body.

- (ii) a public statement or publication of information by or on behalf of the administrator of such Reference Rate announcing that it has ceased or will cease to provide such Reference Rate permanently or indefinitely, provided that, at the time of such public statement, there is no successor administrator that will continue to provide such Reference Rate;
- (iii) a formal public statement or publication of information by the supervisor of the administrator or sponsor of the relevant Reference Rate, the central bank for the currency of the then-current Reference Rate or another official body with applicable responsibility announcing that such Reference Rate is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Reference Rate is intended to measure; or

- (ii) information of the type described in paragraph (i) above from the Issuer's internal sources if that information is of the same type used by the Issuer for adjustments to, or valuations of, similar transactions.

Third parties supplying market data pursuant to paragraph (i) above may include, without limitation, central counterparties, exchanges, dealers in the relevant markets, end-users of the relevant product, information vendors, brokers and other recognised sources of market information.

If the Replacement Reference Rate is determined to be an Alternative Post-nominated Reference Rate or an Alternative Industry Standard Reference Rate, the Issuer shall specify a date on which the relevant interest rate, index, benchmark or other price source was recognised or acknowledged as being the relevant industry standard (which may be before such interest rate, index, benchmark or other price source commences) in the notice to the Securityholders specifying the Replacement Reference Rate.

"Replacement Reference Rate Amendments" means any Floating Rate Option Replacement Reference Rate Amendments, Premium Replacement Reference Rate Amendments or Screen Rate Replacement Reference Rate Amendments.

"Suspension/Withdrawal Event" means, in respect of a Reference Rate, the determination by the Issuer that one or more of the following events has occurred:

- (ii) such Reference Rate or the administrator or sponsor of such Reference Rate is removed from any official register with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities,

provided that a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of such Reference Rate is permitted in respect of the Securities under the applicable law or regulation.

5. **Redemption, Purchase and Options**

(a) ***Redemption by Instalments and Final Redemption***

(i) Unless previously redeemed or purchased and cancelled, each Security that provides for Instalment Dates and Instalment Amounts (such Securities being "**Instalment Securities**") shall be partially redeemed on each Instalment Date at the relevant Instalment Amount corresponding to such Instalment Date as specified in the relevant Issue Terms. The outstanding nominal amount of each such Security shall be reduced by the Instalment Amount(s) (or, if such Instalment Amount(s) are calculated by reference to a proportion of the nominal amount of such Security, such proportion) for all purposes with effect from the relevant Instalment Date, unless payment of the relevant Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

(ii) Unless previously redeemed or purchased and cancelled or unless the Securities are to be redeemed by way of physical settlement pursuant to Product Condition 4, each Security shall be redeemed on the Maturity Date specified in the relevant Issue Terms at its Redemption Amount (which, unless otherwise provided, shall be its Nominal Amount) together with, in the case of Instalment Securities, the Instalment Amount payable, if any, on the Maturity Date.

(b) ***Early Redemption***

The amount payable in respect of any Security upon redemption of such Security pursuant to General Note Condition 5(c) or upon any Security becoming due and payable as provided in General Note Condition 8, shall be the amount determined by the Issuer that, in the case of redemption pursuant to General Note Condition 5(c) on a day prior to the due date for redemption selected by the Issuer in its discretion or, in the case of redemption pursuant to General Note Condition 8, on the due date for redemption of such Security, is equal to the Unscheduled Termination Amount.

(c) ***Redemption for Illegality Reasons***

If the Issuer shall have determined, acting in good faith and in a commercially reasonable manner, (i) that the performance of any of its obligations (including any calculations or determinations to be made by the Issuer) under the Securities, after application of all relevant provisions in the Conditions relating to the replacement of Reference Rates and adjustments to the Conditions of the Securities (if applicable), or (ii) that any arrangement made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal, or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, licensing requirement, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation thereof (an "**Illegality**"), then the Issuer may, if and to the extent permitted by applicable law, either (A) make such adjustment to the Conditions as may be permitted by any applicable Asset Terms or (B) having given notice to Securityholders as soon as practicable in accordance with General Note Condition 14, redeem the Securities at their Unscheduled Termination Amount. In the case of (B), no payment of the Redemption Amount (or physical delivery of the Share Amount or payment of the Fractional Cash Amount, as applicable) or any other amounts on account of interest or otherwise shall be made after such notice has been given.

(d) ***Redemption at the Option of the Issuer***

If "Call Option" is specified in the relevant Issue Terms, the Issuer may (i) on giving not less than 15 nor more than 30 days' irrevocable notice to the Securityholders (or such other notice period as may be specified in the relevant Issue Terms), or (ii) on exercising its call option on an Optional Redemption Exercise Date by giving notice to the Securityholders on or before such Optional Redemption Exercise Date, as specified in the relevant Issue Terms, redeem all or, if so provided, some of the Securities on any Optional Redemption Date specified in the relevant Issue Terms at their Optional Redemption Amount specified in the relevant Issue Terms. Any such redemption must relate to Securities of a nominal amount at least equal to the minimum nominal amount to be redeemed and no greater than the maximum nominal amount to be redeemed, as specified in the relevant Issue Terms. All Securities in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this General Note Condition 5(d).

In the case of a partial redemption, the Securities to be redeemed shall be selected in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange, the rules and procedures of any Clearing System (in the case of Global Securities in NGN Form and Global Certificates held under the NSS, such partial redemption shall be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and other relevant requirements, and holders of Registered Notes shall be notified separately if their Securities have been selected.

(e) ***Redemption at the Option of Securityholders***

If "Put Option" is specified in the relevant Issue Terms, the Issuer shall, (i) at the option of the holder of any such Security, upon the holder of such Security giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Issue Terms), or (ii) upon the Securityholder exercising its put option in respect of such Security on an Optional Redemption Exercise Date by giving notice to the Issuer (substantially in the form set out in the Agency Agreement or in such other form as the Issuer and the Fiscal Agent may approve), as specified in the relevant Issue Terms, redeem such Security on the Optional Redemption Date(s) specified in the relevant Issue Terms at its Optional Redemption Amount specified in the relevant Issue Terms. No such option may be exercised if the Issuer has given notice of redemption of the Securities.

In the case of Securities not held in or on behalf of a Clearing System, to exercise such option the holder must deposit a duly completed option exercise notice ("**Exercise Notice**") substantially in the form set out in the Agency Agreement (or such other form as the Issuer, the Fiscal Agent and the Registrar may approve) within the notice period together with the Certificate representing such Registered Securities with the Registrar or any Transfer Agent at its specified office. In the case of Bearer Securities, the holder must deposit an Exercise Notice with the Fiscal Agent at the same time presenting the Global Security representing such Bearer Securities to the Fiscal Agent, or to a Paying Agent acting on behalf of the Fiscal Agent, for notation according to the terms set out in such Global Security.

(f) ***Redemption following a Reference Rate Event***

If following the occurrence of a Reference Rate Event:

- (i) the Issuer determines that it cannot identify a Replacement Reference Rate or determine an Adjustment Spread in accordance with General Note Condition 4(b)(ii) on or before the Cut-off Date or General Note Condition 4(c)(iii) on or before the Cut-off Date, as the case may be;
- (ii) it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements, for the Issuer to perform the actions prescribed in General Note Condition 4(b) or General Note Condition 4(c)(iii) (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time);
- (iii) the Issuer determines that an Adjustment Spread is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Issuer or the Calculation Agent to material additional regulatory obligations (such as the obligations for administrators under the EU Benchmark Regulation); or
- (iv) the Issuer determines that having identified a Replacement Reference Rate and determined an Adjustment Spread on or before the Cut-off Date in accordance with General Note Condition 4(b) or General Note Condition 4(c)(iii), the adjustments provided for in General Note Condition 4(b) or General Note Condition 4(c)(iii) would not achieve a commercially reasonable result for either the Issuer or the Securityholders,

then the Issuer shall give notice to Securityholders as soon as practicable in accordance with General Note Condition 14 (the date such notice is given by the Issuer, the "**Reference Rate Event Redemption Notice Date**") and the Issuer shall redeem the Securities in whole but not in part, by causing to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day (the "**Early Redemption Date**") as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no

other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(g) ***Purchases***

The Issuer and any subsidiary or affiliate of the Issuer may at any time purchase Securities (provided that such Securities are purchased with all rights to receive all future payments of interest and Instalment Amounts (if any)) in the open market or otherwise at any price and may hold, resell or cancel them. In case of Italian Securities, the Securities so cancelled may not be re-issued or resold and the obligations of the Issuer in respect of any such Securities shall be discharged.

(h) ***Reference to Principal***

References to "principal" shall be deemed to include, wherever the context so admits, any amounts payable under the Securities other than by way of interest.

6. **Payments**

(a) ***Bearer Securities***

Payments in respect of Bearer Securities shall be made against presentation and annotation or, if no further payment is to be made, surrender of the Global Security at the specified office of any Paying Agent outside the United States by transfer to an account denominated in the Settlement Currency with a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET2 System.

In the case of Bearer Securities represented by a Global Security issued in NGN Form, the Issuer shall procure that the details of each such payment shall be entered in the records of the ICSDs. Any failure to make such entries in the records of the ICSDs shall not affect the discharge of the Issuer's obligations in respect thereof.

(b) ***Registered Securities***

Payments in respect of Registered Securities shall be made to the person shown on the Register at the close of business on the date (the "**Record Date**") which is (i) in the case of Securities represented by a Global Certificate held by or on behalf of one or more Clearing Systems, the Clearing System Business Day immediately prior to the due date for payment thereof, where "**Clearing System Business Day**" means each day from Monday to Friday inclusive except 25 December and 1 January and (ii) otherwise, the fifteenth day before the due date for payment thereof, and if no further payment is to be made, against presentation and surrender of the relevant Certificates at the specified office of any Transfer Agent or the Registrar. Payments on each Registered Security shall be made in the Settlement Currency by cheque drawn on a bank and mailed to the holder (or to the first-named of joint holders) of such Security at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment may be made by transfer to an account in the Settlement Currency specified by the payee with a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET2 System.

In the case of Registered Securities represented by a Global Certificate to be held under the NSS, the Issuer shall procure that the details of each such payment shall be entered in the records of the ICSDs. Any failure to make such entries in the records of the ICSDs shall not affect the discharge of the Issuer's obligations in respect thereof.

(c) ***Discharge of Obligation***

The holder of a Global Security or Global Certificate shall be the only person entitled to receive payments in respect of Securities represented by such Global Security or Global Certificate and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Security or Global Certificate in respect of each amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular nominal amount of Securities represented by such Global Security or Global Certificate must look solely to such Clearing System for its share of each payment so made. No person

other than the holder of such Global Security or Global Certificate shall have any claim against the Issuer in respect of any payments due on that Global Security or Global Certificate.

(d) ***Payments Subject to Laws and Floored at Zero***

All payments are subject in all cases to any applicable fiscal and other laws, regulations and directives.

No amount payable in respect of the Securities shall be less than zero. Where any such amount, as determined in accordance with the Conditions is a negative amount, such amount shall be deemed to be floored at zero.

(e) ***Appointment of Agents***

The Agents initially appointed by the Issuer and their respective specified offices are specified in the relevant Issue Terms. The Agents act solely as agents of the Issuer and neither the Issuer nor any of the Agents assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Issuer may at any time vary or terminate the appointment of any Agent and appoint additional or other Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) a Registrar in relation to Registered Securities, (iii) a Transfer Agent in relation to Registered Securities and (iv) so long as the Securities are listed on any stock exchange and the rules of that stock exchange or the relevant competent authority so require, such Paying Agents or other agents as may be required by the rules of such stock exchange or competent authority.

Notice of any such change or any change of any specified office shall promptly be given to the Securityholders.

(f) ***Non-Business Days***

If any date for payment in respect of any Security is not a business day, the holder shall not be entitled to payment until the next following business day or to any interest or other sum in respect of such postponed payment. In this paragraph, "**business day**" means a day which is a Currency Business Day and, where presentation is required, a Banking Day in the relevant place of presentation.

(g) ***Payment Disruption***

This General Note Condition 6(g) shall apply only to each Series of Securities in respect of which "Payment Disruption" is specified to be applicable in the relevant Issue Terms.

(i) If the Issuer determines that a Payment Disruption Event has occurred in relation to any amount due (or shortly to be due) in respect of the Securities, the Issuer shall give notice as soon as practicable to Securityholders of such determination in accordance with General Note Condition 14.

(ii) Upon the occurrence of a Payment Disruption Event:

(A) the relevant Interest Payment Date, Maturity Date or any other date on which any amount may be due and payable (and the Issuer's obligation to pay the relevant Interest Amount, Redemption Amount or such other amounts in respect of the Securities) shall be postponed to a date (the "Extended Date") falling on the earlier of:

(1) two Business Days following the date on which the Issuer (acting in good faith and in a commercially reasonable manner) determines that the Payment Disruption Event is no longer continuing; and

(2) the date falling 45 calendar days following the original Interest Payment Date, Maturity Date or other payment date, as the case may be (the "**Cut-off Date**").

(B) In the event that the Payment Disruption Event is still occurring on the second Currency Business Day immediately preceding the Cut-off Date, then:

- (1) if "Payment in Alternate Currency" is specified to be applicable in the relevant Issue Terms, the Issuer shall, on giving notice as soon as practicable to Securityholders in accordance with General Note Condition 14, make payment of the Equivalent Amount on the relevant Extended Date; or
- (2) if "Payment of Adjusted Amount" is specified to be applicable in the relevant Issue Terms, the Issuer shall make payment of the relevant Interest Amount, Redemption Amount or such other amount payable under the Securities on the relevant Extended Date, and in such case, the Issuer may make such adjustment to such amount as it shall determine in good faith and in a commercially reasonable manner to be appropriate to account for any difference between the amount originally payable and the amount that a hypothetical investor would receive if such hypothetical investor were to enter into and maintain any theoretical hedging arrangements in respect of the Securities.

Upon the payment of the Equivalent Amount or the relevant Interest Amount, Redemption Amount or such other amount (as the case may be) pursuant to this General Note Condition 6(g)(ii) in respect of the Securities, the Issuer shall have discharged its obligations to pay such Interest Amount, Redemption Amount or other amount in respect of such Securities in full and shall have no other liability or obligation whatsoever in respect thereof except in the event of a loss resulting directly from the fraud, wilful default or gross negligence of the Issuer or the Calculation Agent.

- (C) Any payments made in accordance with this General Note Condition 6(g)(ii) shall be made after deduction of any costs, expenses or liabilities incurred or to be incurred by the Calculation Agent or the Issuer in connection with or arising from the resolution of the relevant Payment Disruption Event.
- (iii) Securityholders shall not be entitled to any interest or any other payment on account of any postponement or delay which may occur in respect of the payment of any amounts due and payable in respect of the Securities pursuant to this General Note Condition 6(g).

(h) ***Interest and Currency Rate Additional Disruption Event***

This General Note Condition 6(h) shall apply only to each Series of Securities in respect of which "Interest and Currency Rate Additional Disruption Event" is specified to be applicable in the relevant Issue Terms.

If the Issuer determines that an Interest and Currency Rate Additional Disruption Event has occurred, the Issuer may (but need not) determine:

- (i) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Interest and Currency Rate Additional Disruption Event on the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Interest and Currency Rate Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Interest and Currency Rate Additional Disruption Event or any action taken; or
- (ii) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Note Condition 14, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on such day as selected by the Issuer in its discretion. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer.

(i) ***Interim measures following a Reference Rate Event***

This General Note Condition 6(i) shall apply only if (i) a Reference Rate Event has occurred in respect of a Reference Rate, (ii) the Issuer has delivered a Reference Rate Event Notice, and (iii) the Securities have not yet been redeemed in accordance with General Note Condition 5(f).

If a determination is required to be made under the Conditions by reference to the affected Reference Rate (the date on which such determination is required, an "**Interim Reference Rate Calculation Date**") but the Issuer has been unable to identify a Replacement Reference Rate and/or determine an Adjustment Spread on or prior to the second Currency Business Day prior to the date on which payment of any amount specified to be calculated by reference to such affected Reference Rate is scheduled to be paid, then:

- (i) if (A) in relation to a Reference Rate Cessation, the affected Reference Rate is still available on such Interim Reference Rate Calculation Date, or (B) in relation to an Administrator/Benchmark Event, on such Interim Reference Rate Calculation Date the Administrator/Benchmark Event Date has not yet occurred, the applicable Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined in accordance with the Conditions as if no Reference Rate Event has occurred; or
- (ii) if a rate of interest for the affected Reference Rate cannot be determined under paragraph (i) above on such Interim Reference Rate Calculation Date, the applicable Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined by reference to the rate published in respect of such Reference Rate at the time at which such Reference Rate is ordinarily determined on (A) the day on which such Reference Rate ceased to be available, or (B) the Administrator/Benchmark Event Date, as applicable, provided that in either case, if no rate is published at that time or that rate cannot be used in accordance with any applicable law or regulation, then such Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with any applicable law or regulation.

If, in respect of a Reference Rate, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Reference Rate Cessation, or (ii) both a Reference Rate Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Reference Rate Cessation and will not constitute or give rise to an Administrator/Benchmark Event, provided that, if the date that would otherwise have been the Administrator/Benchmark Event Date would have occurred before such Reference Rate is no longer available, then this General Note Condition 6(i) shall apply as if an Administrator/Benchmark Event had occurred.

7. **Prescription**

Claims against the Issuer for payment in respect of Bearer Securities shall be prescribed and become void unless the Global Security is presented for payment within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date. "Relevant Date" means, in respect of any payment, (a) the date on which such payment first becomes due and payable or (b) if the full amount of moneys payable has not been received by the Fiscal Agent on or prior to such date, the date on which, the full amount of such moneys having been so received, notice to that effect is given to the Securityholders in accordance with General Note Condition 14.

8. **Events of Default**

If any one or more of the following events (each an "**Event of Default**") has occurred and is continuing:

- (a) the Issuer fails to pay any amount due on the Securities within 30 days after the due date; or
- (b) a resolution is passed, or a final order of a court in the United Kingdom is made, and where not possible, not discharged or stayed within a period of 90 days, that CSi be wound up or dissolved,

then the holder of any Security may, by notice in writing given to the Fiscal Agent at its specified office, declare such Security immediately due and payable, whereupon such Security shall become redeemable at an amount equal to its Unscheduled Termination Amount unless prior to the time when the Fiscal Agent receives such notice all Events of Default have been cured.

9. **Meetings of Securityholders**

The Agency Agreement contains provisions for convening meetings of Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the Conditions. Such a meeting may be convened by Securityholders holding not less than one tenth in nominal amount of the Securities for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in nominal amount of the Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the nominal amount of the Securities held or represented, unless the business of such meeting includes consideration of proposals, inter alia, (a) to amend any date for payment on the Securities, (b) to reduce or cancel the nominal amount of, or any other amount payable or deliverable on redemption of, the Securities, (c) to reduce the rate or rates of interest in respect of the Securities, (d) to vary any method of, or basis for, calculating any amount payable on the Securities or deliverable in respect of the Securities, (e) to vary the currency or currencies of payment or denomination of the Securities, (f) to take any steps that may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (g) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass the Extraordinary Resolution in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in nominal amount of the Securities for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Securityholders (whether or not they were present at the meeting at which such resolution was passed).

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Securities outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Securityholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

10. **Modification**

Notice of any such modification will be given to the Securityholders in accordance with General Note Condition 14.

11. **Substitution of the Issuer**

The Issuer, or any previously substituted company, may at any time, without the consent of the Securityholders, substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:

- (a) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by Moody's Investors Service Ltd. or Moody's Deutschland GmbH (or such other Moody's entity providing the rating of the Issuer) (or an equivalent rating from another internationally recognised rating agency) or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect; and
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with General Note Condition 14.

In the event of any substitution of the Issuer, any reference in the Conditions to the "Issuer" shall thenceforth be construed as a reference to the Substitute.

The Issuer is not liable for or otherwise obliged to pay, and the relevant Securityholder shall pay, any tax, duty, charges, withholding or other payment which may arise as a result of, or in connection with, the ownership, transfer, redemption or enforcement of any Security, including, without limitation, the payment of any amount thereunder. The Issuer shall have the right to withhold or deduct from any amount payable to the Securityholder such amount (a) for the payment of any such taxes, duties, charges, withholdings or other payments or (b) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this General Note Condition 12.

13. **Further Issues**

The Issuer may from time to time without the consent of the Securityholders create and issue further Securities having the same terms and conditions as the Securities (save possibly for the amount and date of the first payment of interest and premium and for the issue price) (so that, for the avoidance of doubt, references in the Conditions to "Issue Date" shall be to the first issue date of the Securities) and so that the same shall be consolidated and form a single series with such Securities, and references in the Conditions to "Securities" shall be construed accordingly.

14. **Notices**

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu). In addition, so long as any Securities are held in or on behalf of a Clearing System, notices to the holders of such Securities may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled accountholders or by delivery of the relevant notice to the holder of the relevant Global Security or Global Certificate. Notices to the holders of Securities may also be given by publication in the newspaper specified in the relevant Issue Terms or such other leading newspaper of general circulation as the Issuer may determine. Any such notice shall be deemed to have been given on the weekday following such delivery or, where notices are so published, on the date of such publication or, if published more than once or on different dates, on the date of the first such publication. Notices to the holders of Registered Securities may alternatively be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Notices to be given by a Securityholder shall (in the case of a Security not held in or on behalf of a Clearing System) be in writing and given by being lodged with an Agent. Where Securities are held in or on behalf of a Clearing System, such notices may be given by the holder of a Security through the relevant Clearing System in such manner as the relevant Clearing System may approve for this purpose together with confirmation from the Clearing System of the Securityholder's holding of Securities.

Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with an Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

15. **Replacement of Certificates**

If a Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Registrar on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Certificate is subsequently presented for payment, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Certificate) and otherwise as the Issuer may require. Mutilated or defaced Certificates must be surrendered before replacements will be issued.

16. **Calculations and Determinations**

Where any calculations or determinations are required in the Conditions to be made by the Issuer, the Issuer may delegate the performance of such determinations and/or calculations to a Calculation Agent on its behalf. Where provided in the Conditions, the Issuer or the Calculation Agent will calculate any amount(s) payable using the information, price sources or factors, whether official or estimated, as specified in the Conditions. However, should the Issuer or the Calculation Agent not be able to obtain the necessary information or be able to use the specified price sources or factors, then, after using reasonable efforts and after applying all applicable fallback provisions specified in the Conditions in relation to such calculation, the Issuer or the Calculation Agent shall be permitted to use its estimate (acting in good faith and in a commercially reasonable manner) of the relevant information, price source or factor in making the relevant calculations should it determine that such estimate is reasonably necessary.

Notwithstanding anything else in the Conditions (save as provided in the next sentence) and if (a) the relevant Issue Terms specify that "Institutional" is not applicable, and (b) the terms of the Securities provide for the amount payable on the Maturity Date to be subject to a minimum amount, no modification or adjustment to, or calculation under, the Conditions may be made by the Issuer to reduce the amount so payable on such date to less than such minimum amount. For the avoidance of doubt, the preceding sentence shall not apply in relation to the rights of the Issuer to modify the Terms and Conditions pursuant to General Note Condition 10.

All calculations and determinations and exercises of discretion made by the Issuer or the Calculation Agent under the Conditions (which, for the avoidance of doubt, shall not include the terms of the offer of the Securities as set out in Part B of the Final Terms, if applicable) whether or not already expressed to be the case therein shall be made in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination and exercise of discretion in accordance with its applicable regulatory obligations.

All calculations made by the Issuer or the Calculation Agent under the Conditions shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Conduct Authority.

17. **Third Parties**

(B) In the event that the Payment Disruption Event is still occurring on the second Currency Business Day immediately preceding the Cut-off Date, then:

(1) if "Payment in Alternate Currency" is specified to be applicable in the relevant Issue Terms, the Issuer shall, on giving notice as soon as practicable to Securityholders in accordance with General Certificate Condition 9, make payment of the Equivalent Amount on the relevant Extended Date; or

(2) if "Payment of Adjusted Amount" is specified to be applicable in the relevant Issue Terms, the Issuer shall make payment of the relevant Interest Amount, Redemption Amount or such other amount payable under the Securities on the relevant Extended Date, and in such case, the Issuer may make such adjustment to such amount as it shall determine in good faith and in a commercially reasonable manner to be appropriate to account for any difference between the amount originally payable and the amount that a hypothetical investor would receive if such hypothetical investor were to enter into and maintain any theoretical hedging arrangements in respect of the Securities.

Upon the payment of the Equivalent Amount or the relevant Interest Amount, Redemption Amount or such other amount (as the case may be) pursuant to this

General Certificate Condition 3(h)(ii) in respect of the Securities, the Issuer shall have discharged its obligations to pay such Interest Amount, Redemption Amount or other amount in respect of such Securities in full and shall have no other liability or obligation whatsoever in respect thereof except in the event of a loss resulting directly from the fraud, wilful default or gross negligence of the Issuer or the Calculation Agent.

- (C) Any payments made in accordance with this General Certificate Condition 3(h)(ii) shall be made after deduction of any costs, expenses or liabilities incurred or to be incurred by the Calculation Agent or the Issuer in connection with or arising from the resolution of the relevant Payment Disruption Event.
- (iii) Securityholders shall not be entitled to any interest or any other payment on account of any postponement or delay which may occur in respect of the payment of any amounts due and payable in respect of the Securities pursuant to this General Certificate Condition 3(h).

(i) ***Interest and Currency Rate Additional Disruption Event***

This General Certificate Condition 3(i) shall apply only to each Series of Securities in respect of which "Interest and Currency Rate Additional Disruption Event " is specified to be applicable in the relevant Issue Terms.

If the Issuer determines that an Interest and Currency Rate Additional Disruption Event has occurred, the Issuer may (but need not) determine:

- (i) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Interest and Currency Rate Additional Disruption Event on the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Interest and Currency Rate Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Interest and Currency Rate Additional Disruption Event or any action taken; or
- (ii) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Certificate Condition 9, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on such day as selected by the Issuer in its discretion. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer.

(j) ***Interim measures following a Reference Rate Event***

This General Certificate Condition 3(j) shall apply only if (i) a Reference Rate Event has occurred in respect of a Reference Rate, (ii) the Issuer has delivered a Reference Rate Event Notice, and (iii) the Securities have not yet been redeemed in accordance with General Certificate Condition 3(e).

If a determination is required to be made under the Conditions by reference to the affected Reference Rate (the date on which such determination is required, an "**Interim Reference Rate Calculation Date**") but the Issuer has been unable to identify a Replacement Reference Rate and/or determine an Adjustment Spread on or prior to the second Currency Business Day prior to the date on which payment of any amount specified to be calculated by reference to such affected Reference Rate is scheduled to be paid, then:

- (i) if (A) in relation to a Reference Rate Cessation, the affected Reference Rate is still available on such Interim Reference Rate Calculation Date, or (B) in relation to an Administrator/Benchmark Event, on such Interim Reference Rate Calculation Date the Administrator/Benchmark Event Date has not yet occurred, the applicable Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined in accordance with the Conditions as if no Reference Rate Event has occurred; or

- (ii) if a rate of interest for the affected Reference Rate cannot be determined under paragraph (i) above on such Interim Reference Rate Calculation Date, the applicable Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined by reference to the rate published in respect of such Reference Rate at the time at which such Reference Rate is ordinarily determined on (A) the day on which such Reference Rate ceased to be available, or (B) the Administrator/Benchmark Event Date, as applicable, provided that in either case, if no rate is published at that time or that rate cannot be used in accordance with any applicable law or regulation, then such Reference Rate that shall be used for such Interim Reference Rate Calculation Date shall be determined by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with any applicable law or regulation.

If, in respect of a Reference Rate, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Reference Rate Cessation, or (ii) both a Reference Rate Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Reference Rate Cessation and will not constitute or give rise to an Administrator/Benchmark Event, provided that, if the date that would otherwise have been the Administrator/Benchmark Event Date would have occurred before such Reference Rate is no longer available, then this General Certificate Condition 3(j) shall apply as if an Administrator/Benchmark Event had occurred.

4. **Interest and Premium**

(a) ***Interest on Fixed Rate Securities***

Each Security in respect of which the Fixed Rate Provisions are specified to be applicable in the relevant Issue Terms (a "**Fixed Rate Security**") bears interest on its outstanding nominal amount from and including the Interest Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Interest or (ii) in an Interest Amount, such interest being payable in arrear on each Interest Payment Date. If so specified in the relevant Issue Terms, the Rate of Interest or Interest Amount may be different for different Interest Periods.

(b) ***Premium***

(i) ***Premium***

If so specified in the relevant Issue Terms, the Issuer shall pay a premium in respect of the derivative element of the Securities. Such premium shall be payable in respect of each Security on its outstanding nominal amount from the Premium Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Premium or (ii) in an amount equal to a fixed Premium Amount, such premium being payable in arrear on each Premium Payment Date. If so specified in the relevant Issue Terms, the Rate of Premium or Premium Amount may be different for different Premium Periods. In case of Certificates listed on Borsa Italiana, any Premium Amount payable under the Securities represents an amount payable by the Issuer as compensation for and in recognition of the assumption of risk that under certain circumstances the Redemption Amount may be below the Issue Price and may be less than the Denomination.

(ii) ***Rate of Premium Fallbacks***

- (A) If the Issuer determines that a Reference Rate Event has occurred in respect of the Rate of Premium, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with General Certificate Condition 9.

If such Reference Rate Event constitutes a Reference Rate Cessation, and if one or more Priority Fallback(s) are specified in the definition of such Rate of Premium in the ISDA Definitions, such Priority Fallback(s) shall apply and the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s).

If (l) such Reference Rate Event does not constitute a Reference Rate Cessation, or (ll) such Reference Rate Event constitutes a Reference Rate Cessation, but (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of premium, or (y) the Issuer determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Rate of Premium in the ISDA Definitions, then:

- (1) the Issuer shall attempt to identify a Replacement Reference Rate;
- (2) the Issuer shall attempt to determine the Adjustment Spread;
- (3) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (1) above and determines an Adjustment Spread pursuant to paragraph (2) above, then:
 - (aa) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Rate of Premium" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment Spread, may not be less than zero) with effect from the Adjustment Date;
 - (bb) the Issuer shall, without the consent of the Securityholders, make such other adjustments (the "**Premium Replacement Reference Rate Amendments**") to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Determination Date, Premium Amount, Premium Payment Date, Premium Period and Rate of Premium) with effect from the Adjustment Date as it determines necessary or appropriate in order to account for the effect of the replacement of the Rate of Premium with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Rate of Premium with the Replacement Reference Rate *plus* the Adjustment Spread; and
 - (cc) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with General Certificate Condition 9 which shall specify any Replacement Reference Rate, Adjustment Spread, Adjustment Date and the specific terms of any Premium Replacement Reference Rate Amendments and such notice shall be irrevocable. Any Replacement Reference Rate, Adjustment Spread and Premium Replacement Reference Rate Amendments will be binding on the Issuer, the Agents and the Securityholders; and
- (4) if, for the purposes of calculating the Premium, there is more than one Reference Rate specified, then this General Certificate Condition 4(b)(ii)(A) shall apply separately to each such Reference Rate.

The Issuer shall be under no duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice.

- (B) If no Reference Rate Event has occurred and the Issuer determines that such Rate of Premium cannot be determined, the value of the Rate of Premium for a Premium Period shall be such rate as is determined by the Calculation Agent in good faith and

in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes), then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

(c) ***Interest on Floating Rate Securities***

(i) *Interest Payment Dates*

Each Floating Rate Security bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date specified in the relevant Issue Terms.

(ii) *Business Day Convention*

If any date that is specified in the relevant Issue Terms to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (1) such date shall be brought forward to the immediately preceding Business Day and (2) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Securities – ISDA Determination*

Where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest in respect of Floating Rate Securities for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate *plus* or *minus* (as indicated in the relevant Issue Terms) the margin ("**Margin**") (if any). For the purposes of this sub-paragraph (iii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent (as defined in the ISDA Definitions) under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option is as specified in the relevant Issue Terms;
- (B) the Designated Maturity is a period so specified in the relevant Issue Terms; and
- (C) the relevant Reset Date is (1) if the applicable Floating Rate Option is based on LIBOR or EURIBOR, the first day of that Interest Period or such days as so specified in the relevant Issue Terms, or (2) if the applicable Floating Rate Option is neither based on LIBOR nor EURIBOR, such other day as so specified in the relevant Issue Terms,

provided that:

- (1) if the Issuer determines that a Reference Rate Event has occurred in respect of a Floating Rate Option, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with General Certificate Condition 9.

If such Reference Rate Event constitutes a Reference Rate Cessation, and if one or more Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, such Priority Fallback(s) shall apply and the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s).

If (I) such Reference Rate Event does not constitute a Reference Rate Cessation, or (II) such Reference Rate Event constitutes a Reference Rate Cessation, but (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of interest, or (y) the Issuer determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, then:

- (aa) the Issuer shall attempt to identify a Replacement Reference Rate;
- (bb) the Issuer shall attempt to determine the Adjustment Spread;
- (cc) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (aa) above and determines an Adjustment Spread pursuant to paragraph (bb) above, then:
 - (x) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Floating Rate Option" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment Spread *plus* or *minus* (as indicated in the relevant Issue Terms) the Margin, may not be less than zero) with effect from the Adjustment Date;
 - (y) the Issuer shall, without the consent of the Securityholders, make such other adjustments (the "**Floating Rate Option Replacement Reference Rate Amendments**") to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Determination Date, Interest Amount, Interest Payment Date, Interest Period and Rate of Interest) with effect from the Adjustment Date as it determines necessary or appropriate in order to account for the effect of the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread; and
 - (z) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with General Certificate Condition 9 which shall specify any Replacement Reference Rate, Adjustment Spread, Adjustment Date and the specific terms of any Floating Rate Option Replacement Reference Rate

Amendments and such notice shall be irrevocable. Any Replacement Reference Rate, Adjustment Spread and Floating Rate Option Replacement Reference Rate Amendments will be binding on the Issuer, the Agents and the Securityholders; and

- (dd) if, for the purposes of calculating interest, there is more than one Reference Rate specified, then the foregoing provisions of this proviso to General Certificate Condition 4(c)(iii) shall apply separately to each such Reference Rate.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice.

- (2) If no Reference Rate Event has occurred and the Issuer determines that such ISDA Rate cannot be determined in accordance with the ISDA Definitions read with the above provisions, the value of the ISDA Rate for an Interest Period shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes), then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

For the purposes of this sub-paragraph (iii), "**Floating Rate**", "**Floating Rate Option**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

- (iv) *Rate of Interest for Floating Rate Securities – Screen Rate Determination*

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent in accordance with Cash Index-Linked Securities Asset Terms – Asset Term 3 (*Rate of Interest for Floating Rate Securities*).

- (d) ***Accrual of Interest and Premium***

Interest and Premium shall cease to accrue on each Security on the due date for redemption unless payment is improperly withheld or refused, in which event interest and premium shall continue to accrue (both before and after judgment) in the manner provided in this General Certificate Condition 4 to (i) the date on which such payment first becomes due and payable or (ii) if the full amount of moneys payable has not been received by the Certificate Agent on or prior to such date, the date on which, the full amount of such moneys having been so received notice to that effect is given to the Securityholders in accordance with General Certificate Condition 9.

- (e) ***Maximum/Minimum Rates of Interest, Rate Multipliers and Rounding***

- (i) If any rate multiplier (a "**Rate Multiplier**") is specified in the relevant Issue Terms (either (A) generally, or (B) in relation to one or more Interest Periods), an adjustment shall be made to all Rates of Interest, in the case of (A), or the Rates of Interest for the specified Interest Periods, in the case of (B), calculated in accordance with (c) above by multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Issue Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.

- (iii) For the purposes of any calculations (unless otherwise specified), (A) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (B) all figures shall be rounded to seven significant figures (with halves being rounded up) and (C) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of (1) any currency amounts denominated in Japanese yen, which shall be rounded down to the nearest Japanese yen, or (2) any currency amounts payable in respect of Securities where the Nominal Amount is specified in the relevant Issue Terms to be 1.00 in any currency, which shall be rounded up to 4 decimal places. For these purposes "unit" means the lowest transferable amount of such currency.

(f) **Calculations**

The amount of interest or premium payable in respect of any Security for any period shall be calculated by multiplying the *product* of the Rate of Interest or Rate of Premium and the outstanding nominal amount of such Security by the Day Count Fraction, unless an Interest Amount or Premium Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest or premium payable in respect of such Security for such period shall be equal to such Interest Amount or Premium Amount (or be calculated in accordance with such formula).

(g) **Determination and Publication of Rates of Interest/Premium and Interest/Premium Amounts**

On such date as the Issuer may be required under this General Certificate Condition 4 to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate, calculate such amounts, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amount and/or the Rate of Premium and Premium Amount for each Interest Period and Premium Period and the relevant Interest Payment Date and Premium Payment Date to be notified to the Principal Certificate Agent, the Issuer (if the Issuer is not the Calculation Agent), each of the Agents, the Securityholders and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the first Business Day of the relevant Interest Period or Premium Period, if determined prior to such time, in the case where the Securities are listed on the Luxembourg Stock Exchange, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Premium Payment Date is subject to adjustment pursuant to General Certificate Condition 4(c)(ii), the Interest Amounts and the Interest Payment Date or Premium Amount and Premium Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or Premium Period. If the Securities become due and payable under General Certificate Condition 10, the accrued interest and the Rate of Interest and/or Rate of Premium payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this General Certificate Condition 4 but no publication of the Rate of Interest and/or Rate of Premium or the Interest Amount or Premium Amount so calculated need be made.

(h) **Definitions**

Unless the context otherwise requires and subject to the relevant Issue Terms, the following terms shall have the meanings set out below:

"Adjustment Date" means, in respect of a Reference Rate Event, the later of:

- (i) the first date on which the Issuer had identified a Replacement Reference Rate and determined an Adjustment Spread, as applicable; and
- (ii) the first to occur of: (A) the first date on which the Reference Rate is no longer available following a Reference Rate Cessation, or (B) the Administrator/Benchmark Event Date, as relevant in relation to such Reference Rate Event.

"Adjustment Spread" means, in respect of any Replacement Reference Rate, the adjustment, if any, to a Replacement Reference Rate that the Issuer determines, acting in good faith and in a commercially reasonable manner, having regard to any Industry Standard Adjustment, which is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the Reference Rate with the

Replacement Reference Rate. Any such adjustment may take account of, without limitation, any transfer of economic value (which may be a value anticipated or estimated by the Issuer) as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero, or determined pursuant to a formula or methodology. If the Issuer is required to determine the Adjustment Spread, it shall consider the Relevant Market Data. If a spread or methodology for calculating a spread has been formally recommended by any Relevant Nominating Body in relation to the replacement of the Reference Rate with the relevant Replacement Reference Rate, then the Adjustment Spread shall be determined on the basis of such recommendation (adjusted as necessary to reflect the fact that the spread or methodology is used in the context of the Securities).

"Administrator/Benchmark Event" means the occurrence of a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event, in each case being treated as having occurred on the Administrator/Benchmark Event Date. If, in respect of a Reference Rate, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes a Reference Rate Cessation, or (ii) both a Reference Rate Cessation and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute a Reference Rate Cessation and will not constitute or give rise to an Administrator/Benchmark Event, except as provided in General Certificate Condition 3(j) (*Interim measures following a Reference Rate Event*).

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate, the date determined by the Issuer to be:

- (i) in respect of a Non-Approval Event, the date on which the relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement is required under any applicable law or regulation for the continued use of such Reference Rate by either the Issuer or the Calculation Agent to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date;
- (ii) in respect of a Rejection Event, the date on which following the rejection or refusal of the relevant application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date; and
- (iii) in respect of a Suspension/Withdrawal Event, the date on which following (A) the suspension or withdrawal by the relevant competent authority or other relevant official body of the authorisation, registration, recognition, endorsement, equivalence decision or approval, or (B) the date on which such Reference Rate or the administrator or sponsor of such Reference Rate is removed from the official register, as applicable, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, in each case, if such date occurs before the Issue Date, the Issue Date.

"Aggregate Nominal Amount" means the aggregate nominal amount of the Securities set out in the relevant Issue Terms.

"Alternative Post-nominated Reference Rate" means, in respect of a Reference Rate, any interest rate, index, benchmark or other price source which is formally designated, nominated or recommended by:

- (i) any Relevant Nominating Body; or
- (ii) the administrator or sponsor of the Reference Rate, provided that such interest rate, index, benchmark or other price source is substantially the same as the Reference Rate,

in each case, to replace such Reference Rate. If a replacement interest rate, index, benchmark or other price source is designated, nominated or recommended under both paragraphs (i) and (ii) above, then the replacement interest rate, index, benchmark or other price source designated, nominated or recommended under paragraph (i) shall be the Alternative Post-nominated Reference Rate.

"Alternative Pre-nominated Reference Rate" means, in respect of a Reference Rate, the first of the indices, benchmarks or other price sources specified as such in the relevant Issue Terms and not subject to a Reference Rate Event.

"Cut-off Date" means, in respect of a Reference Rate, the date that falls the number of Business Days specified in the relevant Issue Terms, or, if not so specified, the 60th Business Day following the occurrence of the Administrator/Benchmark Event or following the first date on which the Reference Rate is no longer available following a Reference Rate Cessation, as relevant in respect of the Reference Rate Event.

"Day Count Fraction" means, in respect of the calculation of an amount of interest and/or premium on any Security for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period and/or a Premium Period, the **"Calculation Period"**):

- (i) if **"Actual/Actual"** or **"Actual/Actual – ISDA"** is specified in the relevant Issue Terms, the actual number of days in the Calculation Period *divided* by 365 (or, if any portion of that Calculation Period falls in a leap year, the *sum* of (A) the actual number of days in that portion of the Calculation Period falling in a leap year *divided* by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year *divided* by 365);
- (ii) if **"Actual/365 (Fixed)"** is specified in the relevant Issue Terms, the actual number of days in the Calculation Period *divided* by 365;
- (iii) if **"Actual/360"** is specified in the relevant Issue Terms, the actual number of days in the Calculation Period *divided* by 360;
- (iv) if **"30/360"**, **"360/360"** or **"Bond Basis"** is specified in the relevant Issue Terms, the number of days in the Calculation Period *divided* by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (v) if **"30E/360"** or **"Eurobond Basis"** is specified in the relevant Issue Terms, the number of days in the Calculation Period *divided* by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30;

- (vi) if "**30E/360 (ISDA)**" is specified in the relevant Issue Terms, the number of days in the Calculation Period *divided* by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30;

9. **Notices**

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu). Notices to the holders of Securities may also be given by publication in the newspaper specified in the relevant Issue Terms or such other leading newspaper of general circulation as the Issuer may determine. Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with a Certificate Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

then the holder of any Security may, by notice in writing given to the Certificate Agent at its specified office, declare such Security immediately due and payable, whereupon such Security shall become redeemable at an amount equal to its Unscheduled Termination Amount unless prior to the time when the Certificate Agent receives such notice all Events of Default have been cured.

All calculations and determinations of the Issuer and the Calculation Agent in the Conditions shall be made in accordance with the terms of the relevant Conditions having regard in each case to the criteria stipulated therein (if any) and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer or the Calculation Agent (as applicable) responsible for making the relevant calculation or determination.

Where provided

in the Conditions, the Issuer or the Calculation Agent will calculate any amount(s) payable using the information, price sources or factors, whether official or estimated, as specified in the Conditions. However, should the Issuer or the Calculation Agent not be able to obtain the necessary information or be able to use the specified price sources or factors, then, after using reasonable efforts and after applying all applicable fallback provisions specified in the Conditions in relation to such calculation, the Issuer or the Calculation Agent shall be permitted to use its estimate (acting in good faith and in a commercially reasonable manner) of the relevant information, price source or factor in making the relevant calculations should it determine that such estimate is reasonably necessary.

