What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

1. Liquidity risk arising from potential inability to borrow or access the capital markets on suitably favourable terms (including due to adverse changes in its credit ratings) or to sell its assets. This may also arise from increased liquidity costs. CS relies significantly on its deposit base for funding, which may not continue to be a stable source of funding over time.
2. Risks arising from the impact of market fluctuations and volatility on CS's investment activities (against which its hedging strategies may not prove effective). The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains and economic activity, and the market has entered a period of significantly increased volatility. The spread of COVID-19 is continuing to have

an adverse impact on the global economy, the severity and duration of which is difficult to predict, and has adversely affected CS's business, operations and financial performance. In addition, there can be no assurance that, even after adjustments are made to model outputs, Credit Suisse Group AG and its subsidiaries will not recognize unexpected losses arising from the uncertainty relating to its modelling for current expected credit losses that has resulted from the COVID-19 pandemic. The COVID-19 pandemic has significantly impacted, and is likely to continue to adversely affect CS's credit loss estimates, mark-to-market losses, trading revenues, net interest income and potential goodwill assessments, and may also adversely affect its ability to successfully realize its strategic objectives. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or CS's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein, or may give rise to other risks not presently known to CS or not currently expected to be significant to its business, operations or financial performance. CS is closely monitoring the potential adverse effects and impact on its operations, businesses and financial performance, including liquidity and capital usage, though the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation. CS is also exposed to other unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates (as well as countries in which CS does not currently conduct business), including uncertainties regarding the expected discontinuation of benchmark rates. CS's significant positions in the real estate sector – and other large and concentrated positions – may also expose it to larger losses. Many of these market risk factors, including the impact of COVID-19, may increase other risks, including CS's credit risk exposures, which exist across a large variety of transactions and counterparties and in respect of which it may have inaccurate or incomplete information. These are exacerbated by adverse economic conditions and market volatility, including as a result of any defaults by large financial institutions (or any concerns relating thereto). The suspension and ongoing liquidation of certain supply chain finance funds and the failure of a US-based hedge fund to meet its margin commitments (and CS's exit from its positions relating thereto) may continue to have negative consequences for CS.

3. CS's ability to implement its current strategy, which is based on a number of key assumptions, is subject to various factors outside its control, including market and economic conditions and changes in law. The implementation of CS's strategy may increase its exposure to certain risks, including credit risks, market risks, operational risks and regulatory risks. The implementation of CS's strategy relating to acquisitions and other similar transactions subjects it to the risk that it may assume unanticipated liabilities (including legal and compliance issues), as well as difficulties relating to the integration of acquired businesses into its existing operations.
4. Country, regional and political risk in the regions in which CS has clients or counterparties, which may affect their ability to perform their obligations to CS. In part because an element of its strategy is to increase CS's private banking businesses in emerging market countries, it may face increased exposure to economic, financial and political disruptions in those countries, which could result in significant losses. Related fluctuations in exchange rates for currencies (particularly for the US dollar) may also adversely affect CS.
5. A wide variety of operational risks arising from inadequate or failed internal processes, people or systems or from external events, including breaches of cyber-security and other failures of information technology. CS relies heavily on financial, accounting and other data processing systems, which are varied and complex, and may face additional technology risks due to the global nature of its operations. CS is thereby exposed to risks arising from human error, negligence, employee misconduct, fraud, malice, accidental technology failure, cyber-attack and information or security breaches. This also exposes CS to risk from non-compliance with existing policies or regulations. Protecting against threats to CS's cyber-security and data protection systems requires significant financial and human resources. The ongoing global COVID-19 pandemic has increased the vulnerability of CS's information technology systems and the likelihood of damage as a result of a cybersecurity incident because of the wide-scale and prolonged shift to remote working for CS's employees and the increased reliance by CS's customers on remote (digital) banking services. CS's existing risk management procedures and policies may not always be effective against such risks, particularly in highly volatile markets, and may not fully mitigate its risk exposure in all markets or against all types of risk. Moreover, CS's actual results may differ materially from its estimates and valuations, which are based upon judgment and available information and rely on predictive models and processes. The same is true of CS's accounting treatment of off-balance sheet entities, including special purpose entities, which requires it to exercise significant management judgment in applying accounting standards; these standards (and their interpretation) have changed and may continue to change. In addition, physical and transition climate risks could have a financial impact on CS either directly, through its physical assets, costs and operations, or indirectly, through its financial relationships with its clients.
6. CS's exposure to legal risks is significant and difficult to predict and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which CS operates. Changes in regulation (including in relation to sanctions) and monetary policy applicable to CS (as well as regulations and changes in enforcement practices applicable to its clients) may adversely affect its business and ability to execute its strategic plans and increase costs, as well as impact the demand from clients for CS's services. Moreover, CS's ability to attract and retain customers, clients, investors and employees, and conduct business transactions with its counterparties, could be adversely affected to the extent its reputation is damaged, which could arise from various sources, including if its procedures and controls fail (or appear to fail). In addition, Swiss resolution proceedings may affect CS's shareholders and creditors.
7. CS faces intense competition in all financial services markets, which has increased as a result of consolidation, as well as emerging technology and new trading technologies (including trends towards direct access to automated and electronic markets and the move to more automated trading platforms). In such a highly competitive environment, CS's performance is affected by its ability to recruit and retain highly skilled employees.

KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

Type, class and security identification number(s): The Securities of a Series are notes in bearer form governed by English law and will be uniquely identified by ISIN: XS2349834155; Common Code: 234983415; Swiss Security Number: 59954587; Series: SPLB2021-1XJR.

Currency, nominal amount/denomination, aggregate nominal amount and term of the Securities

The currency of the Securities will be United States dollar ("USD") (the "**Settlement Currency**"). The nominal amount (the "**Nominal Amount**") or specified denomination (the "**Specified Denomination**") per Security is USD 1,000. USD 3,250,000 in aggregate nominal amount of Securities will be issued.

The term of the Securities is from the issue date to the Maturity Date. The scheduled maturity date (the "**Maturity Date**") of the Securities is 5 currency business days following the Final Fixing Date or, if such date falls on different dates for different underlying assets, the latest of such dates to occur (expected to be 1 July 2027).

Rights attached to the Securities: The Securities will give each holder of Securities (a "**Securityholder**") the right to receive the following:

- the Coupon Amount(s) payable (if any);
- the potential payment of a Trigger Barrier Redemption Amount following the occurrence of a Trigger Event; and
- the payment of the Redemption Amount or delivery of the Share Amount and payment of any Fractional Cash Amount following the occurrence of a Physical Settlement Trigger Event, in either case, on the Maturity Date.

COUPON AMOUNT(S)

If a Coupon Payment Event has occurred in respect of a Coupon Observation Date, the Coupon Amount payable on the Coupon Payment Date corresponding to such Coupon Observation Date shall be (a) the *product* of (i) the Nominal Amount, (ii) the Coupon Rate, and (iii) the number of Coupon Observation Dates that have occurred *minus* (b) the *sum* of the Coupon Amounts (if any) paid in respect of such Security on each Coupon Payment Date preceding such Coupon Payment Date.

If no Coupon Payment Event has occurred in respect of a Coupon Observation Date, the Coupon Amount payable on the Coupon Payment Date corresponding to such Coupon Observation Date shall be zero.

Where

- **Coupon Payment Date(s):** 5 currency business days following the relevant Coupon Observation Date.
- **Coupon Payment Event:** if on the relevant Coupon Observation Date, the Level of each underlying asset at the Valuation Time is at or above the Coupon Threshold of such underlying asset corresponding to such Coupon Observation Date.
- **Coupon Rate:** 4.50 per cent.
- **Initial Setting Date:** 24 June 2021.
- **Level:** the price of the relevant underlying asset quoted on the relevant exchange.
- **Strike Price:** the Level of the relevant underlying asset at the Valuation Time on the Initial Setting Date.
- **Valuation Time:** the scheduled closing time on the relevant exchange.

6.	24 June 2024	60 per cent. of the relevant Strike Price	12.	24 June 2027	51 per cent. of the relevant Strike Price

TRIGGER BARRIER REDEMPTION AMOUNT

If a Trigger Event has occurred, the Issuer shall redeem the Securities on the Trigger Barrier Redemption Date at the Trigger Barrier Redemption Amount in respect of such Trigger Barrier Redemption Date, together with any Coupon Amount payable on such Trigger Barrier Redemption Date. For the avoidance of doubt, upon the occurrence of a Trigger Event, no Redemption Amount and no further Coupon Amounts shall be payable after such Trigger Barrier Redemption Date.

