

PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS: The Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU on Markets in Financial Instruments (as may be amended) ("**MiFID II**"); (ii) a customer within the meaning of Directive 2016/97/EU (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA or in the United Kingdom has been prepared and therefore offering or selling such Securities or otherwise making them available to any retail investors in the EEA or in the United Kingdom may be unlawful under the PRIIPs Regulation.

SUMMARY OF THE SECURITIES

Summaries are made up of disclosure requirements known as "**Elements**". These Elements are numbered in sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a summary for these types of Securities and the relevant Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of Securities and Issuer, it is possible that no relevant information can be given regarding such Element. In this case a short description of the Element is included in the summary and marked as "Not applicable".

Section A – Introduction and Warnings		
A.1	Introduction and Warnings:	<p>This Summary should be read as an introduction to the Base Prospectus. Any decision to invest in Securities should be based on consideration of the Base Prospectus as a whole by the investor.</p> <p>Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the relevant Member State, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.</p> <p>Civil liability only attaches to those persons who have tabled the summary including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Securities.</p>
A.2	Consent(s):	Not applicable; the Issuer does not consent to the use of the Base Prospectus for any subsequent resale of the Securities.

C.5	Description of restrictions on free transferability of the Securities:	The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the " Securities Act ") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations.																												

C.8	Description of rights attached to the securities, ranking of the securities and limitations to rights:	<p>Rights: The Securities will give each holder of Securities (a "Securityholder") the right to receive a potential return on the Securities (see Element C.18 below). The Securities will also give each Securityholder the right to vote on certain amendments.</p> <p>Ranking: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.</p> <p>Limitation to Rights:</p> <ul style="list-style-type: none"> The Issuer may redeem the Securities early for illegality reasons or following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s). The Securities may be redeemed early following an event of default. In each such case, the amount payable in respect of each Security on such early redemption will be equal to the Unscheduled Termination Amount, and no other amount shall be payable in respect of each Security on account of interest or otherwise. <p>Where:</p> <ul style="list-style-type: none"> Unscheduled Termination Amount: in respect of each Security, an amount (which may be greater than or equal to zero) equal to the value of such Security immediately prior to it becoming due and payable following an event of default or, in all other cases, as soon as reasonably practicable following the determination by the Issuer to early redeem the Security, as calculated by the calculation agent using its then prevailing internal models and methodologies. For the avoidance of doubt, if a Security is redeemed following an event of default, the Unscheduled Termination Amount shall not take account of any additional or immediate impact of the event of default itself on the Issuer's creditworthiness (including, but not limited to, an actual or anticipated downgrade in its credit rating). The Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), or may early redeem the Securities at the Unscheduled Termination Amount as described above (and no other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer). The terms and conditions of the Securities contain provisions for convening meetings of Securityholders to consider any matter affecting their interests, and any resolution passed by the relevant majority at a meeting will be binding on all Securityholders, whether or not they attended such meeting or voted for or against the relevant resolution. In certain circumstances, the Issuer may modify the terms and conditions of the Securities without the consent of Securityholders. The Securities are subject to the following events of default: if the Issuer fails to pay any amount due in respect of the Securities within 30 days of the due date, or if any events relating to the insolvency or winding up of the Issuer occur. The Issuer may at any time, without the consent of the Securityholders, substitute for itself as Issuer under the Securities any company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. Governing Law: The Securities are governed by English law.
C.11	Admission to trading:	Application has been made to admit the Securities to trading on the regulated market of the Luxembourg Stock Exchange.
C.15	Effect of the underlying instrument(s) on value of investment:	<p>The value of the Securities and the Redemption Amount payable in respect of Securities being redeemed on the Maturity Date will depend on the performance of the underlying asset(s) on the Knock-in Observation Date and on the Final Fixing Date.</p> <p>See Element C.18. below for details on how the value of the Securities is affected by the value of the underlying asset(s).</p>