Notwithstanding anything else in the Conditions (save as provided in the next sentence) and if (a) the relevant Issue Terms specify that "Institutional" is not applicable, and (b) the terms of the Securities provide for the amount payable on the Maturity Date to be subject to a minimum amount, no modification or adjustment to, or calculation under, the Conditions may be made by the Issuer to reduce the amount so payable on such date to less than such minimum amount. For the avoidance of doubt, the preceding sentence shall not apply in relation to the rights of the Issuer to modify the Terms and Conditions pursuant to General Certificate Condition 14.

All calculations and determinations and exercises of discretion made by the Issuer or the Calculation Agent in such capacity under the Conditions (which, for the avoidance of doubt, shall not include the terms of the offer of the Securities as set out in Part B of the Final Terms, if applicable) whether or not already expressed to be the case therein shall be made in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination and exercise of discretion in accordance with its applicable regulatory obligations.

All calculations made by the Issuer or the Calculation Agent under the Conditions shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. of the nominal amount of, or as the case may be, the number of Securities outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Securityholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

14. **Modification**

The Issuer may modify the Conditions (and (a) the Deed of Covenant and (b) together with the other parties thereto, the Agency Agreement) without the consent of any Securityholder for the purposes of (a) curing any ambiguity or correcting or supplementing any provision contained in them in any manner which the Issuer may deem necessary or desirable provided that such modification is not, in the determination of the Issuer, prejudicial to the interests of the Securityholders or (b) correcting a manifest error. Notice of any such modification will be given to the Securityholders in accordance with General Certificate Condition 9.

4. The payment of any amount (or delivery of any underlying assets) in respect of the Securities shall be centralised with the Swiss Paying Agent. The due and punctual receipt by the Swiss Paying Agent of the payments (or receipt of any underlying assets) from the Issuer for the servicing of the Securities shall release such Issuer from its obligations under the Securities to the extent of such payments as of such date.
5. General Certificate Condition 1 and General Certificate Condition 3(f) shall not apply.

GENERAL TERMS AND CONDITIONS OF WARRANTS

*The following is the text of the general terms and conditions ("**General Warrant Conditions**") that, together with any applicable Additional Provisions, any applicable Product Conditions and any applicable Asset Terms (as specified in the relevant Issue Terms) and subject to the provisions of the relevant Issue Terms, shall be applicable to Securities for which the relevant General Terms and Conditions are specified in the relevant Issue Terms as being those of "Warrants". The relevant Pricing Supplement in relation to any series of Exempt Securities may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the General Warrant Conditions (and/or the applicable Product Conditions and/or the applicable Asset Terms), replace or modify the General Warrant Conditions (and/or the applicable Product Conditions and/or the applicable Asset Terms) for the purpose of such Exempt Securities. References in the Conditions to "Securities" are to the Securities of one Series only, not to all Securities that may be issued under the Programme. Definitions used in these General Warrant Conditions shall not apply in relation to any of the other General Terms and Conditions contained in this Securities Note.*

In relation to the Securities (which expression shall include any Securities issued pursuant to General Warrant Condition 9) other than Securities cleared through any of Euroclear Finland Oy ("**Euroclear Finland**"), Euroclear Sweden AB ("**Euroclear Sweden**") or Verdipapirsentralen ASA ("**VPS**") (such Securities, "**Nordic Securities**"), Credit Suisse International (the "**Issuer**" or "**CSI**") has executed an agency agreement dated on or about 17 July 2020 (as amended, restated or supplemented from time to time, the "**Agency Agreement**") with Credit Suisse AG ("**CS**"), The Bank of New York Mellon, acting through its London Branch (or such other entity as may be specified in the relevant Issue Terms) as issuing agent and principal warrant agent (the "**Principal Warrant Agent**", which expression shall include, wherever the context so admits, any successor principal warrant agent) and the other agents named in it. The warrant agent, the registrar, the calculation agent(s) and the paying agents for the time being (if any) are referred to below respectively as the "**Warrant Agent**" (which expression shall include the Principal Warrant Agent and any substitute or additional warrant agent), the "**Registrar**", the "**Calculation Agent(s)**" and the "**Paying Agents**" (which expression shall include the Warrant Agent, the Registrar and the Calculation Agent(s)) and together with any other agents specified in the relevant Issue Terms, the "**Agents**").

Nordic Securities are issued pursuant to:

- (a) in the case of Securities cleared through Euroclear Finland, the Master Issuing and Paying Agency Agreement for Warrants, Certificates and Notes Issued in the Euroclear Finland Infinity system by and between Credit Suisse International, Credit Suisse, acting through its London Branch and Nordea Bank Finland plc (now known as Nordea Bank Abp) dated 9 March 2009;
- (b) in the case of Securities cleared through VPS, the VPS Registrar Agreement between Nordea Bank Abp filial i Norge and Credit Suisse International, dated 16 May 2018; and
- (c) in the case of Securities cleared through Euroclear Sweden, the Master Issuing and Paying Agency Agreement for Warrants, Certificates and Notes Issued in The Swedish Nasdaq OMX Environment by and between Credit Suisse International, Credit Suisse AG, acting through its London Branch and Nordea Bank AB (Publ) (now known as Nordea Bank Abp, filial i Sverige) dated 14 April 2010,

in each case, as amended, restated or supplemented from time to time, and each a "**Nordic Agency Agreement**". In respect of Nordic Securities, each reference in the Conditions to "Agency Agreement" shall, where applicable, be deemed to be replaced with a reference to the relevant Nordic Agency Agreement.

The Securityholders (as defined in General Warrant Condition 1(b)) are deemed to have notice of all the provisions of the Agency Agreement applicable to them. The Issuer has executed a general deed of covenant by deed poll dated on or about 17 July 2020 (the "**Deed of Covenant**") in favour of Securityholders from time to time in respect of Securities issued by the Issuer from time to time under which it has agreed to comply with the terms of all such Securities. Copies of the Agency Agreement (including the form of global security referred to below), the Deed of Covenant are, and, so long as any Security remains outstanding, will be available for inspection during normal business hours at the specified offices of the Warrant Agents.

The Securities of any Series are subject to these General Warrant Conditions (as modified and/or supplemented by any applicable Additional Provisions, any applicable Product Conditions and any applicable Asset Terms) and the relevant Issue Terms (as defined below) relating to the relevant Securities (together, the "**Terms and Conditions**" or the "**Conditions**"). Where the Securities are not Exempt Securities (as defined below), the final terms relating to the Securities will be set out in a Final Terms document (the "**Final Terms**"). If the Securities of a Series are Securities which are neither admitted to trading on a regulated market in the European Economic Area (the "**EEA**") nor offered in the EEA in circumstances where a prospectus is required to be published under the Prospectus

Regulation ("**Exempt Securities**"), the final terms relating to such Exempt Securities will be set out in a pricing supplement document (the "**Pricing Supplement**") which may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these General Warrant Conditions and/or the applicable Product Conditions and/or the applicable Asset Terms, replace or modify these General Warrant Conditions and/or any applicable Additional Provisions and/or the applicable Product Conditions and/or the applicable Asset Terms for the purposes of such Exempt Securities. "**Issue Terms**" refers to the relevant final terms document and means either (a) the Final Terms or (b) the Pricing Supplement. The relevant Securities will (unless otherwise specified) be represented by a global security (the "**Global Security**"). "**Prospectus Regulation**" means Regulation (EU) 2017/1129 (as amended from time to time). For the purposes of the Conditions, references to the EEA include the United Kingdom.

Expressions used herein and not defined shall have the meaning given to them in any applicable Additional Provisions, any applicable Product Conditions, any applicable Asset Terms or the relevant Issue Terms. In the event of any inconsistency between the General Warrant Conditions, the applicable Additional Provisions (if any), the applicable Product Conditions, the applicable Asset Terms and the relevant Issue Terms, the prevailing terms will be determined in accordance with the following order of priority (where (a) prevails over the other terms):

- (a) the relevant Issue Terms;
- (b) the applicable Product Conditions;
- (c) the applicable Asset Terms;
- (d) the applicable Additional Provisions (if any); and
- (e) the General Warrant Conditions.

1. **Form, Title and Transfer**

(a) ***Form***

The Securities shall be issued in registered form and shall be represented at all times by the Global Security deposited outside the United Kingdom with, or with a common depositary for, the Clearing System(s) (the "**Registered Global Security**"). Securities in definitive form shall not be issued.

(b) ***Title***

Subject as provided below, title to the Securities shall pass by registration in the register (the "**Register**") maintained in accordance with the provisions of the Agency Agreement.

Each person being referred to herein as a "**Securityholder**" or "**holder**" shall, for the purposes of these General Warrant Conditions, be:

- (i) in the case of Securities clearing through the relevant Clearing System(s) (other than Securities clearing through Monte Titoli), each person for the time being appearing in the records of the relevant Clearing System(s) as the holder of a Security (other than one Clearing System to the extent that it appears on the books of another Clearing System) and such person shall be treated for all purposes by the Issuer, the Warrant Agents and the relevant Clearing System(s) as the Securityholder, other than with respect to the payment of any amount due under the terms of the Securities, for which purpose the Securityholder shall be the person in whose name the Registered Global Security is registered in accordance with and subject to its terms, notwithstanding any notice to the contrary; and
- (ii) in the case of Securities clearing through Monte Titoli, each person whose name appears as being entitled to a Security in the books of a financial intermediary (an Italian bank, broker or agent authorised to maintain securities accounts on behalf of its clients) (an "Account Holder") and who is entitled to such Security according to the books of Monte Titoli, and such person shall be treated for all purposes as the Securityholder thereof.

References to "**Clearing System(s)**" are to Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**") or such other clearing

system specified in the relevant Issue Terms with or on behalf of which the Global Security is deposited. References to "**Monte Titoli**" are to Monte Titoli S.p.A.

(c) ***Transfer***

Transfers of Securities may be effected only in integral multiples of the Transferable Number of Securities, subject to a minimum of any Minimum Trading Lot specified in the relevant Issue Terms and (i) in the case of Securities held through Monte Titoli, through the relevant Account Holder, or (ii) in the case of Securities held through another Clearing System, through such Clearing System. Transfers may be effected only upon registration of the transfer in the books of (i) in the case of Securities held through Monte Titoli, the relevant Account Holder, or (ii) in the case of Securities held in another Clearing System, such Clearing System.

2. **Status**

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* and rateably without any preference among themselves and equally with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

3. **Exercise Rights**

(a) ***Exercise of Securities***

(i) *Automatic Exercise*

Each Warrant shall (unless, if American Style applies, previously exercised) be deemed to have been automatically exercised on the Expiration Date (subject to prior redemption or cancellation of the Securities in accordance with General Warrant Conditions 6 and 7).

(ii) *American Style*

The following applies only to Securities specified to be American Style:

Each Warrant is exercisable (subject to General Warrant Conditions 3(a)(i) and 4), free of charge on any Exercise Business Day during the period from, but excluding, the Issue Date to, and including, the Exercise Business Day before the Expiration Date (the "**Exercise Period**") subject to prior redemption or cancellation of the Securities as provided in General Warrant Conditions 6 and 7.

The Securities may be exercised only in the Minimum Exercise Number specified in the relevant Issue Terms and an Exercise Notice (as defined in General Warrant Condition 4(a)) that purports to exercise Securities in a number smaller than the Minimum Exercise Number shall be void.

If a Maximum Exercise Number is specified in the relevant Issue Terms then if, other than in the case of the Expiration Date, the Issuer determines that the Valuation Date (or if more than one, the initial Valuation Date) of more than the Maximum Exercise Number of Securities would, except as a consequence of this provision otherwise fall on the same date, the Issuer may deem the Valuation Date (or if more than one, the initial Valuation Date) for the Maximum Exercise Number of such Securities to be the originally applicable Valuation Date for such Securities, and the relevant Valuation Date for the remainder of such Securities to be (subject to the applicable Asset Terms) postponed to the next day which is a Banking Day in the city of the Principal Warrant Agent and, if different, a Banking Day in London following such Valuation Date. The order of receipt by the Principal Warrant Agent of the notifications to it under General Warrant Condition 4(c) shall govern the priority of Securities for selection by the Issuer for such postponement.

(iii) *European Style*

Securities that are specified to be European Style are only exercisable on the Expiration Date.

(iv) *Bermudan Style*

Securities that are specified to be Bermudan Style are exercisable on one or more potential Exercise Dates and on the Expiration Date.

(b) ***Entitlement on exercise of Securities***

Securities which have been duly exercised or deemed exercised entitle the relevant Securityholder to require the Issuer to pay, subject to the Conditions of the Securities, the Settlement Amount in respect of such Securities in the Settlement Currency on the Settlement Date in accordance with the Conditions.

4. **Exercise Procedure**

This General Warrant Condition 4 only applies to Securities to which "American Style" is specified to apply in the relevant Issue Terms.

(a) ***Exercise Notice***

To exercise Securities, instructions in the form and with the content prescribed by the relevant Clearing System through which the relevant Securityholder exercises its Securities (an "**Exercise Notice**") must be given to that Clearing System on any day during the Exercise Period.

Each Exercise Notice shall be deemed to constitute an irrevocable election by the holder of the number of Securities specified in it to exercise such Securities. Thereafter such Securities may not be transferred.

(b) ***Verification***

In accordance with its normal operating procedures, the relevant Clearing System will verify that, according to its records, each person exercising Securities has Securities in the amount being exercised in its securities account with the relevant Clearing System. If the relevant Clearing System determines that an Exercise Notice is improperly completed or that the relevant Securityholder has insufficient Securities in its Clearing System account, the Exercise Notice will be treated as void and a new duly completed Exercise Notice must be submitted if exercise of the holder's Securities is still desired and possible. Such a determination shall be conclusive and binding on the Issuer, the Warrant Agents and the relevant Securityholder.

(c) ***Notification of Principal Warrant Agent and Debit of Securityholder's Account***

The relevant Clearing System will, in accordance with its normal operating procedures, notify the Principal Warrant Agent of the exercise of the relevant Securities and debit the Securities being exercised from the relevant account of the Securityholder.

5. **Payments**

(a) ***Payments***

Payments in respect of Securities will be made to the relevant Clearing System(s) for credit to the account of the person shown on the Register at the close of business on the date (the "**Record Date**") which is the Clearing System Business Day immediately prior to the due date for payment thereof, where "Clearing System Business Day" means each day from Monday to Friday inclusive except 25 December and 1 January.

The holder of the Registered Global Security will be the only person entitled to receive payments in respect of Securities represented by such Registered Global Security and the Issuer will be discharged by payment to, or to the order of, the holder of such Registered Global Security in

respect of each amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular number of Securities represented by such Registered Global Security must look solely to such Clearing System for its share of each payment so made by the Issuer. No person other than the holder of such Registered Global Security shall have any claim against the Issuer in respect of any payments due on that Registered Global Security.

Payment by the Issuer of any amount payable in respect of a Security will be subject in all cases to all applicable fiscal and other laws, regulations and directives and the rules and procedures of the relevant Clearing System(s). Neither the Issuer nor any Warrant Agent shall under any circumstances be liable for any acts or defaults of any Clearing System in the performance of its duties in relation to the Securities.

No amount payable in respect of the Securities shall be less than zero. Where any such amount, as determined in accordance with the Conditions, is a negative amount, such amount shall be deemed to be floored at zero.

(b) ***Non-Currency Business Days***

If any date for payment in respect of any Security is not a Currency Business Day, Securityholders shall not be entitled to payment until the next following Currency Business Day or to any interest or other sum in respect of such postponed payment.

(c) ***Payment Disruption***

This General Warrant Condition 5(c) shall apply only to each Series of Securities in respect of which "Payment Disruption" is specified to be applicable in the relevant Issue Terms.

(i) If the Issuer determines that a Payment Disruption Event has occurred in relation to any amount due (or shortly to be due) in respect of the Securities, the Issuer shall give notice as soon as practicable to Securityholders of such determination in accordance with General Warrant Condition 10.

(ii) Upon the occurrence of a Payment Disruption Event:

(A) the relevant Settlement Date or any other date on which any amount may be due and payable (and the Issuer's obligation to pay the relevant Settlement Amount or such other amounts in respect of the Securities) shall be postponed to a date (the "**Extended Date**") falling on the earlier of:

(1) two Business Days following the date on which the Issuer (acting in good faith and in a commercially reasonable manner) determines that the Payment Disruption Event is no longer continuing; and

(2) the date falling 45 calendar days following the original Settlement Date or other payment date, as the case may be (the "**Cut-off Date**").

(B) In the event that the Payment Disruption Event is still occurring on the second Currency Business Day immediately preceding the Cut-off Date, then:

(1) if "Payment in Alternate Currency" is specified to be applicable in the relevant Issue Terms, the Issuer shall, on giving notice as soon as practicable to Securityholders in accordance with General Warrant Condition 10, make payment of the Equivalent Amount on the relevant Extended Date; or

(2) if "Payment of Adjusted Amount" is specified to be applicable in the relevant Issue Terms, the Issuer shall make payment of the relevant Settlement Amount or such other amount payable under

the Securities on the relevant Extended Date, and in such case, the Issuer may make such adjustment to such amount as it shall determine in good faith and in a commercially reasonable manner to be appropriate to account for any difference between the amount originally payable and the amount that a hypothetical investor would receive if such hypothetical investor were to enter into and maintain any theoretical hedging arrangements in respect of the Securities.

Upon the payment of the Equivalent Amount or the relevant Settlement Amount or such other amount (as the case may be) pursuant to this General Warrant Condition 5(c)(ii) in respect of the Securities, the Issuer shall have discharged its obligations to pay such Settlement Amount or other amount in respect of such Securities in full and shall have no other liability or obligation whatsoever in respect thereof except in the event of a loss resulting directly from the fraud, wilful default or gross negligence of the Issuer or the Calculation Agent.

(C) Any payments made in accordance with this General Warrant Condition 5(c)(ii) shall be made after deduction of any costs, expenses or liabilities incurred or to be incurred by the Calculation Agent or the Issuer in connection with or arising from the resolution of the relevant Payment Disruption Event.

(iii) Securityholders shall not be entitled to any interest or any other payment on account of any postponement or delay which may occur in respect of the payment of any amounts due and payable in respect of the Securities pursuant to this General Warrant Condition 5(c).

6. **Illegality**

If the Issuer shall have determined, acting in good faith and in a commercially reasonable manner, (a) that the performance of any of its obligations (including any calculations or determinations to be made by the Issuer) under the Securities, after application of all relevant provisions in the Conditions relating to the replacement of Reference Rates and adjustments to the Conditions of the Securities (if applicable), or (b) that any arrangement made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal, or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, licensing requirement, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation thereof (an "**Illegality**"), then the Issuer may, if and to the extent permitted by applicable law, either (i) make such adjustment to the Conditions as may be permitted by any applicable Asset Terms or (ii) cancel the Securities and, having given notice to Securityholders as soon as practicable in accordance with General Warrant Condition 10, redeem the Securities at their Unscheduled Termination Amount. In the case of (ii), no Security may be exercised once cancelled, and for the avoidance of doubt, no payment of the Settlement Amount (or physical delivery of the Share Amount or payment of the Fractional Cash Amount, as applicable) or any other amounts on account of interest or otherwise shall be made after such notice has been given.

7. **Purchases**

The Issuer and any subsidiary or affiliate of the Issuer may at any time purchase Securities (provided that such Securities are purchased with all rights to receive all future payments of interest (if any)) in the open market or otherwise at any price and may hold, resell or cancel them.

8. **Appointment of Agents**

The Agents initially appointed by the Issuer and their respective specified offices are specified in the relevant Issue Terms. The Agents act solely as agents of the Issuer and neither the Issuer nor any of the Agents assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Issuer may at any time vary or terminate the appointment of any Agent and appoint additional or other Agents, provided that the Issuer shall at all times maintain (a) a Principal Warrant Agent, (b) a Registrar and (c) so long as the Securities are listed on any stock exchange and the rules of that

stock exchange or the relevant competent authority so require, such Paying Agents or other agents as may be required by the rules of such stock exchange or competent authority.

Notice of any such change or any change of any specified office shall promptly be given to the Securityholders.

9. **Further Issues**

The Issuer may from time to time without the consent of the Securityholders create and issue further Securities having the same terms and conditions as the Securities (save possibly for the issue price) (so that, for the avoidance of doubt, references in the Conditions to "Issue Date" shall be to the first issue date of the Securities) and so that the same shall be consolidated and form a single series with such Securities, and references in the Conditions to "Securities" shall be construed accordingly.

10. **Notices**

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu). In addition, so long as any Securities are held in or on behalf of a Clearing System, notices to the holders of such Securities may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled accountholders or by delivery of the relevant notice to the holder of the relevant Global Security. Notices to the holders of Securities may also be given by publication in the newspaper specified in the relevant Issue Terms or such other leading newspaper of general circulation as the Issuer may determine. Any such notice shall be deemed to have been given on the weekday following such delivery or, where notices are so published, on the date of such publication or, if published more than once or on different dates, on the date of the first such publication. Notices to the holders of Securities may alternatively be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Notices to be given by a Securityholder shall (in the case of a Security not held in or on behalf of a Clearing System) be in writing and given by being lodged with a Warrant Agent. Where Securities are held in or on behalf of a Clearing System, such notices may be given by the holder of a Security through the relevant Clearing System in such manner as the relevant Clearing System may approve for this purpose together with confirmation from the Clearing System of the Securityholder's holding of Securities.

Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with a Warrant Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

11. **Events of Default**

If any one or more of the following events (each an "**Event of Default**") has occurred and is continuing:

- (a) the Issuer fails to pay any amount due on the Securities within 30 days after the due date; or
- (b) a resolution is passed, or a final order of a court in the United Kingdom is made, and where not possible, not discharged or stayed within a period of 90 days, that CSI be wound up or dissolved,

then the holder of any Security may, by notice in writing given to the Warrant Agent at its specified office, declare such Security immediately due and payable, whereupon such Security shall become redeemable at an amount equal to its Unscheduled Termination Amount unless prior to the time when the Warrant Agent receives such notice all Events of Default have been cured.

12. **Calculations and Determinations**

Where any calculations or determinations are required in the Conditions to be made by the Issuer, the Issuer may delegate the performance of such determinations and/or calculations to a Calculation Agent on its behalf. In such event, the relevant references to the "Issuer" shall be construed as references to such Calculation Agent.

All calculations and determinations of the Issuer and the Calculation Agent in the Conditions shall be made in accordance with the terms of the relevant Conditions having regard in each case to the criteria stipulated therein (if any) and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer or the Calculation Agent (as applicable) responsible for making the relevant calculation or determination.

In making any discretionary determinations under the Conditions, each of the Issuer and the Calculation Agent may take into account such factors as it determines to be appropriate (including, but not limited to, any circumstances or events which it determines have a material effect on the hedging arrangements entered into by the Issuer (and/or its affiliates) at any time with respect to the Securities). Where provided in the Conditions, the Issuer or the Calculation Agent will calculate any amount(s) payable using the information, price sources or factors, whether official or estimated, as specified in the Conditions. However, should the Issuer or the Calculation Agent not be able to obtain the necessary information or be able to use the specified price sources or factors, then, after using reasonable efforts and after applying all applicable fallback provisions specified in the Conditions in relation to such calculation, the Issuer or the Calculation Agent shall be permitted to use its estimate (acting in good faith and in a commercially reasonable manner) of the relevant information, price source or factor in making the relevant calculations should it determine that such estimate is reasonably necessary.

Notwithstanding anything else in the Conditions (save as provided in the next sentence) and if (a) the relevant Issue Terms specify that "Institutional" is not applicable, and (b) the terms of the Securities provide for the amount payable on the Settlement Date to be subject to a minimum amount, no modification or adjustment to, or calculation under, the Conditions may be made by the Issuer to reduce the amount so payable on such date to less than such minimum amount. For the avoidance of doubt, the preceding sentence shall not apply in relation to the rights of the Issuer to modify the Terms and Conditions pursuant to General Warrant Condition 15.

All calculations and determinations and exercises of discretion made by the Issuer or the Calculation Agent in such capacity under the Conditions (which, for the avoidance of doubt, shall not include the terms of the offer of the Securities as set out in Part B of the Final Terms, if applicable) whether or not already expressed to be the case therein shall be made in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination and exercise of discretion in accordance with its applicable regulatory obligations.

All calculations made by the Issuer or the Calculation Agent under the Conditions shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Conduct Authority.

13. **Taxation**

The Issuer is not liable for or otherwise obliged to pay, and the relevant Securityholder shall pay, any tax, duty, charges, withholding or other payment which may arise as a result of, or in connection with, the ownership, transfer, exercise or enforcement of any Security, including, without limitation, the payment of any Settlement Amount. The Issuer shall have the right to withhold or deduct from any amount payable to the Securityholder such amount as is necessary (a) for the payment of any such taxes, duties, charges, withholdings or other payments or (b) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this General Warrant Condition 13.

14. **Meetings of Securityholders**

The Agency Agreement contains provisions for convening meetings of Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the Conditions. Such a meeting may be convened by Securityholders holding not less than one tenth of the number of Securities for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority of the number of Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the number of the Securities held or represented, unless the business of such meeting includes consideration of proposals, inter alia, (a) to

amend any date for payment on the Securities, (b) to reduce or cancel the nominal amount of, or any other amount payable or deliverable on redemption of, the Securities, (c) to vary any method of, or basis for, calculating any amount payable on the Securities or deliverable in respect of the Securities, (d) to vary the currency or currencies of payment or nominal amount of the Securities, (e) to take any steps that may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (f) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass the Extraordinary Resolution in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., of the number of Securities for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Securityholders (whether or not they were present at the meeting at which such resolution was passed).

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. of the number of Securities outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Securityholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

15. **Modification**

The Issuer may modify the Conditions (and (a) the Deed of Covenant, and (b) together with the other parties thereto, the Agency Agreement) without the consent of any Securityholder for the purposes of (a) curing any ambiguity or correcting or supplementing any provision contained in them in any manner which the Issuer may deem necessary or desirable provided that such modification is not, in the determination of the Issuer, prejudicial to the interests of the Securityholders or (b) correcting a manifest error. Notice of any such modification will be given to the Securityholders in accordance with General Warrant Condition 10.

16. **Substitution of the Issuer**

The Issuer, or any previously substituted company, may at any time, without the consent of the Securityholders, substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:

- (a) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by Moody's Investors Service Ltd. or Moody's Deutschland GmbH (or such other Moody's entity providing the rating of the Issuer) (or an equivalent rating from another internationally recognised rating agency) or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect; and
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with General Warrant Condition 10.

In the event of any substitution of the Issuer, any reference in the Conditions to the "Issuer" shall thenceforth be construed as a reference to the Substitute.

For these purposes, "**Affiliate**" means any entity controlled, directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer, and any entity under common control with the Issuer.

The Issuer shall also have the right upon notice to Securityholders in accordance with General Warrant Condition 10 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

17. **Third Parties**

No person shall have any right to enforce any of the Conditions of the Securities under the Contracts (Rights of Third Parties) Act 1999 except and to the extent (if any) that the Securities expressly provide that it shall apply to any of their terms.

18. **Miscellaneous Definitions**

Where provided in the Conditions, the Issuer or the Calculation Agent will calculate any amount(s) payable using the information, price sources or factors, whether official or estimated, as specified in the Conditions. However, should the Issuer or the Calculation Agent not be able to obtain the necessary information or be able to use the specified price sources or factors, then, after using reasonable efforts and after applying all applicable fallback provisions specified in the Conditions in relation to such calculation, the Issuer or the Calculation Agent shall be permitted to use its estimate (acting in good faith and in a commercially reasonable manner) of the relevant information, price source or factor in making the relevant calculations should it determine that such estimate is reasonably necessary.

Where provided in the Conditions that the Issuer or the Calculation Agent may make determinations or modifications in or at its discretion (or any similar wording) that relate to essential characteristics of the Securities, the Issuer or the Calculation Agent shall be required to make such determinations and modifications acting in good faith and in a commercially reasonable manner with a view to replicating as closely as possible the economic position that existed prior to the occurrence of the event giving rise to the exercise of such discretion. Any such determinations and modifications of the Conditions may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Securityholders.

Notwithstanding anything else in the Conditions (but excluding any modification of the Conditions pursuant to General Note Condition 10), the Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Securities in accordance with the Conditions (other than modifications or adjustments that do not relate to essential characteristics of the Securities) or redeem the Securities prior to their Maturity Date in accordance with the Conditions, where the event or circumstance giving rise to a modification or adjustment or to the redemption of the Securities prior to their Maturity Date is an event or circumstance (or combination of events or circumstances) that (a) significantly alters the economics of the Securities compared to the economics as of the Issue Date but that is not attributable to the Issuer, or (b) constitutes a Force Majeure Event, and in either such case where such modification, adjustment or redemption would not cause the Issuer to be in breach of the CEL (as defined below) and is not made pursuant to a provision of the Conditions that is deemed unfair under the CEL.

The Issuer will comply with the provisions of the Belgian Code of Economic Law dated 28 February 2013 (as amended and/or supplemented from time to time, the "CEL"), especially those pertaining to unfair contract terms, in the application of the Conditions of the Securities. In such case, and notwithstanding anything to the contrary in the Conditions, any provisions of the Conditions which are deemed unfair pursuant to the CEL shall not apply. Examples of such provisions may include, in whole or in part, those relating to (i) Hedging Arrangement, a Hedging Position or Hedge Proceeds, (iii) a Hedging Disruption, (iv) an Increased Cost of Hedging, (v) a Loss of Stock Borrow, or (vi) a Jurisdictional Event.

The Securityholders may not be charged any costs for the modification or adjustment of the Conditions and for the early redemption of the Securities before their Maturity Date.

For the purpose of Belgian Securities, essential characteristics of the Securities means characteristics of the Securities that are considered essential to the Securityholders, including without limitation the yield (coupon structure), the underlying, whether or not the investment is reimbursed in whole or in part on the Maturity Date, the identity of the Issuer and the scheduled redemption date.

To the extent permitted by applicable law, all calculations made by the Issuer or the Calculation Agent under the Conditions shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Conduct Authority."

permitted by applicable law, either (i) make such adjustment as may be permitted by applicable law to account for the Force Majeure Event, in accordance with General Certificate Condition 11 or (ii) having given notice to Securityholders as soon as practicable in accordance with General Certificate Condition 9, redeem the Securities at their Unscheduled Termination Amount. In such case, no payment of the Redemption Amount (or physical delivery of the Share Amount or payment of the Fractional Cash Amount, as applicable) or any other amounts on account of interest or otherwise shall be made after such notice has been given. "

3. **General Certificate Condition 11 (*Calculations and Determinations*)**

General Certificate Condition 11 shall be deemed to be deleted in its entirety and replaced by the following:

"11. **Calculations and Determinations**

Where any calculations or determinations are required in the Conditions to be made by the Issuer, the Issuer may delegate the performance of such determinations and/or calculations to a Calculation Agent on its behalf. In such event, the relevant references to the "Issuer" shall be construed as references to such Calculation Agent.

All calculations and determinations of the Issuer and the Calculation Agent in the Conditions shall be made in accordance with the terms of the relevant Conditions having regard in each case to the criteria stipulated therein (if any) and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer or the Calculation Agent (as applicable) responsible for making the relevant.

Where provided in the Conditions, the Issuer or the Calculation Agent will calculate any amount(s) payable using the information, price sources or factors, whether official or estimated, as specified in the Conditions. However, should the Issuer or the Calculation Agent not be able to obtain the necessary information or be able to use the specified price sources or factors, then, after using reasonable efforts and after applying all applicable fallback provisions specified in the Conditions in relation to such calculation, the Issuer or the Calculation Agent shall be permitted to use its estimate (acting in good faith and in a commercially reasonable manner) of the relevant information, price source or factor in making the relevant calculations should it determine that such estimate is reasonably necessary.

Where provided in the Conditions that the Issuer or the Calculation Agent may make determinations or modifications in or at its discretion (or any similar wording) that relate to essential characteristics of the Securities, the Issuer or the Calculation Agent shall be required to make such determinations and modifications acting in good faith and in a commercially reasonable manner with a view to replicating as closely as possible the economic position that existed prior to the occurrence of the event giving rise to the exercise of such discretion. Any such determinations and modifications of the Conditions may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Securityholders. Notwithstanding anything else in the Conditions (but excluding any modification of the Conditions pursuant to General Certificate Condition 14), the Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Securities in accordance with the Conditions (other than modifications or adjustments that do not relate to essential characteristics of the Securities) or redeem the Securities prior to their Maturity Date in accordance with the Conditions, where the event or circumstance giving rise to a modification or adjustment or to the redemption of the Securities prior to their Maturity Date is an event or circumstance (or combination of events or circumstances) that (a) significantly alters the economics of the Securities compared to the economics as of the Issue Date but that is not attributable to the Issuer, or (b) constitutes a Force Majeure Event, and in either such case where such modification, adjustment or redemption would not cause the Issuer to be in breach of the CEL (as defined below) and is not made pursuant to a provision of the Conditions that is deemed unfair under the CEL.

The Issuer will comply with the provisions of the Belgian Code of Economic Law dated 28 February 2013 (as amended and/or supplemented from time to time, the "**CEL**"), especially those pertaining to unfair contract terms, in the application of the Conditions of the Securities. In such case, and notwithstanding anything to the contrary in the Conditions, any provisions of the Conditions which are deemed unfair pursuant to the CEL shall not apply. Examples of such provisions may include, in whole or in part, those relating to (i) Hedging Arrangement, a Hedging

Position or Hedge Proceeds, (iii) a Hedging Disruption, (iv) an Increased Cost of Hedging, (v) a Loss of Stock Borrow, or (vi) a Jurisdictional Event.

The Securityholders may not be charged any costs for the modification or adjustment of the Conditions and for the early redemption of the Securities before their Maturity Date.

For the purpose of Belgian Securities, essential characteristics of the Securities means characteristics of the Securities that are considered essential to the Securityholders, including without limitation the yield (coupon structure), the underlying, whether or not the investment is reimbursed in whole or in part on the Maturity Date, the identity of the Issuer and the scheduled redemption date.

To the extent permitted by applicable law, all calculations made by the Issuer or the Calculation Agent under the Conditions shall, in the absence of manifest error, be final, conclusive and binding on Securityholders.

Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Conduct Authority."

4. **General Certificate Condition 15 (*Substitution of the Issuer*)**

General Certificate Condition 15 shall be deemed to be deleted in its entirety and replaced by the following:

- (c) the Issuer giving an indemnity in favour of the Securityholders in relation to any additional tax or duties or losses suffered by the Securityholders due to a different regulatory or tax regime of the Substitute from that of the Issuer and those additional taxes, duties or losses suffered arise or become payable solely as a result of the substitution of the Issuer for the Substitute;
- (d) on the date of such substitution there being no Event of Default in existence and no event having occurred which remains in existence on such date which, in the absence of the relevant grace period, would otherwise constitute an Event of Default, in relation to the Securities;
- (e) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect; and

- (f) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with General Certificate Condition 9.

In the event of any substitution of the Issuer, any reference in the Conditions to the "Issuer" shall thenceforth be construed as a reference to the Substitute.

For these purposes, "**Affiliate**" means any entity controlled, directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer and any entity under common control with the Issuer.

The Issuer shall also have the right upon notice to Securityholders in accordance with General Certificate Condition 9 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice."

The Delivery Notice shall be substantially in such form as the Issuer may determine and copies may be obtained from any Paying Agent.

The Delivery Notice must:

- (A) specify the name and address of the relevant Securityholder, the securities account in the Clearing System where the relevant Securities are to be debited and the securities account in the Clearing System to be credited with the relevant Share Amount(s);
- (B) certify that the beneficial owner of the relevant Securities is not a U.S. person; and
- (C) authorise the production of such notice in any applicable administrative or legal proceedings.

No Delivery Notice may be withdrawn after receipt thereof by a Paying Agent. Upon the delivery of the Delivery Notice, the Securityholder may not transfer the Securities which are the subject of such Delivery Notice.

Failure properly to complete and deliver a Delivery Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in these Conditions shall be made by the relevant Paying Agent, after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Securityholder.

If the relevant Security and the related Delivery Notice are delivered to any Paying Agent on a day that is not a Banking Day in the city of the relevant Paying Agent, such Security and Delivery Notice shall be deemed to be delivered on the next following such Banking Day.

The Issuer shall have no obligation to make delivery of the Share Amount in respect of such Security unless and until a duly completed Delivery Notice (together with the relevant Security if individually certificated) are each delivered as provided above. If the duly completed Delivery Notice (together with the relevant Security if individually certificated) are each delivered after the Presentation Date, delivery of such Share Amount shall be made as soon as possible thereafter but not earlier than the Share Delivery Date.

For the avoidance of doubt, the relevant holder of a Security shall not be entitled to any additional or further payment by reason of the delivery of the Share Amount in

respect of such Security occurring after the Share Delivery Date as a result of such Delivery Notice or Security being delivered after the Presentation Date.

Securityholders should note that, since the Presentation Date may fall before the date on which the Issuer notifies them of the method of redemption, they may not know by then whether the Securities will be redeemed by payment or by delivery of the Share Amount. However, if the Delivery Notice and the relevant Securities are not delivered by the Presentation Date in accordance with this paragraph and the Securities are to be redeemed by delivery of the Share Amount, the Securityholder will receive the Share Amount later than if the Delivery Notice and the relevant Securities had been so delivered by the Presentation Date.

(b) *Share Amounts*

(i) Delivery of Share Amounts

Without prejudice to Product Condition 4(b)(ii) below, the Issuer shall on the Share Delivery Date, deliver or procure the delivery of the Share Amount in respect of each Security to the relevant Clearing System (or, in the case of any Share Amount which is not eligible for delivery within the relevant Clearing System, using such other commercially reasonable manner as the Issuer may select) at the risk and expense of the relevant Securityholder. The Securityholder is required to pay all taxes and fees in connection with the delivery of the Share Amount, if any and no delivery shall take place until all such taxes and fees have been paid by the Securityholder to the absolute satisfaction of the Issuer. As used herein, "delivery" in relation to any Share Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Share Amount and "deliver" shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Share Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars, incompatible or incorrect information being contained in any Delivery Notice or otherwise and shall have no responsibility for the lawfulness of the acquisition of the Shares comprising the Share Amount or any interest therein by any Securityholder or any other person.

In respect of each Share comprising the Share Amount, the Issuer shall not be under any obligation to register or procure the registration of the Securityholder or any other person as the registered shareholder in the register of members of the Share Issuer.

Securityholders should note that the actual date on which they become holders of the Shares comprising their Share Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

The Issuer shall not at any time be obliged to account to a Securityholder for any amount or entitlement that it receives by way of a dividend or other distribution in respect of any of the Shares. Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may however result in an adjustment being made pursuant to the applicable Asset Terms.

Neither the Issuer (nor any other person) shall (A) be under any obligation to deliver (or procure delivery) to such Securityholder (or any other person), any letter, certificate, notice, circular or any other document received by the Issuer (or that person) in its capacity as the holder of such Shares, (B) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Shares, or (C) be under any liability to such Securityholder or any subsequent beneficial owner of such Shares in respect of any loss or damage which such Securityholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of such Shares.

(ii) Settlement Disruption

If the Issuer determines that delivery of any Share Amount in respect of any Security by the Issuer in accordance with this Product Condition 4 is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Share Delivery Date in respect of such Security shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption Event is subsisting and notice thereof shall be given to the relevant Securityholder by mail addressed to it at the address specified in the relevant Delivery Notice or in accordance with the General Conditions provided that the Issuer may elect in its discretion to satisfy its obligations in respect of the relevant Security by delivering or procuring the delivery of such Share Amount using such other commercially reasonable manner as it may select and in such event the Share Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Share Amount in such other commercially reasonable and lawful manner. No Securityholder shall be entitled to any payment whether of interest or otherwise on such Security in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount but not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date.

For so long as delivery of the Share Amount in respect of any Security is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its discretion to satisfy its obligations in respect of each relevant Security by payment to the relevant Securityholder of the Disruption Cash Settlement Price on the third Currency Business Day following the date that notice of such election is given to the Securityholders in accordance with the General Conditions. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with the General Conditions.

The Issuer shall give notice as soon as practicable to the Securityholders in accordance with the General Conditions that a Settlement Disruption Event has occurred.

2. **Disrupted Days and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single Share and Reference Dates**

Where the Securities relate to a single Share, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine its good faith estimate of the value for the Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Share Price in respect of the Reference Date.

(b) **Single Share and Averaging Reference Dates**

Where the Securities relate to a single Share, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Reference Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Issuer shall determine its good faith estimate of the value for the Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine its good faith estimate of the value for the Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive

Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and

- (B) the Issuer shall determine its good faith estimate of the value for the Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **Share Basket and Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to a Share Basket, if the relevant Issue Terms specify that "Share Basket and Reference Dates – Individual/Individual" or "Share Basket and Reference Dates – Common/Individual" applies to the Share Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any Share in the Share Basket, then such Reference Date for such Share shall be the first succeeding Scheduled Trading Day for such Share that the Issuer determines is not a Disrupted Day relating to that Share, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Share equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day relating to that Share. In that case:

- (i) the last consecutive Scheduled Trading Day for such Share shall be deemed to be the Reference Date for such Share, notwithstanding the fact that such day is a Disrupted Day for such Share; and
- (ii) the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Share Price in respect of the Reference Date for such Share.

(d) **Share Basket and Reference Dates – Common/Common**

Where the Securities relate to a Share Basket, if the relevant Issue Terms specify that "Share Basket and Reference Dates – Common/Common" applies to the Share Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any Share in the Share Basket, then such Reference Date for each Share in the Share Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Reference Date which the Issuer determines is not a Disrupted Day for any Share in the Share Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to one or more Shares in the Share Basket. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for each Share in the Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Shares in the Share Basket (each such Share being an "**Affected Basket Share**" for such Reference Date);
- (ii) for each Share in the Share Basket other than an Affected Basket Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
- (iii) for each Affected Basket Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (iii) shall be deemed to be the Share Price in respect of the Reference Date for such Affected Basket Share.

Where the Securities relate to a Share Basket, if the relevant Issue Terms specify that "Share Basket and Averaging Reference Dates – Individual/Individual" or "Share Basket and Averaging Reference Dates – Common/Individual" applies to the Share Basket and any Averaging Reference Date and if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any Share in the Share Basket and if, in the relevant Issue Terms, the consequence specified is:

(i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Share in the Share Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:

(A) for each Share in the Share Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such Share shall be the final Scheduled Averaging Reference Date; and

(B) for each Share in the Share Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such Share shall be the first succeeding Scheduled Trading Day for such Share following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such Share, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Share equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that Share. In that case:

(1) that last consecutive Scheduled Trading Day for such Share shall be deemed to be the sole Averaging Reference Date for such Share, notwithstanding the fact that such day is a Disrupted Day for such Share; and

(2) the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share, and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the Share Price in respect of the sole Averaging Reference Date for such Share;

(ii) **"Postponement"**, then for each Share in the Share Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Share shall be the first succeeding Scheduled Trading Day for such Share following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that Share (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such Share), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Share equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such Share. In that case:

(A) the last consecutive Scheduled Trading Day for such Share shall be deemed to be the Averaging Reference Date for such Share (irrespective of whether that last consecutive Scheduled Trading Day for such Share is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Share); and

(B) the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share, and such determination by the Issuer pursuant to this

paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Share; or

- (iii) **"Modified Postponement"**, then for each Share in the Share Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Share shall be the first succeeding Valid Date relating to that Share. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such Share equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such Share shall be deemed to be the Averaging Reference Date for such Share (irrespective of whether that last consecutive Scheduled Trading Day for such Share is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Share); and
 - (B) the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Share.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any Share in the Share Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(f) **Share Basket and Averaging Reference Dates – Common/Common**

Where the Securities relate to a Share Basket, if the relevant Issue Terms specify that "Share Basket and Averaging Reference Dates – Common/Common" applies to the Share Basket and an Averaging Reference Date, then if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any Share in the Share Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Share in the Share Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then the sole Averaging Reference Date for each Share in the Share Basket shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day for any Share in the Share Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to one or more Shares in the Share Basket. In that case:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date for each Share in the Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Shares in the Share Basket (each such Share being an **"Affected Basket Share"** for such sole Averaging Reference Date);
 - (B) for each Share in the Share Basket other than an Affected Basket Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed

to be the Share Price in respect of the sole Averaging Reference Date for such Affected Basket Share;

- (ii) **"Postponement"**, then the Averaging Reference Date for each Share in the Share Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date which the Issuer determines is not a Disrupted Day for any Share in the Share Basket (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to one or more Shares in the Share Basket. In that case:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each Share in the Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Shares in the Share Basket (each such Share being an **"Affected Basket Share"** for such Averaging Reference Date);
 - (B) for each Share in the Share Basket other than an Affected Basket Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Affected Basket Share; or
- (iii) **"Modified Postponement"**, then the Averaging Reference Date for each Share in the Share Basket shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each Share in the Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Shares in the Share Basket (each such Share being an **"Affected Basket Share"** for such Averaging Reference Date);
 - (B) for each Share in the Share Basket other than an Affected Basket Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Affected Basket Share.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any Share in the Share Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

2.2 Consequences of Potential Adjustment Events

- (a) If the Issuer determines that a Potential Adjustment Event has occurred in respect of a Share (or, if such Share is a stapled share, any Component Share of such Share), the Issuer will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares or Component Shares (as the case may be) and, if so, the Issuer will (i) make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Issuer determines appropriate to account for that diluting or concentrative effect and to preserve the original economic objective and rationale of the Securities (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share or Component Share (as the case may be)), and (ii) determine the effective date(s) of the adjustment(s). The Issuer will, to the extent practicable, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares or Component Shares (as the case may be) traded on such options exchange.
- (b) Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Potential Adjustment Event, provided that any failure to give such notice shall not affect the validity of the Potential Adjustment Event or any action taken.