Where:

- **Trigger Barrier Redemption Amount:** 100 per cent. of the Nominal Amount.
- **Trigger Barrier Redemption Date(s):** 5 currency business days following the occurrence of a Trigger Event.
- **Trigger Event:** if on the relevant Trigger Barrier Observation Date, the Level of each underlying asset at the Valuation Time is at or above the Trigger Barrier of such underlying asset.

5.	24 June 2025	100 per cent. of the relevant Strike Price			

REDEMPTION AMOUNT

Subject as provided under "*Physical Settlement*" below, the Issuer shall redeem the Securities on the Maturity Date at the redemption amount (the "**Redemption Amount**") which shall be equal to the *product* of (a) the Nominal Amount, and (b) 100 per cent.

PHYSICAL SETTLEMENT

If the Physical Settlement Trigger Event has occurred, the Issuer shall redeem the Securities by delivery of the Share Amount of the underlying asset with the lowest Underlying Asset Return and payment of any Fractional Cash Amount on the Maturity Date.

Where:

- **Final Fixing Date:** 24 June 2027.
- **Final Price:** the Level of the relevant underlying asset at the Valuation Time on the Final Fixing Date.
- **Physical Settlement Trigger Event:** if on the Physical Settlement Trigger Observation Date, the Level of any underlying asset at the Valuation Time is below the Physical Settlement Trigger Event Barrier.
- **Physical Settlement Trigger Event Barrier:** 51 per cent. of the relevant Strike Price.
- **Physical Settlement Trigger Observation Date:** 24 June 2027.
- **Redemption Strike Price:** 100 per cent. of the relevant Strike Price.
- **Share Amount:** the number of shares equal to the Ratio, rounded down to the nearest integral number of shares of the relevant underlying asset.
- **Spot Rate:** in respect of the Aegon N.V. Shares, the prevailing spot rate for the exchange of the currency in which such underlying asset is denominated for one unit of the Settlement Currency appearing on Bloomberg page "USDEUR Crncy" at the Valuation Time on the Final Fixing Date.
- **Underlying Asset Return:** the Final Price of the relevant underlying asset *divided by* its Strike Price.

Description of restrictions on free transferability of the Securities: The Securities are freely transferable (subject to all applicable laws).		
Where will the Securities be traded?		
Application will be made to admit the Securities to trading on the regulated market of the Luxembourg Stock Exchange.		
What are the key risks that are specific to the Securities?		
<ol style="list-style-type: none"> Risks in case of an insolvency or resolution measures in respect of the Issuer. An investment in the Securities constitutes unsecured obligations of the Issuer and will not be covered by any statutory or other deposit protection scheme and does not have the benefit of any guarantee. Therefore in the event of the insolvency of the Issuer, an investor in the Securities may lose all or some of its investment therein irrespective of any favourable development of the other value determining factors, such as the performance of the underlying asset(s). Similarly, prior to an insolvency of the Issuer, rights of the holders of the Securities may be adversely affected by the Swiss Financial Market Supervisory Authority FINMA's broad statutory powers in the case of a restructuring proceeding in relation to Credit Suisse, including its power to convert the Securities into equity and/or partially or fully write-down the Securities. Potential loss of some or all of the investment. The Securities are "capital at risk" investments and investors may lose some or all of their money depending on the performance of the relevant underlying asset(s). Securityholders will be exposed to the performance of the underlying asset which has the worst performance of a basket of underlying assets, irrespective of how the other underlying assets perform. If such underlying asset fails to meet the specified threshold or barrier or if the amount payable (or the value of any asset to be delivered) on redemption of the Securities is less than the purchase price paid for the Securities, investors could lose some or all of their investment. In addition, if the Securities are sold in the secondary market for less than the purchase price paid by the relevant investor, investors could lose some or all of their investment. Risks in connection with redemption of the Securities at the unscheduled termination amount. The Securities may be redeemed at the unscheduled termination amount in certain circumstances, including: following the occurrence of an event of default or for illegality reasons or following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s). In such circumstances, the unscheduled termination amount is likely to be less than the original purchase price and could be as low as zero and, following any such early redemption, investors may be unable to reinvest the proceeds in an investment having a comparable return. Following the occurrence of any such event, no other amounts on account of interest or otherwise shall be payable by the Issuer in respect of the Securities. In certain circumstances, the Issuer may adjust the terms of the Securities and such adjustment may have a negative effect on the value of the Securities. Subject to the terms and conditions of the Securities, if the Issuer determines that any adjustment events, additional disruption events or other events affecting the underlying asset(s) or the Issuer's hedging arrangements or the cost to the Issuer of performing its obligations under the Securities have occurred or if certain events affecting the Issuer's ability to value the underlying asset(s) or make payments have occurred, the Issuer may adjust the terms and conditions of the Securities without the consent of the Securityholders, or may postpone or apply alternative provisions for valuations. Any such adjustment, postponement or alternative valuation could have a material adverse effect on the return on, and value of, the Securities. Early redemption following a Trigger Event. As the Securities have a trigger feature, the timing of redemption of the Securities is uncertain as the occurrence of a Trigger Event will be dependent on the performance of the underlying asset(s). In the case of an unfavourable development of the value of the underlying asset(s), any redemption may only occur on the scheduled maturity date and the amount payable on redemption of the Securities will be determined based 		