C.16	Scheduled Maturity Date or Settlement Date:	The scheduled maturity date (the " Maturity Date ") of the Securities is 5 currency business days following the Final Fixing Date or, if such date falls on different dates for different underlying assets, the latest of such dates to occur (expected to be 15 June 2022).
C.17	Settlement Procedure:	<p>The Securities will be delivered by the Issuer against payment of the issue price. Settlement procedures will depend on the clearing system for the Securities and local practices in the jurisdiction of the investor.</p> <p>The Securities are cleared through Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme.</p>
C.18	Return on Derivative Securities:	<p>The return on the Securities will derive from:</p> <ul style="list-style-type: none"> • the Coupon Amount(s) payable; and • unless the Securities have been previously redeemed or purchased and cancelled, the payment of the Redemption Amount on the scheduled Maturity Date of the Securities. <p style="text-align: center;"><u>COUPON AMOUNT(S)</u></p> <p>The Securities shall bear interest at the rate of 19.35% per annum. Section D – Risks		
D.2	Key risks that are specific to the Issuer:	<p>The Securities are general unsecured obligations of the Issuer. Investors in the Securities are exposed to the risk that the Issuer could become insolvent and fail to make the payments owing by it under the Securities.</p> <p>The Issuer is exposed to a variety of risks that could adversely affect its results of operations and financial condition, including, among others, those described below:</p>

All references to the Issuer set out below are describing the consolidated businesses carried on by Credit Suisse Group AG ("**CSG**") and its subsidiaries (including the Issuer) and therefore should also be read as references to CSG.

Liquidity risk:

- The Issuer's liquidity could be impaired if it is unable to access the capital markets, sell its assets or its liquidity costs increase.
- The Issuer's businesses rely significantly on its deposit base for funding.
- Changes in the Issuer's ratings may adversely affect its business.

Market and credit risks:

- The ongoing global COVID-19 pandemic has adversely affected, and may continue to adversely affect, the Issuer's business, operations and financial performance.
- The Issuer may incur significant losses on its trading and investment activities due to market fluctuations and volatility.
- The Issuer's businesses and organisation are subject to the risk of loss from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates.
- Uncertainties regarding the possible discontinuation of benchmark rates may adversely affect the Issuer's business, financial condition and results of operations and may require adjustments to its agreements with clients and other market participants, as well as to its systems and processes.
- The Issuer may incur significant losses in the real estate sector.
- Holding large and concentrated positions may expose the Issuer to large losses.
- The Issuer's hedging strategies may not prevent losses.
- Market risk may increase the other risks that the Issuer faces.
- The Issuer may suffer significant losses from its credit exposures.
- Defaults by one or more large financial institutions could adversely affect financial markets generally and the Issuer specifically.
- The information that the Issuer uses to manage its credit risk may be inaccurate or incomplete.

Strategy risk:

- CSG and its subsidiaries, including the Issuer, may not achieve all of the expected benefits of its strategic initiatives.

Country and currency exchange risk:

- Country risks may increase market and credit risks the Issuer faces.
- The Issuer may face significant losses in emerging markets.
- Currency fluctuations may adversely affect the Issuer's results of operations.

Operational, risk management and estimation risks:

- The Issuer is exposed to a wide variety of operational risks, including cybersecurity and other information technology risks.
- The Issuer may suffer losses due to employee misconduct.
- The Issuer's risk management procedures and policies may not always be effective, particularly in highly volatile markets.
- The Issuer's actual results may differ from our estimates and valuations.
- The Issuer's accounting treatment of off-balance sheet entities may change.

Legal and regulatory risks:

- The Issuer's exposure to legal liability is significant.
- Regulatory changes may adversely affect the Issuer's business and ability to execute its strategic plans.
- Swiss resolution proceedings and resolution planning requirements may affect CSG's and the Issuer's shareholders and creditors.