2.3 Consequences of Extraordinary Events

If the Issuer determines that an Extraordinary Event has occurred in respect of a Share (the "**Affected Share**") or, if such Share is a stapled share, any Component Share of such Share (the "**Affected Component Share**") then, on or after the relevant Merger Date, Tender Offer Date, De-stapling Date or Announcement Date, as the case may be, the Issuer may in its discretion (acting in good faith and in a commercially reasonable manner) either:

- (a)
- (i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of such Extraordinary Event and to preserve the original economic objective and rationale of the Securities (which may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Affected Share or the Affected Component Share (as the case may be) or to the Securities), which will, to the extent practicable, be determined by reference to the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the Affected Share or Affected Component Share (as the case may be) traded on such options exchange;
 - (ii) determine the effective date of that adjustment; and
 - (iii) upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Extraordinary Event, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or
- (b) if "Share Substitution" is specified as being applicable in the relevant Issue Terms, and:
- (i) if such Extraordinary Event has occurred in respect of an Affected Component Share and the Issuer determines that such Affected Component Share has been replaced by a replacement share (the "**Replacement Component Share**") such that such Share shall comprise such Replacement Component Share and any other remaining Component Share, then the Issuer may, acting in good faith and in a commercially reasonable manner, determine that the Replacement Component Share shall be deemed to be a Component Share in place of the Affected Component Share (and the share issuer of the Replacement Component Share will replace the Component Share Issuer of the Affected Component Share); or
 - (ii) if such Extraordinary Event has occurred in respect of an Affected Share, then the Issuer may, acting in good faith and in a commercially reasonable manner, select a

new underlying share (in respect of the relevant Extraordinary Event, the "**Replacement Share**"), which Replacement Share will be deemed to be a Share in place of the Affected Share (and the Share Issuer of the Replacement Share will replace the Share Issuer of the Affected Share). In selecting a Replacement Share, the Issuer may, but is not obliged to, determine that such Replacement Share will: (i) be selected from the same economic sector(s) as the Affected Share, (ii) have shares denominated in the same currency as the Affected Share, (iii) have a similar market capitalisation to the Affected Share, (iv) be listed on the same Exchange as the Affected Share, and (v) be domiciled in the same country as the Affected Share. In selecting the Replacement Share, the Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such selection in accordance with its applicable regulatory obligations.

In selecting a Replacement Share, the Issuer will, to the extent practicable, (A) ensure that the original economic objective and rationale of the Securities is preserved, and (B) take into account (1) the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the Affected Share traded on such options exchange, and/or (2) any determinations made by the sponsor of an index which references the Affected Share. The Issuer may make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of the Extraordinary Event and/or the replacement of the Affected Share by the Replacement Share or the Affected Component Share by the Replacement Component Share (as the case may be) (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or Component Shares (as the case may be) or to the Securities) and to preserve the original economic objective and rationale of the Securities.

Upon making any such replacement and/or adjustment, the Issuer shall give notice as soon as practicable to the Securityholders giving details of the Extraordinary Event and information relating to the Replacement Share or Replacement Component Share (as the case may be), and/or stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or

- (c) if the Issuer determines that no replacement or adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day falling on or after the relevant Merger Date, Tender Offer Date, De-stapling Date or Announcement Date, as the case may be, as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

2.4 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, then the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or Component Share (as the case may be) or to the Securities), and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any

of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or

- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. **Adjustment in respect of Jurisdictional Event**

If the relevant Issue Terms specify in relation to a Share that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. **Correction of prices**

In the event that any relevant price of a Share published on the Exchange on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Exchange by the second Currency Business Day prior to the next date on which any relevant payment or delivery may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

If both Hedging Disruption and FX Disruption are specified to be applicable in the relevant Issue Terms, where an event or circumstance that would otherwise (but for this provision) constitute a Hedging Disruption also constitutes an FX Disruption, such event shall be deemed to be an FX Disruption and shall not constitute a Hedging Disruption.

2. **Disrupted Days, Index Adjustment Events and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single Index and Reference Dates**

Where the Securities relate to a single Index, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine the Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Index Level in respect of the Reference Date.

(b) **Single Index and Averaging Reference Dates**

Where the Securities relate to a single Index, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Issuer shall determine the Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine the Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine the Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum*

Days of Disruption), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **Index Basket and Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to an Index Basket, if the relevant Issue Terms specify that "Index Basket and Reference Dates – Individual/Individual" or "Index Basket and Reference Dates – Common/Individual" applies to the Index Basket and a Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any Index in the Index Basket, then such Reference Date for such Index shall be the first succeeding Scheduled Trading Day for such Index that the Issuer determines is not a Disrupted Day relating to that Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to that Index. In that case:

- (i) the last consecutive Scheduled Trading Day for such Index shall be deemed to be the Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
- (ii) the Issuer shall determine the Index Level for such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Index Level in respect of the Reference Date for such Index.

(d) **Index Basket and Reference Dates – Common/Common**

Where the Securities relate to an Index Basket, if the relevant Issue Terms specify that "Index Basket and Reference Dates – Common/Common" applies to the Index Basket and a Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any Index in the Index Basket, then such Reference Date for each Index in the Index Basket shall be the first succeeding Scheduled Trading Day for each Index in the Index Basket following such Scheduled Reference Date which the Issuer determines is not a Disrupted Day for any Index in the Index Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days for each Index in the Index Basket equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to one or more Indices in the Index Basket. In that case:

- (i) the last consecutive Scheduled Trading Day for each Index in the Index Basket shall be deemed to be the Reference Date for each Index in the Index Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Indices in the Index Basket (each such Index being an "**Affected Basket Index**" for such Reference Date);
- (ii) for each Index in the Index Basket other than an Affected Basket Index, the relevant Index Level shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day for each Index in the Index Basket; and
- (iii) for each Affected Basket Index, the Issuer shall determine the Index Level for such Affected Basket Index on or in respect of that last consecutive Scheduled Trading Day for each Index in the Index Basket in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*),

and such determination by the Issuer pursuant to this paragraph (iii) shall be deemed to be the Index Level in respect of the Reference Date for such Affected Basket Index.

(e) **Index Basket and Averaging Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to an Index Basket, if the relevant Issue Terms specify that "Index Basket and Averaging Reference Dates – Individual/Individual" or "Index Basket and Averaging Reference Dates – Common/Individual" applies to the Index Basket and an Averaging Reference Date and if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any Index in the Index Basket and if, in the relevant Issue Terms, the consequence specified is:

(i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Index in the Index Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:

(A) for each Index in the Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such Index shall be the final Scheduled Averaging Reference Date; and

(B) for each Index in the Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day for such Index following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that Index. In that case:

(1) that last consecutive Scheduled Trading Day for such Index shall be deemed to be the sole Averaging Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and

(2) the Issuer shall determine the Index Level for such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the Index Level in respect of the sole Averaging Reference Date for such Index;

(ii) **"Postponement"**, then for each Index in the Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day for such Index following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that Index (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such Index), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such Index. In that case:

(A) the last consecutive Scheduled Trading Day for such Index shall be deemed to be the Averaging Reference Date for such Index (irrespective of whether that last consecutive Scheduled Trading Day for such Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Index); and

- (B) the Issuer shall determine the Index Level for such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date for such Index; or
- (iii) **"Modified Postponement"**, then for each Index in the Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Index shall be the first succeeding Valid Date relating to that Index. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such Index shall be deemed to be the Averaging Reference Date for such Index (irrespective of whether that last consecutive Scheduled Trading Day for such Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Index); and
- (B) the Issuer shall determine the Index Level for such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date for such Index.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any Index in the Index Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(f) **Index Basket and Averaging Reference Dates – Common/Common**

Where the Securities relate to an Index Basket, if the relevant Issue Terms specify that "Index Basket and Averaging Reference Dates – Common/Common" applies to the Index Basket and an Averaging Reference Date, then if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any Index in the Index Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Index in the Index Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then the sole Averaging Reference Date for each Index in the Index Basket shall be the first succeeding Scheduled Trading Day for each Index in the Index Basket following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day for any Index in the Index Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days for each Index in the Index Basket equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to one or more Indices in the Index Basket. In that case:
- (A) that last consecutive Scheduled Trading Day for each Index in the Index Basket shall be deemed to be the sole Averaging Reference Date for each Index in the Index Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Indices in the Index Basket (each such Index being an **"Affected Basket Index"** for such sole Averaging Reference Date);
- (B) for each Index in the Index Basket other than an Affected Basket Index, the relevant Index Level shall be determined as provided in Asset Term 1 by the

Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day for each Index in the Index Basket; and

- (C) for each Affected Basket Index, the Issuer shall determine the Index Level for such Affected Basket Index on or in respect of that last consecutive Scheduled Trading Day for each Index in the Index Basket in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Index Level in respect of the sole Averaging Reference Date for such Affected Basket Index;
- (ii) **"Postponement"**, then the Averaging Reference Date for each Index in the Index Basket shall be the first succeeding Scheduled Trading Day for each Index in the Index Basket following such Scheduled Averaging Reference Date which the Issuer determines is not a Disrupted Day for any Index in the Index Basket (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days for each Index in the Index Basket equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to one or more Indices in the Index Basket. In that case:
- (A) that last consecutive Scheduled Trading Day for each Index in the Index Basket shall be deemed to be the Averaging Reference Date for each Index in the Index Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Indices in the Index Basket (each such Index being an **"Affected Basket Index"** for such Averaging Reference Date);
 - (B) for each Index in the Index Basket other than an Affected Basket Index, the relevant Index Level shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day for each Index in the Index Basket; and
 - (C) for each Affected Basket Index, the Issuer shall determine the Index Level for such Affected Basket Index on or in respect of that last consecutive Scheduled Trading Day for each Index in the Index Basket in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date for such Affected Basket Index; or
- (iii) **"Modified Postponement"**, then the Averaging Reference Date for each Index in the Index Basket shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for each Index in the Index Basket equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for each Index in the Index Basket shall be deemed to be the Averaging Reference Date for each Index in the Index Basket, notwithstanding the fact that such day is a Disrupted Day for one or more Indices in the Index Basket (each such Index being an **"Affected Basket Index"** for such Averaging Reference Date);
 - (B) for each Index in the Index Basket other than an Affected Basket Index, the relevant Index Level shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day for each Index in the Index Basket; and
 - (C) for each Affected Basket Index, the Issuer shall determine the Index Level for such Affected Basket Index on or in respect of that last consecutive

Scheduled Trading Day for each Index in the Index Basket in accordance with Asset Term 2.1(g) (*Formula for and method of calculating an Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Index Level in respect of the relevant Averaging Reference Date for such Affected Basket Index.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any Index in the Index Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(g) **Formula for and method of calculating an Index Level after the Maximum Days of Disruption**

In respect of an Index, the Issuer shall determine the Index Level on or in respect of the relevant last consecutive Scheduled Trading Day, pursuant to Asset Term 2.1(a)(ii), 2.1(b)(i)(B), 2.1(b)(ii)(B), 2.1(b)(iii)(B), 2.1(c)(ii), 2.1(d)(iii), 2.1(e)(i)(B)(2), 2.1(e)(ii)(B), 2.1(e)(iii)(B), 2.1(f)(i)(C), 2.1(f)(ii)(C) or 2.1(f)(iii)(C), as the case may be, in accordance with the formula for and method of calculating such Index last in effect prior to the occurrence of the relevant first Disrupted Day, using:

- (i) in respect of a Single-Exchange Index or Multi-Exchange Index, the Exchange traded or quoted price as of the Valuation Time on the last consecutive Scheduled Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in the Equity-linked Securities Asset Term 1) has occurred in respect of any relevant Component that is a Share (or an analogous event has occurred in respect of any relevant Component that is not a Share) on such last consecutive Scheduled Trading Day, or such last consecutive Scheduled Trading Day is not a Scheduled Trading Day for any relevant Component, as determined by the Issuer, its good faith estimate of the value for the relevant Component as of the Valuation Time on the last consecutive Scheduled Trading Day); and
- (ii) in respect of a Proprietary Index, such levels or values as the Issuer determines to be appropriate as of the Valuation Time on or in respect of that last consecutive Scheduled Trading Day of each Component included in such Index.

2.2 Index Adjustment Events

(a) **Successor Sponsor or Successor Index**

If an Index is (i) not calculated and announced by the Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer (a "**Successor Sponsor**"), or (ii) replaced by a successor index using, in the determination of the Issuer, the same or a substantially similar formula for, and method of, calculation as used in the calculation of such Index, then in each case such index (the "**Successor Index**") will be deemed to be the Index.

The Issuer may make such adjustment(s) that it deems appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for such Successor Index and to preserve the original economic objective and rationale of the Securities (provided that, if the relevant Issue Terms specify that "Institutional" is not applicable, no adjustment shall be made to the terms of the Securities to take into account any increase in the costs incurred by the Issuer and/or its affiliates by reason of its Hedging Arrangements).

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Successor Index, provided that any failure to give such notice shall not affect the validity of any action taken.

(b) **Index Cancellation or Administrator/Benchmark Event**

If the Issuer determines in respect of an Index that, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Index Cancellation or an Administrator/Benchmark Event has occurred in respect of such Index, then:

- (i) if the relevant Issue Terms specify an Alternative Pre-nominated Index in respect of such Index, then:
 - (A) the Issuer shall attempt to determine an Adjustment Payment;
 - (B) if the Issuer determines an Adjustment Payment:
 - (1) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Index" shall be replaced by a reference to "Alternative Pre-nominated Index"; and
 - (2) the Issuer shall, without the consent of the Securityholders, adjust the Conditions to take into account the Adjustment Payment as follows:
 - (aa) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date, Settlement Date or any date on which any amount may be due and payable, as relevant;
 - (bb) if the Adjustment Payment is an amount that the Securityholder would (but for this paragraph (bb)) be required to pay to the Issuer in respect of each Security, adjust the Conditions to provide for the reduction of the amounts due by the Issuer in respect of each Security until the aggregate amount of such reductions is equal to the Adjustment Payment, provided that if (x) the relevant Issue Terms specify that "Institutional" is not applicable and (y) where the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such adjustment may not reduce the minimum amount payable or any Instalment Amounts payable to the Securityholders; and
 - (cc) make such other adjustments (the "**Replacement Index Amendments**") to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of such Index with the relevant Alternative Pre-nominated Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of such Index with the relevant Alternative Pre-nominated Index; and
 - (3) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with the General Conditions specifying the Adjustment Payment and the specific terms of any Replacement Index Amendments and such notice shall be irrevocable. Any Adjustment Payment and Replacement Index Amendments will be binding on the Issuer, the Agents and the Securityholders; and

- (C) if the Issuer is unable to determine an Adjustment Payment, then Asset Term 2.2(c) shall apply; or
 - (ii) if the relevant Issue Terms do not specify an Alternative Pre-nominated Index in respect of such Index, then Asset Term 2.2(c) shall apply.
- (c) **Occurrence of an Index Adjustment Event**

If the Issuer determines, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Index Adjustment Event has occurred in respect of an Index, or an Administrator/Benchmark Event has occurred in respect of any Component of such Index, then the Issuer shall determine if such Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, **provided always that** in the case of an Index Adjustment Event that is an Index Cancellation or an Administrator/Benchmark Event in respect of such Index, this Asset Term 2.2(c) shall apply only in the circumstances where Asset Term 2.2(b) specifies that this Asset Term 2.2(c) shall apply. In making such determination, the Issuer may, in the case of an Administrator/Benchmark Event, take into account whether the performance of the Issuer's obligations under such Securities is or may become unlawful under any applicable law or regulation. If the Issuer determines that such Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, the Issuer shall calculate the relevant Index Level using, in lieu of a published level for such Index, the level for such Index as at the Valuation Time on that Reference Date, Averaging Reference Date, Observation Date or other relevant date, as the case may be, as determined by the Issuer in accordance with the formula for, and method of, calculating such Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised such Index immediately prior to such Index Adjustment Event (other than those Components that have since ceased to be listed on the relevant Exchange).

Then, if the Issuer determines, in its discretion, that either:

- (i) the above adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders; or
- (ii) it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements for the Issuer to perform the calculations prescribed in this Asset Term 2.2(c) (or it would be unlawful or would contravene those licensing requirements were a calculation to be made at such time),

the Issuer may select another index or basket of indices (the "**Alternative Post-nominated Index**"), as applicable, determined by the Issuer to be comparable to such Index to replace such Index and may determine an Adjustment Payment. If the Issuer determines an Adjustment Payment, the provisions of Asset Term 2.2(b)(i)(B) shall apply except that each reference to "Alternative Pre-nominated Index" shall be construed as a reference to "Alternative Post-nominated Index", provided that if (i) the Issuer is unable to select an Alternative Post-nominated Index or determine an Adjustment Payment, or (ii) the Issuer is able to select an Alternative Post-nominated Index and determine an Adjustment Payment, but the Issuer determines, in its discretion, that adjustment to the terms of the Securities in connection with such selection and determination would not achieve a commercially reasonable result for either the Issuer or the Securityholders, then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Index Adjustment Event has occurred. If the Securityholders provide the Issuer with details of the

circumstances which could constitute an Index Adjustment Event, the Issuer will consider such notice, but will not be obliged to determine that an Index Adjustment Event has occurred solely as a result of receipt of such notice.

2.3 **Consequences of Additional Disruption Events**

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. **Adjustment in respect of Jurisdictional Event**

If the relevant Issue Terms specify in relation to an Index that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. **Correction of Index Levels**

In the event that any relevant level of an Index published by the Sponsor on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Sponsor by the second Currency Business Day prior to the next date on which any relevant payment may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

5. **Responsibility**

Neither the Issuer nor the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of an Index by the relevant Sponsor, whether caused by negligence or otherwise.

- (a) If a Reference Date is not a Commodity Business Day, such date shall be adjusted in accordance with the relevant Commodity Business Day Convention, as specified in the relevant Issue Terms.
- (b) If the Issuer determines that a Market Disruption Event has occurred or exists on any Reference Date (or, if different, the day on which the prices for such Reference Date would, in the ordinary course, be published or announced by the Price Source), the Relevant Price for such Reference Date will be determined by the Issuer in accordance with the first applicable Disruption Fallback (applied in accordance with Asset Term 2.3 (*Applicability of Disruption Fallbacks*)) that provides a Relevant Price.
- (c) If the Issuer determines in respect of a Relevant Benchmark that, on or prior to any Reference Date or other relevant date, an Administrator/Benchmark Event has occurred in respect of such Relevant Benchmark:
 - (i) the Administrator/Benchmark Event Disruption Fallbacks specified in the relevant Issue Terms with respect to Administrator/Benchmark Event will apply, or if no Administrator/Benchmark Event Disruption Fallback is so specified, the Disruption Fallbacks specified in the relevant Issue Terms to apply (or if no Disruption Fallback is specified in the relevant Issue Terms, the Disruption Fallbacks applicable in accordance with Asset Term 2.3) shall be deemed to apply in accordance with Asset Term 2.3, provided that if such Relevant Benchmark is not a Commodity Reference Price (or the index, benchmark or other price source that is referred to in a Commodity Reference Price), then each reference to "Commodity Reference Price" in the

- (ii) if it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements, for the Issuer or the Calculation Agent to perform the actions prescribed in an applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be, (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), the next applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be, will apply; and
- (iii) if the Issuer determines that the last applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be, does not provide a Relevant Price (including due to the applicability of paragraph (ii) above in relation to the last applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be), then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

If there is more than one Relevant Benchmark specified, then the foregoing provisions of this Asset Term 2.1(c) shall apply separately to each such Relevant Benchmark.

- (a) Fallback Reference Price (if an alternate Commodity Reference Price has been specified in the relevant Issue Terms);
- (b) Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of two consecutive Commodity Business Days as the applicable Maximum Days of Disruption) provided, however, that the price determined by Postponement shall be the Relevant Price only if Delayed Publication or Announcement does not yield a price within the Maximum Days of Disruption;
- (c) Fallback Reference Dealers; and
- (d) Issuer Determination.

If any Disruption Fallbacks are specified in the relevant Issue Terms, only that or those (as the case may be) Disruption Fallbacks shall apply and if two or more Disruption Fallbacks are specified, those Disruption Fallbacks shall apply in the order as specified in the relevant Issue Terms, such that if the Issuer determines that the Relevant Price cannot be determined by applying a Disruption Fallback, then the next Disruption Fallback specified shall apply.

2.5 **Consequences of Additional Disruption Events**

Following the determination by the Issuer that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, then the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on

an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

2.6 Additional Provisions applicable to Relevant Benchmarks

If the Issuer determines in respect of a Relevant Benchmark that any event or circumstance has occurred which, if such Relevant Benchmark were a Commodity Reference Price, would constitute:

- (a) a Price Source Disruption or a Disappearance of Commodity Reference Price; or
- (b) a Material Change in Formula, and

in each case, the level of such Relevant Benchmark cannot be determined after the application of any applicable Disruption Fallbacks in accordance with Asset Term 2.3, then:

- (i) the Market Disruption Events specified in Asset Term 2.2(b) or Asset Term 2.2(c), as the case may be, shall be deemed to apply as if no Market Disruption Events had been specified in the relevant Issue Terms and the Disruption Fallbacks specified in Asset Term 2.3 shall be deemed to apply as if no Disruption Fallbacks had been specified in the relevant Issue Terms, provided that each reference to "Commodity Reference Price" in the Disruption Fallbacks specified in Asset Term 2.3 shall be deemed to be a reference to "Relevant Benchmark";
- (ii) if it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements, for the Issuer or the Calculation Agent to perform the actions prescribed in an applicable Disruption Fallback (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), the next applicable Disruption Fallback will apply; and
- (iii) if the Issuer determines that the last applicable Disruption Fallback does not provide a Relevant Price (including due to the applicability of paragraph (ii) above in relation to the last applicable Disruption Fallback), then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

If there is more than one Relevant Benchmark specified, then the foregoing provisions of this Asset Term 2.6 shall apply separately to each such Relevant Benchmark.

3. Adjustment in respect of Jurisdictional Event

If the relevant Issue Terms specify in relation to a Commodity that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. **Correction of prices**

In the event that any relevant price of a Commodity published on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the entity or person responsible for that publication by the second Currency Business Day prior to the next date on which any relevant payment or delivery may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and on a commercially reasonable basis, in connection with the Securities after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

If, in respect of a Commodity Index:

- (a) the Issuer determines that any Scheduled Reference Date is a Scheduled Trading Day that is not a Disrupted Day for such Commodity Index, then the Reference Date for such Commodity Index shall be such Scheduled Reference Date;
- (b) the Issuer determines that any Scheduled Reference Date is not a Scheduled Trading Day for such Commodity Index, then the Reference Date for such Commodity Index shall be the first succeeding day that is a Scheduled Trading Day for such Commodity Index, unless the Issuer determines that each of the five consecutive Currency Business Days in respect of such Commodity Index immediately following such Scheduled Reference Date is not a Scheduled Trading Day. In that case, the fifth consecutive Currency Business Day immediately following the Scheduled Reference Date shall be deemed to be the Reference Date, and the Issuer shall determine the Commodity Index Level for such Reference Date in good faith and in a commercially reasonable manner; and
- (c) the Issuer determines that a Reference Date for such Commodity Index is a Disrupted Day, then the Commodity Index Level of such Commodity Index for such Reference Date will be determined by the Issuer using the then-current method for calculating such Commodity Index as set out in the rule book for such Commodity Index, but based on and by reference to the settlement price of each Component included in such Commodity Index as follows:
 - (i) in respect of each Component included in such Commodity Index which is not affected by a Market Disruption Event on such Reference Date, the settlement price of such

Component will be that announced or published by the Exchange for such Component on such Reference Date; and

- (ii) in respect of each Component included in such Commodity Index which is affected by a Market Disruption Event on such Reference Date, the settlement price of such Component will be based on the settlement price of such Component on the first trading day of the Exchange for such Component following the Reference Date on which no Market Disruption Event is occurring in respect of such Component, provided that if the settlement price of such Component has not been so determined by the fifth consecutive Scheduled Trading Day in respect of such Commodity Index immediately following such Reference Date, the Issuer shall determine the settlement price of such Component in good faith and in a commercially reasonable manner.

2.2 Adjustments to a Commodity Index

(a) Successor Index and Successor Sponsor

If a Commodity Index is not calculated and announced by the Sponsor but is (i) calculated and announced by a successor sponsor (the "**Successor Sponsor**") acceptable to the Issuer, and/or (ii) replaced by a successor index (the "**Successor Index**") using, in the determination of the Issuer, the same or a substantially similar formula for and method of calculation as used in the calculation of such Commodity Index, then such Commodity Index will be deemed to be the commodity index so calculated and announced by that Successor Sponsor and/or that Successor Index, as the case may be.

The Issuer may make such adjustment(s) that it deems appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for such Successor Index and to preserve the original economic objective and rationale of the Securities (provided that, if the relevant Issue Terms specify that "Institutional" is not applicable, no adjustment shall be made to the terms of the Securities to take into account any increase in the costs incurred by the Issuer and/or its affiliates by reason of its Hedging Arrangements).

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Successor Index, provided that any failure to give such notice shall not affect the validity of any action taken.

(b) Commodity Index Adjustment Events

In respect of a Commodity Index, if, on or prior to a Reference Date or any other relevant date, as determined by the Issuer, (i) the Commodity Index Sponsor makes a material change in the formula for or the method of calculating such Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain such Commodity Index in the event of changes in constituent commodities and weightings and other routine events) (a "**Commodity Index Modification**"), or (ii) the Sponsor permanently cancels such Commodity Index (a "**Commodity Index Cancellation**"), or (iii) the Sponsor fails to calculate and announce such Commodity Index and the Issuer determines that there is no Successor Sponsor and/or Successor Index (provided that the Issuer may, in its discretion, determine that such event instead results in the occurrence of a Price Source Disruption) (a "**Commodity Index Disruption**"), or (iv) an Administrator/Benchmark Event occurs (and each of a Commodity Index Modification, a Commodity Index Cancellation, a Commodity Index Disruption and an Administrator/Benchmark Event, a "**Commodity Index Adjustment Event**") then the following provisions of this Asset Term 2.2(b) shall apply.

(i) Commodity Index Cancellation or Administrator/Benchmark Event

If the Issuer determines in respect of a Commodity Index that, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, a Commodity Index Cancellation or an Administrator/Benchmark Event has occurred in respect of such Index, then:

- (A) if the relevant Issue Terms specify an Alternative Pre-nominated Commodity Index in respect of such Commodity Index, then:
- (1) the Issuer shall attempt to determine an Adjustment Payment;
 - (2) if the Issuer determines an Adjustment Payment:
 - (aa) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Commodity Index" shall be replaced by a reference to "Alternative Pre-nominated Commodity Index"; and
 - (bb) the Issuer shall, without the consent of the Securityholders, adjust the Conditions to take into account the Adjustment Payment as follows:
 - (x) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date, Settlement Date or any date on which any amount may be due and payable, as relevant;
 - (y) if the Adjustment Payment is an amount that the Securityholder would (but for this Asset Term paragraph (y)) be required to pay to the Issuer in respect of each Security, adjust the Conditions to provide for the reduction of the amounts due by the Issuer in respect of each Security until the aggregate amount of such reductions is equal to the Adjustment Payment, provided that if (I) the relevant Issue Terms specify that "Institutional" is not applicable and (II) where the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such adjustment may not reduce the minimum amount payable or any Instalment Amounts payable to the Securityholders; and
 - (z) make such other adjustments ("**Replacement Commodity Index Amendments**") to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of such Commodity Index with the relevant Alternative Pre-nominated Commodity Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of such Commodity Index with the relevant Alternative Pre-nominated Commodity Index; and
 - (cc) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with the General Conditions specifying the Adjustment Payment and the specific terms of any Replacement Commodity Index

Amendments and such notice shall be irrevocable. Any Adjustment Payment and Replacement Commodity Index Amendments will be binding on the Issuer, the Agents and the Securityholders; and

- (3) if the Issuer is unable to determine an Adjustment Payment, then Asset Term 2.2(b)(ii) shall apply; and
- (B) if the relevant Issue Terms do not specify an Alternative Pre-nominated Commodity Index in respect of such Commodity Index, then Asset Term 2.2(b)(ii) shall apply.

(ii) **Occurrence of a Commodity Index Adjustment Event**

- (A) If the Issuer determines, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, a Commodity Index Adjustment Event has occurred in respect of a Commodity Index, or an Administrator/Benchmark Event has occurred in respect of any Component of such Commodity Index, then the Issuer may, at its option (in the case of a Commodity Index Modification) and shall (in the case of a Commodity Index Cancellation, a Commodity Index Disruption and an Administrator/Benchmark Event), determine if such Commodity Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, **provided always that** in the case of a Commodity Index Adjustment Event that is a Commodity Index Cancellation or an Administrator/Benchmark Event in respect of such Commodity Index, this Asset Term 2.2(b)(ii) shall apply only in the circumstances where Asset Term 2.2(b)(ii) specifies that this Asset Term 2.2(b)(ii) shall apply. In making such determination, the Issuer may, in the case of an Administrator/Benchmark Event, take into account whether the performance of the Issuer's obligations under such Securities is or may become unlawful under any applicable law or regulation). If the Issuer determines that such Commodity Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, the Issuer shall calculate the relevant Commodity Index Level for that Reference Date, Averaging Reference Date, Observation Date or other relevant date, as the case may be, in accordance with the formula for, and method of, calculating such Commodity Index last in effect prior to the relevant Commodity Index Adjustment Event, but using only those Components that comprised such Commodity Index immediately prior to such Commodity Index Adjustment Event (other than those Components that have since ceased to be listed on any relevant Exchange).
- (B) Then, if the Issuer determines, in its discretion, that either:
 - (1) the above adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders; or
 - (2) it (aa) is or would be unlawful at any time under any applicable law or regulation or (bb) would contravene any applicable licensing requirements for the Issuer to perform the calculations prescribed in this Asset Term 2.2(b)(ii) (or it would be unlawful or would contravene those licensing requirements were a calculation to be made at such time),

the Issuer may select another index or basket of indices (the "**Alternative Post-nominated Commodity Index**"), as applicable, determined by the Issuer to be comparable to such Commodity Index to replace such Commodity Index and may determine an Adjustment Payment. If the Issuer determines an Adjustment Payment, the provisions of Asset Term 2.2(b)(i)(A)(2) shall apply except that each reference to "Alternative Pre-nominated Commodity Index" shall be construed as a reference to "Alternative Post-nominated Commodity Index", provided that if (1) the

Issuer is unable to select an Alternative Post-nominated Commodity Index or determine an Adjustment Payment, or (2) the Issuer is able to select an Alternative Post-nominated Commodity Index and determine an Adjustment Payment, but the Issuer determines, in its discretion, that adjustment to the terms of the Securities in connection with such selection and determination would not achieve a commercially reasonable result for either the Issuer or the Securityholders, then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (aa) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (bb) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Commodity Index Adjustment Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Commodity Index Adjustment Event, the Issuer will consider such notice, but will not be obliged to determine that a Commodity Index Adjustment Event has occurred solely as a result of receipt of such notice.

2.3 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. Adjustment in respect of Jurisdictional Event

If the relevant Issue Terms specify in relation to a Commodity Index that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward

adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. **Correction of Commodity Index Levels**

In the event that any relevant level of a Commodity Index published by the Sponsor on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Sponsor by the second Currency Business Day prior to the next date on which any relevant payment may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

5. **Responsibility**

Neither the Issuer nor the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of a Commodity Index by the relevant Sponsor, whether caused by negligence or otherwise.

2. **Disrupted Days and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single ETF Share and Reference Dates**

Where the Securities relate to a single ETF Share, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine its good faith estimate of the value for the ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Share Price in respect of the Reference Date.

(b) **Single ETF Share and Averaging Reference Dates**

Where the Securities relate to a single ETF Share, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Reference Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Issuer shall determine its good faith estimate of the value for the ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and

- (B) the Issuer shall determine its good faith estimate of the value for the ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine its good faith estimate of the value for the ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **ETF Share Basket and Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to an ETF Share Basket, if the relevant Issue Terms specify that "ETF Share Basket and Reference Dates – Individual/Individual" or "ETF Share Basket and Reference Dates – Common/Individual" applies to the ETF Share Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any ETF Share in the ETF Share Basket, then such Reference Date for such ETF Share shall be the first succeeding Scheduled Trading Day for such ETF Share that the Issuer determines is not a Disrupted Day relating to that ETF Share, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such ETF Share equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day relating to that ETF Share. In that case:

- (i) the last consecutive Scheduled Trading Day for such ETF Share shall be deemed to be the Reference Date for such ETF Share, notwithstanding the fact that such day is a Disrupted Day for such ETF Share; and
- (ii) the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Share Price in respect of the Reference Date for such ETF Share.

(d) **ETF Share Basket and Reference Dates – Common/Common**

Where the Securities relate to an ETF Share Basket, if the relevant Issue Terms specify that "ETF Share Basket and Reference Dates – Common/Common" applies to the ETF Share Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any ETF Share in the ETF Share Basket, then such Reference Date for each ETF Share in the ETF Share Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Reference Date which the Issuer determines is not a Disrupted Day for any ETF Share in the ETF Share Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to one or more ETF Shares in the ETF Share Basket. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for each ETF Share in the ETF Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETF Shares in the ETF Share Basket (each such ETF Share being an **"Affected Basket ETF Share"** for such Reference Date);
- (ii) for each ETF Share in the ETF Share Basket other than an Affected Basket ETF Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
- (iii) for each Affected Basket ETF Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (iii) shall be deemed to be the Share Price in respect of the Reference Date for such Affected Basket ETF Share.

Where the Securities relate to an ETF Share Basket, if the relevant Issue Terms specify that "ETF Share Basket and Averaging Reference Dates – Individual/Individual" or "ETF Share Basket and Averaging Reference Dates – Common/Individual" applies to the ETF Share Basket and any Averaging Reference Date and if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any ETF Share in the ETF Share Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each ETF Share in the ETF Share Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:
 - (A) for each ETF Share in the ETF Share Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such ETF Share shall be the final Scheduled Averaging Reference Date; and
 - (B) for each ETF Share in the ETF Share Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such ETF Share shall be the first succeeding Scheduled Trading Day for such ETF Share following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such ETF Share, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such ETF Share equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that ETF Share. In that case:
 - (1) that last consecutive Scheduled Trading Day for such ETF Share shall be deemed to be the sole Averaging Reference Date for

such ETF Share, notwithstanding the fact that such day is a Disrupted Day for such ETF Share; and

- (2) the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share, and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the Share Price in respect of the sole Averaging Reference Date for such ETF Share;
- (ii) **"Postponement"**, then for each ETF Share in the ETF Share Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such ETF Share shall be the first succeeding Scheduled Trading Day for such ETF Share following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that ETF Share (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such ETF Share), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such ETF Share equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such ETF Share. In that case:
- (A) the last consecutive Scheduled Trading Day for such ETF Share shall be deemed to be the Averaging Reference Date for such ETF Share (irrespective of whether that last consecutive Scheduled Trading Day for such ETF Share is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such ETF Share); and
- (B) the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such ETF Share; or
- (iii) **"Modified Postponement"**, then for each ETF Share in the ETF Share Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such ETF Share shall be the first succeeding Valid Date relating to that ETF Share. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such ETF Share equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such ETF Share shall be deemed to be the Averaging Reference Date for such ETF Share (irrespective of whether that last consecutive Scheduled Trading Day for such ETF Share is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such ETF Share); and
- (B) the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such ETF Share.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any ETF Share in the ETF Share Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(f) **ETF Share Basket and Averaging Reference Dates – Common/Common**

Where the Securities relate to an ETF Share Basket, if the relevant Issue Terms specify that "ETF Share Basket and Averaging Reference Dates – Common/Common" applies to the ETF Share Basket and an Averaging Reference Date, then if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any ETF Share in the ETF Share Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each ETF Share in the ETF Share Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then the sole Averaging Reference Date for each ETF Share in the ETF Share Basket shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day for any ETF Share in the ETF Share Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to one or more ETF Shares in the ETF Share Basket. In that case:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date for each ETF Share in the Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETF Shares in the ETF Share Basket (each such ETF Share being an **"Affected Basket ETF Share"** for such sole Averaging Reference Date);
 - (B) for each ETF Share in the ETF Share Basket other than an Affected Basket ETF Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETF Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of the sole Averaging Reference Date for such Affected Basket ETF Share;
- (ii) **"Postponement"**, then the Averaging Reference Date for each ETF Share in the ETF Share Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date which the Issuer determines is not a Disrupted Day for any ETF Share in the ETF Share Basket (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to one or more ETF Shares in the ETF Share Basket. In that case:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each ETF Share in the ETF Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETF Shares in the ETF Share Basket (each such ETF Share being an **"Affected Basket ETF Share"** for such Averaging Reference Date);
 - (B) for each ETF Share in the ETF Share Basket other than an Affected Basket ETF Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETF Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such

determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Affected Basket ETF Share; or

- (iii) **"Modified Postponement"**, then the Averaging Reference Date for each ETF Share in the ETF Share Basket shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
 - (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each ETF Share in the ETF Share Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETF Shares in the ETF Share Basket (each such ETF Share being an **"Affected Basket ETF Share"** for such Averaging Reference Date);
 - (B) for each ETF Share in the ETF Share Basket other than an Affected Basket ETF Share, the relevant Share Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETF Share, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of the relevant Averaging Reference Date for such Affected Basket ETF Share.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day in for any ETF Share in the ETF Share Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

2.2 Consequences of Potential Adjustment Events

- (a) If the Issuer determines that a Potential Adjustment Event has occurred in respect of an ETF Share, the Issuer will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant ETF Shares and, if so, the Issuer will (i) make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Issuer determines appropriate to account for that diluting or concentrative effect and to preserve the original economic objective and rationale of the Securities (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant ETF Share), and (ii) determine the effective date(s) of the adjustment(s). The Issuer will, to the extent practicable, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant ETF Shares traded on such options exchange.
- (b) Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Potential Adjustment Event, provided that any failure to give such notice shall not affect the validity of the Potential Adjustment Event or any action taken.

2.3 Consequences of Extraordinary Events

If the Issuer determines that an Extraordinary Event has occurred in respect of an ETF Share (the "**Affected ETF Share**") then, on or after the relevant Merger Date, Tender Offer Date or Announcement Date, as the case may be, the Issuer may in its discretion (acting in good faith and in a commercially reasonable manner) either:

- (a)
 - (i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of such Extraordinary Event and to preserve the original economic objective and rationale of the Securities (which may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Affected ETF Share or to the Securities), which will, to the extent practicable, be determined by reference to the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the Affected ETF Share traded on such options exchange;
 - (ii) determine the effective date of that adjustment; and
 - (iii) upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Extraordinary Event, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or
- (b) if "Share Substitution" is specified as being applicable in the relevant Issue Terms, then the Issuer may, acting in good faith and in a commercially reasonable manner, select a new underlying ETF share (in respect of the relevant Extraordinary Event, the "**Replacement ETF Share**"), which Replacement ETF Share will be deemed to be an ETF Share in place of the Affected ETF Share (and the Fund relating to the Replacement ETF Share will replace the Fund relating to the Affected ETF Share). In selecting a Replacement ETF Share, the Issuer may, but is not obliged to, determine that such Replacement ETF Share will: (i) be selected from the same economic sector as the Affected ETF Share, (ii) have shares denominated in the same currency as the Affected ETF Share, (iii) have a similar market capitalisation to the Affected ETF Share, (iv) be listed on the same Exchange as the Affected ETF Share, and (v) be domiciled in the same country as the Affected ETF Share. In selecting the Replacement ETF Share, the Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such selection in accordance with its applicable regulatory obligations.

In selecting a Replacement ETF Share, the Issuer will, to the extent practicable, (A) ensure that the original economic objective and rationale of the Securities is preserved, and (B) take into account (1) the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the Affected ETF Share traded on such options exchange, and (2) any determinations made by the sponsor of an index which references the Affected ETF Share. The Issuer may make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of the Extraordinary Event, and/or the replacement of the Affected ETF Share by the Replacement ETF Share (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETF Shares or to the Securities) and to preserve the original economic objective and rationale of the Securities.

Upon making any such replacement and/or adjustment, the Issuer shall give notice as soon as practicable to the Securityholders giving details of the Extraordinary Event and information relating to the Replacement ETF Share, and/or stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or

- (c) if the Issuer determines that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant

Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day falling on or after the relevant Merger Date, Tender Offer Date or Announcement Date, as the case may be, as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

2.4 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, then the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETF Shares or to the Securities), and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

2.5 Reference Index Adjustments

In respect of an ETF Share, if a Reference Index is specified in the relevant Issue Terms, the following provisions shall apply:

- (a) If the Reference Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer, or (ii) replaced by a successor index using, in the determination of the Issuer, the same or substantially similar formula for, and method of, calculation as used in the calculation of that Reference Index, and, in each case, the relevant successor index is tracked by the Fund relating to such ETF Share, then in each case that successor index (the "**Successor Index**") shall be deemed to be the Reference Index.
- (b) If the Issuer determines in respect of the Reference Index that, on or prior any Reference Date, Averaging Reference Date, Observation Date or other relevant date, (i) the investment objective of the ETF Shares is changed such that it no longer tracks the performance of the Reference Index or no longer uses the same tracking methodology in place as of the Trade Date, or (ii) a relevant Index Sponsor announces that it will make a material change in then formula for or the method of calculating that Reference Index or in any other way materially modifies that Reference Index (other than a modification prescribed in that formula or method to maintain that Reference Index in the event of changes in constituent stock and capitalisation and other routine events), and the composition of the assets underlying the ETF Shares is not modified or adjusted by the Fund relating to such ETF Shares in line with such change or modification, and/or the

methodology used by the ETF Shares to track the performance of the Reference Index is not adjusted in line with such change or modification, then on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. Adjustment in respect of Jurisdictional Event

If the relevant Issue Terms specify in relation to an ETF Share that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. Correction of prices

In the event that any relevant price of an ETF Share published on the Exchange on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Exchange by the second Currency Business Day prior to the next date on which any relevant payment or delivery may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

2. **Disrupted Days and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single ETC and Reference Dates**

Where the Securities relate to a single ETC, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine its good faith estimate of the value for the ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the ETC Price in respect of the Reference Date.

(b) **Single ETC and Averaging Reference Dates**

Where the Securities relate to a single ETC, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Reference Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Issuer shall determine its good faith estimate of the value for the ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the ETC Price in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and

- (B) the Issuer shall determine its good faith estimate of the value for the ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
 - (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine its good faith estimate of the value for the ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **ETC Basket and Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to an ETC Basket, if the relevant Issue Terms specify that "ETC Basket and Reference Dates – Individual/Individual" or "ETC Basket and Reference Dates – Common/Individual" applies to the ETC Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any ETC in the ETC Basket, then such Reference Date for such ETC shall be the first succeeding Scheduled Trading Day for such ETC that the Issuer determines is not a Disrupted Day relating to that ETC, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such ETC equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day relating to that ETC. In that case:

- (i) the last consecutive Scheduled Trading Day for such ETC shall be deemed to be the Reference Date for such ETC, notwithstanding the fact that such day is a Disrupted Day for such ETC; and
- (ii) the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC, and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the ETC Price in respect of the Reference Date for such ETC.