on the unfavourable performance of the underlying asset(s). In such circumstances, the return on the Securities may be less than the amount originally invested and less than an investor would have received had a Trigger Event occurred.

6. **Risks associated with physical delivery of underlying asset(s).** The Securities may be redeemed at their maturity by delivery of the relevant underlying asset and Securityholders will therefore be exposed to the risks associated with such underlying asset. The value of such underlying asset to be delivered may be less than the purchase price paid by the relevant investor for the Securities and may be worthless. Any fluctuations in the price of the underlying asset to be delivered between the end of the term of the Securities and the actual delivery date will be borne by the Securityholders.
7. **Securities with barrier features.** As the terms of the Securities have a barrier feature, amounts payable under the Securities will depend on the value or performance of the underlying asset(s) satisfying the relevant condition. If such condition is not satisfied, no Coupon Amount may be due and/or payments in respect of the Securities may be determined by reference to the performance of the underlying asset(s) which may affect the value of and return on the Securities.
8. **Risks associated with shares.** The performance of a share is dependent upon macroeconomic factors which may adversely affect such performance and, in turn, the value of the Securities. The issuer of a share has no obligation to any Securityholder and may take any actions in respect of such share without regard to the interests of Securityholders which could adversely affect the market value of and return on the Securities. Securityholders will not participate in dividends or other distributions paid on such share.

KEY INFORMATION ON THE OFFER OF THE SECURITIES TO THE PUBLIC AND THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

Issue/offer of the Securities: The Securities have been offered to the dealer at the issue price of 100 per cent. of the aggregate nominal amount. The Securities are not being publicly offered.

Issue date and admission to trading: The issue date of the Securities is 9 July 2021 and application will be made for the Securities to be listed and admitted to trading on or around the issue date.

Estimated total expenses of the issue/offer, including estimated expenses charged to the purchaser by the Issuer/offeror

There are no estimated expenses charged to the purchaser by the Issuer and the distributor(s).

The Securities will be sold by Credit Suisse Securities, Sociedad De Valores, S.A. (as an intermediary between the dealer and each distributor) ("**CSSSV**") to the distributor(s) at a discount of up to 2.10 per cent. of the issue price. Such discount represents the fee retained by the distributor(s) out of the issue price paid by investors. The issue price and the terms of the Securities take into account such fee and may be more than the market value of the Securities on the issue date.

Who is the offeror and/or the person asking for admission to trading?

The Issuer is the entity requesting for the admission to trading of the Securities.

Why is this Prospectus being produced?

Reasons for the issue/offer, estimated net proceeds and use of proceeds: The net proceeds from the issue of the Securities, which are expected to amount to USD 3,250,000, will be used by the Issuer for its general corporate purposes (including hedging arrangements).

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Material conflicts pertaining to the issue/offer: Fees are payable to the distributor(s). In making calculations and determinations with regard to the Securities, there may be a difference of interest between the Securityholders and the Issuer and its affiliated entities. In particular, the Issuer and its affiliated entities may have interests in other capacities (such as other business relationships and activities) and when acting in such other capacities may pursue actions and take steps that they deem necessary to protect their interests without regard to the consequences for any particular Securityholder, which may have a negative impact on the value of and return on the Securities. In the ordinary course of its business the Issuer and/or any of its affiliates may effect transactions in relation to underlying asset(s) and may enter into one or more hedging transactions with respect to the Securities. Such activities may affect the market price, liquidity, value of or return on the Securities and could be adverse to the interest of the relevant Securityholders.