		<ul style="list-style-type: none"> • Changes in monetary policy are beyond the Issuer's control and difficult to predict. • Legal restrictions on its clients may reduce the demand for the Issuer's services. <p>Competition risk:</p> <ul style="list-style-type: none"> • The Issuer faces intense competition in all financial services markets and for the products and services it offers. • The Issuer's competitive position could be harmed if its reputation is damaged. • The Issuer must recruit and retain highly skilled employees. • The Issuer faces competition from new trading technologies. <p>Statutory powers of Swiss Financial Market Supervisory Authority FINMA in the case of a restructuring proceeding:</p> <ul style="list-style-type: none"> • The rights of the holders of Securities issued by the Issuer may be adversely affected by Swiss Financial Market Supervisory Authority FINMA's broad statutory powers in the case of a restructuring proceeding in relation to the Issuer, including its power to convert such Securities into equity and/or partially or fully write-down such Securities.
D.6	Key risks that are specific to the Securities and risk warning that investors may lose value of entire investment or part of it:	<p>The Securities are subject to the following key risks:</p> <ul style="list-style-type: none"> • The issue price or the offer price of the Securities may be more than the market value of such Securities as at the issue date, and more than the price at which the Securities can be sold in secondary market transactions. The issue price or the offer price of the Securities may take into account, where permitted by law, fees, commissions or other amounts relating to the issue, distribution and sale of the Securities, or the provision of introductory services, expenses incurred by the Issuer in creating, documenting and marketing the Securities and amounts relating to the hedging of its obligations under the Securities. • The market value of the Securities and the amount payable or deliverable at maturity depend on the performance of the underlying asset(s). The performance of an underlying asset may be subject to sudden and large unpredictable changes over time (known as "volatility"), which may be affected by national or international, financial, political, military or economic events or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. • If the Securities provide that any amount payable is subject to a cap, an investor's ability to participate in any change in the value of the underlying asset(s) over the term of the Securities will be limited notwithstanding any positive performance of the underlying asset(s) above such cap. Accordingly, the return on the Securities may be significantly less than if an investor had purchased the underlying asset(s) directly. • A secondary market for the Securities may not develop and, if it does, it may not provide the investors with liquidity and may not continue for the life of the Securities. Illiquidity may have an adverse effect on the market value of the Securities. The price in the market for a Security may be less than its issue price or its offer price and may reflect a commission or a dealer discount, which would further reduce the proceeds you would receive for your Securities. • The market value of the Securities will be affected by many factors beyond the control of the Issuer (including, but not limited to, the creditworthiness of the Issuer, the interest rates and yield rates in the market, the volatility of the underlying asset(s) (if any), etc.). Some or all of these factors will influence the value of the Securities in the market. • The total size of Securities being issued on the issue date may be greater than the amount subscribed or purchased by investors as the dealer may retain some of the Securities as part of its issuing, market-making and/or trading arrangements or for the purposes of meeting future investor demand. The issue size of the Securities should not be regarded as indicative of the depth or liquidity of the market, or the demand, for the Securities. • The levels and basis of taxation on the Securities and any reliefs from such taxation will depend on an investor's individual circumstances and could change at any time.

The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors.