(d) **ETC Basket and Reference Dates – Common/Common**

Where the Securities relate to an ETC Basket, if the relevant Issue Terms specify that "ETC Basket and Reference Dates – Common/Common" applies to the ETC Basket and any Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Disrupted Day for any ETC in the ETC Basket, then such Reference Date for each ETC in the ETC Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Reference Date which the Issuer determines is not a Disrupted Day for any ETC in the ETC Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to one or more ETCs in the ETC Basket. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for each ETC in the ETC Basket, notwithstanding the fact that such day is a

Disrupted Day for one or more ETCs in the ETC Basket (each such ETC being an **"Affected Basket ETC"** for such Reference Date);

- (ii) for each ETC in the ETC Basket other than an Affected Basket ETC, the relevant ETC Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
- (iii) for each Affected Basket ETC, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (iii) shall be deemed to be the ETC Price in respect of the Reference Date for such Affected Basket ETC.

(e) **ETC Basket and Averaging Reference Dates – Individual/Individual and Common/Individual**

Where the Securities relate to an ETC Basket, if the relevant Issue Terms specify that "ETC Basket and Averaging Reference Dates – Individual/Individual" or "ETC Basket and Averaging Reference Dates – Common/Individual" applies to the ETC Basket and any Averaging Reference Date and if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any ETC in the ETC Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each ETC in the ETC Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:
 - (A) for each ETC in the ETC Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such ETC shall be the final Scheduled Averaging Reference Date; and
 - (B) for each ETC in the ETC Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such ETC shall be the first succeeding Scheduled Trading Day for such ETC following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such ETC, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such ETC equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that ETC. In that case:
 - (1) that last consecutive Scheduled Trading Day for such ETC shall be deemed to be the sole Averaging Reference Date for such ETC, notwithstanding the fact that such day is a Disrupted Day for such ETC; and
 - (2) the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC, and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the ETC Price in respect of the sole Averaging Reference Date for such ETC;
- (ii) **"Postponement"**, then for each ETC in the ETC Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such ETC shall be the first succeeding Scheduled Trading Day for such ETC following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that ETC (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such ETC), unless the Issuer determines that each of

the consecutive Scheduled Trading Days for such ETC equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such ETC. In that case:

- (A) the last consecutive Scheduled Trading Day for such ETC shall be deemed to be the Averaging Reference Date for such ETC (irrespective of whether that last consecutive Scheduled Trading Day for such ETC is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such ETC); and
 - (B) the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date for such ETC; or
- (iii) **"Modified Postponement"**, then for each ETC in the ETC Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such ETC shall be the first succeeding Valid Date relating to that ETC. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such ETC equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such ETC shall be deemed to be the Averaging Reference Date for such ETC (irrespective of whether that last consecutive Scheduled Trading Day for such ETC is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such ETC); and
 - (B) the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC, and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date for such ETC.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any ETC in the ETC Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(f) **ETC Basket and Averaging Reference Dates – Common/Common**

Where the Securities relate to an ETC Basket, if the relevant Issue Terms specify that "ETC Basket and Averaging Reference Dates – Common/Common" applies to the ETC Basket and an Averaging Reference Date, then if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Disrupted Day in respect of any ETC in the ETC Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each ETC in the ETC Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then the sole Averaging Reference Date for each ETC in the ETC Basket shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day for any ETC in the ETC Basket, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to one or more ETCs in the ETC Basket. In that case:
 - (A) that last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date for each ETC in the ETC Basket, notwithstanding the fact that such day is a Disrupted Day for one or more

- ETCs in the ETC Basket (each such ETC being an "**Affected Basket ETC**" for such sole Averaging Reference Date);
- (B) for each ETC in the ETC Basket other than an Affected Basket ETC, the relevant ETC Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETC, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the ETC Price in respect of the sole Averaging Reference Date for such Affected Basket ETC;
- (ii) "**Postponement**", then the Averaging Reference Date for each ETC in the ETC Basket shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date which the Issuer determines is not a Disrupted Day for any ETC in the ETC Basket (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to one or more ETCs in the ETC Basket. In that case:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each ETC in the ETC Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETCs in the ETC Basket (each such ETC being an "**Affected Basket ETC**" for such Averaging Reference Date);
 - (B) for each ETC in the ETC Basket other than an Affected Basket ETC, the relevant ETC Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETC, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date for such Affected Basket ETC; or
- (iii) "**Modified Postponement**", then the Averaging Reference Date for each ETC in the ETC Basket shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each ETC in the ETC Basket, notwithstanding the fact that such day is a Disrupted Day for one or more ETCs in the ETC Basket (each such ETC being an "**Affected Basket ETC**" for such Averaging Reference Date);
 - (B) for each ETC in the ETC Basket other than an Affected Basket ETC, the relevant ETC Price shall be determined as provided in Asset Term 1 by the Issuer at the applicable Valuation Time on such last consecutive Scheduled Trading Day; and
 - (C) for each Affected Basket ETC, the Issuer shall determine its good faith estimate of the value for such Affected Basket ETC as of the Valuation Time on that last consecutive Scheduled Trading Day, and such determination by

the Issuer pursuant to this paragraph (C) shall be deemed to be the ETC Price in respect of the relevant Averaging Reference Date for such Affected Basket ETC.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day in for any ETC in the ETC Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

2.2 Consequences of Potential Adjustment Events

- (a) If the Issuer determines that a Potential Adjustment Event has occurred in respect of an ETC, the Issuer will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant ETC and, if so, the Issuer will (i) make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Issuer determines appropriate to account for that diluting or concentrative effect and to preserve the original economic objective and rationale of the Securities (provided that no adjustments will be made to account solely for changes in volatility or liquidity relative to the ETC), and (ii) determine the effective date(s) of the adjustment(s). The Issuer will, to the extent practicable, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the ETC (if any) and/or the Reference Commodity traded on such options exchange.
- (b) Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Potential Adjustment Event, provided that any failure to give such notice shall not affect the validity of the Potential Adjustment Event or any action taken.

2.3 Consequences of Extraordinary Events

If the Issuer determines that an Extraordinary Event has occurred in respect of an ETC (the "Affected ETC") then, on or after the Announcement Date (if applicable), the Issuer may in its discretion (acting in good faith and in a commercially reasonable manner) either:

- (a)
 - (i) make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of such Extraordinary Event and to preserve the original economic objective and rationale of the Securities (which may include, without limitation, adjustments to account for changes in volatility or liquidity relevant to the Affected ETC or to the Securities), which will, to the extent practicable, be determined by reference to the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the Affected ETC (if any) and/or the Reference Commodity traded on such options exchange;
 - (ii) determine the effective date of that adjustment; and
 - (iii) upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Extraordinary Event, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or
- (b) if "ETC Substitution" is specified as being applicable in the relevant Issue Terms, then the Issuer may, acting in good faith and in a commercially reasonable manner, select a new exchange traded commodity security (in respect of the relevant Extraordinary Event, the "**Replacement ETC**"), which Replacement ETC will be deemed to be an ETC in place of the Affected ETC (and the issuer of the Replacement ETC will replace the ETC Issuer of the Affected ETC). In selecting a Replacement ETC, the Issuer may, but is not obliged to, determine that such Replacement ETC will: (i) relate to the same Reference Commodity, (ii) be denominated in the same currency as the Affected ETC, (iii) be listed on the same Exchange as the Affected ETC, and (iv) be domiciled in the same country as the Affected ETC. In selecting the Replacement ETC, the

Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such selection in accordance with its applicable regulatory obligations.

In selecting a Replacement ETC, the Issuer will, to the extent practicable, (A) ensure that the original economic objective and rationale of the Securities is preserved, and (B) take into account the adjustment(s) made in respect of such Extraordinary Event by an options exchange to options on the ETC (if any) and/or the Reference Commodity traded on such options exchange. The Issuer may make such adjustment to the exercise, settlement, payment or any other terms of the Securities as the Issuer determines appropriate to account for the economic effect on the Securities of the Extraordinary Event and/or the replacement of the Affected ETC by the Replacement ETC (including adjustments to account for changes in volatility or liquidity relevant to the Affected ETC, the ETC or to the Securities) and to preserve the original economic objective and rationale of the Securities.

Upon making any such replacement and/or adjustment, the Issuer shall give notice as soon as practicable to the Securityholders giving details of the Extraordinary Event and information relating to the Replacement ETC, and/or stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms, provided that any failure to give such notice shall not affect the validity of the Extraordinary Event or any action taken; or

- (c) if the Issuer determines that no replacement or adjustment to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day falling on or after the relevant Announcement Date (if any) or, if none, the occurrence of the relevant event, as the case may be, as selected by the Issuer in its discretion or (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

2.4 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, then the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities (including adjustments to account for changes in volatility or liquidity relevant to the ETC or to the Securities), and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion or (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on

account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. **Correction of prices**

In the event that any relevant price of an ETC published on the relevant Exchange on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by such Exchange by the second Currency Business Day prior to the next date on which any relevant payment may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

2. Adjustments and Determinations

2.1 Consequences of Market Disruption Events and Administrator/Benchmark Event

- (a) If the Issuer determines that a Market Disruption Event has occurred or is continuing on any Rate Calculation Date for an FX Rate, such FX Rate in respect of such Rate Calculation Date shall be determined in accordance with the terms of the first applicable Disruption Fallback. The relevant Issue Terms may provide that one or more Disruption Fallbacks may apply to any Rate Calculation Date for an FX Rate and that such applicable Disruption Fallbacks may apply concurrently or sequentially.
- (b) If the Issuer determines in respect of a Relevant Benchmark that, on or prior to any Rate Calculation Date or other relevant date, an Administrator/Benchmark Event has occurred in respect of such Relevant Benchmark:
 - (i) the Administrator/Benchmark Event Disruption Fallbacks specified in the relevant Issue Terms with respect to Administrator/Benchmark Event will apply in the order specified in the relevant Issue Terms, or if no Administrator/Benchmark Event Disruption Fallback is so specified, the Disruption Fallbacks specified in the relevant Issue Terms shall be deemed to apply in accordance with Asset Term 2.1(a), provided that if such Relevant Benchmark is not a FX Rate, then each reference to "FX Rate"

in the applicable Disruption Fallbacks and related definitions and provisions of these Asset Terms shall be deemed to be a reference to "Relevant Benchmark". The relevant Issue Terms may provide that one or more Administrator/Benchmark Event Disruption Fallbacks may apply to any Rate Calculation Date or other relevant date for an FX Rate and that such applicable Administrator/Benchmark Event Disruption Fallbacks may apply concurrently or sequentially;

- (ii) if it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements, for the Issuer or the Calculation Agent to perform the actions prescribed in an applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), the next applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be, will apply;
 - (iii) if the Issuer determines that the last applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be, does not provide a FX Rate (including due to the applicability of paragraph (ii) above in relation to the last applicable Administrator/Benchmark Event Disruption Fallback or Disruption Fallback, as the case may be), then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date; and
 - (iv) if there is more than one FX Rate specified, then the foregoing provisions of this Asset Term 2.1(b) shall apply separately to each such FX Rate.
- (c) If an Administrator/Benchmark Event Date has occurred and one or more Market Disruption Events applicable to the Securities has also occurred and is continuing on any Rate Calculation Date or other relevant date, then the Administrator/Benchmark Event Disruption Fallbacks must be applied (in the order specified in the relevant Issue Terms) until the Administrator/Benchmark Event is remedied and/or an FX Rate is determined, before the Disruption Fallbacks shall be applied.

2.2 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (if specified as being applicable in the relevant Issue Terms) has occurred, then the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities in order to preserve the original economic terms and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General

Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. **Adjustment in respect of Jurisdictional Event**

If the relevant Issue Terms specify in relation to a currency that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

(b) Notwithstanding paragraph (a) above, in any case where an FX Rate is based on information published or announced by any governmental authority in a relevant country, such FX rate will be subject to the corrections, if any, to that information subsequently published or announced by that source within five days of the relevant Rate Calculation Date, unless the Issuer determines in its discretion, acting in good faith and in a commercially reasonable manner, that it is not practicable to take into account such correction.

2. **Disrupted Days, Index Adjustment Events and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single FX Index and Reference Dates**

Where the Securities relate to a single FX Index, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine the FX Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and

such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the FX Index Level in respect of the Reference Date.

(b) **Single FX Index and Averaging Reference Dates**

Where the Securities relate to a single FX Index, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:
- (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (B) the Issuer shall determine the FX Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the FX Index Level in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
- (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the FX Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
- (B) the Issuer shall determine the FX Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the FX Index Level in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the FX Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and

- (B) the Issuer shall determine the FX Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the FX Index Level in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **FX Index Basket and Reference Dates**

Where the Securities relate to an FX Index Basket, if the Issuer determines that the Scheduled Reference Date relating to a Reference Date is a Disrupted Day for any FX Index in the FX Index Basket, then such Reference Date for such FX Index shall be the first succeeding Scheduled Trading Day for such FX Index that the Issuer determines is not a Disrupted Day relating to that FX Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such FX Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to that FX Index. In that case:

- (i) the last consecutive Scheduled Trading Day for such FX Index shall be deemed to be the Reference Date for such FX Index, notwithstanding the fact that such day is a Disrupted Day for such FX Index; and
- (ii) the Issuer shall determine the FX Index Level for such FX Index on or in respect of that last consecutive Scheduled Trading Day for such FX Index in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the FX Index Level in respect of the Reference Date for such FX Index.

(d) **FX Index Basket and Averaging Reference Dates**

- (i) "**Omission**", then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each FX Index in the FX Index Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:
 - (A) for each FX Index in the FX Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such FX Index shall be the final Scheduled Averaging Reference Date; and
 - (B) for each FX Index in the FX Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such FX Index shall be the first succeeding Scheduled Trading Day for such FX Index following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such FX Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such FX Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that FX Index. In that case:

- (1) that last consecutive Scheduled Trading Day for such FX Index shall be deemed to be the sole Averaging Reference Date for such FX Index, notwithstanding the fact that such day is a Disrupted Day for such FX Index; and
 - (2) the Issuer shall determine the FX Index Level for such FX Index on or in respect of that last consecutive Scheduled Trading Day for such FX Index in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the FX Index Level in respect of the sole Averaging Reference Date for such FX Index;
- (ii) **"Postponement"**, then for each FX Index in the FX Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such FX Index shall be the first succeeding Scheduled Trading Day for such FX Index following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that FX Index (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such FX Index), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such FX Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such FX Index. In that case:
- (A) the last consecutive Scheduled Trading Day for such FX Index shall be deemed to be the Averaging Reference Date for such FX Index (irrespective of whether that last consecutive Scheduled Trading Day for such FX Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such FX Index); and
 - (B) the Issuer shall determine the FX Index Level for such FX Index on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the FX Index Level in respect of the relevant Averaging Reference Date for such FX Index; or
- (iii) **"Modified Postponement"**, then for each FX Index in the FX Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such FX Index shall be the first succeeding Valid Date relating to that FX Index. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such FX Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such FX Index shall be deemed to be the Averaging Reference Date for such FX Index (irrespective of whether that last consecutive Scheduled Trading Day for such FX Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such FX Index); and
 - (B) the Issuer shall determine the FX Index Level for such FX Index on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the FX Index Level in respect of the relevant Averaging Reference Date for such FX Index.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any FX Index in the FX Index Basket and, if in the relevant Issue Terms no consequence

is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(e) **Formula for and method of calculating an FX Index Level after the Maximum Days of Disruption**

In respect of an FX Index, the Issuer shall determine the FX Index Level on or in respect of the relevant last consecutive Scheduled Trading Day, pursuant to Asset Term 2.1(a)(ii), 2.1(b)(i)(B), 2.1(b)(ii)(B), 2.1(b)(iii)(B), 2.1(c)(ii), 2.1(d)(i)(B)(2), 2.1(d)(ii)(B) or 2.1(d)(iii)(B), as the case may be, in accordance with the formula for and method of calculating such FX Index last in effect prior to the occurrence of the relevant first Disrupted Day, using such levels or values as the Issuer determines to be appropriate as of the Valuation Time on or in respect of that last consecutive Scheduled Trading Day of each Component included in such FX Index.

2.2 **Index Adjustment Events**

(a) **Successor Sponsor or Successor Index**

If an FX Index is (i) not calculated and announced by the Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer (a "**Successor Sponsor**"), or (ii) replaced by a successor index using, in the determination of the Issuer, the same or a substantially similar formula for, and method of, calculation as used in the calculation of such FX Index, then in each case such index (the "**Successor Index**") will be deemed to be the FX Index.

The Issuer may make such adjustment(s) that it deems appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for such Successor Index and to preserve the original economic objective and rationale of the Securities (provided that, if the relevant Issue Terms specify that "Institutional" is not applicable, no adjustment shall be made to the terms of the Securities to take into account any increase in the costs incurred by the Issuer and/or its affiliates by reason of its Hedging Arrangements).

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Successor Index, provided that any failure to give such notice shall not affect the validity of any action taken.

(b) **Index Cancellation or Administrator/Benchmark Event**

If the Issuer determines in respect of an FX Index that, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Index Cancellation or an Administrator/Benchmark Event has occurred in respect of such FX Index, then:

- (i) if the relevant Issue Terms specify an Alternative Pre-nominated FX Index in respect of such FX Index, then:
 - (A) the Issuer shall attempt to determine an Adjustment Payment;
 - (B) if the Issuer determines an Adjustment Payment:
 - (1) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "FX Index" shall be replaced by a reference to "Alternative Pre-nominated FX Index"; and
 - (2) the Issuer shall, without the consent of the Securityholders, adjust the Conditions to take into account the Adjustment Payment as follows:
 - (aa) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, adjust the

Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date, Settlement Date or any date on which any amount may be due and payable, as relevant;

- (bb) if the Adjustment Payment is an amount that the Securityholder would (but for this paragraph (bb)) be required to pay to the Issuer in respect of each Security, adjust the Conditions to provide for the reduction of the amounts due by the Issuer in respect of each Security until the aggregate amount of such reductions is equal to the Adjustment Payment, provided that if (x) the relevant Issue Terms specify that "Institutional" is not applicable and (y) where the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such adjustment may not reduce the minimum amount payable or any Instalment Amounts payable to the Securityholders; and
 - (cc) make such other adjustments (the "**Replacement FX Index Amendments**") to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of such FX Index with the relevant Alternative Pre-nominated FX Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of such FX Index with the relevant Alternative Pre-nominated FX Index; and
- (3) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with the General Conditions specifying the Adjustment Payment and the specific terms of any Replacement FX Index Amendments and such notice shall be irrevocable. Any Adjustment Payment and Replacement FX Index Amendments will be binding on the Issuer, the Agents and the Securityholders; and
- (C) if the Issuer is unable to determine an Adjustment Payment, then Asset Term 2.2(c) shall apply; or
- (ii) if the relevant Issue Terms do not specify an Alternative Pre-nominated FX Index in respect of such FX Index, then Asset Term 2.2(c) shall apply.

(c) **Occurrence of an Index Adjustment Event**

If the Issuer determines, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Index Adjustment Event has occurred in respect of an FX Index, or an Administrator/Benchmark Event has occurred in respect of any Component of such FX Index, then the Issuer shall determine if such Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, **provided always that** in the case of an Index Adjustment Event that is an Index Cancellation or an Administrator/Benchmark Event in respect of such FX Index, this Asset Term 2.2(c) shall apply only in the circumstances where Asset Term 2.2(b) specifies that this Asset Term 2.2(c) shall apply. In making such determination, the Issuer may, in the case of an Administrator/Benchmark Event, take into account whether the performance of the Issuer's obligations under such Securities is or may become unlawful under any applicable law or regulation. If the Issuer determines that such Index Adjustment Event or Administrator/Benchmark Event has a material effect on the Securities, the Issuer shall calculate the relevant FX Index Level using, in lieu of a published level for such FX Index, the level for such FX Index as at the Valuation Time on that Reference Date, Averaging Reference Date, Observation Date or other relevant date, as the case may be, as determined by the Issuer in accordance with the formula for, and method of, calculating such FX Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised such FX Index immediately prior to such Index Adjustment Event. Then, if the Issuer determines, in its discretion, that either:

- (i) the above adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders; or
- (ii) it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements for the Issuer to perform the calculations prescribed in this Asset Term 2.2(c) (or it would be unlawful or would contravene those licensing requirements were a calculation to be made at such time),

the Issuer may select another index or basket of indices (the "**Alternative Post-nominated FX Index**"), as applicable, determined by the Issuer to be comparable to such FX Index to replace such FX Index and may determine an Adjustment Payment. If the Issuer determines an Adjustment Payment, the provisions of Asset Term 2.2(b)(i)(B) shall apply except that each reference to "Alternative Pre-nominated FX Index" shall be construed as a reference to "Alternative Post-nominated FX Index", provided that if (i) the Issuer is unable to select an Alternative Post-nominated FX Index or determine an Adjustment Payment, or (ii) the Issuer is able to select an Alternative Post-nominated FX Index and determine an Adjustment Payment, but the Issuer determines, in its discretion, that adjustment to the terms of the Securities in connection with such selection and determination would not achieve a commercially reasonable result for either the Issuer or the Securityholders, then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Index Adjustment Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute an Index Adjustment Event, the Issuer will consider such notice, but will not be obliged to determine that an Index Adjustment Event has occurred solely as a result of receipt of such notice.

2.3 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. Adjustment in respect of Jurisdictional Event

If the relevant Issue Terms specify in relation to an FX Index that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. Correction of FX Index Levels

In the event that any relevant level of an FX Index published by the Sponsor on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Sponsor by the second Currency Business Day prior to the next date on which any relevant payment may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

5. **Responsibility**

Neither the Issuer nor the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of an FX Index by the relevant Sponsor, whether caused by negligence or otherwise.

INFLATION INDEX-LINKED SECURITIES

Application: the following terms shall apply to Securities if stated in the relevant Issue Terms to be "Inflation Index-linked".

1. Definitions

"Daily Inflation Rate" means, in respect of an Inflation Index, the daily interpolated level of such Inflation Index for the relevant End Date, as determined by the Issuer in accordance with the following formula:

$$\text{MIL}(t) + [\text{MIL}(t1) - \text{MIL}(t)] \times (D - 1)/N$$

Where:

"D" is the calendar day on which the relevant End Date occurs;

"End Date" means, in respect of an Inflation Index, the scheduled Maturity Date or the Settlement Date (unless otherwise specified in the relevant Issue Terms);

"MIL(t)" means the level of such Inflation Index for the Reference Month that is the number of months immediately preceding the relevant End Date as defined under Primary Lag;

"MIL(t1)" means the level of such Inflation Index for the Reference Month that is the number of months immediately preceding the relevant End Date as defined under Secondary Lag;

"N" is the total number of calendar days of the month in which the relevant End Date occurs (for example, 31 for March, 30 for April);

"Primary Lag" means, the number of months so specified in the relevant Issue Terms, or if not so specified, three months; and

"Secondary Lag" means, the number of months so specified in the relevant Issue Terms, or if not so specified, two months.

"Electronic Page" means, in respect of an Inflation Index, the electronic page or source specified for such Inflation Index in the relevant Issue Terms, or either (a) any successor electronic page or source or information vendor or provider that has been designated by the sponsor of the original electronic page or source; or (b) if such sponsor has not officially designated a successor electronic page or source or information vendor or provider, the successor electronic page or source or information vendor or provider designated by the relevant information vendor or provider (if different from such sponsor) or any alternative electronic page or source designated by the Issuer provided that if, in the case of (a) and (b), the Issuer determines that it is not necessary or appropriate for the Electronic Page to be any such successor electronic page or source or information vendor or provider, then the Electronic Page may be either the originally designated electronic page or source or such other electronic page or source as selected by the Issuer. Where more than one Electronic Page is specified, then the provisions of the preceding sentence shall be construed accordingly and (i) if there is any discrepancy between any relevant price or level displayed on the relevant Electronic Pages for any day, the relevant level selected by the Issuer shall be used for such day; and (ii) if any relevant price or level is not published on all of such Electronic Pages but is published on one or more of such Electronic Pages, the Issuer shall use such published price or level for the purpose of determining any calculation or determination in respect of the Securities (and Asset Term 2 shall be deemed not to apply in respect of the failure to publish on the other Electronic Page(s)).

"Fallback Bond" means, in respect of an Inflation Index, a bond selected by the Issuer and issued by the government of the country to whose level of inflation such Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the same day as the End Date, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Issuer. If such Inflation Index relates to the level of inflation across the European Monetary Union, the Issuer will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Issuer will select the Fallback Bond from those inflation-

linked bonds issued on or before the Issue Date and, if there are two or more inflation-linked bonds maturing on the same date, the Fallback Bond shall be selected by the Issuer from those bonds. If the Fallback Bond redeems the Issuer will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"General Conditions" means the General Note Conditions, the General Certificate Conditions or the General Warrant Conditions, as applicable.

"Inflation Index" means, subject as provided in Asset Term 2, the Inflation Index (or, if more than one, each Inflation Index) specified in the relevant Issue Terms.

"Inflation Index Level" means, for a Reference Month, the level of the Inflation Index first published or announced for such Reference Month by the Sponsor (if specified to be applicable in the relevant Issue Terms) on the Electronic Page, subject to Asset Term 2.

"Payment Date" means any date on which a payment is due and payable pursuant to the terms of the Securities.

"Reference Month" means the calendar month for which the level of the Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index Level was reported is a period other than a month, the Reference Month is the period for which the Inflation Index Level was reported.

"Related Bond" means, in respect of an Inflation Index, the bond so specified in the relevant Issue Terms, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination, the Issuer shall use the Fallback Bond. If no bond is specified as the Related Bond and "Fallback Bond: Not Applicable" is specified in the relevant Issue Terms, there will be no Related Bond. If a bond is selected as the Related Bond in the relevant Issue Terms, and that bond redeems or matures before the End Date, unless "Fallback Bond: Not Applicable" is specified in the relevant Issue Terms, the Issuer shall use the Fallback Bond for any Related Bond determination.

"Sponsor" means, in respect of an Inflation Index, (a) the entity specified as such in the relevant Issue Terms; or (b) if no entity is specified as such in the relevant Issue Terms, the entity as determined by the Issuer that (i) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such Inflation Index, and (ii) publishes or announces (directly or through an agent) the level of such Inflation Index failing whom such person acceptable to the Issuer who calculates and announces the Inflation Index or any agent or person acting on behalf of such person, in each case including any successor to such entity.

2. Index Delay and Disruption Events of the Inflation Index

(a) Delay of Publication

If the Inflation Index Level for a Reference Month which is relevant to the calculation of a payment under the Securities (a "Relevant Level") is not published or announced by the day that is five Currency Business Days prior to the next following Payment Date under the Securities, the Issuer will determine a **"Substitute Index Level"** (in place of such Relevant Level) by using the following methodology:

- (i) if applicable, the Issuer shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Related Bond;
- (ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Issuer shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

Where:

"Base Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"Latest Level" means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Sponsor prior to the month in respect of which the Substitute Index Level is being calculated; and

"Reference Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Sponsor prior to the month that is 12 calendar months prior to the month referred to in "Latest Level" above.

If a Relevant Level is published or announced at any time after the day that is five Currency Business Days prior to the next following Payment Date under the Securities, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this paragraph (a) will be the definitive level for that Reference Month.

(b) **Cessation of Publication**

If a level for the Inflation Index has not been published or announced for two consecutive months or the Sponsor announces that it will no longer continue to publish or announce the Inflation Index, then the Issuer will determine a **"Successor Index"** (in lieu of any previously applicable index) for the purposes of the Securities by using the following methodology:

- (i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Securities, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;
- (ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Sponsor, and the Issuer determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect;
- (iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Issuer shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Issuer will proceed to paragraph (iv) hereof;
- (iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Currency Business Day prior to the next following Payment Date under the Securities, the Issuer will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index". The Issuer may make such adjustment(s) that it deems appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for such Successor Index and to preserve the original economic objective and rationale of the Securities (provided that, if the relevant Issue Terms specify that "Institutional" is not applicable, no adjustment shall be made to the terms of the Securities to take into

account any increase in the costs incurred by the Issuer and/or its affiliates by reason of its Hedging Arrangements). Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Successor Index, provided that any failure to give such notice shall not affect the validity of any action taken; or

- (v) if the Issuer determines, in its discretion, that no alternative index is appropriate, having given notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

(c) **Rebasing of the Inflation Index**

If the Issuer determines that the Inflation Index has been or will be rebased at any time, the Inflation Index so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing, provided however that the Issuer shall make such adjustments as are made by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Issuer shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

(d) **Material Modification**

If, on or prior to the day that is five Currency Business Days prior to the next following Payment Date under the Securities, the Sponsor announces that it will make a material change to the Inflation Index, then the Issuer, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Securities necessary for the modified Inflation Index to continue as the Inflation Index.

(e) **Manifest Error in Publication**

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Currency Business Days prior to the next following Payment Date under the Securities, the Issuer determines that the Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

INTEREST RATE INDEX-LINKED SECURITIES

Application: the following terms shall apply to Securities if stated in the relevant Issue Terms to be "Interest Rate Index-linked".

1. Definitions

"Additional Disruption Event" means a Change in Law, a Hedging Disruption and/or an Increased Cost of Hedging, as specified to be applicable in the relevant Issue Terms.

"Adjustment Payment" means, in respect of each Security and an Interest Rate Index, the payment, if any, that the Issuer determines, acting in good faith and in a commercially reasonable manner, is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the Interest Rate Index with the relevant Alternative Pre-nominated Interest Rate Index or the relevant Alternative Post-nominated Interest Rate Index, as applicable.

"Administrator/Benchmark Event" means the occurrence of:

- (a) a Non-Approval Event;
- (b) a Rejection Event; or

in each case being treated as having occurred on the Administrator/Benchmark Event Date.

"Administrator/Benchmark Event Date" means, in respect of an Interest Rate Index, the date determined by the Issuer to be:

- (a) in respect of a Non-Approval Event, the date on which the relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement is required under any applicable law or regulation for the continued use of such Interest Rate Index by either the Issuer or the Calculation Agent to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date;
- (b) in respect of a Rejection Event, the date on which following the rejection or refusal of the relevant application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Interest Rate Index to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date; and
- (c) in respect of a Suspension/Withdrawal Event, the date on which following (i) the suspension or withdrawal by the relevant competent authority or other relevant official body of the authorisation, registration, recognition, endorsement, equivalence decision or approval, or (ii) the date on which such an Interest Rate Index or the administrator or sponsor of such an Interest Rate Index is removed from the official register, as applicable, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Interest Rate Index to perform its or their respective obligations under the Securities or, in each case, if such date occurs before the Issue Date, the Issue Date.

"Alternative Pre-nominated Interest Rate Index" means, in respect of an Interest Rate Index, the first of the indices, benchmarks or other price sources specified as such in the relevant Issue Terms and not subject to an Index Adjustment Event.

"Averaging Date" means subject as provided in Asset Term 2, each date so specified in the relevant Issue Terms, or if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day.

"Averaging Reference Date" means each Initial Averaging Date or Averaging Date, in each case, subject to adjustment in accordance with these Asset Terms.

"Change in Law" means that, on or after the Trade Date of the relevant Securities, (a) due to the adoption of or any change in any applicable law (including, without limitation, any tax law), rule, regulation or order, any regulatory or tax authority ruling, regulation or order or any regulation, rule or procedure of any exchange (an **"Applicable Regulation"**), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (i) it has or will become illegal or contrary to any Applicable Regulation for it, any of its affiliates or any entities which are relevant to the Hedging Arrangements to trade, enter into, terminate, close out or hedge any Component Transaction relating to such Securities, or (ii) it will incur a materially increased cost in performing its obligations under such Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) or any requirements in relation to reserves, special deposits, insurance assessments or other requirements, or (iii) it, any of its affiliates or any entities which are relevant to the Hedging Arrangements will be subject to materially increased regulatory capital requirements in respect of the Securities or such Hedging Arrangements.

"Component Transactions" means, in respect of any Interest Rate Index, any underlying interest rate swap transactions.

"Disrupted Day" means, in respect of an Interest Rate Index, any Scheduled Trading Day on which (a) the Sponsor fails to publish the level of the Interest Rate Index (provided that the Issuer may, in its discretion, determine that such event instead results in the occurrence of an Index Disruption), or (b) a Market Disruption Event occurs or is continuing.

"General Conditions" means the General Note Conditions, the General Certificate Conditions or the General Warrant Conditions, as applicable.

"Hedge Proceeds" means the cash amount in euro and/or U.S. dollars and/or the Settlement Currency constituting the proceeds received by the Issuer and/or its affiliates in respect of any Hedging Arrangements; for the avoidance of doubt, Hedge Proceeds shall not be less than zero.

in each case, with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use such Interest Rate Index to perform its or their respective obligations under the Securities, provided that a Non-Approval Event shall not occur if such an Interest Rate Index or such Component, as the case may be, or the administrator or sponsor of such an Interest Rate Index is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended if, at the time of such suspension, the continued provision and use of such an Interest Rate Index is permitted in respect of the Securities under the applicable law or regulation.

2. **Disrupted Days, Index Adjustment Events and Other Adjustments**

2.1 **Consequences of Disrupted Days**

(a) **Single Interest Rate Index and Reference Dates**

Where the Securities relate to a single Interest Rate Index, if the Issuer determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the first succeeding Scheduled Trading Day that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Scheduled Reference Date is a Disrupted Day. In that case:

- (i) the last consecutive Scheduled Trading Day shall be deemed to be the Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
- (ii) the Issuer shall determine the Interest Rate Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Interest Rate Index Level in respect of the Reference Date.

(b) **Single Interest Rate Index and Averaging Reference Dates**

Where the Securities relate to a single Interest Rate Index, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Date is a Disrupted Day and, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (i) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Dates then the sole Averaging

Reference Date shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day. In that case:

- (A) the last consecutive Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (B) the Issuer shall determine the Interest Rate Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Interest Rate Index Level in respect of the sole Averaging Reference Date;
- (ii) **"Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day. In that case:
- (A) the last consecutive Scheduled Trading Day shall be deemed to be the relevant Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the Interest Rate Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine the Interest Rate Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Interest Rate Index Level in respect of the relevant Averaging Reference Date; or
- (iii) **"Modified Postponement"**, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the last consecutive Scheduled Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) the last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date (irrespective of whether that last consecutive Scheduled Trading Day in respect of the Interest Rate Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day); and
 - (B) the Issuer shall determine the Interest Rate Index Level on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Interest Rate Index Level in respect of the relevant Averaging Reference Date.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(c) **Interest Rate Index Basket and Reference Dates**

Where the Securities relate to an Interest Rate Index Basket, if the Issuer determines that the Scheduled Reference Date relating to a Reference Date is a Disrupted Day for any Interest Rate Index in the Interest Rate Index Basket, then such Reference Date for such Interest Rate Index shall be the first succeeding Scheduled Trading Day for such Interest Rate Index that the Issuer determines is not a Disrupted Day relating to that Interest Rate Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Interest Rate Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to that Interest Rate Index. In that case:

- (i) the last consecutive Scheduled Trading Day for such Interest Rate Index shall be deemed to be the Reference Date for such Interest Rate Index, notwithstanding the fact that such day is a Disrupted Day for such Interest Rate Index; and
- (ii) the Issuer shall determine the Interest Rate Index Level for such Interest Rate Index on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Interest Rate Index Level in respect of the Reference Date for such Interest Rate Index.

(d) **Interest Rate Index Basket and Averaging Reference Dates**

Where the Securities relate to an Interest Rate Index Basket, if the Issuer determines that the Scheduled Averaging Reference Date relating to an Averaging Reference Date is a Disrupted Day in respect of any Interest Rate Index in the Interest Rate Index Basket and if, in the relevant Issue Terms, the consequence specified is:

- (i) "**Omission**", then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Interest Rate Index in the Interest Rate Index Basket, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:
 - (A) for each Interest Rate Index in the Interest Rate Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such Interest Rate Index shall be the final Scheduled Averaging Reference Date; and
 - (B) for each Interest Rate Index in the Interest Rate Index Basket for which the Issuer determines that the final Scheduled Averaging Reference Date is a Disrupted Day, then the sole Averaging Reference Date for such Interest Rate Index shall be the first succeeding Scheduled Trading Day for such Interest Rate Index following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such Interest Rate Index, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Interest Rate Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to that Interest Rate Index. In that case:
 - (1) that last consecutive Scheduled Trading Day for such Interest Rate Index shall be deemed to be the sole Averaging Reference Date for such Interest Rate Index, notwithstanding the fact that such day is a Disrupted Day for such Interest Rate Index; and
 - (2) the Issuer shall determine the Interest Rate Index Level for such Interest Rate Index on or in respect of that last consecutive Scheduled Trading Day for such Interest Rate Index in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the Interest Rate Index Level in respect

of the sole Averaging Reference Date for such Interest Rate Index;

- (ii) **"Postponement"**, then for each Interest Rate Index in the Interest Rate Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Interest Rate Index shall be the first succeeding Scheduled Trading Day for such Interest Rate Index following such Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to that Interest Rate Index (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such Interest Rate Index), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Interest Rate Index equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such Interest Rate Index. In that case:
- (A) the last consecutive Scheduled Trading Day for such Interest Rate Index shall be deemed to be the Averaging Reference Date for such Interest Rate Index (irrespective of whether that last consecutive Scheduled Trading Day for such Interest Rate Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Interest Rate Index); and
 - (B) the Issuer shall determine the Interest Rate Index Level for such Interest Rate Index on or in respect of that last consecutive Scheduled Trading Day for such Interest Rate Index in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Interest Rate Index Level in respect of the relevant Averaging Reference Date for such Interest Rate Index; or
- (iii) **"Modified Postponement"**, then for each Interest Rate Index in the Interest Rate Index Basket for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Interest Rate Index shall be the first succeeding Valid Date relating to that Interest Rate Index. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Scheduled Trading Day for such Interest Rate Index equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (A) that last consecutive Scheduled Trading Day for such Interest Rate Index shall be deemed to be the Averaging Reference Date for such Interest Rate Index (irrespective of whether that last consecutive Scheduled Trading Day for such Interest Rate Index is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Interest Rate Index); and
 - (B) the Issuer shall determine the Interest Rate Index Level for such Interest Rate Index on or in respect of that last consecutive Scheduled Trading Day in accordance with Asset Term 2.1(e) (*Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption*), and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Interest Rate Index Level in respect of the relevant Averaging Reference Date for such Interest Rate Index.

If the Issuer determines that any Averaging Reference Date is a Disrupted Day for any Interest Rate Index in the Interest Rate Index Basket and, if in the relevant Issue Terms no consequence is specified in respect of such Averaging Reference Date, then it shall be deemed that the consequence specified in "Modified Postponement" will apply.

(e) **Formula for and method of calculating an Interest Rate Index Level after the Maximum Days of Disruption**

In respect of an Interest Rate Index, the Issuer shall determine the Interest Rate Index Level on or in respect of the relevant last consecutive Scheduled Trading Day, pursuant to Asset Term 2.1(a)(ii), 2.1(b)(i)(B), 2.1(b)(ii)(B), 2.1(b)(iii)(B), 2.1(c)(ii), 2.1(d)(i)(B)(2), 2.1(d)(ii)(B) or 2.1(d)(iii)(B), as the case may be, in accordance with the formula for and method of calculating such Interest Rate Index last in effect prior to the occurrence of the relevant first Disrupted Day, using such levels or values as the Issuer determines to be appropriate as of the Valuation Time on or in respect of that last consecutive Scheduled Trading Day of each Component included in such Interest Rate Index.

2.2 **Index Adjustment Events**(a) **Successor Sponsor or Successor Index**

If an Interest Rate Index is (i) not calculated and announced by the Sponsor but is calculated and announced by a successor sponsor acceptable to the Issuer (a "**Successor Sponsor**"), or (ii) replaced by a successor index using, in the determination of the Issuer, the same or a substantially similar formula for, and method of, calculation as used in the calculation of such Interest Rate Index, then in each case such index (the "**Successor Index**") will be deemed to be the Interest Rate Index.

The Issuer may make such adjustment(s) that it deems appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Securities to account for such Successor Index and to preserve the original economic objective and rationale of the Securities (provided that, if the relevant Issue Terms specify that "Institutional" is not applicable, no adjustment shall be made to the terms of the Securities to take into account any increase in the costs incurred by the Issuer and/or its affiliates by reason of its Hedging Arrangements).

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Successor Index, provided that any failure to give such notice shall not affect the validity of any action taken.

(b) **Index Cancellation or Administrator/Benchmark Event**

If the Issuer determines in respect of an Interest Rate Index that, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Index Cancellation or an Administrator/Benchmark Event has occurred in respect of such Interest Rate Index, then:

- (i) if the relevant Issue Terms specify an Alternative Pre-nominated Interest Rate Index in respect of such Interest Rate Index, then:
 - (A) the Issuer shall attempt to determine an Adjustment Payment;
 - (B) if the Issuer determines an Adjustment Payment:
 - (1) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Interest Rate Index" shall be replaced by a reference to "Alternative Pre-nominated Interest Rate Index"; and
 - (2) the Issuer shall, without the consent of the Securityholders, adjust the Conditions to take into account the Adjustment Payment as follows:
 - (aa) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest

Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date, Settlement Date or any date on which any amount may be due and payable, as relevant;

(bb) if the Adjustment Payment is an amount that the Securityholder would (but for this paragraph (bb)) be required to pay to the Issuer in respect of each Security, adjust the Conditions to provide for the reduction of the amounts due by the Issuer in respect of each Security until the aggregate amount of such reductions is equal to the Adjustment Payment, provided that if (x) the relevant Issue Terms specify that "Institutional" is not applicable and (y) where the terms of the Securities provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such adjustment may not reduce the minimum amount payable or any Instalment Amounts payable to the Securityholders; and

(cc) make such other adjustments (the "**Replacement Interest Rate Index Amendments**") to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of such Interest Rate Index with the relevant Alternative Pre-nominated Interest Rate Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of such Interest Rate Index with the relevant Alternative Pre-nominated Interest Rate Index; and

(3) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with the General Conditions specifying the Adjustment Payment and the specific terms of any Replacement Interest Rate Index Amendments and such notice shall be irrevocable. Any Adjustment Payment and Replacement Interest Rate Index Amendments will be binding on the Issuer, the Agents and the Securityholders; and

(C) if the Issuer is unable to determine an Adjustment Payment, then Asset Term 2.2(c) shall apply; or

(ii) if the relevant Issue Terms do not specify an Alternative Pre-nominated Interest Rate Index in respect of such Interest Rate Index, then Asset Term 2.2(c) shall apply.

(c) **Occurrence of an Index Adjustment Event**

If the Issuer determines, on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, that an Index Adjustment Event has occurred in respect of an Interest Rate Index, then the Issuer shall determine if such Index Adjustment Event has a material effect on the Securities, **provided always that** in the case of an Index Adjustment Event that is an Index Cancellation or an Administrator/Benchmark Event in respect of such Interest Rate Index, this Asset Term 2.2(c) shall apply only in the circumstances where Asset Term 2.2(b) specifies that this Asset Term 2.2(c) shall apply. If the Issuer determines that such Index Adjustment Event has a material effect on the Securities, the Issuer shall calculate the relevant Interest Rate Index Level using, in lieu of a published level for such Interest Rate Index, the level for such Interest Rate Index as at the Valuation Time on that Reference Date, Averaging Reference Date, Observation Date or other relevant date, as the case may be, as determined by the Issuer in accordance with the formula for, and method of, calculating such Interest Rate Index last in effect prior to the relevant Index Adjustment Event, but using only those Component Transactions that comprised such Interest Rate Index immediately prior to such Index Adjustment Event.

If the Issuer determines, in its discretion, that either:

- (i) the above adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders; or
- (ii) it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements for the Issuer to perform the calculations prescribed in this Asset Term 2.2(c) (or it would be unlawful or would contravene those licensing requirements were a calculation to be made at such time),

then the Issuer may select another index or basket of indices (the "**Alternative Post-nominated Interest Rate Index**"), as applicable, determined by the Issuer to be comparable to such Interest Rate Index to replace such Interest Rate Index and may determine an Adjustment Payment. If the Issuer determines an Adjustment Payment, the provisions of Asset Term 2.2(b)(i)(B) shall apply except that each reference to "Alternative Pre-nominated Interest Rate Index" shall be construed as a reference to "Alternative Post-nominated Interest Rate Index".

If (i) the Issuer is unable to select an Alternative Post-nominated Interest Rate Index or determine an Adjustment Payment, or (ii) the Issuer is able to select an Alternative Post-nominated Interest Rate Index and determine an Adjustment Payment, but the Issuer determines, in its discretion, that adjustment to the terms of the Securities in connection with such selection and determination would not achieve a commercially reasonable result for either the Issuer or the Securityholders, then, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (A) if the relevant Issue Terms specify that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (B) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Index Adjustment Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute an Index Adjustment Event, the Issuer will consider such notice, but will not be obliged to determine that an Index Adjustment Event has occurred solely as a result of receipt of such notice.

2.3 Consequences of Additional Disruption Events

If the Issuer determines that an Additional Disruption Event (where specified as being applicable in the relevant Issue Terms) has occurred, the Issuer may (but need not) determine:

- (a) the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under such Securities, as the Issuer determines appropriate to account for the economic effect of such Additional Disruption Event on the Securities and to preserve the original economic objective and rationale of the Securities, and determine the effective date of that adjustment. Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Additional Disruption Event, provided that any failure to give such notice shall not affect the validity of the Additional Disruption Event or any action taken; or
- (b) that no adjustments to the terms of the Securities would achieve a commercially reasonable result, on giving notice to Securityholders as soon as practicable in accordance with the General Conditions, the Issuer may redeem the Securities in whole but not in part, in which case the Issuer will cause to be paid to each Securityholder in respect of each Security held by it an amount equal to the Unscheduled Termination Amount on (i) if the relevant Issue Terms specify

that "Institutional" is applicable or where the terms of the Securities do not provide for the amount payable at maturity to be subject to a minimum amount or for Instalment Amounts to be payable, such day as selected by the Issuer in its discretion, (ii) otherwise, the due date for redemption. For the avoidance of doubt, no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer, provided that, in respect of Instalment Securities, each Instalment Amount scheduled to be paid (but unpaid) on an Instalment Date falling on or after the Unscheduled Termination Event Date shall continue to be paid on such Instalment Date.

3. **Adjustment in respect of Jurisdictional Event**

If the relevant Issue Terms specify in relation to an Interest Rate Index that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its discretion, acting in good faith and in a commercially reasonable manner, to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its discretion, to be commercially impracticable. The Issuer (where there is a corresponding applicable regulatory obligation) shall also take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Securityholders stating the adjustment to any amount payable under the Securities and/or any of the other relevant terms and giving brief details of the Jurisdictional Event, provided that any failure to give such notice shall not affect the validity of the Jurisdictional Event or any action taken.

4. **Correction of Interest Rate Index Levels**

In the event that any relevant level of an Interest Rate Index published by the Sponsor on any date which is utilised for any calculation or determination in connection with the Securities is subsequently corrected and the correction is published by the Sponsor by the second Currency Business Day prior to the next date on which any relevant payment may have to be made by the Issuer or in respect of which any relevant determination in respect of the Securities may have to be made, then the Issuer may determine the amount that is payable or deliverable or make any determination, acting in good faith and in a commercially reasonable manner, in connection with the Securities, after taking into account such correction, and, to the extent necessary, may adjust any relevant terms of the Securities to account for such correction.

5. **Responsibility**

Neither the Issuer nor the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of an Interest Rate Index by the relevant Sponsor, whether caused by negligence or otherwise.

Application: the following terms shall apply to Securities if stated in the relevant Issue Terms to be "Cash Index-linked".

1. Definitions

"Adjustment Date" means, in respect of a Reference Rate Event, the later of:

- (a) the first date on which the Issuer had identified a Replacement Reference Rate and determined an Adjustment Spread, as applicable; and
- (b) the first to occur of: (A) the first date on which the Reference Rate is no longer available following a Reference Rate Cessation, or (B) the Administrator/Benchmark Event Date, as relevant in relation to such Reference Rate Event.

"Adjustment Spread" means, in respect of any Replacement Reference Rate, the adjustment, if any, to a Replacement Reference Rate that the Issuer determines, acting in good faith and in a commercially reasonable manner, having regard to any Industry Standard Adjustment, which is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Securityholders (or vice versa) as a result of the replacement of the Reference Rate with the Replacement Reference Rate. Any such adjustment may take account of, without limitation, any transfer of economic value (which may be a value anticipated or estimated by the Issuer) as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology. If the Issuer is required to determine the Adjustment Spread, it shall consider the Relevant Market Data. If a spread or methodology for calculating a spread has been formally recommended by any Relevant Nominating Body in relation to the replacement of the Reference Rate with the relevant Replacement Reference Rate, then the Adjustment Spread shall be determined on the basis of such recommendation (adjusted as necessary to reflect the fact that the spread or methodology is used in the context of the Securities).

"Administrator/Benchmark Event" means the occurrence of a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event, in each case being treated as having occurred on the Administrator/Benchmark Event Date.

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate, the date determined by the Issuer to be:

- (a) in respect of a Non-Approval Event, the date on which the relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement is required under any applicable law or regulation for the continued use of such Reference Rate by either the Issuer or the Calculation Agent to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date;
- (b) in respect of a Rejection Event, the date on which following the rejection or refusal of the relevant application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, if such date occurs before the Issue Date, the Issue Date; and
- (c) in respect of a Suspension/Withdrawal Event, the date on which following (A) the suspension or withdrawal by the relevant competent authority or other relevant official body of the authorisation, registration, recognition, endorsement, equivalence decision or approval, or (B) the date on which such Reference Rate or the administrator or sponsor of such Reference Rate is removed from the official register, as applicable, the Issuer or the Calculation Agent is not permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities or, in each case, if such date occurs before the Issue Date, the Issue Date.

"Alternative Post-nominated Reference Rate" means, in respect of a Reference Rate, any interest rate, index, benchmark or other price source which is formally designated, nominated or recommended by:

- (a) any Relevant Nominating Body; or
- (b) the administrator or sponsor of the Reference Rate, provided that such interest rate, index, benchmark or other price source is substantially the same as the Reference Rate,

in each case, to replace such Reference Rate. If a replacement interest rate, index, benchmark or other price source is designated, nominated or recommended under both paragraphs (a) and (b) above, then the replacement interest rate, index, benchmark or other price source designated, nominated or recommended under paragraph (a) shall be the Alternative Post-nominated Reference Rate.

"Alternative Pre-nominated Reference Rate" means, in respect of a Reference Rate, the first of the indices, benchmarks or other price sources specified as such in the relevant Issue Terms and not subject to a Reference Rate Event.

"Banking Day" means any day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in the city(ies) so specified in the relevant Issue Terms.

"Cash Index" means the Cash Index (or, if more than one, each Cash Index) specified in the relevant Issue Terms.

"Cash Index Level" means the level of the relevant Cash Index determined by the Issuer in accordance with Asset Term 2.

"Cut-off Date" means, in respect of a Reference Rate, the date that falls the number of Business Days specified in the relevant Issue Terms, or, if not so specified, the 60th Business Day following the occurrence of the Administrator/Benchmark Event or following the first date on which the Reference Rate is no longer available following a Reference Rate Cessation,

as relevant in respect of the Reference Rate Event.

"Fallback Reference Banks" means, in respect of any day, that the rate for such day will be determined on the basis of the rates at which deposits in the Relevant Currency are offered by the Reference Banks at the Valuation Time on the day that is the Number of Banking Days preceding (or, if the Number of Banking Days is zero, on) that day to prime banks in the London interbank market for a period of the Designated Maturity commencing on that day and in a Representative Amount. The Issuer will request the principal London office of each of the Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the rate for that day will be the arithmetic mean of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If fewer than three quotations are provided as requested, the rate for that day shall be determined in accordance with the next applicable Disruption Fallback.

"Fallback Reference Rate" means, in respect of any relevant day, the reference rate specified as such in the relevant Issue Terms with reference to the Specified Page for such reference rate.

"General Conditions" means the General Note Conditions, the General Certificate Conditions or the General Warrant Conditions, as applicable.

"Industry Standard Adjustment" means, in respect of a Reference Rate and an Adjustment Spread, the spread or formula or methodology for calculating a spread or payment (as applicable), that is, in the determination of the Issuer, recognised or acknowledged as being the industry standard (or otherwise customarily widely adopted) for over-the-counter derivative transactions which reference such Reference Rate (which may include (i) a spread or payment (as applicable) selected or recommended by a relevant trade association, working group or committee or (ii) a spread or payment (as applicable) that has been selected or recommended by the central bank for the currency of the then-current Reference Rate), which recognition or acknowledgment may be in the form of a press release, a member announcement, a member advice, letter, protocol, publication of standard terms or otherwise by ISDA or any other industry body.

"Industry Standard Rate" means, in respect of a Reference Rate, the rate that is, in the determination of the Issuer, recognised or acknowledged as being the industry standard (or otherwise customarily widely adopted) replacement rate for over-the-counter derivative transactions which reference such Reference Rate (which may include (i) an interpolation of other tenors of the then-current Reference Rate, (ii) a rate selected or recommended by a relevant trade association, working group or committee or (iii) a rate that has been selected or recommended by the central bank for the currency of the then-current Reference Rate), which recognition or acknowledgment may be in the form of a press release, a member announcement, a member advice, letter, protocol, publication of standard terms or otherwise by ISDA or any other industry body.

"Interest Period End Date" means the day on which an Interest Period ends but which is excluded from the Interest Period by the definition thereof.

"ISDA" means the International Swaps and Derivatives Association, Inc.

"ISDA Definitions" means the 2006 ISDA Definitions, as published by ISDA, as amended and supplemented up to, and including, the Issue Date of the first Tranche of the Securities, and, if the relevant Issue Terms specify any supplement to the ISDA Definitions, as further amended by such supplement, provided that if a later version of the 2006 ISDA Definitions is specified in the relevant Issue Terms, then "ISDA Definitions" shall mean such later version thereof, as amended and supplemented up to, and including, the Issue Date of the first Tranche of the Securities.

"ISDA Rate" means a rate equal to the Floating Rate that would be determined by the Calculation Agent (as defined in the ISDA Definitions) under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Issue Terms;
- (b) the Designated Maturity is a period so specified in the relevant Issue Terms; and
- (c) the relevant Reset Date is (i) if the applicable Floating Rate Option is based on LIBOR or EURIBOR, the first day of that Interest Period or such days as so specified in the relevant Issue Terms, or (ii) if the applicable Floating Rate Option is neither based on LIBOR nor EURIBOR, such other day as so specified in the relevant Issue Terms,

provided that:

- (i) if the Issuer determines that a Reference Rate Event has occurred in respect of a Floating Rate Option, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with the Conditions.

If such Reference Rate Event constitutes a Reference Rate Cessation, and if one or more Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, such Priority Fallback(s) shall apply and the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of applying such Priority Fallback(s) and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the application of such Priority Fallback(s).

If (l) such Reference Rate Event does not constitute a Reference Rate Cessation, or (ll) such Reference Rate Event constitutes a Reference Rate Cessation, but (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of interest, or (y) the Issuer determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Securityholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Floating Rate Option in the ISDA Definitions, then:

- (A) the Issuer shall attempt to identify a Replacement Reference Rate;
- (B) the Issuer shall attempt to determine the Adjustment Spread;
- (C) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (A) above and determines an Adjustment Spread pursuant to paragraph (B) above, then:
 - (1) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Floating Rate Option" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment Spread, may not be less than zero) with effect from the Adjustment Date; and
 - (2) the Issuer shall, without the consent of the Securityholders, make such other adjustments to the Conditions (including, but not limited to, any Currency Business Day, Day Count Denominator, Compounding Date, Valuation Date and Valuation Time) as it determines necessary or appropriate in order to account for the effect of the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Floating Rate Option with the Replacement Reference Rate *plus* the Adjustment Spread.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice; or

- (ii) if no Reference Rate Event has occurred and if the Issuer determines that such ISDA Rate cannot be determined in accordance with the ISDA Definitions read with the above provisions, the value of the ISDA Rate shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes),

then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

For the purposes of this definition, "**Floating Rate**", "**Floating Rate Option**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

- (a) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of such Reference Rate or the administrator or sponsor of such Reference Rate is not obtained;
- (b) such Reference Rate or the administrator or sponsor of such Reference Rate is not included in an official register; or
- (c) such Reference Rate or the administrator or sponsor of such Reference Rate does not fulfil any legal or regulatory requirement applicable to the Issuer or the Calculation Agent or such Reference Rate,

in each case, with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities, provided that a Non-Approval Event shall not occur if such Reference Rate or the administrator or sponsor of such Reference Rate is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended if, at the time of such suspension, the continued provision and use of such Reference Rate is permitted in respect of the Securities under the applicable law or regulation.

- (a) a public statement or publication of information by the regulatory supervisor of the administrator of such Reference Rate, the central bank for the currency of such Reference Rate, an insolvency official with jurisdiction over the administrator for such Reference Rate, a resolution authority with jurisdiction over the administrator for such Reference Rate or a court or an entity with similar insolvency or resolution authority over the administrator for such Reference Rate which states that the administrator of such Reference Rate has ceased or will cease to provide such Reference Rate permanently or indefinitely, provided that, at the time of such public statement, there is no successor administrator that will continue to provide such Reference Rate;
- (b) a public statement or publication of information by or on behalf of the administrator of such Reference Rate announcing that it has ceased or will cease to provide such Reference Rate

permanently or indefinitely, provided that, at the time of such public statement, there is no successor administrator that will continue to provide such Reference Rate;

- (c) a formal public statement or publication of information by the supervisor of the administrator or sponsor of the relevant Reference Rate, the central bank for the currency of the then-current Reference Rate or another official body with applicable responsibility announcing that such Reference Rate is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Reference Rate is intended to measure; or
- (d) any event which otherwise constitutes an "index cessation event" (regardless of how it is actually defined or described in the definition of such Reference Rate in the ISDA Definitions, where applicable) in relation to which a Priority Fallback is specified.

"Rejection Event" means, in respect of a Reference Rate, the determination by the Issuer that the relevant competent authority or other relevant official body has rejected or refused any application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, in each case, with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities.

"Relevant Currency" means the currency specified in the relevant Issue Terms or, no currency is specified in the relevant Issue Terms, the Settlement Currency.

"Relevant Market Data" means, in relation to any determination by the Issuer or the Calculation Agent, any relevant information including, without limitation, one or more of the following types of information:

- (a) information consisting of relevant market data in the relevant market supplied by one or more third parties including, without limitation, alternative benchmarks, relevant rates, prices, yields, yield curves, volatilities, spreads, correlations or other relevant market data in the relevant market, unless such information is not readily available or, if used to make a determination, would produce a result that is not commercially reasonable; or
- (b) information of the type described in paragraph (a) above from the Issuer's internal sources if that information is of the same type used by the Issuer for adjustments to, or valuations of, similar transactions.

Third parties supplying market data pursuant to paragraph (a) above may include, without limitation, central counterparties, exchanges, dealers in the relevant markets, end-users of the relevant product, information vendors, brokers and other recognised sources of market information.

If the Replacement Reference Rate is determined to be an Alternative Post-nominated Reference Rate or an Alternative Industry Standard Reference Rate, the Issuer shall specify a date on which the relevant interest rate, index, benchmark or other price source was recognised or acknowledged as being the relevant industry standard (which may be before such interest rate, index, benchmark or other price source commences) in the notice to the Securityholders specifying the Replacement Reference Rate.

"Representative Amount" means, in respect of a Reference Rate for which a Representative Amount is relevant, an amount that is representative for a single transaction in the relevant market at the Valuation Time.

- (b) such Reference Rate or the administrator or sponsor of such Reference Rate is removed from any official register with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use such Reference Rate to perform its or their respective obligations under the Securities,

provided that a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of such Reference Rate is permitted in respect of the Securities under the applicable law or regulation.

"Valuation Date" means (other than in the case of Warrants) each date so specified in the relevant Issue Terms.

- (b) On each Valuation Date thereafter (**"Valuation Date"**), the Cash Index Level shall be a percentage calculated by the Issuer in accordance with the following formula:

Where:

"**Compounding Dates**" means the Initial Compounding Date and each of the other dates specified as Compounding Dates in the relevant Issue Terms (or, if any such date is not a Currency Business Day, the next following Currency Business Day).

To the extent that a Replacement Reference Rate is determined to be used in respect of the Securities, such Replacement Reference Rate shall be a "Reference Rate" for the Securities during the period on which it is used. If the Reference Rate is not shown on the Specified Page or otherwise available on any day, in each case, for any reason other than as a result of a Reference Rate Event, the Reference Rate for such day shall be determined by the Issuer in accordance with the first applicable Disruption Fallback (if any) as specified in the relevant Issue Terms that provides a Reference Rate. If the Issuer determines that the last applicable Disruption Fallback specified in the relevant Issue Terms does not provide a Reference Rate or if no Disruption Fallbacks have been specified in the relevant Issue Terms, the Reference Rate shall be such rate as is determined by the Issuer in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

3. **Rate of Interest for Floating Rate Securities**

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant Reference Rate provided below, provided that:

- (1) if the Issuer determines that a Reference Rate Event has occurred in respect of a Reference Rate, the Issuer shall give a Reference Rate Event Notice to the Securityholders as soon as practicable in accordance with General Note Condition 14 or General Certificate Condition 9 (as applicable);
 - (2) the Issuer shall attempt to identify a Replacement Reference Rate;
 - (3) the Issuer shall attempt to determine the Adjustment Spread;
- (aa) if the Issuer identifies a Replacement Reference Rate pursuant to paragraph (2) above and determines an Adjustment Spread pursuant to paragraph (3) above, then:
- (x) the terms of the Securities shall, without the consent of the Securityholders, be amended so that each reference to "Reference Rate" shall be replaced by a reference to "Replacement Reference Rate *plus* the Adjustment Spread" (provided that the result of the Replacement Reference Rate *plus* the Adjustment Spread *plus* or *minus* (as indicated in the relevant Issue Terms) the Margin, may not be less than zero) with effect from the Adjustment Date;

- (y) the Issuer shall, without the consent of the Securityholders, make such other adjustments (the "**Screen Rate Replacement Reference Rate Amendments**") to the Conditions (including, but not limited to, any Business Day, Business Day Convention, Day Count Fraction, Determination Date, Interest Amount, Interest Payment Date, Interest Period and Rate of Interest) with effect from the Adjustment Date as it determines necessary or appropriate in order to account for the effect of the replacement of the Reference Rate with the Replacement Reference Rate *plus* the Adjustment Spread and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Reference Rate with the Replacement Reference Rate *plus* the Adjustment Spread; and
- (z) the Issuer shall deliver a notice to the Securityholders as soon as practicable in accordance with General Note Condition 14 or General Certificate Condition 9 (as applicable) which shall specify any Replacement Reference Rate, Adjustment Spread, Adjustment Date and the specific terms of any Screen Rate Replacement Reference Rate Amendments and such notice shall be irrevocable. Any Replacement Reference Rate, Adjustment Spread and Screen Rate Replacement Reference Rate Amendments will be binding on the Issuer, the Agents and the Securityholders; and
- (bb) if, for the purposes of calculating interest, there is more than one Reference Rate specified, then the foregoing provisions of this proviso to Asset Term 3 shall apply separately to each such Reference Rate.

The Issuer shall not have any duty to monitor, enquire or satisfy itself as to whether any Reference Rate Event has occurred. If the Securityholders provide the Issuer with details of the circumstances which could constitute a Reference Rate Event, the Issuer will consider such notice, but will not be obliged to determine that a Reference Rate Event has occurred solely as a result of receipt of such notice.

- (4) If no Reference Rate Event has occurred and the Issuer determines that such Reference Rate cannot be determined in accordance with the provisions of this Asset Term 3, the value of the Reference Rate for an Interest Period shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to comparable benchmarks then available.

If the definition, methodology or formula for a Reference Rate, or other means of calculating such Reference Rate, is changed or modified (irrespective of the materiality of any such change or changes), then references to that Reference Rate shall be to the Reference Rate as changed and modified and Securityholders will not be entitled to any form of compensation as a result of such change or modification.

- (a) **SONIA**

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

2. Consequences of Non-Common Trading Days and/or Basket Disrupted Days

2.1 Multi-Asset Basket and Averaging Reference Dates - Common/Individual

If the relevant Issue Terms specify "Multi-Asset Basket and Averaging Reference Dates – Common/Individual" to be applicable to the Common Basket Assets and any Averaging Reference Date, if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Basket Disrupted Day and if, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (a) **"Omission"**, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Common Basket Asset, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then:
 - (i) for each Common Basket Asset for which the Issuer determines that the final Scheduled Averaging Reference Date is not a Disrupted Day, the sole Averaging Reference Date for such Common Basket Asset shall be the final Scheduled Averaging Reference Date; and
 - (ii) for each Common Basket Asset for which the Issuer determines that the final Scheduled Averaging Date is a Disrupted Day, then the sole Averaging Reference Date for such Common Basket Asset shall be the first succeeding Scheduled Trading Day for such Common Basket Asset following the final Scheduled Averaging Reference Date that the Issuer determines is not a Disrupted Day relating to such Common Basket Asset, unless the Issuer determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Disrupted Day relating to such Common Basket Asset. In that case:
 - (A) that last consecutive Scheduled Trading Day for such Common Basket Asset shall be deemed to be the sole Averaging Reference Date for such Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Asset; and

- (B) where such Common Basket Asset is:
- (1) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share (and such determination by the Issuer pursuant to this paragraph (1) shall be deemed to be the Share Price in respect of such sole Averaging Reference Date for such Share);
 - (2) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) (and such determination by the Issuer pursuant to this paragraph (2) shall be deemed to be the Index Level in respect of such sole Averaging Reference Date for such Index);
 - (3) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share (and such determination by the Issuer pursuant to this paragraph (3) shall be deemed to be the Share Price in respect of such sole Averaging Reference Date for such ETF Share); or
 - (4) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC (and such determination by the Issuer pursuant to this paragraph (4) shall be deemed to be the ETC Price in respect of such sole Averaging Reference Date for such ETC).
- (b) **"Postponement"**, then for each Common Basket Asset for which the Issuer determines that such Scheduled Averaging Reference Date is a Disrupted Day, the Averaging Reference Date for such Common Basket Asset shall be the first succeeding Scheduled Trading Day for such Common Basket Asset following such Scheduled Averaging Reference Date which the Issuer determines is not a Disrupted Day relating to such Common Basket Asset (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date for such Common Basket Asset), unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Common Basket Asset equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day relating to such Common Basket Asset. In that case:
- (i) that last consecutive Scheduled Trading Day for such Common Basket Asset shall be deemed to be the Averaging Reference Date for such Common Basket Asset (irrespective of whether that last consecutive Scheduled Trading Day for such Common Basket Asset is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Common Basket Asset; and
 - (ii) where such Common Basket Asset is:
 - (A) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled

Trading Day for such Share (and such determination by the Issuer pursuant to this paragraph (A) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such Share);

- (B) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Scheduled Trading Day for such Index, in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) (and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of such Averaging Reference Date for such Index);
 - (C) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share (and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such ETF Share); or
 - (D) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC (and such determination by the Issuer pursuant to this paragraph (D) shall be deemed to be the ETC Price in respect of such Averaging Reference Date for such ETC).

If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the consecutive Scheduled Trading Days for such Common Basket Asset equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date, then:
- (i) that last consecutive Scheduled Trading Day for such Common Basket Asset shall be deemed to be the Averaging Reference Date for such Common Basket Asset (irrespective of whether that last consecutive Scheduled Trading Day for such Common Basket Asset is already or is deemed to be another Averaging Reference Date or is a Disrupted Day for such Common Basket Asset); and
 - (ii) where such Common Basket Asset is:
 - (A) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share (and such determination by the Issuer pursuant to this paragraph (A) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such Share);

2.2 Multi-Asset Basket and Averaging Reference Dates – Common/Common

If the relevant Issue Terms specify "Multi-Asset Basket and Averaging Reference Dates – Common/Common" to be applicable to the Common Basket Assets and an Averaging Reference Date, if the Issuer determines that the Scheduled Averaging Reference Date relating to such Averaging Reference Date is a Basket Disrupted Day and if, in the relevant Issue Terms, the consequence specified for such Averaging Reference Date is:

- (a) "**Omission**", then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Common Basket Asset, provided that, if through the operation of this provision there would be no Averaging Reference Dates, then the sole Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following the final Scheduled Averaging Reference Date that the Issuer determines is not a Basket Disrupted Day, unless the Issuer determines that each of the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date is a Basket Disrupted Day. In that case:
 - (i) that last consecutive Common Trading Day shall be deemed to be the sole Averaging Reference Date for each Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Asset(s) (such Common Basket Assets being "**Affected Common Basket Assets**" for such sole Averaging Reference Date, and each such Common Basket Asset being an "**Affected Common Basket Asset**");
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day;
 - (B) an Index, the Issuer shall determine the relevant Index Level as provided in the definition thereof on such last consecutive Common Trading Day;
 - (C) an ETF Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day; or
 - (D) an ETC, the Issuer shall determine the ETC Price as provided in the definition thereof on such last consecutive Common Trading Day;
 - (iii) for each Affected Common Basket Asset which is:

- (A) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (A) shall be deemed to be the Share Price in respect of such sole Averaging Reference Date for such Share);
 - (B) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Common Trading Day in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day) (and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of such sole Averaging Reference Date for such Index);
 - (C) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of such sole Averaging Reference Date for such ETF Share); or
 - (D) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (D) shall be deemed to be the ETC Price in respect of such sole Averaging Reference Date for such ETC).
- (b) **"Postponement"**, then the Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Averaging Reference Date which the Issuer determines is not a Basket Disrupted Day (irrespective of whether that deferred Averaging Reference Date is already or is deemed to be another Averaging Reference Date), unless the Issuer determines that each of the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Basket Disrupted Day. In that case:
- (i) that last consecutive Common Trading Day shall be deemed to be the Averaging Reference Date for each Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Assets (each such Common Basket Asset being an **"Affected Common Basket Asset"** for such Averaging Reference Date);
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day;
 - (B) an Index, the Issuer shall determine the relevant Index Level as provided in the definition thereof on such last consecutive Common Trading Day;
 - (C) an ETF Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day or
 - (D) an ETC, the Issuer shall determine the relevant ETC Price as provided in the definition thereof on such last consecutive Common Trading Day;

- (iii) for each Affected Common Basket Asset which is:
 - (A) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (A) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such Share);
 - (B) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Common Trading Day in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day) (and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of such Averaging Reference Date for such Index);
 - (C) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such ETF Share); or
 - (D) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (D) shall be deemed to be the ETC Price in respect of such Averaging Reference Date for such ETC).
- (c) "**Modified Postponement**", then the relevant Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the last consecutive Common Trading Day equal in number to the Maximum Days of Disruption immediately following the final Scheduled Averaging Reference Date:
 - (i) that last consecutive Common Trading Day shall be deemed to be the Averaging Reference Date for each Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Assets (each such Common Basket Asset being an "**Affected Common Basket Asset**" for such Averaging Reference Date); and
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day;
 - (B) an Index, the Issuer shall determine the relevant Index Level as provided in the definition thereof on such last consecutive Common Trading Day;
 - (C) an ETF Share, the Issuer shall determine the relevant Share Price as provided in the definition thereof on such last consecutive Common Trading Day; or
 - (D) an ETC, the Issuer shall determine the relevant ETC Price as provided in the definition thereof on such last consecutive Common Trading Day;

- (iii) for each Affected Common Basket Asset which is:
- (A) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (A) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such Share);
 - (B) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Common Trading Day in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day) (and such determination by the Issuer pursuant to this paragraph (B) shall be deemed to be the Index Level in respect of such Averaging Reference Date for such Index);
 - (C) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (C) shall be deemed to be the Share Price in respect of such Averaging Reference Date for such ETF Share); or
 - (D) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (D) shall be deemed to be the ETC Price in respect of such Averaging Reference Date for such ETC).

2.3 Multi-Asset Basket and Reference Dates – Common/Individual

If the relevant Issue Terms specify "Multi-Asset Basket and Reference Dates – Common/Individual" to be applicable to the Common Basket Assets and a Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Basket Disrupted Day, then the Reference Date for such Common Basket Asset shall be the first succeeding Scheduled Trading Day for such Common Basket Asset that the Issuer determines is not a Disrupted Day relating to such Common Basket Asset, unless the Issuer determines that each of the consecutive Scheduled Trading Days for such Common Basket Asset equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day relating to such Common Basket Asset. In that case:

- (a) that last consecutive Scheduled Trading Day for such Common Basket Asset shall be deemed to be the Reference Date for such Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Asset; and
- (b) where such Common Basket Asset is:
 - (i) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such Share (and such determination by the Issuer pursuant to this paragraph (i) shall be deemed to be the Share Price in respect of such Reference Date for such Share);
 - (ii) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Scheduled Trading Day for such Index in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of

each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) (and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Index Level in respect of such Reference Date for such Index);

- (iii) an ETF Share, the Issuer shall determine its good faith estimate of the value for such ETF Share as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETF Share (and such determination by the Issuer pursuant to this paragraph (iii) shall be deemed to be the Share Price in respect of such Reference Date for such ETF Share); or
- (iv) an ETC, the Issuer shall determine its good faith estimate of the value for such ETC as of the Valuation Time on that last consecutive Scheduled Trading Day for such ETC (and such determination by the Issuer pursuant to this paragraph (iv) shall be deemed to be the ETC Price in respect of such Reference Date for such ETC).

2.4 Multi-Asset Basket and Reference Dates – Common/Common

If the relevant Issue Terms specify "Multi-Asset Basket and Reference Dates – Common/Common" to be applicable to the Common Basket Assets and a Reference Date, then if the Issuer determines that the Scheduled Reference Date relating to such Reference Date is a Basket Disrupted Day, then the Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Reference Date which the Issuer determines is not a Basket Disrupted Day, unless the Issuer determines that each of the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Basket Disrupted Day. In that case:

- (a) that last consecutive Common Trading Day shall be deemed to be such Reference Date for each Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Assets (each such Common Basket Asset being an "**Affected Common Basket Asset**" for such Reference Date);

- (c) for each Affected Common Basket Asset which is:
 - (i) a Share, the Issuer shall determine its good faith estimate of the value for such Share as of the Valuation Time on that last consecutive Common Trading Day (and such determination by the Issuer pursuant to this paragraph (i) shall be deemed to be the Share Price in respect of such Reference Date for such Share);
 - (ii) an Index, the Issuer shall determine the Index Level of such Index on or in respect of that last consecutive Common Trading Day in accordance with the formula for, and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day for such Index, using the Exchange traded or quoted price as of the

relevant Valuation Time on that last consecutive Common Trading Day of each Component included in such Index (or, if an event giving rise to a Disrupted Day (as defined in Equity-linked Securities Asset Term 1 (Definitions)) has occurred in respect of any relevant Component that is a share (or an analogous event has occurred in respect of any relevant component that is not a share) on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day) (and such determination by the Issuer pursuant to this paragraph (ii) shall be deemed to be the Index Level in respect of such Reference Date for such Index);

FORM OF PRICING SUPPLEMENT

[Include if applicable: **PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS:** The Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA") or in the United Kingdom (the "UK"). For these purposes, retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU on Markets in Financial Instruments (as may be amended, varied or replaced from time to time) ("MiFID II"); (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling such Securities or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.]

Any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Securities is not exempt from tax (including for the reasons described above) shall include such income in a return of income made under the ITA.]

CLEARING ARRANGEMENTS

The Securities will be cleared through the clearing system(s) specified in the relevant Issue Terms in accordance with the rules and procedures of the relevant clearing system. The International Securities Identification Number (ISIN) and any Common Code, WKN number, Telekurs Ticker and/or other applicable clearing system identification numbers will be specified in the relevant Issue Terms.

Settlement and CREST

If specified in the relevant Issue Terms, investors may hold indirect interests in the Securities (such Securities being "**Underlying Securities**") through CREST ("**CREST**" being the system for the paperless settlement of trades and the holding of uncertificated securities operated by Euroclear UK & Ireland Limited or any successor thereto in accordance with the United Kingdom Uncertificated Securities Regulations 2001) by holding dematerialised depository interests ("**CREST Depository Interests**" or "*CDIs*").

CDIs are independent securities constituted under English law issued, held, settled and transferred through CREST. CDIs are issued by CREST Depository Limited or any successor thereto (the "**CREST Depository**") pursuant to the global deed poll dated 25 June 2001 (in the form contained in Chapter 8 of the CREST International Manual (which forms part of the CREST Manual)) (as subsequently modified, supplemented and/or restated) (the "**CREST Deed Poll**"). CDIs are issued by the CREST Depository and held through CREST in dematerialised uncertificated form in accordance with the CREST Deed Poll. CDIs in respect of Underlying Securities will be constituted, issued to investors and transferred pursuant to the terms of the CREST Deed Poll.

CDIs represent indirect interests in the Underlying Securities to which they relate and holders of CDIs will not be the legal owners of the Underlying Securities.

The Issuer will issue Underlying Securities with the intention that indirect interests in such Underlying Securities be held through CDIs. In order to enable the settlement of indirect interest in the relevant Underlying Securities within CREST, investors will need to hold such indirect interests via CDIs. The CDIs will not be offered to the public or admitted to trading on a regulated market.

Following the delivery of the Underlying Securities into a Relevant Clearing System permitted in the CREST Manual, indirect interests in Underlying Securities may be delivered, held and settled in CREST by means of the creation of dematerialised CDIs representing indirect interests in the relevant Underlying Securities. Interests in the Underlying Securities will be credited to the account of CREST International Nominees Limited or any other body appointed to act as nominee on behalf of the CREST Depository (the "**CREST Nominee**") with Euroclear and the CREST Nominee holding such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants. The CDIs will therefore consist of indirect rights of a CDI holder in, or relating to, the Underlying Securities which are held (through the CREST Nominee) on trust for the benefit of the CDI holder by the CREST Depository and will constitute a record acknowledging that the CREST Nominee holds the Underlying Securities as nominee on behalf of the CREST Depository. The CDIs will be issued once the relevant Underlying Securities are credited to the CREST Nominee's account. It is intended that CDIs will be issued to the relevant CREST participants on or around the Issue Date of the relevant Underlying Securities. However, CDIs may be created at any time following the credit of relevant Underlying Securities to the CREST Nominee's account with Euroclear.

Each CDI will be treated as one Underlying Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CDIs any interest or other amounts received by it as holder of the Underlying Securities on trust for such CDI holder. Therefore, the holders of CDIs are entitled to the proceeds from the Underlying Securities. If a matter arises that requires a vote of Securityholders, Credit Suisse may make arrangements to permit the holders of CDIs to instruct the CREST Depository to exercise the voting rights of the CREST Nominee in respect of the Underlying Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CDIs.

Transfers of interests in Underlying Securities by the CREST Nominee to a participant of the Relevant Clearing System will be effected by cancellation of the CDIs and transfer of an interest in such Securities underlying the CDIs to the account of the relevant participant with the Relevant Clearing System. It is expected that the CDIs will have the same securities identification number as the ISIN of the Underlying Securities and will not require a separate listing on a recognised stock exchange.

The rights of the holders of CDIs will be governed by the arrangements between CREST and the Relevant Clearing System, including the CREST Deed Poll executed by the CREST Depository. These rights may be different from those of holders of Securities which are not represented by CDIs.

Clearing Arrangements

The attention of Investors in CDIs is drawn to the terms of the CREST Deed Poll, the CREST Manual and the CREST Rules, copies of which are available from Euroclear UK & Ireland Limited at 33 Cannon Street, London EC4M 5SB or by calling +44 (0)20 7849 0000 or from the Euroclear UK & Ireland Limited website at www.euroclear.com/site/public/EUI.

THE UNDERLYING ASSETS

The interest and/or repayment terms of certain Securities issued under the Base Prospectus may be linked to movements in one or more of the following underlying assets:

- (a) an equity share;
- (b) an index (which may be an equity index or a proprietary index);
- (c) a commodity or a commodity futures contract;
- (d) a commodity index;
- (e) an exchange-traded fund;
- (f) an exchange-traded commodity linked security;
- (g) a currency exchange rate;
- (h) a currency exchange rate index;
- (i) an inflation index;
- (j) an interest rate index; or
- (k) a cash index,

provided that, no Securities will be issued under the Base Prospectus which provide for physical delivery of any shares or transferable securities equivalent to shares issued by the Issuer or an entity belonging to the group of the Issuer.

Information in relation to Underlying Assets including information about past and future performance, as well as volatility, is available on the websites or from the other sources (each an "**Information Source**") specified in the relevant Issue Terms (provided that such Information Sources do not form part of the Base Prospectus or the Terms and Conditions of the Securities and that the Issuer shall have no liability in respect of information provided on the website of any entity that is not a member of the Credit Suisse Group) and the values of each Underlying Asset are available on Bloomberg (or other price source) under the code so specified in the relevant Issue Terms.

Where the Underlying Asset is a security, the name of the issuer of that security and its International Security Identification Number (ISIN) or other security identification code will be specified in the relevant Issue Terms. Where there are two or more Underlying Assets, the relevant weights of each Underlying Asset (if applicable) will be specified in the relevant Issue Terms.

Amounts payable under the Securities may be calculated by reference to one or more specific indices, rates or price sources or a combination of indices, rates or price sources. Any such index, rate or price source may constitute a benchmark for the purposes of the EU Benchmark Regulation. Where an index, rate or price source falls within the scope of the EU Benchmark Regulation, the legal name of the administrator of such index, rate or price source is required to appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmark Regulation. However, the transitional provisions in Article 51 or the provisions of Article 2 of the EU Benchmark Regulation may apply, such that the administrator of such index, rate or price source is not required to obtain authorisation/registration (or, if located outside the European Union (and the United Kingdom), recognition, endorsement or equivalence). As at the date of this Securities Note, each of ICE Benchmark Administration Limited (the administrator of LIBOR) and the European Money Markets Institute (the administrator of EURIBOR) is included in the register of administrators and benchmarks.

The Securities are not in any way sponsored, endorsed, sold or promoted by any Sponsor and no Sponsor warrants or represents whatsoever, expressly or impliedly, either as to the results to be obtained from the use of any Index, Cash Index, Commodity Index, FX Index, Inflation Index or Interest Rate Index (each as defined in the Asset Terms and each an "**Underlying Index**") and/or the figures at which the relevant Underlying Index stands at any particular time on any particular day or otherwise. No Sponsor or any other person who calculates an Underlying Index on behalf of the relevant Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in that

The Underlying Assets

Underlying Index and no Sponsor or any other such person shall be under any obligation to advise any person of any error therein.

All rights to any trademarks relating to each Underlying Index which are vested in the relevant Sponsor are used under licence from that Sponsor.

TAXATION

Warning: The tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Securities.

It is recommended that potential investors in Securities obtain advice from their own tax advisors regarding the tax implications of purchasing, holding and selling of Securities.

The following is an overview of certain tax issues arising in respect of the Securities, including withholding tax in respect of payments made by the Issuer under the Securities. It does not relate to any other tax consequences or to withholdings in respect of payments by other persons (such as custodians, depositaries or other intermediaries) unless otherwise specified. All payments in respect of the Securities by the Issuer or by an agent appointed by the Issuer will be subject to any applicable withholding taxes.

UNITED STATES TAX CONSIDERATIONS FOR INVESTORS

The following is an overview of certain of the material U.S. federal income tax consequences of the acquisition, ownership and disposition of Securities by a non-U.S. holder that has no connection to the United States other than holding the Securities. This overview does not address, for example, the U.S. federal income tax consequences of holding or owning an underlying asset in connection with a physical settlement of the Securities. For purposes of this section, a "non-U.S. holder" is a beneficial owner of Securities that is: (i) a non-resident alien individual for U.S. federal income tax purposes; (ii) a foreign corporation for U.S. federal income tax purposes; or (iii) an estate or trust whose income is not subject to U.S. federal income tax on a net income basis. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds Securities, the tax treatment of a partner generally will depend on the status of the partner and upon the activities of the partnership. Investors that are not non-U.S. holders or investors that are partnerships, should consult their tax advisers with regard to the U.S. federal income tax considerations of an investment in the Securities.

This summary is based on interpretations of the United States Internal Revenue Code of 1986 (the "**Code**"), Treasury regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any of those changes may be applied retroactively and may adversely affect the U.S. federal income tax consequences described herein. Prospective investors should consult their own tax advisers concerning the application of U.S. federal income tax laws to their particular situations as well as any consequences of the purchase, beneficial ownership and disposition of Securities arising under the laws of any other taxing jurisdiction.

INVESTORS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE U.S. FEDERAL, STATE, LOCAL, AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

Withholding on Dividend Equivalents under Section 871(m)

Section 871(m) of the Code and regulations thereunder treat a "dividend equivalent" payment as a dividend from sources within the United States. Such payments generally will be subject to U.S. withholding tax at a rate of 30 per cent.

Final regulations provide that a dividend equivalent is any payment or deemed payment that references the payment of (i) a dividend from an underlying security pursuant to a securities lending or sale-repurchase transaction, (ii) a dividend from an underlying security pursuant to a "specified notional principal contract" (a "**specified NPC**"), (iii) a dividend from an underlying security pursuant to a specified equity-linked instrument (a "**specified ELI**"), and (iv) any other substantially similar payment. The regulations provide that a payment includes a dividend equivalent payment whether there is an explicit or implicit reference to a dividend with respect to the underlying security. An underlying security is any interest in an entity if a payment with respect to that interest could give rise to a U.S. source dividend pursuant to Treasury regulation section 1.861-3. An NPC is a notional principal contract ("**NPC**") as defined in Treasury regulation section 1.446-3(c). An equity-linked instrument ("**ELI**") is a financial instrument (other than a securities lending or sale-repurchase transaction or an NPC) that references the value of one or more underlying securities, including a futures contract, forward contract, option, debt instrument, or other contractual arrangement. A "section 871(m) transaction" is any securities lending or sale-repurchase transaction, specified NPC, or specified ELI.

Final regulations and administrative guidance provide that with respect to any transaction issued on or after 1 January 2017 and before 1 January 2023, any NPC or ELI that has a delta of one with respect to an underlying security is

a specified NPC or specified ELI, respectively. With respect to any transaction issued on or after 1 January 2023, (a) a "simple" NPC or "simple" ELI that has a delta of 0.8 or greater with respect to an underlying security is a specified NPC or specified ELI, respectively, and (b) a "complex" NPC or "complex" ELI that meets a substantial equivalence test with respect to an underlying security is a specified NPC or specified ELI, respectively. The delta of a simple contract is determined, and the substantial equivalence test for a complex contract is performed, on the earlier of the date that the potential section 871(m) transaction is priced and the date when the potential section 871(m) transaction is issued; however, the issue date must be used if the potential section 871(m) transaction is priced more than 14 calendar days before it is issued. In addition, the delta or substantial equivalence of Securities that are held in inventory prior to their sale to an investor may, in certain cases, be required to be retested at the time of sale or disposition from inventory. If Securities sold from inventory are determined to be section 871(m) transactions and the same series of Securities sold at issuance were determined not to be section 871(m) transactions, holders of Securities sold at issuance may be adversely affected to the extent the Issuer or a withholding agent does not, or is unable to, identify and distinguish Securities sold to investors at issuance from those sold out of inventory.

Certain events could cause previously issued Securities to be deemed to be issued as new securities for purposes of the effective dates provided in the regulations. For example, it is possible that the U.S. Internal Revenue Service ("IRS") could assert that a reconstitution or rebalancing of an underlying basket or index is a significant modification of the Securities due to an exercise of discretion with respect to such reconstitution or rebalancing and, therefore, a deemed issuance of the Securities upon the occurrence of such event. It is also possible that U.S. withholding tax could apply to the Securities under these rules if a holder enters, or has entered, into certain other transactions in respect of the underlying equity or the Securities. A holder that enters, or has entered, into other transactions in respect of the underlying or the Securities should consult its own tax advisor regarding the application of Code section 871(m) to its Securities in the context of its other transactions.