- In certain circumstances (for example, if the Issuer determines that its obligations under the Securities have become unlawful or illegal, following an event of default or following certain events affecting the Issuer's hedging arrangements and/or underlying asset(s)) the Securities may be redeemed prior to their scheduled maturity. In such circumstances, the Unscheduled Termination Amount payable may be less than the original purchase price and could be as low as zero. No other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer.
- Following early redemption of Securities, investors may not be able to reinvest the redemption proceeds in an investment having a comparable rate of return. Investors in Securities may therefore lose some or all of their investment in such case.
- Investors will have no rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any underlying asset referenced by the Securities.
- Investors may be exposed to currency risks because the underlying asset(s) may be denominated in a currency other than the currency in which the Securities are denominated, or the Securities and/or underlying asset(s) may be denominated in currencies other than the currency of the country in which the investor is resident. The value of the Securities may therefore increase or decrease based on fluctuations in those currencies.
- The Issuer is not obliged to maintain the listing of the Securities. If the regulated market or other market in respect of which the Securities are listed and/or admitted to trading closes, or if the relevant regulated market in respect of which the Securities are admitted to trading is replaced with a market that is not a regulated market, the Issuer may de-list the Securities or may (but is not obliged to) consent to the Securities to be admitted to trading on such replacement market instead. In the event that there is a delay or break between the listing of the Securities on the original market or regulated market, as the case may be, and the listing of the Securities on the replacement market, there may be a negative impact on the Securities (for example this may negatively impact the liquidity of the Securities and the ability of the Securityholders to sell the Securities).
- The Issuer may apply any consequential postponement of, or any alternative provisions for, valuation of an underlying asset following certain disruption events in relation to such underlying asset, each of which may have an adverse effect on the value of and return on the Securities.
- Securityholders will be exposed to the performance of each underlying asset and, in particular, to the underlying asset which has the worst performance. This means that, irrespective of how the other underlying assets perform, if any one or more underlying assets fail to meet the specified threshold or barrier, Securityholders could lose some or all of their initial investment.
- The performance of a share is dependent upon macroeconomic factors which may adversely affect the value of Securities. The issuer of a share (or, if such share is a stapled share, the issuer of any component share of such stapled share), has no obligation to any Securityholders and may take any actions in respect of such share or component share without regard to the interests of the Securityholders, and any of these actions could adversely affect the market value of and return on the Securities. Securityholders will not participate in dividends or other distributions paid on such share or component share.
- The Issuer may modify the terms and conditions of the Securities without the consent of Securityholders for the purposes of (a) curing any ambiguity or correcting or supplementing any provision if the Issuer determines it to be necessary or desirable, provided that such modification is not prejudicial to the interests of Securityholders, or (b) correcting a manifest error.
- Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities

		<p>without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements and/or the underlying asset(s), or may early redeem the Securities at an amount which may be less than the initial investment.</p> <ul style="list-style-type: none"> • In making discretionary determinations under the terms and conditions of the Securities, the Issuer and the calculation agent may take into account the impact on the relevant hedging arrangements. Such determinations could have a material adverse effect on the value of and return on the Securities and could result in their early redemption. • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may be substituted without the consent of Securityholders in favour of any affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. • The Issuer is subject to a number of conflicts of interest, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the underlying asset(s) or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose. <p>Depending on the performance of the underlying asset(s), you may lose some or all of your investment. Investors may also lose some or all of their investment if one or more of the following occurs: (a) the Securities do not provide for scheduled repayment in full of the issue or purchase price at maturity (or over the relevant instalment dates, if applicable) or upon mandatory early redemption or optional early redemption of the Securities, (b) the Issuer fails and is unable to make payments owing under the Securities, (c) any adjustments are made to the terms and conditions of the Securities following certain events affecting the underlying asset(s) and/or the Issuer's hedging arrangements, that result in the amount payable or shares delivered being reduced, or (d) investors sell their Securities prior to maturity in the secondary market at an amount that is less than the initial purchase price.</p>
Section E – Other		
E.2b	Reasons for the offer and use of proceeds:	Not applicable; the net proceeds from the issue of the Securities will be used by the Issuer for its general corporate purposes (including hedging arrangements).
E.3	Terms and conditions of the offer:	The Securities have been offered to the dealer at the issue price. The Securities are not being publicly offered.
E.4	Interests material to the issue/offer:	Fees shall be payable to the distributor(s). The Issuer is subject to conflicts of interest between its own interests and those of holders of Securities, as described in Element D.6 above.
E.7	Estimated expenses charged to the investor by the Issuer/offeror:	The dealer will pay a fee to the distributor(s) in connection with the issue of up to 0.2% of the Nominal Amount per Security upfront. The issue price and the terms of the Securities take into account such fee and may be more than the market value of the Securities on the issue date.