Withholding on payments will be based on actual dividends or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Security. If a Security provides for any payments in addition to estimated dividends to reflect dividend amounts on the underlying security, withholding will be based on the total payments. If an issue of Securities is a section 871(m) transaction, information regarding the amount of each dividend equivalent, the delta of the potential 871(m) transaction, the amount of any tax withheld and deposited, the estimated dividend amount and any other information necessary to apply the regulations in respect of such Securities will be provided, communicated, or made available to holders of the Securities in a manner permitted by the applicable regulations. Withholding tax may apply even where holders do not receive a concurrent payment on the Securities in respect of dividends on the underlying. U.S. tax will be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent.

If withholding applies, the rate of any withholding may not be reduced even if the holder is otherwise eligible for a reduction under an applicable treaty, although non-U.S. holders that are entitled to a lower rate of withholding under a tax treaty may be able to claim a refund for any excess amounts withheld by filing a U.S. tax return. However, holders may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit a holder with withholding taxes remitted in respect of its Security for purposes of claiming a refund. Finally, a holder's resident tax jurisdiction may not permit the holder to take a credit for U.S. withholding taxes related to the dividend equivalent amount. The Issuer will not pay any additional amounts with respect to amounts withheld.

The relevant Issue Terms may indicate if the Issuer has determined that a Security is a transaction subject to withholding under section 871(m). Although the Issuer's determination generally is binding on holders, it is not binding on the IRS. The IRS may successfully argue that a Security is subject to withholding under section 871(m), notwithstanding the Issuer's determination to the contrary. These regulations are extremely complex. Holders should consult their tax advisors regarding the U.S. federal income tax consequences to them of section 871(m) and regulations thereunder, and whether payments or deemed payments on the Securities constitute dividend equivalent payments.

Foreign Investment in U.S. Real Property Tax Considerations

A holder may be subject to U.S. federal income tax on a disposition of a "U.S. real property interest" as defined in Treasury Regulations section 1.897-1(c) (a "USRPI"). Any gain on such disposition is treated as effectively connected with a U.S. trade or business of the non-U.S. holder and is subject to tax and withholding on the amount realised on the disposition. A USRPI may consist of a direct interest in U.S. real property or an interest in a United States real property holding corporation (a "USRPHC") within the meaning of section 897 of the Code. However, an interest in a USRPHC that does not exceed generally 5 per cent. of the corporation's regularly traded stock is not a USRPI.

We do not intend to determine whether the issuer of shares in any underlying is a USRPHC. It is possible that the issuer of shares in an underlying is a USRPHC, and that the Securities constitute an ownership interest in or an option on a USRPI, with the consequences described above. It is also possible that the issuer of shares in such underlying is not a USRPHC.

Each holder, in connection with acquiring the securities, is deemed to represent that it does not own, and will not own, more than 5 per cent. of the shares of each of the underlying that is considered to be a USRPHC, either directly, indirectly or constructively. We and any withholding agent will rely on the accuracy of this representation. For purposes of this discussion, any interest other than solely as a creditor within the meaning of Treasury Regulations Section 1.897-1(d) shall be treated as ownership of shares of the underlying. Even if the Issuer does not withhold, there can be no assurances that an intermediary withholding agent will not withhold in respect of a security. Further, holders may have U.S. income tax liability that exceeds amounts withheld, if any. The Issuer will not make any additional payments for any amounts withheld or tax liability arising under section 897 of the Code.

Holders should consult their own tax advisors on the impact of other shares or interests in the underlying, the impact of ownership of the Securities on such other shares or interests, and the consequences of making the representation in the preceding paragraph.

Reporting and Withholding under Foreign Account Tax Compliance Act (FATCA)

Under certain tax information reporting and withholding provisions generally referred to as "FATCA", a 30 per cent. withholding tax is imposed on "withholdable payments" and certain "passthru payments" made to (i) a "foreign financial institution" unless the financial institution complies with, among other things, certain information reporting and withholding obligations with respect to its accounts in accordance with applicable rules implementing FATCA in the financial institution's jurisdiction or in accordance with an agreement entered into between the financial institution and the IRS, and (ii) any other Holder or beneficial owner that does not comply with the Issuer's or an intermediary financial institution's request for ownership certifications and identifying information.

"**FATCA**" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any U.S. or non-U.S. fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code. The term "withholdable payments" generally includes payments of fixed or determinable annual or periodical gains, profits, and income ("**FDAP**"), in each case, from sources within the United States (including payments on Securities treated as "dividend equivalents" under section 871(m) of the Code). "**Passthru payments**" means any withholdable payment and any "foreign passthru payment," which is currently not defined.

We and other intermediary foreign financial institutions may be required to report information to the IRS regarding the holders of the Securities and, in the case of holders or beneficial owners who (i) fail to provide the relevant information, (ii) are foreign financial institutions who are not in compliance with applicable information reporting requirements, or (iii) hold the Securities directly or indirectly through such non-compliant foreign financial institutions, we or another withholding agent may be required to withhold tax at a rate of 30 per cent on payments under the Securities. We will not be required to pay any additional amounts with respect to amounts withheld in connection with FATCA.

Subject to the exceptions described below, FATCA's withholding regime applies currently to withholdable payments and with respect to foreign passthru payments, will apply no earlier than the date that is two years after the date on which final U.S. Treasury regulations defining "foreign passthru payments" are published.

The discussion above reflects recently proposed U.S. Treasury regulations. The U.S. Treasury have indicated that taxpayers may rely on the proposed regulations until final regulations are issued, and the discussion above assumes that the proposed regulations will be finalised in their current form.

No assurance can be given that payments on the Securities will not be subject to withholding under FATCA. Each potential investor in Securities should consult its own tax advisor to determine how FATCA may affect an investment in the Securities in such investor's particular circumstance.

SWITZERLAND

The following statements and discussions of certain Swiss tax considerations relevant to the purchase, ownership and disposition of Securities are of a general nature only and do not address every potential tax consequence of an investment in Securities under Swiss law. This summary is based on treaties, laws, regulations, rulings and decisions currently in effect, all of which are subject to change. **It does not address the tax consequences of the**

Securities in any jurisdiction other than Switzerland. Potential investors will therefore need to consult their own tax advisers to determine the special tax consequences of the receipt, ownership and sale or other disposition of a Security.

Tax treatment depends on the individual tax situation of each investor and may be subject to change.

The Securityholders shall assume and be responsible to the proper governmental or regulatory authority for any and all taxes of any jurisdiction or governmental or regulatory authority, including without limitation, any state or local taxes, transfer taxes or fees, occupation taxes or other like assessments or charges that may be applicable to any payment delivered to them by the Issuer hereunder or applicable to the transactions covered hereby. The Issuer shall have the right, but not the duty, to withhold from any amounts otherwise payable to a Securityholder such amount as is necessary for the payment of any such taxes, fees, assessments or charges.

Swiss Withholding Tax

Payments on Securities and repayment of principal of Securities issued by the Issuer are not subject to Swiss withholding tax.

Potential amendment of the Swiss withholding tax act

On 3 April 2020, the Swiss Federal Council published a consultation draft on the reform of the Swiss withholding tax system applicable to interest. If enacted in its current form, this consultation draft would, among other things and subject to certain exceptions, replace the current debtor-based regime applicable to interest payments with a paying agent-based regime for Swiss withholding tax. Under this paying agent-based regime, subject to certain exceptions, (i) all payments classified as interest payments made by paying agents located in Switzerland to individuals resident for tax purposes in Switzerland would be subject to Swiss withholding tax, including any such payments made on Securities (as concerns the tax classification of Securities, see below "*Income Taxation, Securities held by Swiss resident holders as private assets, Classification*"), and (ii) interest payments to all other persons, including to foreign investors (except if through collective capital funds or collective capital fund like instruments), would be exempt from Swiss withholding tax. If such a new paying agent-based regime were to be enacted, a paying agent in Switzerland could be required to deduct or withhold withholding tax at a rate of 35% on any payment classified as interest (including issue discount, repayment premium or payment reflecting accrued interest) or other distributions in respect of a Security.

Swiss Securities Turnover Tax

The issue and the sale of a Security by the Issuer on the issuance day (primary market transaction) and the redemption of a Security by the Issuer are not subject to Swiss securities turnover tax, except that the issuance of a Security classified as collective-capital-investment-like product may be subject to Swiss securities turnover tax of up to 0.30% on the consideration paid, but only if a Swiss domestic bank or a Swiss domestic securities dealer (as defined in the Swiss stamp duty act) is a party, or acts as an intermediary, to the transaction.

Secondary market transactions in Securities with a maturity in excess of 12 months where a Swiss domestic bank or a Swiss domestic securities dealer (as defined in the Swiss stamp duty act) is a party, or acts as an intermediary, to the transaction may be subject to Swiss securities turnover tax at up to 0.30% of the purchase price, except that tax may be at up to 0.15% if the Security is classified as low exercise price call option or a future and classified as "*sub-participation*" in a single stock, a single bond or an interest in a single collective capital investment scheme or a single collective-capital-investment-like product of a Swiss or Liechtenstein resident issuer.

In contrast, secondary market transactions in Securities are generally exempt from Swiss securities turnover tax in the case of Securities which classify as ordinary derivatives, such as (i) plain vanilla call and put options (including low exercise price call options with a maturity exceeding 12 months but not prefunding the underlying asset by more than 50%, and low exercise price call options, irrespective of the prefunded amount, with a maturity not exceeding 12 months), provided that the underlying is not a bond or , (ii) plain vanilla futures (including futures with a maturity exceeding 12 months but not prefunding the underlying asset by more than 25% and, irrespective of the prefunded amount, futures with a maturity not exceeding 12 months, with the exception of futures with interest as underlying and prefunding of not more than 25%), in each case provided the Underlying Asset is not a bond, and (iii) fully funded Securities replicating a static index or a static basket of at least five shares.

The delivery of an Underlying Asset, that is a taxable security under the Swiss stamp tax act, such as a stock, a bond or structured product including a bond component bond, an interest in a collective capital investment fund or a collective-capital-investment-like product, to the holder of the Security is subject to Swiss securities turnover tax if a Swiss securities dealer, as defined in the Swiss federal stamp tax act, is a party or an intermediary to the delivery

and no exemption applies, at a rate of 0.15% if the Underlying Asset is a taxable security issued by a Swiss resident issuer or a Liechtenstein resident issuer and at a rate of 0.30% if the Underlying Asset is a taxable security issued by a non-Swiss resident issuer or a non-Liechtenstein resident issuer.

Swiss Income Taxation

I. *Non-Swiss resident holders*

A holder of a Security who is not resident in Switzerland for tax purposes and who during the taxation year has not engaged in a trade or business carried on through a permanent establishment in Switzerland to which the Security is attributable will in respect of such Security not be subject to income tax in Switzerland. As concerns the Swiss withholding tax on payments qualifying as interest payments, see above "*—Swiss Withholding Tax*", as concerns the automatic exchange on the international exchange of information in respect of financial assets, see below "*—Automatic Exchange of Information in Tax Matters*" and as concerns the Swiss facilitation of the FATCA implementation, see below "*—Swiss Facilitation of FATCA implementation*".

II. *Securities held by Swiss resident holders as private assets*

A. *Classification*

A Security may classify either as:

Structured financial instrument composed of a bond and one or more options, including a low exercise price call option prefunding the underlying asset by 50% or more if its maturity exceeds 12 months and a future prefunding the underlying asset by more than 25% if its maturity exceeds 12 months (see below, B.).

Ordinary derivatives like a plain vanilla call or put option on shares, commodities, precious metals, currencies or interest (including a low exercise price call option prefunding the underlying asset by not more than 50% if its maturity exceeds 12 months and a low exercise price call option fully or partially prefunding the underlying asset if its maturity does not exceed 12 months) and a plain vanilla future on such an underlying asset (including a future prefunding the underlying asset by not more than 25% if its maturity exceeds 12 months and a future fully or partially prefunding the underlying asset if its maturity does not exceed 12 months), in each case provided that the underlying is not a bond (see below, C.); or

Collective-capital-investment-like products such as a dynamic certificate on shares or on an index (see below, D.).

B. *Securities classified as structured financial instruments composed of a bond and one or more options*

The income tax treatment of a Security which is a structured financial instrument composed of a bond and one or more options on Underlying Assets depends on whether the Security for tax purposes:

on the one hand classifies as transparent or non-transparent depending on whether the bond and the option(s) are separable from each other or can be determined analytically (see below, a.), and

on the other hand classifies as product with predominant one-time interest payment (*intérêt unique prédominant or IUP*), because the yield-to-maturity of the Security derives from one single interest payment or, if there is more than one interest payment, predominately derives from an original issue discount or a repayment premium, or as product with no predominant one-time interest payment (*sans intérêt unique prédominant or non-IUP*) because its yield-to-maturity predominantly derives from periodic interest payments (see below, b.).

a. *Transparent and non-transparent products*

A Security which for tax purposes is a structured financial instrument composed of a bond and one or more options classifies for tax purposes as transparent if the values of the embedded bond and the embedded option(s) are disclosed separately from each other in the term sheet, the preliminary prospectus or the final prospectus, or, if this is not the case, if the Security is a standard product and the values of the bond and the option(s) embedded therein can be determined analytically at any time by using valuation models such as, inter alia, the "*bond floor pricing model*" of the Swiss Federal Tax Administration, Berne (Switzerland).

Subject to the taxation principles set forth below under "*—Securities without and with predominant one-time interest payment*", the classification of a Security as transparent or non-transparent product has the following income tax consequences:

Securities classified as transparent: If a Security classifies as transparent for tax purposes, i.e., if the embedded bond is disclosed separately from the embedded option(s) or if the conditions for analytical determination of the values of the embedded bond and the embedded option(s), as discussed above, apply, only the payments relating to the bond component constitute taxable income and the payments relating to the embedded option(s) are tax-free.

Securities classified as non-transparent: If the embedded bond is not disclosed separately from the embedded option(s) and if the conditions for analytical determination of the values of the embedded bond and the embedded option(s), as discussed above, do not apply, the Security classifies as non-transparent structured product and any return over the initial investment classifies as taxable interest payment.

b. *Securities without and with predominant one-time interest payment*

i. *Securities without predominant one-time interest payment (sans intérêt unique prédominant or non-IUP)*

A Security (whether or not transparent) classifies as product without predominant one-time interest payment (hereinafter, for purposes of this section, "**Non-IUP Product**") if its yield-to-maturity at issuance predominantly derives from periodic interest payments, i.e. not merely from one single interest payment or, if there is more than one interest payment, not predominantly from an original issue discount or a repayment premium.

A person who is an individual resident in Switzerland and who holds a Non-IUP Product as private asset is required to include the following income items as taxable income in his or her income tax return for the tax period in which he or she received or realized such income item, converted, as the case may be, from a foreign currency into Swiss Francs at the exchange rate prevailing at the time of payment, redemption or sale, issuance or purchase, respectively:

- (i) Any periodic interest payments,
- (ii) any one-time interest payment, and
- (iii) if the Security classifies as:

non-transparent, any amount equal to the positive difference between (a) the amount received upon redemption or sale of the Non-IUP Product, as applicable, and (b) its issue price on purchase in the primary market or its purchase price in the secondary market, as applicable (i.e., including, any gain, inter alia, in respect of the option(s), interest accrued or changes in foreign exchange rates or in the level of interest rates) (so-called straight differential taxation (reine Differenzbesteuerung), hereinafter for purposes of this section, "**Straight Differential Taxation**"); or

as transparent, premium payments for the option(s) and a gain, including gain in respect of the option(s), interest accrued or changes in foreign exchange rates or in the level of interest rates, realized on the sale or other disposal or redemption of the Non-IUP Product constitute tax-free private capital gain. A loss realized on the sale or other disposal of such a Non-IUP Product is a non-tax-deductible private capital loss.

ii. *Securities with predominant one-time interest payment (intérêt unique prédominant or IUP)*

A Security is classified as product with predominant one-time interest payment (hereinafter, for purposes of this section, "**IUP Product**") if at issuance of the product its yield-to-maturity solely or predominantly derives from an original issue discount or a repayment premium and not from periodic interest payments.

A person who is an individual resident in Switzerland and who holds an IUP Product as private asset must declare the following income items as taxable income in his or her income tax return for the tax period in which the income item was received or realized, converted, as the case may be, from a foreign currency into Swiss Francs at the exchange rate prevailing at the time of payment, redemption or sale, issuance or purchase, respectively:

- (i) Any periodic interest payments received on the IUP Product, and
- (ii) if the IUP Product classifies as non-transparent, any positive amount realized upon redemption or sale as determined by applying the Straight Differential Taxation method, as defined above (i.e., including payments and gain, inter alia, in respect of option(s), interest accrued or changes in foreign exchange rates or in the level of interest rates), or

(iii) if the IUP Product classifies as transparent, any amount equal to the positive difference between the value of the bond component of the IUP Product at redemption or sale, as applicable, and its value at primary or secondary market purchase, as applicable, whereby these values are determined by applying a valuation model such as, for instance, the "bond floor pricing model" used by the Swiss Federal Tax Administration, Berne (Switzerland), hereinafter for purposes of this section, "**Modified Differential Taxation**"). As a result, any other return, including premium payments for the option(s) and gain in respect of the option(s), classifies as tax-free private capital gain on the option(s), and a loss realized thereon as non-tax-deductible private capital loss.

A holder may offset any loss realized on the sale or redemption of an IUP Product on the bond component of the IUP Product, calculated in accordance with the respective taxation method, within the same taxation period against any gain (including periodic interest payments) realized by the holder on other products with predominant one-time interest payments.

C. Income tax treatment of Securities classified as ordinary derivatives

A capital gain realized by an individual resident in Switzerland on the sale or redemption of a Security classified as ordinary derivative (as concerns the tax classification of Securities, (see above "*Income Taxation, Securities held by Swiss resident holders as private assets, Classification*") and held as part of private assets is a tax-free private capital gain, and a capital loss a non-tax-deductible private capital loss. Dividend equalization payments on such a Security may constitute taxable investment income.

D. Security classified as collective-capital-investment-like products

A Security which classifies as an interest in a collective capital investment scheme or as collective-capital-investment-like product will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income from, and capital gains and losses realized on, the underlying assets, are reported and distributed separately.

Under such conditions and under the condition that the Issuer reports the income items and the capital gain and loss items to the Swiss Federal Tax Administration, an individual holding a Security which classifies as interest in a collective capital investment scheme or as collective-capital-investment-like product as part of his or her private assets must declare in taxable income (which he or she must report annually) the dividend and interest distribution (in case the Security is distributing the income realized on the underlying investments) or the dividend and interest credited in his favor (in case the Security is reinvesting the income realized on the underlying investments) as investment income (less attributable costs) on the underlying instruments. Any distributions or credits relating to capital gain on the underlying assets constitute tax-free private capital gains, and, conversely, any loss attributable a non-tax-deductible private capital loss. Gain realized on the sale of such a Security (including gains relating to dividends and interest accrued or paid inter-periodically on the underlying assets) is exempt from income taxation as a private capital gain, and, conversely, any loss is not tax-deductible.

If the dividend and interest income from, and capital gains and losses realized on, the underlying assets, are not reported and distributed separately, or the income items and capital gain and loss items are not reported to the Swiss Federal Tax Administration, the Swiss Federal Tax Administration can determine a taxable market based yield on the net fixed assets (taking into account the assets in which the product is invested).

III. Securities held as Swiss business assets and by private persons classified as professional securities dealers

Individuals who hold Securities as part of a business in Switzerland and Swiss resident corporate taxpayers and corporate taxpayers resident abroad holding Securities as part of a trade or business carried on through a permanent establishment in Switzerland are required to recognize any payments of interest and any capital gain or loss realized on the sale or other disposition of such Securities in their income statement for the respective tax period and will be taxable on any net taxable earnings for such period. The same taxation treatment also applies to Swiss resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, inter alia, frequent dealings or leveraged investments in securities.

Swiss Wealth and Capital Taxes

A Securityholder who is an individual resident in Switzerland for tax purposes, or is a non-Swiss resident holding Securities as part of a trade or business carried on through a permanent establishment in Switzerland, is required to include such Securities as part of private wealth or Swiss business assets, as applicable, and is subject to cantonal and communal wealth tax on any taxable wealth (including the Securities) if the Securities are held by natural persons, or cantonal and communal capital tax on any taxable capital (including the Securities) if the Securities are

held by corporate persons, in the case of Securities held as part of a trade or business carried on through a permanent establishment in Switzerland, to the extent taxable wealth or capital is allocable to Switzerland.

A Securityholder who is not resident in Switzerland for tax purposes and who during the taxation year has not engaged in a trade or business carried on through a permanent establishment in Switzerland to which Securities are allocable, will in respect of such Securities not be subject to any taxes on wealth or capital.

Automatic Exchange of Information in Tax Matters by Switzerland

Switzerland has concluded a multilateral agreement with the EU on the international automatic exchange of information ("AEOI") in tax matters, which applies to all EU member states. Further, Switzerland signed the multilateral competent authority agreement on the automatic exchange of financial account information (the "MCAA") and a number of bilateral AEOI agreements with other countries, most of them based on the MCAA. Based on such agreements and the implementing laws of Switzerland, Switzerland collects and exchanges data in respect of financial assets, including Securities, as the case may be, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU member state or another treaty state. An up-to-date list of the AEOI agreements to which Switzerland is a party that are in effect or signed but not yet effective can be found on the website of the State Secretariat for International Financial Matters SIF.

Swiss Facilitation of the Implementation of FATCA

Switzerland has concluded an intergovernmental agreement with the United States, to facilitate the implementation of FATCA. The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance on the basis of the double taxation agreement between the United States and Switzerland (the "**Treaty**"). On 20 September 2019, Switzerland and the United States ratified the 2009 protocol (the "**Protocol**") amending the Treaty. Upon the subsequent exchange of the ratification instruments, the amended Treaty entered into force. The Protocol introduced a mechanism for the exchange of information upon request in tax matters between Switzerland and the United States, which mechanism is in line with international standards and allows the United States to make group requests under FATCA concerning non-consenting U.S. accounts and non-consenting non-FFIs for periods from 30 June 2014. Furthermore, on 8 October 2014, the Swiss Federal Council approved a mandate for negotiations with the United States regarding a change from the current direct notification-based regime to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the U.S. tax authorities. It is not yet known when negotiations will continue or when any new regime would come into force.

UNITED KINGDOM

The following is a summary of the Issuer's understanding of current United Kingdom tax law (as applied in England and Wales) and published HM Revenue and Customs' ("HMRC") practice relating only to the United Kingdom withholding tax treatment of payments in respect of Securities. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of Securities. The United Kingdom tax treatment of prospective holders of Securities depends on their individual circumstances and may be subject to change in the future. Holders of Securities who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to securities such as the Securities include: interest, annual payments and manufactured payments.

Payments of interest on the Securities

Whether or not payments or any part of any payment on a Security will constitute "interest" will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

The Issuer will be entitled to make payments of interest on the Securities without deduction of or withholding on account of United Kingdom income tax if:

- (a) the Issuer is and continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 ("**ITA 2007**"); and

- (b) the interest on the Securities is and continues to be paid in the ordinary course of the Issuer's business within the meaning of section 878 ITA 2007.

Payments of interest on the Securities may be made without deduction of or withholding on account of United Kingdom income tax if the Securities carry a right to interest and the Securities are and continue to be; (i) listed on a "recognised stock exchange" within the meaning of section 1005 ITA 2007 or (ii) admitted to trading on a "multilateral trading facility" operated by a "recognised stock exchange" that is regulated in the United Kingdom or in the EEA within the meaning of section 987 of the ITA 2007. If these conditions are met, interest on the Securities will be payable without deduction of or withholding on account of United Kingdom tax whether or not the Issuer is a bank and whether or not the interest is paid in the ordinary course of its business.

In other cases, an amount must generally be withheld from payments of interest on the Securities on account of United Kingdom income tax at the basic rate (currently 20%), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC can issue a notice to the Issuer to pay interest to the holder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Annual Payments

If a periodic payment on a Security were not "interest", and not repayment of principal, then such payment could constitute an "annual payment". Whether or not any periodic payment were to constitute an "annual payment" for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest or other periodic payment on that Security, payments should not generally constitute "annual payments".

An amount must generally be withheld from "annual payments" on Securities on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC can issue a notice to the Issuer to make payments on the Securities to the holder without deduction of tax (or for the relevant amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Manufactured Payments

Payments on the Securities should not constitute "manufactured payments" subject to any deduction of or withholding on account of United Kingdom income tax unless:

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a "company UK REIT" or the "principal company" of a "group UK REIT" (all bearing the same meaning as in section 918 ITA 2007) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and
- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

If such a "manufactured payment" were paid by the Issuer then the Issuer may (subject to reliefs and exemptions) be required to make a deduction of or withholding on account of United Kingdom income tax from such payment at the basic rate. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HMRC may be able to issue a notice to the Issuer to make the "manufactured payment" to the holder without deduction of tax (or for relevant amount to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

BAHAMAS

Under the laws of The Bahamas, holders of the Securities are not liable to pay any income tax, capital gains tax, inheritance tax, estate tax, transfer tax, sales tax or any similar taxes, imposed by The Bahamas government, on income or distributions accruing to them as a result of or derived from the Securities or otherwise in connection with any transaction concerning the Securities, including without limitation, the acquisition or disposal of the Securities or any interest therein.

Where the Securities qualify as "foreign currency denominated debt instruments" for the purpose of Bahamian law (i.e. notes, bonds, debentures, or other instruments or certificates of indebtedness or obligation, including contingent indebtedness or obligation that are: (a) denominated in a currency other than Bahamian currency; (b) of any maturity whatsoever; and (c) offered for issuance outside The Bahamas by a licensed bank in The Bahamas), stamp duty shall be payable by the Issuer in the amount of USD1,000.

BELGIUM

The following is a summary of the principal Belgian tax considerations with respect to the holding of Securities obtained by a Belgian investor following an offer in Belgium.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Securities. In some cases, different rules can be applicable.

This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this Securities Note, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

Unless otherwise stated herein, this summary does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into assets, of the exercise, settlement or redemption of such Securities or any tax consequences after the moment of exercise, settlement or redemption.

Each investor should consult a tax adviser as to the tax consequences relating to its particular circumstances resulting from holding the Securities.

Belgian tax regime regarding Notes and Certificates

Withholding tax and income tax treatment

Tax treatment of Belgian resident individuals

Individuals who are Belgian residents for tax purposes, i.e., individuals subject to the Belgian individual income tax (*Personenbelasting/Impôt des personnes physiques*) and who hold Notes or Certificates as a private investment, are in principle subject to the following tax treatment in Belgium with respect to Notes and Certificates. Other tax rules apply to Belgian resident individuals holding Notes and Certificates not as a private investment but in the framework of their professional activity.

The following amounts are treated as interest for Belgian withholding tax purposes: (i) periodic interest income, (ii) any amount paid by the Issuer in excess of the issue price, and (iii) if the debt securities qualify as fixed income securities in the meaning of article 2, §1, 8° of the Belgian Income Tax Code, in case of a realisation of the debt securities prior to repurchase or redemption by the Issuer, the income equal to the pro rata of accrued interest corresponding to the detention period. A debt security will in general be a fixed income security if there is a causal link between the amount of interest income and the detention period of the security, on the basis of which it is possible to calculate the amount of pro rata interest income at the moment of the sale of the security during its lifetime.

The Belgian tax administration issued a circular letter on 25 January 2013 on the tax treatment of income of structured securities characterised by an uncertain return due to the variation of the coupons or the repayment terms at maturity, such as securities whose return is linked with the performance of underlying products or values as fixed income securities.

According to the circular letter, the transfer of structured securities to a third party (other than the issuer) results in taxation as interest income of the "pro rata interest", calculated on an unclear formulae. In addition, any amount paid in excess of the initial issue price upon redemption or repayment of the structured securities is considered as interest for Belgian tax purposes. There is therefore a possibility that the Belgian tax authorities will want to characterise the Notes and Certificates, whose (periodic) return is linked to the performance of the Underlying Assets as such structured securities, even though it is highly debatable whether this circular letter is in line with Belgian tax legislation.

Payments of interest on Notes and Certificates which qualify as interest (as defined above for Belgian tax purposes) and which are made through a paying agent or other financial intermediary in Belgium will in principle be subject to

a 30 per cent. withholding tax (calculated on the interest received after deduction of any non-Belgian withholding taxes).

The Belgian withholding tax constitutes in principle the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Notes and Certificates in their personal income tax return, provided the withholding tax was effectively levied on such interest payments. Nevertheless, Belgian resident individuals may elect to declare interest on the Notes and Certificates in their personal income tax return. Interest income which is declared this way will in principle be taxed at a flat rate of 30 per cent. or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial and no local surcharges will be due.

If the interest is paid outside of Belgium, i.e., without the intervention of a paying agent or other financial intermediary established in Belgium, the interest received on Notes and Certificates (after deduction of any non-Belgian withholding tax) must however be declared in the personal income tax return of the holder and will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial) and no local surcharges will be due.

Capital gains realised upon the sale of Notes and Certificates are in principle tax exempt, unless the capital gains are realised outside the scope of the normal management of one's private estate or are speculative in nature or unless and to the extent that the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

Tax treatment of Belgian resident corporations

Corporations that are Belgian residents for tax purposes, i.e., corporations subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*) are in principle subject to the following tax treatment in Belgium with respect to Notes and Certificates.

Interest derived by Belgian corporate investors on the Notes and Certificates and capital gains realised on Notes and Certificates will be subject to Belgian corporate income tax at the ordinary rate of 25 per cent. for the financial years starting on or after 1 January 2020. A lower 20 per cent. rate applies to small companies for the first EUR 100,000 of taxable profits and subject to a number of conditions. Capital losses are in principle tax-deductible.

Payments of interest (as defined in the section "Tax treatment of Belgian resident individuals") on Notes and Certificates made through a paying agent or other financial intermediary in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). However, interest from bonds and similar securities (other than those the interest of which is capitalised) issued by non-residents can under certain circumstances be exempt from withholding tax, provided a special certificate is delivered. The Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions.

Tax treatment of a Belgian Organisation for Financing Pensions

Belgian pension fund entities that have the form of an Organisation for Financing Pensions ("**OFP**") are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*). OFPs are subject to the following tax treatment in Belgium with respect to Notes and Certificates.

Interest derived from and capital gains realised on Notes and Certificates will not be subject to Belgian Corporate Income Tax in the hands of OFPs. Any Belgian withholding tax that has been levied is creditable and refundable in accordance with the applicable legal provisions. Capital losses on the Notes and Certificates are in principle not tax deductible.

Tax treatment of other Belgian legal entities

Legal entities that are Belgian residents for tax purposes, i.e., that are subject to the Belgian tax on legal entities (*Rechtspersonenbelasting/Impôt des personnes morales*) are in principle subject to the following tax treatment in Belgium with respect to Notes and Certificates.

Payments of interest (as defined in the section "Tax treatment of Belgian resident individuals") on Notes and Certificates made through a paying agent or other financial intermediary in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

Taxation

However, if the interest is paid outside Belgium, i.e., without the intervention of a financial intermediary in Belgium, the legal entity itself is liable for the payment of the Belgian 30 per cent. withholding tax.

Capital gains realised on the sale of Notes and Certificates are in principle tax exempt, unless and to the extent that the capital gain qualifies as interest (as defined in the section "Tax treatment of Belgian resident individuals"). Capital losses on Notes and Certificates are in principle not tax deductible.

Tax treatment of non-resident investors

The interest income on Notes and Certificates paid to a non-resident investor outside of Belgium, i.e., without the intervention of a paying agent or other professional intermediary in Belgium, is not subject to Belgian withholding tax.

Interest (as defined in the section "Tax treatment of Belgian resident individuals") on Notes and Certificates paid through a Belgian financial intermediary will in principle be subject to a 30 per cent. Belgian withholding tax, unless the holder is resident in a country with which Belgium has concluded a double taxation agreement which is in effect and delivers the requested affidavit.

Non-resident holders that have not allocated the Notes or the Certificates to business activities in Belgium can also obtain an exemption from Belgian withholding tax on interest if the interest is paid through a Belgian credit institution, a Belgian stock exchange company or a licensed Belgian clearing or settlement institution and provided that the non-resident (i) is the full legal owner or usufructory of the Notes or Certificates, (ii) has not allocated the Notes or Certificates to business activities in Belgium and (iii) delivers an affidavit confirming his non-resident status and the fulfilment of conditions (i) and (ii).

Non-resident holders using Notes or Certificates to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident corporations (see above).

Non-resident holders who do not allocate the Notes or the Certificates to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax (see above).

Belgian tax regime regarding Warrants

Investors are in principle subject to the following tax treatment with respect to the Warrants. Other rules can be applicable in special situations, such as when the return on the underlying is fixed in advance, in which case the holders of the Warrants may be subject to the tax regime applicable to the Warrants.

This summary does not address the tax consequences after the moment of exercise, settlement or redemption of the Warrants.

Belgian withholding tax and income tax

Tax treatment of Belgian resident individuals

Individuals who are Belgian residents for tax purposes, i.e., individuals subject to the Belgian individual income tax (*Personenbelasting/Impôt des personnes physiques*) and who hold the Warrants as a private investment, are in principle subject to the following tax treatment in Belgium with respect to Warrants.

Private individual investors are in principle not liable to income tax on gains realised on the disposal or settlement of Warrants held as a private investment, unless and to the extent that the gain qualifies as interest income. Losses are not tax deductible.

Other tax rules may be applicable with respect to Warrants that are held for professional purposes and transactions with Warrants falling outside the scope of the normal management of one's own private estate.

Tax treatment of Belgian resident corporations

Corporations that are Belgian residents for tax purposes, i.e., corporations subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*) are in principle subject to the following tax treatment in Belgium with respect to Warrants.

Belgian corporations will be subject to the Belgian corporate income tax of 25 per cent. (or 20 per cent. for small companies on the first EUR 100,000 of profits) for financial years starting on or after 1 January 2020 on the gains realised on the disposal or cash settlement of the Warrants. Losses are in principle deductible.

However, in the event of a physical delivery of assets upon exercise of Warrants, Belgian corporations in principle have to record the assets received upon exercise at a value equal to the premium paid for the Warrants increased with the strike price of the Warrants.

Tax treatment of a Belgian Organisation for Financing Pensions

Belgian pension fund entities that have the form of an OFP are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*). OFPs are in principle subject to the following tax treatment in Belgium with respect to Warrants.

Belgian OFPs are not liable for income tax on gains realised on the disposal or settlement of the Warrants. Capital losses are in principle not deductible.

Tax treatment of other Belgian legal entities

Legal entities that are Belgian residents for tax purposes, i.e., that are subject to the Belgian tax on legal entities (*Rechtspersonenbelasting/Impôt des personnes morales*) are in principle subject to the following tax treatment in Belgium with respect to Warrants.

Belgian legal entities are in principle not liable to income tax on gains realised on the disposal or settlement of the Warrants, unless and to the extent that the gain qualifies as interest. Losses are not tax deductible.

Non-resident investors

Non-resident Warrant holders who do not allocate the Warrants to a professional activity in Belgium are in principle not subject to Belgian income tax on gains realised on the disposal or settlement of the Warrants.

Non-residents who use the Warrants to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian residents.

Stock exchange tax and tax on repurchase transactions

A stock exchange tax (*Taks op de beursverrichtingen/Taxe sur les opérations de bourse*) will be levied on the purchase and sale of the Securities on a secondary market through a professional intermediary taking place in Belgium. A transaction is also deemed to take place in Belgium if the order is transmitted directly or indirectly to an intermediary established outside of Belgium by a physical person with normal residence in Belgium or by a legal person on behalf of a seat or establishment located in Belgium.

The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is 0.12 per cent. for debt instruments and 0.35 per cent. for other securities, with a maximum amount of EUR 1,300 respectively EUR 1,600 per transaction and per party. A separate tax is due from each of the seller and the purchaser, both collected by the professional intermediary.

A tax on repurchase transactions (*Taks op de reporten/Taxe sur les reports*) at the rate of 0.085 per cent. subject to a maximum of EUR 1,600 per party and per transaction, will be due from each party to any such transaction entered into or settled in Belgium in which a professional intermediary for stock transactions acts for either party.

However, the tax on stock exchange transactions and the tax on repurchase transactions referred to above will not be payable by exempt persons acting for their own account, including non-residents (subject to certain formalities) and certain Belgian institutional investors, as defined in Articles 126-1.2° and 139bis of the Code of various duties and taxes (*Wetboek diverse rechten en taksen/Code des droits et taxes divers*).

Common Reporting Standard

The exchange of information is governed by the Common Reporting Standard (the "**Common Reporting Standard**" or "**CRS**"). On 29 October 2014, 51 jurisdictions signed the CRS Multilateral Competent Authority Agreement ("**CRS MCAA**") which is a multilateral framework agreement to automatically exchange financial and personal information under the CRS. Since then, another 57 jurisdictions signed the CRS MCAA. In Belgium the

CRS MCAA has been adopted by a law of 30 August 2017 containing approval of the Multilateral Competent Authority Agreement on the automatic exchange of information concerning financial accounts signed in Berlin on 29 October 2014.

Under CRS, financial institutions resident in a CRS country are required to report, according to a due diligence standard, financial information with respect to reportable accounts, which includes interest, dividends, account balance or value, income from certain insurance products, sales proceeds from financial assets and other income generated with respect to assets held in the account or payments made with respect to the account. Reportable accounts include accounts held by individuals and entities (which include trusts and foundations) with fiscal residence in another CRS country. The standard includes a requirement to look through passive entities to report on the relevant controlling persons.

On 9 December 2014, the Economic and Financial Affairs Council of the European Union officially adopted Directive 2014/107/EU revising the Directive on Administrative Cooperation 2011/16/EU (the "**ACD**") (regarding mandatory automatic exchange of information in the field of taxation), which effectively incorporates the Common Reporting Standard applicable as from 1 January 2016 (although Austria had been allowed to exchange information as from 1 January 2017).

Belgium has implemented the Directive 2014/107/EU by way of a law of 16 December 2015 (as amended) regarding the exchange of information concerning financial accounts by the Belgian financial institutions and the Federal Government Service Finance in the framework of an automatic exchange of data on international level and for taxation purposes. It imposes Belgian Reporting Financial Institutions to gather and automatically report certain data on reportable accounts and payments to non-participating financial institutions to the Belgian competent authority for automatic exchange with the competent authority of other states in or outside the European Union and this with effect from 2016.

As a result of the law of 16 December 2015, the mandatory automatic exchange of information applies in Belgium (i) as of income year 2016 (first information exchange in 2017) towards the EU Member States (including Austria, irrespective of the fact that the automatic exchange of information by Austria towards other EU Member States was only foreseen as of income year 2017), (ii) as of income year 2014 (first information exchange in 2016) towards the US and (iii), with respect to any other non-EU States that have signed the MCAA, as of income year 2016 (first information exchange in 2017) for a first list of 18 countries, as of income year 2017 (first information exchange in 2018) for a second list of 44 countries, and as of income year 2018 (first information exchange in 2019) for a third list of 1 country.

Estate and gift tax

Individuals resident in Belgium

An estate tax is levied on the value of the Securities transferred as part of a Belgian resident's estate.

Gifts of Securities in Belgium are subject to gift tax, unless the gift is made by way of a purely physical delivery of bearer Securities (if any) or otherwise without written evidence of the gift being submitted to the Belgian Tax Administration for registration. However, estate taxes on donated Securities are avoided only if a person can demonstrate that the gift (not subject to gift tax) occurred more than three years preceding the death of the grantor.

Individuals not resident in Belgium

There is no Belgian estate tax on the transfer of Securities on the death of a Belgian non-resident.

Gifts of Securities in Belgium are subject to gift tax, unless the gift is made by way of a purely physical delivery of bearer Securities (if any) or otherwise without written evidence of the gift being submitted to the Belgian Tax Administration for registration.

DENMARK

Securities

The following is a summary description of general Danish tax rules applicable to individual investors and corporate investors resident in Denmark according to the Danish tax laws in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax

considerations that may be relevant to a decision to acquire, hold or dispose of the Securities, and does not purport to deal with the tax consequences applicable to all categories of investors. Investors are, under all circumstances, strongly advised to contact their own tax advisor to clarify the individual consequences of their investment, holding and disposal of the Securities. The Issuer makes no representations regarding the tax consequences of purchase, holding or disposal of the Securities.

The comments in the following apply only to (i) investors who are resident in Denmark, and (ii) investors who have a permanent establishment in Denmark to which the Securities can be attributed.

Withholding tax

When the Issuer is not a Danish tax resident person, Denmark does not levy withholding tax on payments on Securities.

Taxation of Securities in General

Individual investors resident in Denmark

Securities held by individual investors who are resident in Denmark for Danish tax purposes may fall within two categories depending on whether the interest rate and/or the principal is adjusted according to certain reference assets.

For tax purposes a distinction is made between financial contracts that are taxed separately and other contracts/financial contract that are taxed on basis of the classification of the underlying asset.

The general rule is that financial contracts include any contract on the future delivery of assets at an agreed price, such as warrants, options and similar derivative contracts. Securities, the principal or income on which is fully or partially linked to the price development on securities, goods, indices, or assets etc. are treated as financial contract as long as the price development can be subject to a financial contract. The Danish taxation of the income is described below.

As an exception, other notes and certificates include contracts linked to certain specified asset that are agreed to actually be delivered and contracts linked solely to the development in a foreign currency and certain consumer price or net price indices. The income on such contracts (e.g. warrants) is taxed as part of the income on the underlying asset, unless the contract is terminated before delivery or disposed of, in which case the income on the contract is treated as income on a financial contract. The Danish taxation of the income on other notes and certificates is not described in this section.

To the extent gains and losses are included in the taxable income of the investor, they will be taxable as capital income.

Capital income is taxed at a rate of up to 42 per cent. (2020). Income taxable as interest is taxed as capital income in the income year in which it falls due.

Notes and Certificates not subject to Section 29(3) of the Capital Gains Tax Act

Gains and losses on Notes and Certificates issued that are not subject to Section 29(3) of the Capital Gains Tax Act, are included in the calculation of capital income. However, an immateriality threshold will apply to the effect that net gains and losses on (i) receivables not taxable according to Section 29(3) of the Capital Gains Tax Act, debt in currency other than Danish kroner ("**DKK**") cf. Section 23 of the Capital Gains Tax Act and, (ii) certain units in certain types of investment funds comprised by Section 22 of the Act on Capital Gains on Shares Tax Act, see Consolidated Act no. 1148 of 29 August 2016 as amended from time to time ("*aktieavancebeskatningsloven*"), below DKK 2,000 per year will not be included in the taxable income. Further, tax deductibility of losses realised on Notes and Certificates which are traded on a regulated market is subject to the Danish tax authorities having been notified of the acquisition of the Notes or Certificates as further outlined in Section 15 of the Capital Gains Tax Act. Further, losses realised on Notes and Certificates on which Denmark pursuant to a tax treaty is prevented from taxing interest or gains will not be deductible.

The Notes and Certificates are taxed upon realisation, i.e., redemption or disposal. Gains and losses are calculated in DKK as the difference between the acquisition sum and the value at realisation.

For individuals holding Notes and Certificates as part of their trade, if an original issue of Notes and Certificates and a new issue of Notes and Certificates are listed under the same ID code, the acquisition sum for all such Notes and Certificates is calculated on an average basis. Furthermore, if an original and a new issue of Notes and Certificates, issued by the same Issuer, are not listed under the same ID code, but denominated in the same foreign currency, the acquisition sum for all such Notes and Certificates is calculated on an average basis, provided that the issues are identical. Issues are as a general rule deemed identical if the currency, interest and term are identical.

Individuals not holding Notes and Certificates as part of their trade use the "first-in, first-out" principle when calculating the gain on the Notes and Certificates.

From 1 March 2015, individuals may elect to apply a mark-to-market principle for all receivables (including Notes and Certificates) traded on a regulated market and/or currency exchange gains and losses on receivables and debt (including Notes and Certificates) denominated in other currencies than Danish kroner (DKK). The election of the mark-to-market principle must be made collectively for all the receivables and bonds respectively traded on a regulated market. Once the mark-to-market principle is elected, a change back to the realisation principle requires approval from the Danish tax authorities. Under the mark-to-market principle, a gain or a loss is calculated as the difference between the value of the Note or Certificate at the beginning and the end of the income year, beginning with the difference between the acquisition sum of the Note or Certificate and the value of the Note or Certificate at the end of the same income year. Upon realisation of the Note or Certificate, i.e., redemption or disposal, the taxable income of that income year equals the difference between the value of the Note or Certificate at the beginning of the income year and the value of the Note or Certificate at realisation. If the Note or Certificate has been acquired and realised in the same income year, the taxable income equals the difference between the acquisition sum and the value at realisation.

Notes and Certificates subject to Section 29(3) of the Capital Gains Tax Act

Gains on Notes and Certificates that are subject to section 29(3) of the Capital Gains Tax Act are included in the calculation of capital income. Losses on such Notes and Certificates can be deducted in gains on financial contracts according to certain rules, see below. The said section 29(3) can be summarised as follows:

Notes and Certificates that are wholly or partly adjusted according to development in prices and other reference relevant to securities, commodities and other assets, provided that the development can be subject to a financial contract, are treated as financial contracts and as such the income is calculated using the mark-to-market principle as described above in section *Notes and Certificates not subject to Section 29(3) of the Capital Gains Tax Act*. Certain exceptions apply with respect to Notes and Certificates adjusted according to the development of certain official indexes within the European Union.

Certain restrictions on the deductibility of losses apply to financial contracts, under which the net loss on financial contracts in an income year can only be deducted to the extent the net loss does not exceed the net gains on financial contracts in previous income years (after 2002). Financial contracts in this context comprise put options, call options and forward contracts that are separately taxable as well as claims taxable as financial contracts in Section 29(3) of the Capital Gains Tax Act, excluding claims where the first creditor has acquired the claim before 4 May 2005. Any remaining net loss (not deducted) can be offset in net gains obtained by a spouse in the same income year.

Losses not deducted in one income year can be carried forward indefinitely to be set off against net gains on financial contracts of the following income years for the tax-payer and the tax-payer's spouse.

Further losses can be set off against gains realised on shares traded on a regulated market if the financial contract solely contemplates a right or an obligation to purchase or sell shares or is based on a share index and if the underlying shares or the shares that the index is based on are traded on a regulated market. Such losses can also be deducted in the income of a spouse, subject to the conditions above.

Individual investors who are subject to the special business tax regime ("*virksomhedsskatteordningen*") may invest in the Notes and Certificates comprised by Section 29(3) of the Capital Gains Tax Act within the said tax regime, in Section 1(2) of the Business Tax Regime Act ("*virksomhedsskatteoven*"). Gains and losses on Notes and Certificates that are deemed to have relation to the business are included when calculating the annual taxable income of the business. A gain or a loss is calculated according to the abovementioned rules. Income taxable as interest is taxed in the income year in which it accrues. Gains and interests that form part of an annual profit that remains within the tax regime, set out in Section 10(2) of the Business Tax Regime Act are subject to a provisional tax of 22 per cent.

Pension funds and life insurance companies

Income on the Securities held by individual pension fund schemes as well as by multi-employer occupational pension funds or mutual insurance companies are taxed under the rules of the Pension Yield Taxation Act ("*pensionsafkastbeskatningsloven*").

The calculation of the tax base as well as the payment of tax on the Securities held by individual pension funds is handled by the bank managing the pension funds separately from the other (free) assets of the individual.

Income on the Securities held by multi-employer occupational pension funds or mutual insurance companies is primarily taxed upon allocation to the individual provisions of the policy holders with a secondary taxation of income allocated to the non-individualised reserves. The same method of calculation of the tax base applies to the Securities held by life insurance companies. A 15.3 per cent (2020) tax rate is applied to the part of the income allocated to the non-individualised reserves, and a 22 per cent (2020) corporate income tax rate is applied to the income allocated to the equity of the life insurance company.

Corporate investors resident in Denmark

Gains and losses on the Securities are included in the calculation of taxable income using the mark-to-market principle. The tax rate is 22 per cent. (2020). Income taxable as interest is taxed in the income year in which it accrues. The mark-to-market principle applies irrespective of whether the Securities are regarded as structured bonds in accordance with Section 29(3) of the Capital Gains Tax Act.

Please refer to above for a description of the mark-to-market calculation.

Corporate investors holding Notes, Certificates and Warrants that are wholly or partly adjusted in accordance with developments in prices of securities, commodities and other assets which can be made subject to a derivative, cf. Section 29(3) of the Capital Gains Tax Act, may not be entitled to deduct losses on such Notes, Certificates and Warrants when linked to certain types of shares or share indices, and the Notes, Certificates and Warrants are not held in a professional trading capacity for Danish tax purposes.

Notes, Certificates and Warrants falling outside the scope of the Capital Gains Tax Act

Under Danish law, financial instruments in the form of forward contracts or options in a broad sense, are generally governed by the Capital Gains Tax Act. Basically, this entails that gains and losses on the financial instruments (including any premium paid or received) are taxed separately from the underlying asset. Accordingly, the Capital Gains Tax Act does not apply with respect to inter alia Certificates entailing a right to purchase or sell shares (or certain currency exchange contracts in connection with purchase and sale of Notes, Certificates and Warrants), provided:

- that the financial contract may only be exercised against the actual delivery of the underlying asset in question (and thus not settled in cash or otherwise);
- that the financial contract is not assigned, i.e. the parties to the financial contract remain the same; and
- that no "reverse financial contracts" have been entered into.

The delivery requirement is only satisfied when the entire underlying asset is delivered at maturity. A net share settlement where the amount owed under the financial contract is fulfilled by delivery of the requisite number of shares does not therefore qualify as a "delivery".

A significant change to the contract made after its conclusion but prior to its maturity would be deemed an assignment. An extension at maturity or early unwinding could well be deemed a significant change.

Reverse financial contracts are defined as two (or more) contracts where a particular asset is purchased pursuant to one or more contracts and is subsequently sold by the same party pursuant to one or more contracts. The crucial point is whether the same party holds both a put and call option. In the affirmative, the put and call are deemed reversed. If one party has a put option and the other a call option, this would not qualify as a reverse situation.

If all three conditions above are fulfilled, the financial contract is not taxed separately as a financial instrument, and only the purchase and sale of the underlying asset as per the terms of the financial contract is taxed. Taxation of the investor will then depend on the type of underlying asset.

FRANCE

The following is a summary addressing only certain French tax consequences in relation to the holding of the Securities. This summary is based on the laws and regulations in full force and effect in France as at the date of this Securities Note, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that this summary is of a general nature and does not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the subscription, acquisition, holding, redemption or disposal of the Securities.

Withholding taxes on payments made under Securities issued by the Issuer

This summary is prepared on the assumption that the Issuer is not and will not be a French resident for French tax purposes and any transactions in connection with the Securities are not and will not be attributed or attributable to a French branch, permanent establishment or other fixed place of business of the Issuer in France.

In respect of those Securities which are treated as debt for French tax purposes, all payments by the Issuer in respect of such Securities will be made free of any compulsory withholding or deduction for or on account of any income tax imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A I of the French Code *général des impôts* and subject to certain exceptions, interest and similar revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Such interest and similar revenues received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are also subject to social contributions (CSG, CRDS and solidarity levy) which are withheld at an aggregate rate of 17.2 per cent., subject to certain exceptions.

In respect of those Securities which are not treated as debt for French tax purposes, all payments by the Issuer in respect of such Securities will be made free of any compulsory withholding or deduction for or on account of any income tax imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

Transfer tax and other taxes

The following may be relevant in connection with Securities which may be exercised, settled or redeemed by way of physical delivery of (i) certain listed shares or certain assimilated securities issued by a company whose registered office is situated in France or (ii) securities representing such shares (or assimilated securities)

Pursuant to Article 235 ter ZD of the French Code *général des impôts*, a financial transaction tax (the "**French FTT**") is applicable to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) within the meaning of Article L.212-1 A of the French Code *monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) within the meaning of Article L.211-41 of the French Code *monétaire et financier*, admitted to trading on a recognised stock exchange when such security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds 1 billion Euros on 1 December of the year preceding the year in which the imposition occurs (the "**French Shares**") or (ii) a security (*titre*) representing French Shares (irrespective of the location of the registered office of the issuer of such security). The rate of the French FTT is 0.3 per cent. of the acquisition value of the French Shares (or securities representing French Shares).

There are a number of exemptions from the French FTT and investors should consult with their counsel to identify whether they can benefit from them.

If the French FTT applies to an acquisition of French Shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

GREECE

The following is a summary of certain material Greek tax consequences of the ownership and disposal of the Securities. The discussion is not exhaustive and does not purport to deal with all the tax consequences applicable to all possible categories of holders, some of which may be subject to special rules, and also does not touch upon procedural requirements such as proof of residence, the filing of a tax declaration or of supporting documentation required. Further, it is not intended as tax advice to any particular holder and it does not purport to be a comprehensive description or analysis of all of the potential tax considerations that may be relevant to a holder in view of such holder's particular circumstances.

The summary is based on the Greek tax laws in force on the date of this Securities Note, published case law, ministerial decisions and other regulatory acts of the respective Greek authorities as in force at the date hereof and does not take into account any developments or amendments that may occur after the date hereof, whether or not such developments or amendments have retroactive effect.

The individuals and legal persons and legal entities referred to below are assumed to be Greek tax residents or, in the case of legal persons and legal entities, permanent establishments of said legal persons or legal entities in Greece, through which the respective Securities are held. This is because, as the Securities are not listed in Greece and the Issuer is not a Greek undertaking or a Greek tax resident, no income in Greece would be generated where the holder is also not tax resident in Greece, provided that such payments are made outside of Greece by a paying or other similar agent who neither resides nor maintains a permanent establishment in Greece for Greek tax law purposes through which such payments are made.

Individuals are assumed not to be acting in the course of business for tax purposes.

Tax considerations are subject to the more favourable provisions of any applicable bilateral treaty for the avoidance of double taxation.

Individual holders

Payments of interest under the Securities

Payments of interest are subject to income tax at a rate of 15 per cent. If payment of interest is made through a Greek entity or through a Greek permanent establishment acting as paying agent, that paying agent will withhold the entire income tax owed.

Payments of dividends under the Securities

Payments of dividends are subject to income tax at a rate of 5 per cent.

Capital gains from the disposal/redemption of the Securities

Capital gains realised from the disposal/redemption of the Securities are subject to income tax at a rate of 15 per cent. Capital gains will equal the difference between the acquisition and the transfer (or expiry) price of a Security, plus/minus expenses directly related to the acquisition/transfer (or expiry) price of the Security. Capital gains may be set off, under certain circumstances, against capital losses from securities that have been incurred in the last 5 years.

- Notwithstanding the above, capital gains over bonds issued by EU, EEA and EFTA issuers are exempted from income tax over capital gains, as is the case with Greek corporate bonds. "Bonds" should be interpreted narrowly for the purposes of this exemption to include debt instruments representing a claim to receive back the entirety of an amount lent, which may be convertible to shares, may be exchangeable with other securities, may provide a right to interest and/or may provide a right to profits.
- Notwithstanding the above, capital gains from listed shares are exempted from income tax, provided that the seller holds less than 0.5 per cent. of the share capital of the issuer. This is relevant to the Securities insofar as the tax authority has, as regards a specific instance, equated listed warrants giving the right to acquire listed shares with listed shares. It is unclear whether this approach may be of more general application.

Taxation

- Notwithstanding the above, the tax authority has expressed the view that the difference between the acquisition value on the secondary market and the payment of principal received upon expiry of a corporate bond does not constitute capital gains. In this case "bonds" should again be interpreted narrowly, as above.

Tax credit

Tax credit is in principle available in Greece for income tax paid relating to the Securities abroad, upon filing of the appropriate documentation.

Solidarity contribution

All income, taxable or exempted, is subject to a tax called "solidarity contribution". Solidarity contribution is calculated on a graduated scale between 0 per cent. and 10 per cent., over the total income of an individual exceeding €12,000.

Legal Persons and Legal Entities

As a rule, all income of legal persons and legal entities is classified as income from business activities and taxed at a rate of 24 per cent. As regards payments of interest, if these are made through a Greek entity or through a Greek permanent establishment acting as paying agent, that paying agent will withhold tax at a rate of 15 per cent., and the tax withheld will be considered an advance over income tax owed for the respective financial year.

Notwithstanding the above, taxation of capital gains over bonds issued by EU, EEA and EFTA issuers is deferred until capitalisation or distribution, as is the case with Greek corporate bonds. Upon capitalization or distribution, capital gains are taxed at the then applicable corporate income tax rate. "Bonds" should be interpreted narrowly for the purposes of this exemption to include debt instruments representing a claim to receive back the entirety of an amount lent, which may be convertible to shares, may be exchangeable with other securities, may provide a right to interest and/or may provide a right to profits.

Tax credit

Tax credit is in principle available in Greece for income tax paid relating to the Securities abroad, upon filing of the appropriate documentation.

IRELAND

Irish Tax Considerations

The following comments are of a general nature, relating only to the position of persons who are the absolute beneficial owners of the Securities. The following is a general overview only of the Irish withholding tax treatment on the date of this Securities Note in relation to income payments in respect of the Securities. This overview is based on Irish law and what is understood to be the practice of the Irish Revenue Commissioners, in each case as in effect on the date of this Securities Note, which are subject to prospective or retroactive change. The comments are not exhaustive and do not deal with any other Irish tax aspects of acquiring, holding, disposing of, abandoning, exercising or dealing in the Securities. Prospective investors in the Securities should consult their own advisers as to the Irish tax consequences of acquiring, holding, disposing of, abandoning, exercising or dealing in the Securities.

Irish withholding tax

Irish withholding tax applies to certain payments including payments of:

1. Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
2. Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
3. distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax,

in relation to 1 and 2 above at the standard rate of Irish income tax (currently 20 per cent) and in relation to 3 above at a prescribed rate of 25 per cent.

However, on the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Securities is connected, nor are the Securities held in Ireland through a depository or otherwise located in Ireland or secured on Irish property, then to the extent that payments of interest or annual payments arise on the Securities, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation. Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, for as long as the Securities are quoted on a stock exchange or do not derive the greater part of their value from Irish land, Irish buildings, Irish exploration or Irish mineral rights, a purchaser of the Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

Irish encashment tax

Payments on any Securities paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Securities may be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland. Accordingly, holders of the Securities should therefore note that the appointment of an Irish collection agent or an Irish paying agent could result in the deduction of 20 per cent. encashment tax by such agent from certain payments on the Securities.

ITALY

The following is a general summary of current Italian law and practice relating to certain Italian tax considerations concerning the purchase, ownership and disposal of the Securities. The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Securities Note and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in bonds or commodities) may be subject to special rules.

Prospective purchasers of the Securities are advised to consult their own tax advisers as to the consequences under Italian tax law and under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities, including in particular the effect of any State, regional or local tax laws.

Italian Tax treatment of the Securities (Notes, Certificates and Warrants)

The Securities may be subject to different tax regimes depending on whether:

- (a) they represent a debt instrument implying a use of capital (impiego di capitale), through which the Securityholder transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity; or
- (b) they represent derivative financial instruments or bundles of derivative financial instruments, through which the Securityholders purchase indirectly underlying financial instruments.

1. Securities representing debt instruments implying a "use of capital"

Securities which provide for full reimbursement of the issue price (at maturity or upon early redemption)

Italian resident Securityholders

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (the "**Decree No. 239**") provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) (hereinafter collectively referred to as "**Interest**") from

Taxation

Securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, inter alia, by non-Italian resident issuers.

For these purposes, debentures similar to bonds are defined as securities that incorporate an unconditional obligation to pay, at maturity, an amount not less than their nominal value (whether or not providing for internal payments) and that do not give any right to directly or indirectly participate in the management of the issuer or of the business in relation to which they are issued nor any type of control on the management.

Where an Italian resident Securityholder, who is the beneficial owner of the Securities, is:

- (a) an individual not engaged in an entrepreneurial activity to which the Securities are connected; or
- (b) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership), or a de facto partnership not carrying out commercial activities or a professional association; or
- (c) a public or private entity/institution (other than a company) or a trust not carrying out mainly or exclusively a commercial activity, the Italian State and public and territorial entities; or
- (d) an investor exempt from Italian corporate income taxation,

Interest relating to the Securities are subject to a tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent. (either when Interest is paid or when payment thereof is obtained by the holder on a sale of the Securities). All the above categories are qualified as "net recipients" (unless the Securityholders referred to under (a), (b) and (c) above have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime (the "**Asset Management Regime**") according to Article 7 of Italian Legislative Decree No. 461 of 21 November 1997, as amended ("**Decree No. 461**").

In the event that the Securityholders described above under (a) and (c) are engaged in an entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* applies as a provisional tax and may be deducted from the final income tax due by the relevant Securityholder.

Italian resident investors who have opted for the Asset Management Regime are subject to a 26 per cent. annual substitute tax (the "**Asset Management Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Securities). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised Intermediary.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Securities issued by the Issuer that qualify as *obbligazioni* or *titoli similari alle obbligazioni* received by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Where an Italian resident Securityholder is a company or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and the Securities are deposited with an authorised intermediary, Interest from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's income tax return and are therefore subject to general Italian corporate taxation ("**IRES**", and, in certain circumstances, depending on the tax "status" of the Securityholder, also to regional tax on productive activities ("**IRAP**").

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 payments of Interest in respect of the Securities deposited with an authorised intermediary made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 and Italian SICAFs to which the provisions of Article 9 of the Legislative Decree No. 44 of 4 March 2014 apply (the "**Real Estate UCIs**") are subject neither to substitute tax nor to any other income tax in the hands of a Real Estate UCI. The income of the Real Estate UCI is subject to tax, in the hands of the unitholder/shareholder, depending on the status and percentage of participation, or, when earned by the Real Estate UCI, through distribution and/or upon redemption or disposal of the units/shares.

If a Securityholder is resident in Italy and is an open-ended or closed-ended investment fund, a SICAV or a SICAF not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014 (the "**UCIs**"), and the Securities are deposited with an authorised intermediary, Interest accrued during the holding period will not be subject to *imposta sostitutiva* but must be included in the management result of the UCI. A withholding tax may apply in certain circumstances at the rate of 26 per cent. on distributions made by the UCI to certain categories of unitholders or shareholders.

Where an Italian resident Securityholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005, as subsequently amended) ("**Decree No. 252**") and the Securities are deposited with an authorised intermediary, Interest relating to the Securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the ad hoc 20 per cent. substitute tax applicable to Italian pension funds (the "**Pension Fund Tax**"). Subject to certain limitations and requirements (including a minimum holding period), Interest relating to the Securities may be excluded from the taxable base of the Pension Fund Tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("**SIMs**"), fiduciary companies, *società di gestione del risparmio* ("**SGRs**"), stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an "**Intermediary**").

For the Intermediary to be entitled to apply the *imposta sostitutiva*

- (i) it must:
 - (a) be resident in Italy; or
 - (b) be a permanent establishment in Italy of a non-Italian resident Intermediary; or
 - (c) be an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Italian Ministry of Economy and Finance, having appointed an Italian representative for the purposes of Decree 239; and
- (ii) it must intervene, in any way, in the collection of interest or in the transfer of the Securities. For the purpose of the application of the *imposta sostitutiva*, a transfer of Securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Securities or a transfer of the Securities to another deposit or account held with the same or another Intermediary.

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Securityholder.

Non-Italian Resident Securityholders

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Securityholder not having a permanent establishment in Italy to which the Securities are effectively connected of Interest relating to the Securities if issued by a non-Italian resident issuer.

If the Securities issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of Interest on such Securities, to ensure payment of Interest without application of Italian taxation a non-Italian resident Securityholder may be required to produce to the Italian bank or other intermediary a self-declaration stating that he/she is not resident in Italy for tax purposes.

Securities qualifying as atypical securities

Securities that cannot be qualified as bonds (*obbligazioni*) or securities similar to bonds (titoli similari alle obbligazioni) could be considered as 'atypical' securities pursuant to Article 8 of Law Decree No. 512 of 30 September 1983 as implemented by Law No. 649 of 25 November 1983. In this event, payments relating to Securities may be subject to an Italian withholding tax, levied at the rate of 26%. The 26 per cent. withholding tax does not apply to payments

made to an Italian resident Securityholder which is (i) an Italian resident commercial partnership, (ii) an Italian resident company or a similar Italian resident commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are effectively connected) and (iii) a commercial private or public institution.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on Interest relating to the Securities not falling within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) and qualify as titoli atipici ("atypical securities") pursuant to Article 5 of Decree No. 512, if such Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Capital Gains Tax

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable income (and, in certain circumstances, depending on the tax "status" of the Securityholder, also as part of the net value of production for IRAP purposes) if realised by: (i) an Italian resident company; (ii) an Italian resident commercial partnership; (iii) the Italian permanent establishment of foreign entities to which the Securities are effectively connected; or (iv) Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

Where an Italian resident Securityholder is (i) an individual not holding the Securities in connection with an entrepreneurial activity, (ii) a partnership not carrying out commercial activities, (iii) a private or public institution not carrying out mainly or exclusively commercial activities, any capital gain realised by such Securityholder from the sale or redemption of the Securities would be subject to a capital gains tax (referred to as "imposta sostitutiva") levied at the current rate of 26 per cent.

In respect of the application of the imposta sostitutiva, taxpayers may opt for one of the three regimes described below.

- (a) Under the "tax declaration" regime (the "**Tax Declaration Regime**"), which is the ordinary regime for taxation of capital gains, the imposta sostitutiva on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Securityholder. The Italian resident Securityholder must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay imposta sostitutiva on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.
- (b) As an alternative to the Tax Declaration Regime, Securityholders as listed above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Securities (the "risparmio amministrato" regime provided for by Article 6 of Decree No. 461) (the "**Administrative Savings Regime**"). Such separate taxation of capital gains is allowed subject to: (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express valid election for the Administrative Savings Regime being punctually made in writing by the relevant Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the Administrative Savings Regime, where a sale or redemption of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same Securities management, in the same tax year or in the following tax years up to the fourth. Under the Administrative Savings Regime, the Securityholder is not required to declare the capital gains in its annual tax return.
- (c) Any capital gains realised or accrued by Securityholders as listed above, who have validly opted for the Asset Management Regime, will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to the Asset Management Tax to be paid by the managing authorised intermediary. Under the Asset Management Regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Regime, the Securityholder is not required to declare the capital gains realised in its annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities issued by the Issuer that qualify as *obbligazioni* or *titoli similari alle obbligazioni* received by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Any capital gains realised by a Securityholder which is a Real Estate UCI are subject neither to substitute tax nor to any other income tax in the hands of the Real Estate UCI. The income of the Real Estate UCI is subject to tax, in the hands of the unitholder/shareholder, depending on the status and percentage of participation, or, when earned by the Real Estate UCI, through distribution and/or upon redemption or disposal of the units/shares.

Any capital gains realised by a Securityholder which is a UCI will neither be subject to *imposta sostitutiva* nor to any form of taxation in the hands of the UCI, but any income paid by such undertaking in favour of its participants will be subject to taxation in accordance with the specific rules provided for the different kind of participants.

Any capital gains realised by a Securityholder which is an Italian pension fund (subject to the regime provided for by Article 17 of the Decree No. 252) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the Pension Fund Tax. Subject to certain limitations and requirements (including a minimum holding period), capital gains relating to the Securities may be excluded from the taxable base of the Pension Fund Tax, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Non-Italian Resident Securityholders

The 26 per cent. *imposta sostitutiva* on capital gains may in certain circumstances be payable on any capital gains realised upon sale, transfer or redemption of the Securities by non-Italian resident individuals and corporations without a permanent establishment in Italy to which the Securities are effectively connected, if the Securities are held in Italy.

However, pursuant to Article 23 of the TUIR, capital gains realised by non-Italian resident Securityholders without a permanent establishment in the Republic of Italy to which the Securities are effectively connected from the sale or redemption of the Securities are not subject to Italian taxation to the extent that the Securities are listed on a regulated market in Italy or abroad, and in certain cases subject to timely filing of required documentation (in the form of a declaration (*autocertificazione*) of non-residence in Italy) with Italian qualified intermediaries (or permanent establishments in Italy of foreign intermediaries) with which the Securities are deposited, even if the Securities are held in Italy and regardless of the provisions set forth by any applicable double tax treaty.

Where the Securities are not listed on a regulated market in Italy or abroad:

- (a) pursuant to the provisions of Decree No. 461 non-Italian resident beneficial owners of the Securities with no permanent establishment in Italy to which the Securities are effectively connected are exempt from the *imposta sostitutiva* on any capital gains realised upon sale for consideration or redemption of the Securities if they are resident, for tax purposes: (a) in a State or territory listed in the Italian Ministerial Decree of 4 September 1996, as amended and supplemented from time to time (last amendment being made by Italian Ministerial Decree dated 23 March 2017 and according to Article 11, par. 4, let. c) of Decree No. 239 such list will be updated every six months period) (the "**White List**") and (b) all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are met or complied with in due time. Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Securities are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they file in time with the authorised financial intermediary an appropriate declaration (*autocertificazione*) stating that they meet the requirement indicated above. The same exemption applies where the beneficial owners of the Securities are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors, not subject to tax, established in countries which allow for an adequate exchange of information with Italy; or (iii) Central Banks or entities which manage, inter alia, the official reserves of a foreign State; and
- (b) in any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities are effectively connected that may benefit from a double taxation treaty with Italy, providing that capital gains realised upon sale or redemption of Securities are to be taxed only in the country of tax

residence of the recipient, will not be subject to imposta sostitutiva in Italy on any capital gains realised upon sale for consideration or redemption of Securities. Under these circumstances, if non-Italian resident Securityholders without a permanent establishment in Italy to which the Securities are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they promptly file with the Italian authorised financial intermediary a self-declaration attesting that all the requirements for the application of the relevant double taxation treaty are met.

2. **Securities representing derivative financial instruments or bundles of derivative financial instruments**

The tax regime applicable to Securities qualifying as securitized derivative financial instruments not entailing a "use of capital" and representing derivative financial instruments or bundles of derivative financial instruments and Securities entitling the holder to purchase shares is the same described above under the caption "*Securities representing debt instruments implying a "use of capital" – Capital Gains Tax*".

Securities that cannot be qualified as securitised derivative financial instruments not entailing a "use of capital", may qualify as "atypical securities" (titoli atipici), whose tax regime is described under section "*Securities representing debt instruments implying a "use of capital" - Securities qualifying as atypical securities*".

Inheritance and gift taxes

Transfers of any valuable assets (including the Securities) as a result of death or inter vivos gift (or other transfers for no consideration) are taxed as follows:

- (a) 4 per cent. if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on that part of value that exceeds Euro 1,000,000 (per beneficiary);
- (b) 6 per cent. if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on that part of value that exceeds Euro 100,000 (per beneficiary);
- (c) 6 per cent. if the transfer is made to relatives up to the fourth degree (parenti fino al quarto grado), to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree (*affini in linea retta nonché affini in linea collaterale fino al terzo grado*); and
- (d) 8 per cent. in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax applies on that part of value that exceeds Euro 1,500,000.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of €200; (ii) private deeds are subject to registration tax only in case of use or in case of explicit reference (*enunciazione*) or voluntary registration.

Stamp Duty

Pursuant to Article 13, paragraph 2-ter of the Tariff, Part I, attached to Presidential Decree No. 642 of 26 October 1972, a proportional stamp duty applies on an annual basis to any periodic reporting communications sent by financial intermediaries to their clients in respect of any financial product and instrument (including the Securities), which may be deposited with such financial intermediary in Italy. The stamp duty applies at a rate of 0.20 per cent. and it cannot exceed the amount of Euro 14,000 if the recipient of the periodic reporting communications is not an individual. This stamp duty is determined on the basis of the market value or – if no market value is available – on the face value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase value of the financial assets held.

The statement is deemed to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release nor the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable based on the period accounted.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 29 July 2009, as subsequently amended, supplemented and restated) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Wealth Tax

Pursuant to Law Decree No. 201 of 6 December 2011, Italian resident individuals, non-commercial entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of Presidential Decree No. 917 of 22 December 1986) holding financial assets abroad are required to pay a wealth tax (IVAFE) at a rate of 0.20 per cent. for each year. This tax is calculated on an annual basis on the market value of the financial assets at the end of the relevant year or – if no market value is available – on the nominal value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase value of any financial asset (including the Securities) held abroad by Italian resident individuals. For taxpayers other than individuals, IVAFE cannot exceed Euro 14,000 per year.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of any wealth tax paid in the State where the financial assets are held (up to an amount equal to the IVAFE due). The financial assets held abroad are excluded from the scope of the wealth tax if administered by Italian financial intermediaries pursuant to an administration agreement.

Financial Transaction Tax (FTT) depending on the features of the Securities

Pursuant to Law No. 228 of 24 December 2012, a FTT applies to (a) transfer of ownership of shares and other participating securities issued by Italian resident companies or of financial instruments representing the just mentioned shares and/or participating securities (irrespective of whether issued by Italian resident issuers or not) (the Relevant Securities), (b) transactions on financial derivatives (i) the main underlying assets of which are the Relevant Securities, or (ii) whose value depends mainly on one or more Relevant Securities, as well as to (c) any transaction on certain securities (i) which allow to mainly purchase or sell one or more Relevant Securities or (ii) implying a cash payment determined with main reference to one or more Relevant Securities.

The FTT on derivative instruments is levied at a fixed amount that varies depending on the nature of the relevant instrument and the notional value of the transaction, and ranges between Euro 0.01875 and Euro 200 per transaction. The amount of FTT payable is reduced to 1/5 of the standard rate in case the transaction is performed on regulated markets or multilateral trading facilities of certain EU and EEA member States. FTT exemptions and exclusions are provided for certain transactions and entities.

Tax monitoring obligations

Italian resident individuals (and certain other entities) are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990, converted into law by Law No. 227 of 4 August 1990, as amended from time to time, for tax monitoring purposes, the amount of Securities held abroad (or beneficially owned abroad). However, the above reporting obligation is not required, *inter alia*, with respect to Securities deposited for management with qualified Italian financial intermediaries and with respect to contracts entered into through their intervention, provided that the same intermediaries apply a withholding tax or *imposta sostitutiva* on any income derived from the Securities.

The following information does not purport to be a comprehensive description of all the tax consequences and considerations that may be relevant to acquisition, holding, disposing and redeeming of or cancelling (as applicable) the Securities, and does not purport to deal with the tax consequences applicable to all categories of investors. Withholding tax

There is no withholding tax in Poland in relation to the Securities.

Taxation of income

Polish resident individuals

Individuals having their place of residence in Poland ("**Polish Resident Individuals**") are subject to Polish Personal Income Tax ("**PIT**") on their worldwide incomes irrespective of the country from which the incomes were derived. Income earned by Polish Resident Individuals on the disposal or redemption of Securities should not be combined with income from other sources but will be subject to the 19 per cent. flat PIT rate. The income is calculated as the difference between the revenue earned on the disposal or redemption of Securities (in principle, the selling price or redemption amount) and the related costs (in principle, the issue price). The tax is settled by Polish Resident Individuals on an annual basis. Interest under Securities earned by a Polish Resident Individuals should not be combined with income from other sources and will be subject to the 19 per cent. flat PIT rate. The tax is settled by Polish Resident Individuals on an annual basis. Generally, tax withheld in other countries on interest income can be deducted against tax payable on this income in Poland unless otherwise provided by the provisions of the Double Tax Treaty concluded between Poland and country where the tax was withheld.

Polish resident entities

Entities having their seat or place of management in Poland ("**Polish Resident Entities**") are subject to Polish Corporate Income Tax ("**CIT**") on their worldwide incomes irrespective of the country from which the incomes were derived. CIT is imposed on income which is a sum of income generated from capital gains and income generated from other sources of revenue. Income is determined separately for each relevant basket, i.e. revenues from capital

gains are separated from revenues from other sources. Correspondingly, the tax losses are determined separately for each of these baskets, whereby a tax loss from one basket may not be deducted against the income from the other basket. Income earned by Polish Resident Entities on the disposal or redemption of Securities is attributed to capital gains basket and is subject to the 19 per cent. CIT rate. The income is calculated as the difference between the revenue earned on the disposal or redemption of Securities (in principle, the selling price or redemption amount) and the related costs (in principle, the issue price).

The amount of interest earned by a Polish Resident Entity under Securities is also attributed to capital gains basket and is subject to the 19 per cent. CIT rate. Generally, tax withheld in other countries on interest income can be deducted against tax payable on this income in Poland unless otherwise provided by the provisions of the Double Tax Treaty concluded between Poland and country where the tax was withheld.

Non-resident individuals and entities

Non-Polish residents are subject to tax only on income (revenue) earned in Poland (limited tax obligation). Income (revenue) earned in the territory of the Republic of Poland in particular means income (revenue) from: (i) all types of activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland; (ii) immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from the disposal of any rights to such property; (iii) securities and financial derivatives which are admitted to public trading on the territory of the Republic of Poland on the regulated exchange market, including income (revenue) generated from the disposal of such securities, and the exercise of the rights arising from any of the above; (iv) the transfer of the ownership of shares in a company, all rights and obligations in a company that is not a legal person, shares in investment funds, or mutual fund institutions where real estate property located in the territory of the Republic of Poland or rights to such real estate property, directly or indirectly, constitute at least 50% of their assets; (v) the receivables settled, including receivables placed at disposal, paid out or deducted, by natural persons, legal persons, or organisational units without legal personality, having their place of residence, seat, or management board in the Republic of Poland, irrespective of the place of conclusion of the agreement and place of performance; and (vi) unrealised gains.

Individuals and entities that are non-Polish residents will not generally be subject to Polish taxes on interest and income resulting from the disposal or redemption of Securities as long as Securities are not quoted on the Warsaw Stock Exchange, unless such income is attributable to an enterprise which is either managed in Poland or carried through a permanent establishment in Poland. In case of treaty protected non-Polish residents income on the disposal or redemption of Securities quoted on the Warsaw Stock Exchange will not be subject to tax in Poland.

However, interest paid to treaty protected non-Polish residents on Securities quoted on the Warsaw Stock Exchange may be considered a Polish source income and subject to withholding tax at a rate of 20 per cent CIT rate/19 per cent 19 PIT rate. These rates can be reduced or a tax exemption may apply under specific domestic regulations or in accordance with the relevant Double Tax Treaty.

To benefit from the tax rate or income tax exemption under the Double Tax Treaty, the taxpayer should present a valid certificate of its tax residence. As a rule, the tax residence certificate is considered valid for twelve consecutive months from its date of issue.

Moreover, many tax treaties provide protection only for beneficial owners, ie an entity meeting all of the following conditions:

- (a) it receives the amount due for its own benefit, which includes deciding independently about its purpose, and bears the economic risk associated with the loss of that receivable or part of it;
- (b) it is not an intermediary, representative, trustee, or another entity legally or actually obliged to transfer the receivable in whole or in part to another entity; and
- (c) it conducts real business activity in the country of its registration, if the receivables are obtained in connection with the conducted business activity.

Any exemptions or tax rate reductions under domestic legislation or Double Tax Treaties can not, however, be applied if the total amount of payments subject to withholding tax (including interest, dividends, royalties and other) made to the same taxpayer exceed PLN 2 million in a 12-month tax year of the payer (if the tax year is shorter or longer, the threshold is adjusted accordingly) ("**Obligation to Withhold**").

The Obligation to Withhold can be excluded in certain circumstances, eg on a qualified statement of the management board of the payer. If, despite the exemption under a Double Tax Treaty or domestic regulations, the tax (or an

excessive tax in case of a tax rate reduction) is withheld under these new provisions, the taxpayer, or the tax remitter in case of a gross-up, can apply for a tax refund, which should be granted within six months.

Under the regulations issued by the Minister of Finance, until 31 December 2020, the Obligation to Withhold Tax is excluded, both in terms of CIT and PIT, in respect to the interest for taxpayers having their registered office or management in the territory of a state being a party to a Double Tax Treaty with Poland which regulates the taxation of income from dividends, interest and royalties, if there is a legal basis for exchanging tax information with the state of the taxpayer's registered office or management.

In the case of individuals and entities resident in a country which does not have a Double Tax Treaty with Poland, interest on Securities quoted on the Warsaw Stock Exchange will be taxed in Poland at 19 per cent PIT/20 per cent CIT rate, whereas the income on the disposal/redemption of Securities quoted on the Warsaw Stock Exchange will be subject to 19 per cent. PIT/CIT rate.

Taxation of inheritances and donations

Tax on inheritance and donations is levied on the acquisition by natural persons of property located, and economic rights (including securities) exercised in Poland, by way of, among others, inheritance, ordinary legacy, further legacy, legacy by vindication (with real effect), bequest, donation or a donor's order. The inheritance tax on donations is also imposed on the acquisition of property located abroad or property rights exercised abroad if, on the date of the opening of the succession process or conclusion of a donation agreement, the acquirer was a Polish citizen or had a permanent residence in Poland.

The tax liability is borne by the person acquiring the property or economic rights. The tax base is usually the value of the acquired property and economic rights after the deduction of any debts and encumbrances (net value), determined as at the date of acquisition and at the market prices prevailing on the date on which the tax obligation arises.

The rates of the tax on inheritances and donations vary and are determined by the degree of consanguinity or affinity or any other personal relationship between the heir and the testator or the donor and the donee.

Within one month of the date on which the tax liability arose, taxpayers must file a tax return disclosing the acquisition of property or economic rights on an appropriate form with the head of the relevant tax office. The tax is payable within 14 days of receiving the decision of the head of the relevant tax office assessing the amount of the tax liability. If the agreement is concluded in the form of a notarial deed, the tax on inheritance and donations is collected and remitted by the notary public.

Securities acquired by close relatives (a spouse, descendants, ascendants, stepchildren, siblings, stepfather and stepmother) are tax-exempt subject to filing an appropriate notice with the head of the relevant tax office in due time. The aforementioned exemption applies if, at the time of acquisition, the acquirer was a citizen of an EU (EEA) Member State.

Tax is not levied on the acquisition of economic rights exercised in the territory of Poland (including securities) if on the date of such acquisition neither the transferee nor the decedent nor donor were Polish citizens and had no place of permanent residence or registered office in the territory of the Republic of Poland.

Tax on civil law transactions

Generally tax on civil law transactions at the rate of 1 per cent. is levied on the sale or exchange of the rights exercised in Poland. The taxpayer of this tax is only the purchaser of the rights. The tax is also imposed on agreements for the sale or exchange of the rights exercised outside Poland (including Securities) only if the sale or exchange agreement is concluded in Poland and the purchaser has a place of residence or seat in the territory of Poland. However, the sale of Securities (i) to investment firms (including foreign investment firms within the meaning of the Polish Act on Trading on Financial Instrument), or (ii) via investment firms (including foreign investment firms) acting as intermediaries, or (iii) the sale of the Securities either on the Warsaw Stocks Exchange or on any multilateral trading facility operating in accordance with relevant regulations (i.e. in the "**Organized trading**"), or (iv) outside the Organized trading by investment firms (including foreign investment firms) if the Securities had been acquired by such firms as a part of Organized trading - is exempt from tax on civil law transactions.

Other Taxes

No other Polish taxes should be applicable to the Securities.

Polish implementation of the EU Savings Tax Directive

The European Union adopted Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, on administrative cooperation in the field of taxation and repealing Council Directive 2003/48/EC, regarding the taxation of savings income. From 1 July 2005, Member States have been required to provide to the tax authorities of other Member States details of payments of interest or other similar income paid by a person to an individual resident in another Member State. A number of non-EU countries and territories (referred to in that Directive) adopted equivalent measures from the same date.

Notwithstanding the repeal of Council Directive 2003/48/EC (as amended by Directive 2014/107/EU), equivalent measures continue to apply in Poland pursuant to the Act on the Exchange of Tax Information with other countries of 9 March 2017.

PORTUGAL

This section summarises the Portuguese tax rules applicable to the acquisition, ownership and disposal of the Securities, in force as at the date of this Securities Note. This section does not analyse the tax implications that may indirectly arise from the decision to invest in the Securities, such as those relating to the tax framework of financing obtained to support such investment or those pertaining to the counterparties of the potential investors, regarding any transaction involving the Securities.

This section is a general summary of the relevant features of the Portuguese tax system. The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any particular investor, including tax considerations that arise from rules of general application or that are generally assumed to be known to investors. It also does not contain in-depth information about all special and exceptional regimes, which may entail tax consequences at variance with those described herewith.

The tax treatment of each type of potential investor described in each sub-section applies exclusively to that type of potential investor. No analogy regarding the tax implications applicable to other type of potential investors should be drawn. Potential investors should seek individual advice about the implications of the acquisition, ownership and disposal of Securities, in light of their specific circumstances.

*This section does not include any reference to the tax framework applicable in countries other than Portugal. The rules of a Convention to prevent Double Taxation ("**Convention**") may have a bearing on Portuguese tax implications. Furthermore, the domestic provisions of other countries may exacerbate or alleviate such implications.*

The meaning of the terminology adopted in respect of every technical feature, including the qualification of the securities issued as "bonds", the classification of taxable events, the arrangements for taxation and potential tax benefits, among others, is the one in force in Portugal as at the date of this Securities Note. No other interpretations or meanings, potentially employed in other countries, are considered.

The tax framework described in this section is subject to any changes in law and practices (and the interpretation and application thereof) at any moment. Although according to the Portuguese Constitution legislative amendments which increase taxation cannot have retroactive or retrospective effect, there is no general prohibition of amendments with such effect.

Notes

Resident individuals

Investment income

Economic benefits derived from interest, amortisation, reimbursement premiums and other instances of remuneration arising from the Notes (including, upon a transfer of the Notes, the interest accrued since the last date on which interest was paid), are classified as "investment income" for Portuguese tax purposes.

There is no Portuguese withholding tax applicable on investment income paid by the Issuer in respect of the Notes, unless such payments are made by an entity with its headquarters or effective management in Portugal or acting through a permanent establishment in Portugal to individual tax resident investors, either acting on behalf of or contractually obliged by the Issuer or the investor. If such payments are performed in these circumstances they should attract Personal Income Tax (*Imposto sobre o Rendimento das Pessoas Singulares* – "**IRS**") at a 28 per cent. withholding tax rate. This represents a final withholding, releasing the investors from the obligation to disclose the

above income to the Portuguese tax authorities in their tax returns and from the payment of any additional amount of IRS, unless deriving such income in the capacity of entrepreneur or self-employed professional. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is identified, in which case the tax rates applicable to such beneficial owner(s) apply.

If the investment income on the Notes is not paid through an entity with its headquarters of effective management in Portugal or acting through a permanent establishment in Portugal, it is not subject to Portuguese withholding tax, the resident individual investors deriving such income must declare it in the income tax return and IRS at a special tax rate of 28 per cent. will apply. Moreover, if the entity paying out the investment income to the investor is resident in a country, territory or region subject to a clearly more favourable tax regime, as listed in the Ministerial Order no. 150/2004, of 13 February, as amended, the withholding tax rate or the special tax rate, as applicable, is increased to 35 per cent.

Irrespective of whether the investment income arising from the Notes has been subject to withholding tax (because it was paid through a Portuguese paying agent) or not, investors may opt for aggregating said income in their tax returns, together with the remaining items of income derived. In that event, instead of the flat 28 per cent. investment income shall be liable for IRS at the rate resulting from the application of the relevant progressive tax brackets for the year in question. The aggregate amount is subject to: (A) IRS at progressive rates of up to 48 per cent.; *plus* (B) a solidarity tax (*taxa adicional de solidariedade*) of up to 5 per cent. on income exceeding € 250,000 (2.5 per cent. on income below € 250,000, but exceeding € 80,000). If the investor elects to aggregate the investment income arising from the Notes with the remaining items of income derived, the domestic withholding tax suffered, if any, will represent an advance payment on account of such final IRS liability and foreign withholding tax, if any, may be credited against such final IRS liability within certain limitations.

Capital gains and losses

Gains obtained with repayment of Notes are qualified as capital gains.

The annual positive balance between capital gains and capital losses arising from the disposal of Notes (and other assets indicated in the law) for consideration, deducted of the costs necessary and effectively incurred in its acquisition and disposal, is taxed at a special 28 per cent. IRS rate. Alternatively, the investors may opt for declaring such income in their tax returns, together with the remaining items of income derived. In that event, the capital gains shall be liable for: (A) IRS at the rate resulting from the application of the relevant progressive tax brackets for the year in question, up to 48 per cent.; *plus* (B) a solidarity tax (*taxa adicional de solidariedade*) of up to 5 per cent. on income exceeding € 250,000 (2.5 per cent. on income below € 250,000, but exceeding € 80,000). No Portuguese withholding tax is levied on capital gains.

Losses arising from disposals for consideration in favour of counterparties subject to a clearly more favourable tax regime in the country, territory or region where it is a tax resident, listed in the Ministerial Order no. 150/2004, of 13 February 2004, as amended, are disregarded for purposes of assessing the positive or negative balance referred to in the previous paragraph.

Where the Portuguese resident individual chooses to aggregate the capital gains or losses in his or her tax return together with the remaining items of income, any capital losses which were not offset against capital gains in the relevant tax period may be carried forward for five years and offset future capital gains.

Gratuitous acquisition of Notes

The gratuitous acquisition (on death or in life) of the Notes by Portuguese tax resident individuals is not liable for Stamp Tax (otherwise due at a 10 per cent. rate) since the Issuer is not a Portuguese tax-resident entity. Spouses, ancestors and descendants would nonetheless avail of an exemption from Stamp Tax on such acquisitions.

Corporate entities

To the extent that the Issuer of the Notes is a non-Portuguese resident entity, no Portuguese withholding tax on account of the final Corporate Income Tax (*Imposto sobre o Rendimento das Pessoas Colectivas* – "IRC") liability of Portuguese corporate investors will apply. Investment income, capital gains and positive net variations in worth will be declared and taxed at an IRC rate of 21 per cent. (small and medium-sized enterprises, as defined by law and subject to the *de minimis* rule of the European Union, avail of a 17 per cent. corporate income tax rate for the first € 25,000 of taxable income), plus a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of the taxable profit and a State surcharge (*derrama estadual*) of 3 per cent. on the portion of the taxable profit between EUR1.5

million and € 7.5 million, of 5 per cent. on the portion of the taxable profits between € 7.5 million and € 35 million and of 9 per cent. on the portion exceeding € 35 million.

Corporate entities recognised as having public interest and charities, pension funds, venture capital funds organised and operating in accordance with Portuguese law and some other similar entities are exempt from IRC.

Certificates

Income tax applicable to Certificate holders

The positive difference, if any, between the minimum amount guaranteed and the subscription price of the Certificates qualifies as investment income, which is subject to IRS and IRC in Portugal and may also be subject to withholding tax in Portugal (further details regarding the regime applicable in such circumstances are set out below).

Any income arising from Certificates that do not guarantee a minimum income to the Certificate holders qualifies under Portuguese tax law as a capital gain and therefore no withholding tax applies.

Resident individuals

Investment Income

There is no Portuguese withholding tax applicable on investment income paid by the Issuer in respect of the Certificates, unless such payments are made by an entity with its headquarters or effective management in Portugal or acting through a permanent establishment in Portugal to individual tax resident investors, either acting on behalf of or contractually obliged by the Issuer or the investor. If such payments are performed in these circumstances to tax resident individuals, and to non-resident individuals through a Portuguese permanent establishment, they should be subject to withholding at the flat rate of 28 per cent., unless the individual opts to aggregate such income to his taxable income, which will be calculated subject to progressive rates of up to 48 per cent. An additional solidarity charge of 2.5 per cent. applies on income in excess than €80,000 up to €250,000 and at 5 per cent. on income in excess of €250,000. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Capital gains

Gains obtained by tax resident individuals and by non-resident individuals through a Portuguese permanent establishment on transactions related to Certificates (with the exception of the remuneration arising from Certificates that guarantee the holder the right to receive a minimum value in excess of the subscription value) are subject to Portuguese capital gains taxation.

The taxable income subject to IRS is determined by the positive difference between the consideration received from the sale, transfer or redemption of the Certificates and their acquisition price. Any expenses directly and pertinently connected with the transaction are considered to be irrelevant for purpose of assessing the relevant taxable gain.

Individuals may choose between (i) the taxation of the positive balance between capital gains and losses (losses resulting from transactions with parties resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (Portaria) no. 150/2004, of 13 February 2004, as amended from time to time) at the autonomous rate of 28 per cent., or (ii) to aggregate that income to the remaining taxable income.

When aggregation is chosen, the taxable income will be subject to the general progressive personal income tax rates up to 48 per cent. An additional solidarity charge of 2.5 per cent. applies on income in excess than €80,000 up to €250,000 and at 5 per cent. on income in excess of €250,000. The option for aggregation allows an individual to carry forward any losses related to Certificates during a five year period. However, such losses may only be used to offset future gains deriving from transactions related to Certificates.

Gratuitous acquisition of Certificates

The gratuitous acquisition (on death or in life) of the Certificates by Portuguese tax resident individuals is not liable for Stamp Tax (otherwise due at a 10 per cent. rate) since the Issuer is not a Portuguese tax-resident entity. Spouses, ancestors and descendants would nonetheless avail of an exemption from Stamp Tax on such acquisitions.

Corporate entities

Investment income

Investment income in respect of the Certificates obtained by legal persons resident in Portugal for tax purposes and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, is included in the taxable profits of such legal persons and is subject to a tax rate of 21 per cent. or at a 17 per cent. tax rate on the first €25,000 in the case of small or medium-sized enterprises to which may be added a municipal surcharge ("derrama municipal") of up to 1.5 per cent. of such taxable profits. A State Surcharge ("derrama estadual") will be payable at the following rates: 3 per cent. on the part of a corporate taxpayer's taxable profits exceeding €1,500,000 up to €7,500,000; 5 per cent. on the part of the taxable profits exceeding €7,500,000 up to €35,000,000; and 9 per cent on the part of such taxable profits exceeding € 35,000,000.

Capital gains

Gains obtained by legal persons resident in Portugal for tax purposes and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, on transactions related to Certificates (with the exception of the remuneration arising from Certificates that guarantee the holder the right to receive a minimum value in excess of the subscription value), are subject to Portuguese capital gains taxation.

The taxable income subject to CIT shall be subject to a tax rate of 21 per cent. or at a 17 per cent. tax rate on the first €25,000 in the case of small and medium-sized enterprises applicable on the taxable profits, to which may be added a municipal surcharge ("derrama municipal") of up to 1.5 per cent. of such taxable profits. A State Surcharge ("derrama estadual") will be payable at the following rates: 3 per cent. on the part of a corporate taxpayer's taxable profits exceeding €1,500,000 up to €7,500,000; 5 per cent. on the part of the taxable profits exceeding €7,500,000 up to €35,000,000; and 9 per cent on the part of such taxable profits exceeding €35,000,000. There is no Portuguese withholding tax on capital gains made on Certificates.

Warrants

Income tax applicable to Warrants holders

Resident individuals

Capital gains

Income arising from autonomous Warrants is qualified as capital gains and subject to IRS.

Individuals may choose between (i) the taxation of the positive balance between capital gains and losses (losses resulting from transactions with parties resident in the countries and territories listed in Ministerial Order (Portaria) no. 150/2004, of 13 February 2004, as amended from time to time, are excluded) at the autonomous rate of 28 per cent., or (ii) to aggregate that income to the remaining taxable income.

When aggregation is chosen, the taxable income will be subject to the general progressive personal income tax rates up to 48 per cent. An additional solidarity charge of 2.5 per cent. applies on income in excess than €80,000 up to €250,000 and at 5 per cent. on income in excess of €250,000. The option for aggregation allows an individual to carry forward any losses related to Warrants during a five year period. However, such losses may only be used to offset future gains deriving from transactions related to Warrants.

In either cases, there is no Portuguese withholding tax on capital gains made on autonomous Warrants.

Gratuitous acquisition of Warrants

The gratuitous acquisition (on death or in life) of the Warrants by Portuguese tax resident individuals is not liable for Stamp Tax (otherwise due at a 10 per cent. rate) since the Issuer is not a Portuguese tax-resident entity. Spouses, ancestors and descendants would nonetheless avail of an exemption from Stamp Tax on such acquisitions.

Corporate entities**Capital gains**

The positive difference between capital gains and capital losses on the sale or exercise of the autonomous Warrants is included in taxable profit and is subject to CIT at a 21 per cent. tax rate or at a 17 per cent. tax rate on the first €25,000 in the case of small and medium-sized enterprises applicable on its taxable income, to which may be added a municipal surcharge ("derrama municipal") of up to 1.5 per cent. of such taxable income. A State Surcharge ("derrama estadual") will be payable at the following rates: 3 per cent. on the part of a corporate taxpayer's taxable profits exceeding €1,500,000 up to €7,500,000; 5 per cent. on the part of the taxable profits exceeding €7,500,000 up to €35,000,000; and 9 per cent on the part of such taxable profits exceeding €35,000,000. There is no Portuguese withholding tax on capital gains made on autonomous Warrants.

Common Reporting Standards

The new regime under Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organization for Economic Co-operation and Development in July 2014 (the Common Reporting Standard).

Under Council Directive 2014/107/EU, financial institutions are required to report to the Tax Authorities of their respective Member State (for the exchange of information with the State of Residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information but also to the account balance at the end of the calendar year, and (i) in case of depository accounts, income paid or credited in the account during the calendar year; or (ii) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-law 61/2013, of 10 May. Also, Council Directive 2014/107/EU, of 9 December 2014, regarding the mandatory automatic exchange of information in the field of taxation was implemented into Portuguese law through Decree-Law no. 64/2016, of 11 October 2016. In addition, information regarding the registration of financial institutions, as well as the procedures to comply with the reporting obligations arising from Decree-Law no. 64/2016, of 11 October 2016, as amended, and the applicable forms were approved by Ministerial Order (Portaria) no. 302-B/2016, of 2 December 2016, Ministerial Order (Portaria) no. 302-C/2016, of 2 December 2016, Ministerial Order (Portaria) no. 302-D/2016, of 2 December 2016, amended by Ministerial Order (Portaria) no. 255/2017, of 14 August 2017, and Ministerial Order (Portaria) no. 302-E/2016, of 2 December 2016, all as amended.

FATCA

Portugal has implemented, through Law 82-B/2014 of 31 December 2014 and Decree-Law 64/2016 of 11 October 2016, as amended from time to time, the legislation based on the reciprocal exchange of information with the United States of America on financial accounts subject to disclosure (the "Financial Reporting Regime") in order to comply with Sections 1471 through 1474 of FATCA. Under such legislation the Issuer will be required to obtain information regarding certain accountholders and report such information to the Portuguese tax authorities which, in turn, will report such information to the Inland Revenue Service of the United States of America.

ROMANIA

The following text is a high level summary of certain Romanian tax aspects and considerations relating to the Securities. This information is of a general nature and it does not purport to be a comprehensive analysis of all relevant tax aspects that has to be considered when deciding to invest in Securities.

This summary is based on the provisions of the Romanian fiscal legislation in force as of 8 July 2020. It should be noted that the Romanian tax law and procedures are sometimes unclear and not well developed, being subject to frequent changes and interpretation including as regards tax matters of income from Securities.

This summary does not describe any tax aspects resulting from the tax laws of any other state than Romania.

The tax treatment of other types of investment income not expressly mentioned below should be analysed on a case-by-case basis. Events such as an in-kind redemption/settlement in relation to the Securities (e.g. through physical delivery of the underlying asset) should also be analysed individually, depending on the particularities of each operation. Investors are, under all circumstances, strongly advised to contact their own tax advisor to clarify the individual consequences of their investment, holding and disposal of the Securities.

The summary below assumes that the Issuer of the Securities is not tax resident in Romania and the Securities are not issued via a Romanian branch/permanent establishment of the Issuer.

Romanian withholding tax on interest payments

Romanian interest withholding tax applies on certain payments, if they have their source in Romania. On the basis that the Issuer is not resident for tax purposes in Romania and it has no permanent establishment in Romania, the payments made by the Issuer in respect of interest, premiums, principal and capital gains in connection with Securities will not be deemed made from Romania. Hence, no withholding tax on interest payments applies in Romania.

Taxation of resident individual holders

Individuals who are tax resident in Romania (e.g. individuals with domicile in Romania, other individuals fulfilling certain residency criteria provided by legislation) are subject to personal income tax in Romania on their worldwide income. Therefore, Romanian tax resident individual holders would be subject to personal income tax due on their investment income arising from the holding, redemption, sale or any other transaction with the Securities. Irrespective of the nature of the income (interest, premiums, gains derived from transfer of the Securities), the rate of taxation would be 10 per cent., with the exception of dividends for which the rate of taxation would be 5 per cent.

For computation of personal income tax, the gain/loss from transfer of securities, other than derivative instruments, would be determined as the positive/negative difference between selling/redemption price of securities and their fiscal value (i.e., acquisition price or subscription value, if the case) which includes the costs related to the transactions (supported by proper documentation). If trading is performed via a Romanian resident intermediary, the gain/loss is determined by this intermediary at year end, based on supporting documents. Otherwise, the computation of the gain/loss stays with the individual holder. Specific rules apply in case of gains from short-selling transactions, securities borrowing, transfer of investment gold and execution of warranties for borrowed securities.

In the particular case of derivative instruments, the gain/loss from such transactions represents the positive/negative difference between the income derived from the closed positions since the first day and until the last day of trading of the fiscal year (inclusively) and the expenses related to these positions, reflected in the account, for each type of contract and maturity, whether or not maturity was reached. Where derivatives provide for periodical settlements between the parties, without closing the position, within a fiscal year, the gain/loss from such operations represents the positive/negative difference between the income realized upon the periodic settlements and the related expenses, reflected in the account. If trading is performed via a Romanian resident intermediary, the gain/loss is determined by this intermediary at year end, on a commulative basis for all derivative instruments, based on supporting documents. Otherwise, the computation of the gain/loss stays with the individual holder. Additional guidance is further provided by the Norms to the Romanian Tax Code in relation to particular operations, such as repo/ reverse repo, options on OTC market, FX forward contracts, margin trading or fixed income options.

The annual net gain/loss from transfer of securities and any other operations with financial instruments, including derivatives, as well as from transfer of investment gold, will be determined as the difference between the gains and losses incurred during the fiscal year, cumulated from the beginning of the year. Losses brought forward from previous fiscal years related to the same type of operations may be used to offset the annual net gains for determining the annual net taxable gain. If the annual result is a net loss it could be recovered from the annual net gains of the same nature and source, obtained in the following 7 consecutive years by the individuals from the same source-country.

Relief for tax paid (including via withholding) in a foreign country in relation with Securities may be available, if Romania has a double tax treaty in place with the country where the tax was borne according to the treaty (to this end, formal conditions apply). The relief is granted either (i) under the form of deduction from and within the limit of the personal income tax due in Romania on the same income or (ii) under the form of exemption of the respective income in Romania, depending on the provisions of the relevant double taxation treaty.

The obligation to declare and pay tax in relation to any income and/or gains obtained from abroad by a Romanian tax resident individual stays with that individual, who will have the obligation to submit the "Sole Tax Return regarding Income Tax and Social Security Contributions due by Individuals" by the 15th of March of the year following the one

in which the income was obtained. A bonification of up to 10 per cent of the annual income tax due may be granted starting 2021 for e.g. payment in advance of the tax due and/or electronic submission of the Sole Tax Return.

The resident individual holder has the obligation to pay contribution to the state health insurance fund, if the income and gains obtained by these individuals from Securities exceed a fixed threshold of 12 gross monthly minimum salaries, in force at the date of submitting the relevant declaration (i.e. the minimum gross salary for 2020 is set at RON 2,230, therefore the threshold for 2020 is of RON 26,760). In such case the value of the contribution due to the state health insurance fund is computed on the fixed threshold base (i.e. RON 26,760 for 2020) multiplied with the contribution rate of 10 per cent.

The contribution to the state health insurance fund is also due even if the income and gains obtained from Securities are lower than the threshold above, but the income and gains from Securities cumulated with revenues obtained by the resident individual from other sources (with the exception of salaries, for instance) exceed this threshold.

If the income and gains obtained from Securities are lower than the threshold above, and the resident individual does not obtain revenues from other sources (with the exception of salaries), the contribution is only optional.

Taxation of resident legal entities holders

Resident legal entities which are tax resident in Romania (i.e. if they are incorporated in Romania or if they have their place of effective management in Romania or if they are legal entities incorporated according to European legislation with registered office in Romania) will generally be subject to corporate income tax on their worldwide income, including any income and gains resulting from the holding, redemption, sale or any other transaction with the Securities. The applicable tax rate is 16 per cent. The tax loss incurred by these entities can be carried forward for 7 consecutive years.

The taxable base for corporate tax purposes is computed as the difference between revenues and expenses booked by entities as per the accounting rules, adjusted with certain tax items. Therefore, the corporate tax consequences deriving from holding, redemption, sale or any other transaction with the Securities is dependent also on the accounting treatment applied to such Securities, especially as regards the recognition of the related revenues and expenses.

The Romanian fiscal legislation exempts from corporate income tax, in certain conditions, the income derived from dividends and from evaluation/revaluation/sale of shares issued *inter-alia* by non-resident companies. Specifically, such income is not subject to corporate income tax if, amongst other requirements, the Romanian entity holds a minimum participation of 10 per cent in the foreign subsidiary, for an uninterrupted period of at least 1 year and a double tax treaty is concluded between Romania and the country of the foreign subsidiary.

The Romanian fiscal legislation also states that the net losses incurred by a company from selling receivables (determined as the difference between the sale price and the value of the receivable) is deductible within the limit of 30 per cent. In case of credit institutions, if receivables are fully/partially covered by provisions or taken off from the balance sheet and then sold, 70 per cent. of the difference between the value of receivable and the selling price represents taxable income. The aforementioned rules do not apply in case of state securities, bonds or other debt instruments which grant their holder a contractual right to receive cash. Expenses incurred upon those sales are tax deductible.

Relief for tax paid (including via withholding) in a foreign country in relation with Securities may be available, if Romania has in place a double tax treaty with the country where the tax was paid and the provisions of the treaty are invoked. The relief is granted either (i) under the form of deduction from and within the limit of the corporate income tax due in Romania or (ii) under the form of exemption of the respective income in Romania, depending on the provisions of the relevant double tax treaty.

Moreover, please note that under the Romanian legislation, legal entities with an annual income lower than RON equivalent of EUR 1,000,000 as at 31 December of the previous year fall under the micro-enterprise tax regime (instead of corporate income tax). Under this regime, the tax is computed as 1 per cent or 3 per cent (depending on the number of employees) applied to income obtained (except certain items specifically excluded from the taxable base). Under this regime, the expenses are not generally deductible from the taxable base.

Taxation of resident pension funds

Investments made by Romanian privately managed pension funds without corporate status are not subject to profits tax or tax on microenterprises income in Romania, as each participant is liable for its own taxes. This applies in general for all fiscally transparent entities (e.g. associations, joint ventures, economic interest group, etc.).

Taxation of non-residents

Non-resident (legal entities and/or individuals carrying on independent activities) will be subject to tax in Romania in respect of income derived from the Securities, in case they have a permanent establishment/ fixed base in Romania to which the Securities are attributable. In case of legal entities, the 16 per cent corporate income tax rate applies solely to the taxable profits attributable to the permanent establishment. In case of individuals, the 10% income tax rate applies solely to the net taxable income attributable to the fixed base.

General remark

If Romanian real estate constitutes underlying asset for certain Securities, the tax implications arising in Romania should be analysed on a case-by-case basis, having regard of the types of legal rights related to the real estate and which may be granted under the Security.

Stamp duties, transfer taxes, other taxes

There are no stamp duties, transfer taxes or other taxes due in Romania in connection with acquisitions and transactions with Securities, other than those mentioned above. Fees which are specific to the capital market may apply.

Common reporting standards

Romania is a signatory to the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information and has enacted legislation to implement the Common Reporting Standard (CRS) with the first information exchange date scheduled for September 2017.

Romania has enacted legislation to implement the provisions of Directive 2014/107/EU (DAC2) (amending Directive 2011/16/EU (DAC)) on mandatory automatic exchange of tax information within the EU.

SINGAPORE

Singapore Taxation of Securities

The statements made below seek primarily to describe the qualifying debt securities scheme, and therefore it must not be regarded as a full description or summary of all tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities.

The statements below are also general in nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the Inland Revenue Authority of Singapore (the "IRAS") and Monetary Authority of Singapore (the "MAS") in force as at the date of this Document and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retrospective basis.

These laws, guidelines and circulars are also subject to various interpretations and no assurance can be given that the relevant tax authorities or the courts will agree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Document are intended or are to be regarded as advice on the Singapore tax position of any holder of the Securities or of any person acquiring, selling or otherwise dealing with the Securities or on any tax implications arising from the acquisition, sale or other dealings in respect of the Securities. The statements do not purport to be a comprehensive or exhaustive description of all the Singapore tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and there may be additional taxation issues arising from particular types of Securities which have not been addressed in the statements. In addition, neither the statements made below nor any other statements in this Document address the Singapore tax position of any holder of Securities or of any person acquiring, selling or otherwise dealing in the Securities, or on any tax considerations or implications that may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities or arising from the acquisition, sale or other dealings in respect of the Securities. In addition, neither the statements made below nor any other statements in this Document address the Singapore tax position of any holder of Warrants or of any person acquiring, selling or otherwise dealing in the Warrants, or on any tax considerations or implications that may be relevant to a decision to subscribe for, purchase, own or dispose of the Warrants or arising from the acquisition, sale or other dealings in respect of the Warrants. The statements also do not purport to deal with the Singapore tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive tax incentive(s)) may be subject to special rules or tax rates. The statements also do not consider any specific facts or circumstances that may apply to any particular purchaser. Prospective purchasers of

Securities should consult their own professional advisers regarding their respective or any tax implications of the purchase, ownership, transfer or disposal of Securities, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the dealers and any other persons involved in the issue of the Securities accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Securities.

QUALIFYING DEBT SECURITIES SCHEME

The following section applies to the extent that the Securities constitute "debt securities".

If more than half of the nominal amount of a tranche of Securities issued as debt securities under the Programme during the period from the date of this Document to 31 December 2023 are distributed by financial institutions who have been awarded "Financial Sector Incentive (Bond Market) Company", "Financial Sector Incentive (Standard Tier) Company" or "Financial Sector Incentive (Capital Market) Company" status by the Minister for Finance of Singapore or such person as he may appoint and such tranche of Securities are debt securities during the period from the date of this Document to on or before 31 December 2023 (hereinafter called "**Relevant Securities**"), such Relevant Securities would be "qualifying debt securities" for the purposes of the Income Tax Act (Chapter 134) of Singapore (the "**ITA**"), and subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS for the Relevant Securities within such period as may be specified), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the "**Qualifying Income**") from the Relevant Securities derived by any company in Singapore or body of persons (as defined in the ITA) (other than a person which holds the relevant Financial Sector Incentive award(s) and which is subject to different tax rates) in Singapore is subject to income tax at a concessionary rate of 10 per cent.

However, notwithstanding the foregoing:

- (a) if during the primary launch of any tranche of Relevant Securities, such Relevant Securities are issued to fewer than four persons and 50 per cent. or more of the issue of such Relevant Securities is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Securities would not qualify as "qualifying debt securities"; and
- (b) even though a particular tranche of Relevant Securities may qualify as "qualifying debt securities", if, at any time during the tenure of such tranche of Relevant Securities, such Relevant Securities, 50 per cent. or more of the issue of such Relevant Securities is held beneficially or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived by;
 - (i) any related party of the Issuer; or
 - (ii) any other person where the funds used by such person to acquire such Relevant Securities are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the concessionary rate of tax described above.

The term "**related party**", in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

The terms "**break cost**", "**prepayment fee**" and "**redemption premium**" are defined in the ITA as follows:

"**break cost**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption;

"**prepayment fee**", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities; and

"**redemption premium**", in relation to debt securities and qualifying debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity.

References to "break cost", "prepayment fee" and "redemption premium" in this Singapore tax disclosure have the same meaning as defined in the ITA.

Notwithstanding that the Issuer is permitted to make payments of interest, discount income, prepayment fee, redemption premium and break cost in respect of the Relevant Securities without deduction or withholding of tax under Sections 45 and 45A of the ITA, any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Securities is not exempt from tax is required to declare and include such income in a return of income made under the ITA.

SLOVAK REPUBLIC

General

This summary covers (i) certain tax aspects which would be respected for an individual investor or a corporate investor who is considered to be a Slovak resident for income tax purposes and interested in acquiring, owning or disposing of the Securities and (ii) the receipt of payments of interest and other forms of income relating to the Securities in the territory of Slovakia. This does not represent a comprehensive summary of all of the tax-relevant aspects that may be generally relevant and important from the tax perspective of making an investor's decision to purchase, hold or sell the Securities. In order to obtain exhaustive and detailed tax advice, a professional legal or tax advisor should be consulted regarding the specific tax position of any investor and the related tax treatment. The Issuer provides no representations or guarantees regarding the tax consequences of the purchase, holding or disposal of the Securities. The summary is based on the assumption that (i) the Issuer is not deemed to be a resident in Slovakia for income tax purposes, (ii) the Issuer does not operate a permanent establishment which is situated in Slovakia and (iii) the source of funds payable in respect of the Securities is outside of Slovakia. The following information is not intended to be, nor should it be construed to be, legal or tax advice. It is of general nature only and is based on the legal regulations effective as of the date of this Securities Note.

Individual investor with tax residence in Slovakia

According to Slovak law, if an individual investor in Slovakia has a permanent residence (in Slovak: trvalý pobyt), residence (in Slovak: bydlisko) or is physically present for more than 183 days, he/she is considered a Slovak resident for income tax purposes and is generally subject to personal income tax on his/her worldwide income, unless a respective international tax treaty stipulates otherwise. Any income gained from the holding, redemption, sale or any other transaction related to the Securities including interest income or any kind of gain earned from the disposal of the Securities is generally subject to Slovak personal income tax. Interest income or other income derived from the Securities should be taxed within a separate tax base at the rate of 19 per cent. The same applies to the income accruing on the maturity date where the tax base should be equal to the difference between the nominal value or redemption price of the Securities and their issue price.

The gain from disposal (sell out transactions) of the Securities is taxed within the general tax base of the individual investor applying the 19 per cent tax rate unless the annual personal income of the given individual investor exceeds EUR 37,163.36. In such case, the tax rate amounts to 25 per cent. The tax base is calculated as a difference between the purchase price and the sale price of the Securities. Furthermore, gains of up to EUR 500 per calendar year from such disposal should be exempt from personal income tax. If the Securities are admitted for trading on a regulated market, the gains from disposal (sell out transactions) will be exempt from taxation in Slovakia if the individual investor holds the Securities for the period longer than one year and the Securities are traded on a regulated market for the period longer than one year. In addition, the gains from disposal (sell out transactions) of the Securities should also be exempt from personal income tax if such Securities were included in a long term investment portfolio of the individual investor managed by a trader on a capital market compliant with the Slovak securities law and redeemed from the portfolio after at least 15 years.

If the individual investor is an entrepreneur in Slovakia and has an enterprise located in Slovakia to which the Securities are attributable, any income related to these Securities (including interest income from the Securities or any income (i.e. profit) from any disposal) shall be included into the general tax base of such individual investor and taxed at the rate of 15 per cent and/or 19 per cent and/or the 25 per cent.

Provided that the income of the individual investor exceeds EUR 2,207.10, he/she must file a personal income tax return for the calendar year and report his/her taxable income included in the general tax base (subject to possible application of tax allowances) as well as the separate tax base, and pay the final tax liability as determined in the annual tax return.

Social security charges

If the individual investor is also mandatory insured in Slovakia for social security purposes, the income related to the Securities may be subject to health insurance and/or social insurance charges depending on (i) the nature of income he/she receives (ii) legal status of the individual investor. Very generally, if the income relating to the Securities is attributable to business activities of the individual investor, it is subject to both health and social security charges. In other cases, it may or may not be subject to health insurance charges only.

Corporate investor with tax residence in Slovakia

According to Slovak law, any corporate investor with its seat or place of effective management in Slovakia is considered a Slovak resident for income tax purposes and is therefore subject to corporate taxation in Slovakia from its worldwide income unless a respective international tax treaty stipulates otherwise. A corporate investor that is resident in Slovakia for income tax purposes is generally subject to corporate income tax at the rate of 15 per cent or 21 per cent. This includes any income resulting from the holding, redemption, sale or any other transaction with the Securities except for certain forms of equity distributions. Such income forms a part of the general corporate income tax base of the corporate investor. As a rule, the tax base is the profit/(loss) as determined under the Slovak accounting rules and adjusted for income tax purposes and therefore, in some cases, the corporate income tax may apply as a result of revaluation differences at the end of the financial year. In case of disposal of the Securities, the tax base shall be generally calculated as a difference between the sale price and the acquisition price. There is some limitation to the scope of deductions for expenses incurred in the disposal of the securities for certain kinds of financial instruments. Slovak value added tax

In general, buy and sell transactions or cash payments regarding the Securities are not within the scope of Slovak value added tax. Provided that the activities related to the Securities are attributable to the business of the fixed establishment of the individual or corporate investor based in Slovakia, such activities are likely to be considered as the delivery of a financial service which are generally exempt from value added tax excluding the management or deposition of the Securities. If this is the case, it may trigger the limitation of input value added tax deduction in Slovakia.

Other taxes in Slovakia

The acquisition, ownership, sale or disposal of the Securities by the investor in Slovakia does not trigger any stamp duty, or any registration, transfer or similar tax.

SPAIN

The following is a general description of the Spanish withholding tax treatment, and direct and indirect taxation of payments under the Securities. The statements herein regarding Spanish taxes and withholding taxes in Spain are made assuming that the Issuer is not a Spanish resident entity nor does it act through a permanent establishment in Spain, and are based on the laws in force as well as administrative interpretations thereof in Spain as at the date of this Securities Note and are subject to any changes in law occurring after such date, which changes could be made on a retrospective basis. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Spain or elsewhere, which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of Spain. This overview regarding Spanish taxes and withholding taxes in Spain is based upon Spanish law, as well as administrative interpretations, as in effect on the date of this Securities Note, which may change at any time, possibly with retrospective effect.

Personal Income Tax ("PIT") / Corporate Income Tax ("CIT") / Non Resident Income Tax ("NRIT")

(a) Spanish resident individuals

(i) Warrants

Following the criterion of the Spanish Directorate-General for Taxation in several rulings (amongst others, rulings dated 27 August 2007, 23 May 2007 and 29 May 2013), income earned by Spanish resident individuals under Warrants should be considered as capital gains or losses on the terms of article 33 of Law 35/2006, of 28 November, of Personal Income Tax, as amended.

The gain or loss shall be calculated as a difference between the transfer value, once any expenses and commissions paid by the taxpayer have been deducted (provided that they can be duly justified), and the acquisition value (i.e. the premium or amount paid for the subscription of the Warrants and the expenses and commissions, inherent to the acquisition, paid by the acquirer).

Failure to exercise any Warrants on the expiration date would give rise to a capital loss on the acquisition value.

Although capital gains derived from the transfer or exercise of the Warrants will not be subject to withholding on account of PIT (see paragraph a) of section "Spanish withholding tax" below), such capital gains will still be subject to PIT, to be declared in their savings part of the taxable income of their annual PIT returns, according to the following rates:

- Amounts up to EUR 6,000.00: 19 per cent.
- Amounts between EUR 6,000.01 and EUR 50,000: 21 per cent.
- Amounts exceeding EUR 50,000: 23 per cent.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

(ii) Certificates and Notes

(A) Interest payments under the Certificates and Notes

Interest periodically received by Spanish resident individuals under Certificates and Notes will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties). Expenses relating to the management and deposit of the Certificates and Notes, if any, will be tax-deductible, excluding those pertaining to discretionary or individual portfolio management.

Spanish resident individuals earning such interest payments will still be subject to PIT – to be declared in their savings part of the taxable income of their annual PIT returns – according to the following rates:

- Amounts up to EUR 6,000.00: 19 per cent.
- Amounts between EUR 6,000.01 and EUR 50,000: 21 per cent.
- Amounts exceeding EUR 50,000: 23 per cent.

Spanish holders of the Certificates and Notes shall compute the gross interest obtained in the savings part of the taxable base of the tax period in which it is due, including amounts withheld, if any.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

Regarding the withholding tax treatment, please see paragraph b) of section "*Spanish withholding tax*" below.

(B) Income upon transfer or redemption of the Certificates and Notes

Income arising on the disposal, redemption or reimbursement of the Certificates and Notes obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties).

Income arising on the disposal, redemption or reimbursement of the Certificates and Notes will be calculated as the difference between (a) their disposal, redemption or reimbursement value and (b) their acquisition or subscription value. Costs and expenses effectively borne on the acquisition and transfer of the Certificates and Notes may be taken into account for calculating the relevant taxable income, provided that they can be duly justified.

Spanish resident individuals earning such income will still be subject to PIT, to be declared in their savings part of the taxable income of their annual PIT returns, according to the following rates:

- Amounts up to EUR 6,000.00: 19 per cent.
- Amounts between EUR 6,000.01 and EUR 50,000: 21 per cent.
- Amounts exceeding EUR 50,000: 23 per cent.

Negative income that may derive from the transfer of the Certificates and Notes cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Certificates and Notes, until he/she transfers such homogeneous securities.

However, when certain income included in the taxpayer's taxable base has already been taxed abroad, the taxpayer shall be entitled to a tax credit against the PIT taxable base for the lowest amount of the following: (i) the amount effectively paid abroad; and (ii) the amount resulting from applying the average tax rate to the taxable base effectively taxed abroad.

Regarding the withholding tax treatment, please see paragraph b) of section "*Spanish withholding tax*" below.

(b) Spanish resident companies

(i) Warrants

As a general rule, income obtained either through the transfer or the exercise of the Warrants and obtained by taxpayers subject to CIT will be included in their taxable income under general provisions, with the possibility of applying tax credits for the avoidance of international double taxation in respect of taxes paid outside Spain on income derived from the Warrants, if any.

The general tax rate for Spanish CIT taxpayers is currently 25 per cent. This general rate will not be applicable to all CIT taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent). Likewise, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

(ii) Certificates and Notes

(A) Interest payments under the Certificates and Notes

Interest periodically received under Certificates and Notes by entities which are tax resident in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for CIT taxpayers is currently 25 per cent. This general rate will not be applicable to all CIT taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent.). Likewise, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Certificates and Notes, if any.

(B) Income upon transfer or redemption of the Certificates and Notes

Income arising on the disposal, redemption or reimbursement of the Certificates and Notes by entities which are tax resident in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for CIT taxpayers is currently 25 per cent. This general rate will not be applicable to all CIT taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent.). Likewise, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Certificates and Notes, if any.

(c) Individuals and companies with no tax residency in Spain

(i) Income obtained through a permanent establishment

Ownership of the Securities by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

The tax rules applicable to income deriving from the Securities under NRIT in this scenario (i.e. non-resident holder of Securities operating through a permanent establishment in Spain to which such Securities are attributable) are, generally, the same as those previously set out for Spanish resident companies, subject to the provisions of any relevant double tax treaty.

(ii) Income obtained without a permanent establishment

Income obtained by investors residing outside Spain and without a permanent establishment within the Spanish territory would not be considered, in general terms, as Spanish-source income and, therefore, would not be subject to taxation.

Spanish withholding tax

(a) Warrants

Income derived from the Warrants will not be subject to withholding tax in Spain.

(b) Certificates and Notes

Credit Suisse has been advised that, under Spanish tax law currently in force, the Issuer (other than a Spanish branch of Credit Suisse) should not be obliged to deduct withholdings on account of Spanish income taxes since it is not a Spanish tax resident entity and does not have a permanent establishment in Spain to which the issue of the Certificates and Notes is connected.

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depository of the Certificates and Notes or intervenes as manager on the collection of any income under the Certificates and Notes, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Certificates and Notes. To this effect income deriving from the Certificates and Notes will include not only interest payments but also income arising from the disposal, redemption or reimbursement of the Certificates and Notes, if any.

The current withholding tax in Spain is 19 per cent. Amounts withheld in Spain, if any, can be credited against the final PIT liability, in the case of Spanish resident individuals, or against final CIT liability, in the case of Spanish CIT taxpayers, or against final NRIT liability, in the case of Spanish permanent establishments of non-resident investors.

However, holders of the Certificates and Notes who are CIT taxpayers or Non-Residents' Income Taxpayers acting through a permanent establishment in Spain can benefit from a withholding tax exemption when the Certificates and Notes are (a) listed in an OECD official stock exchange; or (b) represented in book-entry form and admitted to trading on a Spanish secondary stock exchange or on the Alternative Fixed Income Securities Market (*Mercado Alternativo de Renta Fija*).

Additionally, when the Certificates and Notes (i) are represented in book-entry form; (ii) are admitted to trading on a Spanish secondary stock exchange; and (iii) generate explicit yield, holders who are PIT taxpayers can benefit from a withholding tax exemption in respect of the income arising from the transfer or repayment of such Certificates and Notes. However, under certain circumstances, when a transfer of Certificates and Notes has occurred within the 30-day period immediately preceding any relevant interest payment date, such PIT taxpayers may not be eligible for such withholding tax exemption. Note that this withholding tax exemption should not apply to Certificates and Notes which generate an implicit yield where the return is calculated as the positive difference between the issuance or subscription value and the amount obtained upon transfer, reimbursement or repayment.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the regulations of the Spanish tax legislation when intervening in the transfer or reimbursement of the Certificates and Notes.

Net Wealth Tax ("NWT")

Only individual holders of Securities would be subject to the NWT as legal entities are not taxable persons under NWT.

Relevant taxpayers will be (i) individuals who have their habitual residence in Spain regardless of the place where their assets or rights are located or could be exercised; and (ii) non-Spanish resident individuals owning assets or rights which are located or could be exercised in Spain, when in both cases their net wealth is higher than EUR 700,000, as this amount is considered as exempt from NWT.

Taxpayers should include in their NWT self-assessment the Securities (assuming they qualify as debt instruments) for the following amounts:

- (a) if they are listed in an official market, the average negotiation value of the fourth quarter of each relevant year; and
- (b) in other case, its nominal value (including redemption premiums).

The value of the Securities together with the rest of the taxpayer's wealth, once reduced by the deductible in rem liens and encumbrances which reduce the rights and assets values and the personal debts of the taxpayer, shall be taxed at a tax rate between 0.2 to 2.5 per cent.

Finally, please note that the Spanish regions are entitled to modify (i) the threshold of net wealth exempt from taxation; (ii) the tax rates; and (iii) the tax benefits and exemptions to be applied in their territory. However, taxpayers who are non-Spanish resident individuals but who are resident in a Member State of the European Union or the EEA may apply the rules approved by the autonomous region where the assets and rights with more value are (i) located, (ii) can be exercised or (iii) must be fulfilled.

Taxation

In accordance with Second section of Article 1 of the Royal Decree 13/2011, of 16 September, as amended by Royal Decree-Law, 18/2019, of 27 December, a full exemption on Wealth Tax will apply in 2021 unless such exemption is revoked.

Inheritance and Gift Tax ("IGT")

(a) Individuals with tax residency in Spain

Individuals resident in Spain who acquire ownership or other rights over any Securities by inheritance, gift or legacy will be subject to IGT. The applicable effective tax rates range between 7.65 per cent. and 81.6 per cent., depending on several factors such as family relationship and pre-existing heritage. However, it is necessary to take into account that the IGT (including certain tax benefits) has been transferred to the Spanish regions. Therefore, an analysis must be made in each specific case to determine to what extent any regional legislation might be applicable, since there might be differences in respect of the final taxation under IGT depending on the region in which an investor resides.

(b) Companies with tax residency in Spain

Companies resident in Spain are not subject to IGT, as income obtained will be subject to CIT.

(c) Individuals and companies with no tax residency in Spain

Non-Spanish resident individuals and non-resident companies not operating through a permanent establishment in Spain acquiring ownership or other rights over the Securities by inheritance, gift or legacy, will not be subject to IGT provided that the Securities were not located in Spain and the rights deriving from them could not be exercised within Spanish territory.

However, the acquisition by inheritance, gift or legacy of Securities by non-resident companies operating through a permanent establishment in Spain to which such Securities are attributable is not subject to the IGT, as income obtained will be subject to the NRIT.

Value Added Tax, Transfer Tax and Stamp Duty

Acquisition and transfer of Securities, in principle, shall not trigger Transfer Tax and Stamp Duty, nor will they be taxable under Value Added Tax.

Reporting Obligations to the Spanish Tax Authorities

Spanish resident holders of Securities or non-resident holders with a permanent establishment in Spain to which the Securities are effectively connected should seek advice from their tax adviser as to whether they should include the Securities in the annual reporting (Form 720) to the Spanish Tax Authorities declaring assets and rights held outside Spain (filing in respect of Securities held as of 31 December 2020 will be due by 31 March 2021). Failure to satisfy this reporting obligation may trigger significant tax penalties and other tax implications.

SWEDEN

The following provisions are only relevant in respect of Securities which are to be held within the Euroclear Sweden system.

There is no Swedish withholding tax at source (källskatt) applicable on payments made by the Issuer in respect of the Securities. Sweden operates a system of preliminary tax (*preliminärskatt*) to secure payment of taxes. In the context of the Securities a preliminary tax of 30 per cent. will be deducted from all payments of interest in respect of the Securities made to any individuals or estates that are resident in Sweden for tax purposes, provided the paying entity is subject to reporting obligations. A preliminary tax of 30 per cent. will also be deducted from any other payments in respect of the Securities not treated as capital gains, if such payments are paid out together with payments treated as interest. Depending on the relevant holder's overall tax liability for the relevant fiscal year the preliminary tax may contribute towards, equal or exceed the holder's overall tax liability with any balance subsequently to be paid by or to the relevant holder, as applicable.

OFFERS

An investor intending to acquire or acquiring any Securities from any person (an "**Offeror**") will do so, and offers and sales of the Securities to an investor by an Offeror will be made, in accordance with any terms and other arrangements in place between such Offeror and such investor including as to price, allocations and settlement arrangements. Neither the Issuer nor the relevant Dealer will be a party to any such arrangements with investors (except where the Issuer or the relevant Dealer is itself the relevant Offeror) and, accordingly, this Securities Note and any relevant Final Terms may not contain such information and, in such case, an investor must obtain such information from the relevant Offeror. Investors should however note the following:

Amount of the offer

The nominal amount or number of Securities subject to the offer may be specified in the relevant Final Terms. If the nominal amount or number of Securities subject to the offer is not specified in the relevant Final Terms, the relevant Final Terms may specify that it will be determined on the basis of the demand for the Securities and prevailing market conditions and be published in accordance with Article 17 of the Prospectus Regulation.

Offer Price

If pertinent, the offer price per Security may either (a) be specified in the relevant Final Terms or (b) if the relevant Final Terms so specify, be determined on the basis of the prevailing market conditions on or around the date specified in the relevant Final Terms in which event it will not be greater than the maximum price specified in the relevant Final Terms and will be published in accordance with Article 17 of the Prospectus Regulation.

Publication of a Supplement

If the Issuer publishes a supplement to either the Registration Document or this Securities Note pursuant to Article 23 of the Prospectus Regulation which relates to the Issuer or the Securities, investors who have already agreed to purchase Securities before the supplement is published shall, subject to the provisions of Article 23 of the Prospectus Regulation, have the right to withdraw their acceptances by informing the relevant Distributor in writing within 2 working days (or such other longer period as may mandatorily apply in the relevant country) of publication of the supplement. The terms and conditions of the Securities and the terms on which they are offered and issued will be subject to the provisions of any such supplement.
